TO : Distribution below.

1. It is notified that the Security Branch has been established in Rome and is now available to deal with enquiries from Sub-Commissions regarding the bonda fides of individuals and of business enterprises in Rome.

2. It is most desirable that before committing themselves to unknown personalities in Rome that Sub-Commissions should take advantage of this service particularly to avoid the criticism which will naturally follow if the Commission encourages those who are politically or otherwise undesirable.

3. All such enquiries should be addressed to the Director Security Branch Advanced Hq. A.C.C.

SUBJECT: Drivers from Eritrea.

TO : Col. Parren, Executive officer.

1. With reference to discussion at conference yesterday, I forward correspondence from AAI on this subject.

2. You will see from Brig. Ritchie's letter of 23rd June that they are not now going to send a representative to Eritrea to recruit labour for them, but that they have no objection to our making any negotiations we please. Such negotiations of course will have to be within the scope of the draft directive referred to in para.3 of the letter, and I forward the draft directive and other correspondence relative to it in original.

Reference your ACC/14215/PS of 5 June 44, it has been decided that soldiers who are detained for more than 30 days are a civilian responsibility. The reason for this is because after 30 days in a civilian prison the soldier ceases to be a soldier and is considered as no longer in the army.

"2. Requisitioning of Buildings.
This is always done through Town Majors of Districts or Base Sections or in the case of Army areas through "G" branches of Formations.

3. The instruction to which you refer has not been issued by HANDELSA.

4. Regional officers have no power to requisition.

5. Buildings, with contents, may be requisitioned but purchase of equipment or fittings at the public expense is prohibited.

6. Requisitioning of buildings for civilian purposes.
There is no specific authority for this but it may be taken that the wording "For Military Purposes" and "Use of the Army" would apply to all activities in which A.C.C. personnel are engaged."

2. Establishments Branch were consulted in the matter and stated that so far as Region IV were concerned this was settled some time ago.

21. June 1944.

I have just come back from Nairobi where I saw Peggy for a moment, she gave me your address telling me that you were in this part of the world, which was news to me. She was looking very well and sent you her love. I am afraid I had very little time and was not able to go and see her, so I cannot report on your children but was informed that they were both in good health.

Mrs. Arnstein Bowen has about four suitcases of kit in Kaplan which she wants sent back to her in Jerusalem. She optimistically sent them over here before she was able to arrive herself and permission was refused for her to come. Brig. Lush has been in correspondence with her and apparently your name was put forward saying that you would probably be able to arrange for the transport of this stuff back. Do you think you can do anything about it if we get it over to you wherever you are. I believe it is Paris.

I would very much like to get in touch with you sometime. Do drop me a line at the above address and we might be able to arrange a meeting.

SUBJECT: Interference by Civilians with Military Dumps.

TO : R.C. Region XII.

1. Capt. Fraser from P.B.I. came to see me this morning about civilians interfering with dumps of explosives and chemicals at Dump C.157 belonging to 21 Chemical Coy in the neighbourhood of MANCIANISE. The 2nd-in-Command who is actually on the spot at MANCIANISE apparently want to see the C.A.O. at Caserta, who said that instructions must be given in writing. This appears to have been unnecessarily ~~unnecessarily~~ pedantic as arrangements could ~~obviously~~ apparently be made on the spot much better than by letter.

2. The position as explained to me is as follows :

This dump extends over a large area and civilians have been given permission to enter the area in order to cultivate the land. This concession has been abused as civilians apparently tamper with the various dumps either with the object of getting wood or removing the 12 bore cartridges from shells. This situation was brought to a head the other day by a small boy who blew himself up, and a lengthy inquiry had to be held into his decease. The Officer in charge was perfectly reasonable and did not wish the people to be prevented from cultivating their crops, but stated that unless they refrained from tampering with his dumps he would have no alternative but to close the area. He thought that the C.A.O. might be able to put up notices or otherwise publish to the Italians the danger in tampering with the dumps.

3. Would you please take urgent steps to ensure that the civilians in this area comply with the wishes of the military.

1. With reference to your ACC/3105/III of 20 June 44, there is attached for your perusal copy of a letter received by this HQ. from AAI (copy to No. 2 District) dated 16 May 44. No. 1605/50/9/G(EM).

2. This letter stated that the sweeping of mined areas in L of C is the responsibility of the District concerned.

3. R.C.'s will be asked to approach the District Commanders concerned for their help in the areas you mention.

4. When I spoke to you on the phone I said that we had two sections from the Italian Army loaned to us for use in Region V, but these have just been withdrawn on instructions of AAI. There is a heavy demand for these units in operational areas and also a great shortage of equipment, but we shall continue to press Hq. SUBJECT: U.S. Citizens in Italy.

TO : R.C. Region V

REIO BENITO IPPOLITO AND ALTO IPPOLITO

1. Reference is made to your signal 199 of 20 June addressed to the U.S. Consul in Naples requesting immediate action of New York Draft Board on the above named two U.S. citizens. A representative of the American Consulate has called at this Headquarters with this signal which is not understood.

2. Before action if any can be taken in this case information will be required inter alia on the following points:

a. Full names and addresses both in this country and in U.S.A.
b. Evidence that they are American Citizens.
c. Statements by them and other witnesses concerning their period of stay in this country etc.
d. Where they are working and what they are doing.
e. Dates and place of birth.

3. It has been pointed out to us that the Consulate has received no instructions as to calling up American citizens in foreign countries.

4. In your signal you state that these men are in Italy unnecessarily. Can it be stated on what grounds this conclusion is arrived at.

5. Please forward in due course a full report for submission to the U.S. Consul.

6. It is not understood how such a signal came to be sent to the U.S. Consul as the Consulate has not been officially opened and no date has been given of when it may be functioning.

SUBJECT: Local Purchases and Contracts.

TO : Distribution below.

1. Cases are still occurring where ACC/AMG are entering into financial transaction on behalf of Italian Ministries, Governmental Institutions or other Italian agencies which could equally well be handled by such Ministries, Institutions or agencies themselves. It must be remembered that it is our policy as far as possible to restore the normal course of trade and to encourage normal trading relations between the Italians themselves. This policy is further dictated by the lack of ACC/AMG personnel to handle and account for such transactions. For this reason it should only be in exceptional circumstances that ACC/AMG themselves make local purchases for resale in Italy or incur expenditure in performing services which could equally well be paid for by the Italian Government or other Italian agency. This does not of course mean that ACC/AMG should not cooperate by making available the necessary supplies etc.

2. The principle is best illustrated by two examples. If large quantities of pamphlets are printed for an Italian Ministry, the printers' invoices being paid by ACC who supply the paper free to the printers, a great deal of unnecessary work is created. In such a case the procedure should be for all invoices to be settled direct by the Italian Ministry or agency and should it be necessary for ACC/AMG to supply any commodity, in this case paper, in order that the contract may be carried out, such commodity should be sold to the Italian Ministry or agency by the Economics and Supply Division of the Region in which the contract is being carried out. Similarly, if salt is sent from a sald mine to an Italian State Monopoly warehouse, ACC should not purchase and resell but the financial transaction should be one between the State Monopoly and the Salt Mine.

MINISTERO DELL'INTERNO
Direzione Generale della P.S.

Salerno li 3.6.1944

Risulta a questo Ministero che in quasi tutti gli alberghi vie-ne richiesta ancora ai clienti la razza di appartenenza per essere trascritta sulla relativa scheda di notifica.

Tale richiesta, oltre che ingenerare risentimento da parte di eventuali viaggiatori di razza ebraica, è non solo superflua ma in contrasto alle disposizioni contenute nel R.D.L. 20 gennaio 1944 N° 25 pubblicato nella Gazzetta Ufficiale N° 5 con cui furono emanate le norme per la reintegrazione nei diritti civili e politici di cit-tadini italiani e stranieri già dichiarati o considerati di razza ebraica.

Cessato la discriminazione di ordine morale e politico, tra ariani ed ebraici, dovrà cessare anche ogni indagine in merito alla razza di appartenenza dei singoli cittadini.

Pregasi pertanto le LL.SS. disporre con la massima sollecitudine che da tutte le schede a stampa in possesso dei vari alberghi sia depennata la voce "razza", che, in conseguenza, non venga fatta al-cuna domanda in merito e che infine le nuove rietampe delle schede siano prive della indicazione anzidetta.

Analogamente, anche in occasione della identificazione da parte degli organi di Polizia, dei connazionali e degli stranieri l'indi-cazione della razza dovrà essere cancellata dai moduli ancora esistenti negli uffici dipendenti (dichiarazione di soggiorno ecc.)
Si gradirà un cenno di assicurazione.

Since the political and moral discriminations between the Jews and Aryans no longer exist, inquiries relating to "racial membership" of each citizens must also cease.
It is therefore requested that H.E. order as soon as possible that the word "race" be struck off the printed forms of the hotels, that no requests be made in said matter and lastly new printed forms must not contain any reference to the word "race". In the same manner, matters concerning identification of Italians and foreigners, every indication of race must be omitted from the forms of the dependent offices. (The travellers declaration).

SUBJECT: Control of Movement.

TO : AAI (CMI(b)

1. Attached pass CMI/ACC issued by AAI-CMI is said to have enabled the holder to enter Army area and travel on military transport. It is understood that similar passes are issued by F.R.S. and other military units.

2. Apart from the fact that civilian curfew and movement passes should be issued only by AMG/ACC, it is apparent that the use of passes similar to the one attached greatly weakens the present system of control. The value of the standardized pass issued by ACC is also greatly reduced.

3. In order to correct this position it is suggested that all units be instructed that:

(a) passes relating to the movement of civilians, curfew and the circulation of civilian motor vehicles will be issued only by AMG/ACC.

(b) all passes relating to these matters which have been issued by units will be cancelled;

(c) arrangements will be made with local AMG/ACC officers for the issue of passes as may be necessary. In the case of curfew and civilian movement passes, endorsements may be made on the rear side of the pass to cover matters considered requisite in the case of Public Utility workers;

(d) The only passes which will be recognized are the standard ACC passes and properly authenticated travel orders;

(e) In a case of extreme urgency a temporary civilian pass with a limited validity, may be issued but a copy of any pass so issued will be forwarded to Hq. ACC.

SUBJECT: Harvest - Sicily.

TO : Acting Chief Commissioner.

1. I think you should read pages 15 and 16 (report from Colonel Hancock). You will remember that at the Regional Commissioners' meeting the Chief Commissioner stated that inasmuch as Sicily suffered more from war damage than most of the other Regions, consideration would be given to the grant of a war bonus. In 4(a) the Regional Commissioners recommend a bonus of 1.250 a quintal.

2. Personally I should advise against the use of the term as suggested in 4(b). There are many inherent dangers - especially when the political memoranda in Sicily are considered.

3. I missed 4(c) at the last Vice Presidents' meeting.

4. If you agree I will circulate to Vice Presidents for discussion at next Vice Presidents' meeting.

2. I am glad that the situation as regards binder twine is better than was reported. There is always a lag between despatch and arrival and I do not think there was any deliberate misrepresentation on this score.

3. The Provincial Commissioner understands that the 5000 sheep which you mention are to be used for the paradun scheme and in any case for the civilian labourers. His present concern is sheep for the Military Reconversion and Farm Servicing who are unpaid.

4. On the question of transport I can only assure you that the figures given to me were those which the Provincial Commissioner had under his command when he spoke to me and that his requirements are the minimum on which he can organise the collection. If his requirements up to the end of June have been partly or even fully met by trailer, so much the better. Can he have the assurance that his July and August requirements will be met or do you wish me to ask AAI to provide from their resources.

5. My memorandum was intended to be informatory and constructive only as a result of a visit to the Province most concerned with harvesting.

SUBJECT: Veterans Administration Cases.

TO : Admin. Section (Per Col. Cripps).

1. With reference to my conversation with you today there are outstanding at present 11 requests from the American Consul General in respect of investigations to be carried out before any payments can be made.

2. It is the opinion of this Section that there is no objection to the American Consul General's wish to deal with these matters direct with the Italian Government (as was the case in peacetime) in respect of Regions in Italian Government territory. 9 of these cases occurred in such Regions.

3. With regard to the three Provinces in Region XII under Military Government administration, it is thought that the American Consul General should correspond direct with the Regional Commissioner and 2 such cases are outstanding. The Regional Commissioner will then pass these inquiries to the Carabinieri to investigate.

4. It is not thought wise to allow any communications at present with Regions IV, V, VIII or Rome Region as the Regional Commissioners are fully occupied with other problems. It is suggested that as and when these territories are handed back to the Italian Government the procedure outlined above in para. 2 would come into operation.

5. These persons do not appear to be displaced persons since whatever their nationality they are presumably absorbed into the life of the community where they now reside, and as such cannot be considered as "displaced". I would not therefore recommend that the Displaced Persons Sub-Commission be brought into this.

6. Would you please say whether you are in agreement with the proposals outlined above and if so whether you prefer the American Consul General to deal with the Ministry of the Interior direct, or through your Section and the Interior Sub-Commission, over cases in Italian Government territory.

7. I would be glad of an early reply as the American Consul General is anxious to get a quick decision. I attach two such specimen requests for your examination and should be glad if you would return them with your reply.

ACCOUNTING REORGANISATION

I. It has been decided to centralise at ACC Headquarters all bookkeeping and the preparation of accounts for the Allied Financial Agency and for ACC/AMG revenue and expenditure, as soon as this is possible. However, NO change in the present Supply Accounting procedure is contemplated for the time being.

II. The foregoing reorganisation is expected to achieve simplification, better control over expenditure, uniformity of procedures and classification, concentration of records and vouchers at Headquarters, and reduction in the work and staff.

III. It is believed that better results will be obtained if the present ACC/AMG accounting organisation and procedures are allowed to function in forward areas and consequently no change will be made at present in Regions IV, V and VIII or as regards Sub-Accountants with AMG 5th. and 8th. Armies. Officers in these regions are, however, warned that the reorganisation will be extended to their areas at the earliest possible moment and plans should be made accordingly.

IV. The accounts for all branches of the Allied Financial Agency for June 1944 will be prepared as heretofore, but beginning 1 July 1944 all branches will maintain only a record of cash and bank transactions and will report these transactions twice monthly to AFA Headquarters, where the ledger accounts will be maintained. Detailed instructions to Branch Managers are being issued by AFA Headquarters regarding the records to be maintained and reports and vouchers to be submitted.

Detailed instructions to Branch Managers are being issued by AFA Headquarters regarding the records to be maintained and reports and vouchers to be submitted.

444

V. The regional Statements of ACC/AMG Revenue and Expenditure for May 1944 will be prepared by all Regional Accountants from the Sub-Accountants' Reports for that month in the usual manner, but Reports of Sub-Accountants in Regions I, II, III, VI and VII for June 1944 and subsequent months will be dealt with at this Headquarters. The Regional Finance Officers of Regions I, II, III, VI and VII will accordingly instruct all Sub-Accountants in their Regions to forward their Monthly Reports of Receipts and Disbursements, with the usual supporting vouchers, to the R.F.O. These R.F.Os. will make such reviews of these Reports as they desire (but will NOT carry out any of the work formerly done by their Regional Accountants beyond requesting explanations

Declassified E.O. 12356 Section 3.3/NND No. 785017

of such items as appear to them to call for explanation) and will forward the Reports and vouchers as promptly as possible to the Chief Accountant at this Headquarters. Such Reports of Sub-Accountants for June 1944 as are received before the Regional Accountant leaves will be reviewed, classified and supervised on the spot and be brought to Headquarters by the R.A. ready for posting.

VI. The Chief Accountant will issue, in the near future, Sub-Accountants Instruction No. I, which will consolidate all accounting instructions pertaining to Sub-Accountants, Collectors of Revenue and Imprest Holders which were formerly contained in the Accounting Manual. Each Regional or Senior Finance Officer will be furnished with a supply of these instructions and it will be his duty to ensure that each and every Sub-Accountant, Collector of Revenue and Imprest Holder in his area is provided with a copy thereof and adheres thereto.

VII. Regional Finance Officers will also instruct all Sub-Accountants in their Regions to indicate clearly on all reports and vouchers the number of their Region as well as their official title (e.g. Finance Officer, Palarao Province, Region I). This information must also be provided to and repeated by AFA when deposits are made into AFA bank account or vouchers are approved for payment by AFA; this is of particular importance as regards collections from sales of supplies.

VIII. Orders will be issued during the early part of July 1944 instructing all AFA accountants and bookkeepers and all Regional Accountants and their staffs in Regions I, II and III to report to this Headquarters. On receipt of these orders the officers and EM/ORs concerned will proceed forthwith to this Headquarters, bringing with them all books, vouchers and accounting files; a reasonable supply of blank accounting forms will be left at each AFA branch and with the Regional Finance Officer and any surplus will be brought to Headquarters. In this connection, it is suggested that Regional Accountants should take advantage of the visit of any officer from their Regions to this Headquarters before the former leaves to send forward any vouchers, etc. not required for completion of the May 1944 accounts.

IX. Regional and Senior Finance Officers are requested to review the Sub-Accountancies in their areas and to eliminate

instructions pertaining to Sub-Accountants, Collectors of Revenue and Imprest Holders which were formerly contained in the Accounting Manual. VIII. Orders will be issued during the early part of July 1944 instructing all AFA accountants and bookkeepers and all Regional Accountants and their staffs in Regions I, II and III to report to this Headquarters. In this connection, it is suggested that Regional Accountants should take advantage of the visit of any officer from their Regions to this Headquarters before the former leaves to send forward any vouchers, etc. not required for completion of the May 1944 accounts.

IX. Regional and Senior Finance Officers are requested to review the Sub-Accountancies in their areas and to eliminate any which are no longer essential. Better results will be obtained if receipts and disbursements of AMG/AMG funds are concentrated in the hands of a few officers who are fully informed as to their duties and responsibilities in handling public funds.

CONTROL OF FOOT AND MOUTH DISEASE

1. There are a limited number of animals now infected with Foot & Mouth disease in the Provinces of Taranto, Bari, Foggia, and Salerno. This disease is endemic in Italy and numerous cases will undoubtedly occurr throughout the summer and early fall months. It is essential that all possible control measures be employed.

2. The Italian Ministry of the Interior has instructed all prefetti under the jurisdiction of the Italian Government to report immediately any outbreak of the disease and to order the rigid employment of the Italian Regulations as in Appendix "A", attached.

3. It is imperative that all practicable precautions be taken to prevent the spread of Foot & Mouth disease to the United States and/or Great Britain. Since the disease may be carried on the shoes, equipment, or clothing of persons who come into contact with infected premises, every effort should be made to keep troop commanders informed as to the exact location of infected farms and the necessity for placing these farms out of bounds wherever it is possible and practicable to do so.

4. Prefetti in provinces will be instructed or advised to apply the following control measures:

a. The Italian Regulations regarding the control of foot & mouth disease will be rigidly enforced by the provincial and communal veterinarians and civil police.

b. The infected stables will be thoroughly sprayed with 1½ percent solution of caustic soda.

5. Regional Commissioners will ensure that the authorities named, act promptly and with diligence in this matter. Monthly progress reports will in the future include a report covering action taken on this memorandum.

APPENDIX "A"

EXTRACT FROM LETTERS DATED 10 May 1944 - No. 533

Article 2) When Foot & Mouth disease is discovered or suspected it must be immediately reported to the sindaco by the veterinarians, the proprietors, the owners of hotels with stables, farriers, and Reali Carabinieri.

Article 7) The sindaco as soon as he receives the reports must order:

a. The counting of animals in the infected locality.
b. Inquiries in order to ascertain the origin of the infection.
c. The isolation of infected from non-infected animals.
d. The impounding of the animals residing in the infected areas with the following restrictions:

i. No strangers, dogs, cats or courtyard animals shall be allowed to enter the infected area.
ii. The personnel of the infected farm will avoid all contact with animals of the nearby farms.
iii. The transferring of hay, straw, manure, etc., from the infected premises will be forbidden.
iv. The animals shall not drink in streams or in troughs communicating with flowing water.
v. The infected premises shall be made clear by affixing placards with the name of the disease.
vi. The carcasses must be destroyed by deep burial (4 feet) or by complete burning.

Article 9) The prefetti, when certain of the existence of Afta Epizootica, will publish the "decree of infected zone" with all provisions, the most important of which are:

a. To prohibit the transfer of animals from the infected zone to non-infected ones.
b. The prohibition of livestock markets in the infected zone.

Article 12) For purposes of slaughtering or for urgent pasture needs the Prefects may permit with a special authorization that animals susceptible to but not infected with Foot & Mouth disease be transferred out of the infected zone.

Article 42) The sindaco may allow the slaughtering of the diseased animals on the place where the meat is to be consumed, after it is inspected by a veterinarian. The transport of such meat may be allowed in closed vehicles.

It is permitted to use hides and horns after disinfection for 4 days in milk of lime. (Slaked lime 10% solution).

SUBJECT: Allied Military Courts for Prostitution.

TO : Major General A. E. Wilson,
Headquarters, F.B.C.

1. Under the considered policy of the Allied Nations it is necessary to hand over more and more responsibility to the Italian Courts, but in order to assist the military campaign against V.D. special arrangements were made in the past for all offences in connection with prostitution to be tried by Allied Military Government Courts. It is regretted that this contravention must now be withdrawn, because with the rapid advance and the consequent extent of territory which has to be taken over by AFC the only way it has been found possible to cope with the situation has been by withdrawing officers from your areas. Region III and the city of Naples has only the ninth already and more will have to be withdrawn from there in the very near future.

2. I sympathise very much with Brig.General Ingall in desiring that the order which laid down that all prostitution offences in Region III would be tried by Allied Military Courts should not be repealed, but for the reasons set out above I am afraid that the Chief Commissioner is unable to alter his decision. The Regional Commissioner of Region III has been ordered to repeal Regional Order No.10 and send all cases in future for trial in Italian Courts.

1. I refer to my letter No. A34/5/CA of 21 May 1944. I regret that I did not make my object clear.

2. What was intended was that some sort of base forwarding organization should be set up if possible by your Sub-Commission in order to ensure the smooth movement of the supplies and various other goods required by AFC Eighth Army. Col.Spencer stated he had not the staff personally to organise this in rear of the Eighth Army boundary, and therefore relied on either the Region or your Sub-Commission to do what they could to forward the supplies.

3. Since writing the original letter the situation has changed and it may be that something can be organised from Base instead of Region. However, I hope I have said enough to explain the intention of Gp.Capt. Benson who has found himself handicapped in getting supplies forward quickly.

TO : Headquarters,

C. M. F.

1. I am in receipt of your letter 1029-3-Q1 dated 10 June 44.

2. Efforts are now being made to organise transport in Rome. The 548 G.T. Coy, less two platoons, has been sent north of the city. Two platoons are presently committed to haulage from Anzio to Rome. I confirm that as soon as arrangements have been completed for an alternative means of handling the Anzio-Rome run, the two platoons of the 548 G.T. Coy will be relieved of the committment. It will be absolutely essential, however, to move these two platoons forward to handle further committments in the north as ACC has insufficient equipment that can be used in that area.

3. Every effort will be made to organise civilian transport in the new areas as fast as possible and you will be notified as soon as ACC can release the 548 G.T. Coy. An operational requirement which will necessitate the withdrawal at present of this Coy will mean that the civil population can not be fed.

SUBJECT: Adriatic Coast Situation.

TO : R.C. Region V.
HCAO Eighth Army AMG.

1. Reference Signal 6257 of 19 June 1944 which reads as follows :

"As from noon 21 June, Region V will assume responsibility administration ANCONA, OSIMO, and AQUILA Provinces. AMG Eighth Army will be withdrawn from Region V forces and preliminary occupation will be the duty of Region V. Major Bain will be left in charge of small liaison party with troops on the spot under command Region V."

2. This order was issued following discussions held at Isernia on Wednesday 14 June at which Executive Commissioner, HCAO Eighth Army AMG, R.C. Region V and Colonel Selby were present.

3. Consequent upon the change in plan as regards the role of the Polish Corps it is now considered advisable to strengthen the liaison party with troops under command Region V.

4. The following officers will therefore be the liaison party with the troops :

Colonel	Selby	= Temporary.
Major	Balph	= "
Major	Bain	= C.A.O.
Capt.	Charles	= Liaison officer.
Capt.	Titchmarsh	= C.A.O.
Lieut.	Lemon	= C.A.O.

Should Col. Selby leave he will hand over to Major Bain. This party will be under command Region V.

5. The position will be reviewed later if necessary.

6. This previous Signal 6368 of 17 June 1944 addressed to Eighth Army AMG which read (paraphrased) :

SUBJECT: Paggia Harvest.

TO : Vice President, Records Section.

I visited FOGGIA Province yesterday and discussed with the Provincial Commissioner (Colonel Temperley) the problems of the Paggia harvest and collection scheme. The following points emerged:-

1. Labour.
Military labour is arriving regularly and in sufficient numbers. Civilian labour is also available and it may be possible to divert some military labour to AAI at the end of the month.

2. Binder Twine.
Although the prospects have improved there is as yet no binder twine in the Province, although harvesting has begun. Supplies received amount to 2 kilos per hectare as against 5 kilos per hectare last year. It looks as if there will be insufficient.

3. Shoes.
The reservists are very badly shod. 1000 pairs have arrived, 600 are expected, more are urgently needed.

4. Statistics.
The following figures show estimates of production, consumption, collection and export. It is to be noted that consumption should be 350,000 qtls and not 190,000 qtls as estimated by your Section.

Estimated Production		2,420,000 qtls.
Less	400,000 qtls	
Seed	[illegible] "	[illegible] qtls.
Maximum marketable		1,670,000 qtls.
Less Pool		[illegible] qtls.
Net Production for Export		1,310,000 qtls.

5. Milling.

I visited KOLDA Province yesterday and discussed with the Provincial Commissioner (Colonel Temperley) the problem of the Kaolack harvest and collection scheme. The following points emerged:-

1. Labour.

2. Binder Twine.

The following figures show estimates of production, consumption, collection and export. It is to be noted that consumption should be 350,000 qtls and not 190,000 qtls as estimated by your Section.

Estimated Production.....		2,420,000 qtls.

Harvest available.....		1,670,000 qtls.
Less Food.....		760,000 qtls.
Net Production for Export.....		1,310,000 qtls.

5. Milling.
Provincial Commissioner recommends that as much grain as possible for export should be milled in the Province where milling capacity is available on railheads. This will save power and congestion in KAOLACK or DAKAR.

4391

6. Extra Staff.
We have already wired for 20 officers. They will be useless without jeeps. Colonel Adams was exploring this. Can I help? If 20 officers from Middle East do not arrive I will try to get low category officers from AAI on loan.

7. Transport.
Present situation is serious. The following shows the Province's needs:-

required on the road daily.

At present they have 39 trucks running and 15 civilian trucks employed entirely on food.

It is essential in my opinion that we should supply more trucks at once and fulfil the demands above.

I was impressed by the organisation and enthusiasm in Provincial HQ and provided timber twine, staff and especially transport, is provided, I have little doubt that the collection will be a success. Captain Bamp is doing an excellent job of work.

SUBJECT: A.C.C. Police Liaison with P.P.S.
(Ref AG 300 BPICG, 13 June 44)

TO : Commanding General, P.B.S., APO 782.

1. It is agreed that a police liaison officer from A.C.C. to P.B.S. would be quite useful and valuable, but unfortunately, due to recent operational developments and the transfer of one senior police officer to Metropolitan Area, P.B.S., the entire staff of Region III consists of only one lieutenant colonel and seven other officers who must serve the provinces of Benevento, Avellino, Naples and Naples City.

2. The demand for police officers for forward areas is so great that it will apparently be simply impossible to comply with your suggestion. This is greatly regretted.

3. Some time ago it was agreed at a conference between Region III and P.B.S. law-enforcement officers arranged by our liaison officer that your command would supply an officer to be constantly on duty at Region III for the suggested purpose. It seems to me that this plan should work equally well, and I suggest that it be reconsidered.

4. I am forwarding your letter to the Regional Commissioner, Region III with a copy of this comment, since in the last analysis, the problem is purely local in character and must be solved by him.

5. Thank you for calling my attention to this matter.

1. The intentions of HQ AAI with regard to the occupation of Rome have undergone several changes, all of which show a general tendency to depart from the first paragraph of their directive of 2 June which began "The political issues involved in the occupation of Rome outweigh the military importance of the city".

2. This directive was followed by a further directive signed by the CAO on 11 June in which it was stated:-

(a) that no officers or men would live in Rome or stay there overnight unless their work made it essential that they should do so;

(b) that residential leave centres would not be established;

(c) that administrative headquarters and installations would not be established unless essential;

(d) that welfare facilities would be established in order that officers and men might go somewhere for their meals.

3. Before 5 Army handed over the city, the Chargé d'Affaires of the United States to the Holy See, in a note verbale to the Secretariat of State to the Vatican, quoted a letter from General Clark in which was stated:-

(a) that the movement of various military HQs of 5 Army from the city had begun and would be completed by 15 June;

(b) that the only 5 Army troops remaining in the city would be those necessary for the preservation of order and discipline and for the administration and feeding of the civilian population.

4. Immediately after the city passed under the control of AAI HQ, [illegible] the CAO arranged a conference at which he stated:-

(a) that six or more hotels would be requisitioned for rest centres for officers, amounting to 1000 in all;

(b) that up to 12,000 troops would be allowed to visit the city daily on pass;

(c) that these troops would be allowed to eat at restaurants in the following categories:-

(i) restaurants requisitioned for troops and retained by Army food;

(ii) restaurants for troops at fixed prices, assisted by the Army;

(iii) restaurants uncontrolled and unassisted.

Other restaurants would be placed out of bounds to troops and reserved for civilians.

-1-

Declassified E.O. 12356 Section 3.3/NND No. 785017

D-83

5. He further stated that the Administrative Headquarters of AAI, comprising over 300 officers, would be located at the Air Ministry in Rome. In a conversation later the CAO stated that FBI, a RAF Service HQ and Railway HQ would also be located in Rome. He promised to consult AOC before locating others.

6. Representations have already been made by the Vatican regarding the number of troops in the city. The note Bertolo referred to above (copy attached) was in answer to one of them. It may well be that the setting up of Headquarters of AAI and others in the city will be regarded by the Vatican as a departure from General Clark's assurances quoted above. I understand that the CAO is advising the Commander-in-Chief to prepare AFHQ for this by sending an explanatory telegram.

7. There have also been representations from various sections of the population regarding the amount of food stocks in the city consumed by the troops in Rome. Regional Commissioner is preparing a memorandum giving his estimates of the food already consumed.

8. Regional Commissioner is seriously concerned at the change of policy. Food stocks now precariously low. Military police are insufficient, either in number or distribution, to control further consumption of food by troops. Requisitioning of hotels and villas is causing some dismay among the citizens and the general view of the Regional Commissioner and other senior officers of A.C.C. is that there is a danger of a repetition of the confusion which occurred in Naples. The Area Commander I think shares his views.

9. I do not think we should be unduly concerned regarding the temporary discomfort caused to the Romans; they have still to learn some of the rigours of war. But we must be assured that the procedure adopted is correct in every detail and that publicity is directed in proper channels to this effect. I am not satisfied that the correct procedure is being rigidly adhered to at the moment. CAO tells me that he has sent drastic orders out in this respect.

10. We must be greatly concerned about the food situation. There is no doubt that in the honeymoon period the troops have eaten enormously into the small stocks of the city. This must stop. I have represented this to CAO and have told him that the proposals made at his meeting are not satisfactory. I have proposed as an alternative that every soldier visiting Rome should be issued with a ration card which he can present at any qualified restaurant in order to obtain a meal. The restaurant keeper will subsequently be reimbursed by part of an Army ration on presentation of the card. I have further proposed that the city stocks of food be supplemented in bulk by the amount estimated to have been consumed already by the troops. The CAO has promised to consider the first proposal. I have also demanded AAI's proclamation to limit the 10 Kil. movement restriction round the city in order that local food stocks may be brought in.

4343

11. I understand that there are over-riding reasons which have necessitated this change of policy regarding the occupation of Rome which is in my opinion most unfortunate and will make the task of civil administration infinitely harder.

1. Since the imposition of the severe restriction made on the instructions of your Hq. at the end of April and issued by this Commission as General Order No.24 a big advance has been made by the Armies and the Army Control Line has been correspondingly moved forward.

2. Strong representations have been made to this Hq. by Regional Commissioner Region III for the removal of the restriction on inter-provincial movement in Region III. I have always been of the opinion that restriction of movement should be kept to the minimum consistent with military security in order that normal civilian commerce may be allowed to function as soon as possible. Furthermore, if this restriction were removed in Region III a great contribution toward improving the food situation in Naples city would be made.

3. I should be most grateful if you would say whether you would agree to the lifting of the restriction to the extent of allowing free movement between Provinces in Region III.

SUBJECT: Message Classification and Precedence.

TO : R.C. Zone Region.

1. The Director of Communications Sub-Commission has brought to my notice your telegram No.1047 of June 15th from you to AFO four for Henderson, the text of which reads "Send 5 civilians as arranged Rodbodi". This message has been classified as "Secret" and given the precedence as "Urgent".

2. It is considered that with full knowledge of the facts the classification of "Secret" is probably not necessary. It is almost certain that the precedence of "Urgent" is wrong. Your attention is drawn to para.6, Daily Bulletin No.111 of the 15th June, and you are requested to draw the attention of all officers of your Headquarters to the vital necessity of strict compliance with this order.

3. Please explain why the precedence of "Urgent" was used in this particular instance.

MEMORANDUM TO: Public Works and Utilities Sub-Comm.
(Through Economic Section).

1. I have just completed an automobile trip to the forward Adriatic area, during the course of which I lost a great deal of time because of unmarked, impassable roads shown on map A.M.S. M592 as main highways.

2. At Brigadier Lush's suggestion I submit the following comments for such value as they may have for you:

a. Highway 87 from Caserta to Campobasso via Caiazzo, Pontelandolfo, etc. was reported at Guardia as still impassable by reason of the destruction of a bridge near the latter place (a matter concerning which you undoubtedly have full knowledge). I detoured via Benevento.

b. Highway 87 from Campobasso to Termoli via Larino is in quite good condition.

c. Highway 16 from Termoli to Vasto is passable and in very heavy use by convoys, but extremely rough. It is somewhat better between Vasto and Ortona. From Ortona a Mare to Pescara, the road is straight, and predominantly finished macadam, but pitted by a great many dips caused by demolitions at culverts. These in many places occur every hundred yards or so, for considerable distances, necessitating very slow travel.

d. Highway from Pescara to Chieti is smooth, fast and level except for the immediate approach to Chieti itself, which is necessarily curved and steep because of the situation of the city on a high mesa.

e. The road from Chieti to Guardiagrele via Bucchianico and Casacanditella is in good condition except in three or four places where demolitions have rendered it impassable for anything except light transportation.

4337

Declassified E.O. 12356 Section 3.3/NND No. 785017

202

f. The highway from Guardiagrele to Casoli is in good condition.

g. Highway 84 from Casoli to Lama, Palena, and Castel di Sangro is impassable by reason of five mines and demolitions on both sides of Palena. (There are no signs concerning these mines until a short distance north of Palena and I lost almost two hours exploring Highway 84 to this point, and returning to Casoli).

h. The road from the highway near Casoli to the south through Bomba and Villa Santa Maria is reported by military units in the vicinity to be impassable for reasons not specified.

i. The road paralleling the one mentioned in the preceding paragraph, through Archi and Torrareccio to Castiglione and Highway 86 is narrow and dusty but unbroken and traversable.

j. Highway 86 from Castiglione to Carovilli is in fair condition but is impassable between Carovilli and Forli.

k. The small road (uncolored on map A.M.G. 2592) leading from Carovilli to Highway 17 near Isernia, through Miranda, is passable, in very good condition, through pleasant countryside, and highly recommended.

SUBJECT: Motor Tires and Inner Tubes.

TO : Economic Section (for Transportation Sub-Comm.)

1. The undernoted tires and inner tubes are urgently required by Region III, via,.

a. 30 tires and inner tubes (5.50 X 15) for fiat 1100
b. 4 tires and inner tubes (7.00 X 15) for fiat 500
c. 4 tires and inner tubes (7.00 X 18) for fiat 515

It is understood that tires 6.00 x 16 can be made available for (a) above by adjustment of the rim. This can be done and some wheels already have been modified to take this tire. It is also understood that tires 7.00 X 18 are or will be in stock and that four will be allocated for Region III. It is believed that there are no tires available to fit the fiat 500 (b) above.

2. These tires are required for civilian ambulance service which has been operating for a long time on a depleted service owing to shortage of tires and inner tubes. The service has now finally collapsed. For your perusal there is attached copy letter from Regional Public Officer Region III which shows how serious the matter is.

3. Please treat this matter as urgent and of the utmost importance and say where and when these tires and inner tubes, may be collected. It is hoped that the full demand for (b) may be met.

2. Your suggestion to give street cleaners the same facilities as those given to ordinary road workers has not been sympathetically received by the [redacted]. Among the reasons for this decision it is stated that the overall increase will place a severe strain on all resources and all supplementary scales will have to be reviewed leading to an adjustment in most if not all cases. It is also considered undesirable to create a precedent for a special class which will only lead to similar demands being made by many other classes of workers as soon as they get to hear.

3. It is further considered that in view of the approved increase in the basic ration scale from 200 to 300 grammes on the 1st July that any extra rations in addition to this increase would be unnecessary.

SUBJECT: Labor for Gathering Harvest.

TO : R.C. Region II.

1. On 2 June a request for 10,000 harvesters was made by your Hq. This demand was not in accordance with your statement made at this Hq. that no extra labor for harvest was required. Subsequently on 5 June you reduced your demand to 2000, which you stated would materially assist in controlling wage level.

2. This Hq. approached AAI and eventually arranged that two trains containing 28 officers and 144 ORs be switched to ALTAMURA from FOGGIA. Finally on 15 June you advised this Hq. by phone that your fear of the price level of harvest labor soaring had not materialized, and that you therefore did not require the second train. Through our Liaison Officer the second train has been switched back to FOGGIA.

3. As a result of your actions this Hq. had twice to go to AAI requesting favors which were fulfilled, and then ultimately had to go back again and say that they were not required. This sort of thing prejudices relationships between Headquarters, and it may well be that as a result of ill-considered demands, such as these appear to be, something which is really urgent and necessary will not be forthcoming.

4. An explanation in writing is required of how the original demand for 10,000 laborers could within the space of less than 14 days be satisfied with 700.

SUBJECT: Additional Truck Transport Companies.

TO : ~~Chief Commissioner~~ HQ. AAI.

1. The rapidly changing tactical situation is giving us daily more territory which must be reached promptly with food supply for the civil population.

2. To meet this situation interior supply depots have to be established for use of AMG 5th and 8th Army. Their transport is only sufficient for short haul distribution from these interior depots.

3. ACC Headquarters has agreed to take care of the longer haul. Pressing need for the moment being that from Anzio to the interior supply depots to be established in present 5th Army Area. As the tactical forces move forward new interior supply depots will be established.

4. To take care of this haul ACC Headquarters must have immediately an additional transport company (120 vehicles) to report to Captain Miller, Food Sub-Commission ACC, commanding supply dump at Anzio. On advice as to present location of the company an officer will be sent to join the company to act as guide from point of departure to Anzio.

5. (a) In addition to the above the tactical situation indicates that we must now take care of the requirements of Region VIII progressively as the territory is cleared of the enemy. This includes the provinces of Grosseto, Livorno, Pisa, Siena, Arezzo, and Firenze and a population of 2,300,000 including an area of some 7,300 miles and consisting of 264 Communes.

(b) Additional territory will also fall rapidly to Region V, which will have to take care of the additional provinces Chieti, Pescara, Pesaro, Ancona, Macerata, Ascoli, and Teramo; these provinces with a population of a little over 2,000,000 with an area of some 6,000 square miles containing some 425 Communes.

(c) With this additional territory we will need for the distribution of food also for harvest needs an additional transport company (120 vehicles) two platoons of which will be assigned as follows: This company, less two platoons, will be assigned to Region VIII, to report to the Regional Commissioner, Region VIII at their Headquarters. Two platoons will be assigned to Region V and report to Regional Commissioner, Region V at Campobasso. On advice as to assignment of this company and its present location, two officers will be sent from HQ. ACC to act as guides.

4293

6. ACC has only received 600 2½ - 3 ton trucks to date of the 1,000 authorized by AFHQ. No definite arrival date has been received on the ad-

territory which must be reached promptly with food supply for the civil population.

2. To meet this situation interior supply depots have to be established for use of AGC 5th and 8th Army. Their transport is only sufficient for short haul distribution from these interior depots.

3. AGC Headquarters has agreed to take care of the longer haul. Pressing need for the moment being that from Anzio to the interior supply depots to be established in present 8th Army Area. As the tactical forces move forward new interior supply depots will be established.

SUBJECT: Personnel - Policy.

TO : AFHQ, G-5.

1. I have received an application from a Miss de Head now employed in Civil Affairs Branch, East African Command Hq., who wishes to obtain employment with this Commission.

2. Miss de Head states that for reasons of health the Director of Man-power East Africa has already agreed to her leaving Kenya if she can obtain an appointment elsewhere. The country doesn't, it appears, suit her.

3. Miss de Head has been interviewed by an officer of this Hq. who has lately been to East Africa on duty and it appears that she is well suited for employment here. She is a typist with a knowledge of shorthand. She has of course a useful knowledge of civil affairs and its work and set up.

4. I consider that in view of the serious shortage of trained clerks in this Commission Miss de Head could be very usefully employed and I shall be most grateful if you can arrange direct with East African Command for her services to be released and for her passage to Italy as early as possible.

EXECUTIVE INSTRUCTION NO. 50

7. Displaced Persons Sub-Commission.

a. Persons dealt with by the Displaced Persons Sub-Commission can be divided into two classes:

1. Ex-Internees.
Persons originally interned by the Italian Government and now living in a community such as Ferramonti. Such individuals purchase part of their foodstuffs locally, and are free to move about in the locality of the camp.

2. Refugees.
These are refugees of all nationalities, except Italians, which are received in this Sub-Commission's transit camps. After screening and disinfestation, they are sent to holding camps where they await shipment overseas. Certain refugees are stateless, and these remain in Italy. Refugees live in hutted camps or village communities in houses.

b. Ex-Internees receive food in kind up to 50% of their requirements; flour, pasta, rice, olive oil and purchase their otherfood and necessities with subsistence allowance paid to them through Italian provincial officials.

c. Refugees (other than Ex-Internees) in camps are issued with rations drawn from Army sources. This is either cooked at a communal kitchen or by household groups according to cooking facilities. Certain additional items of food may be drawn for invalids and children. Red Cross are also helping by supplementing the ration for children and special cases.

d. Two hospitals are maintained by the Displaced Persons Sub- Commission and the various camps have medical organizations for dealing with the sick.

e. The Displaced Persons Sub-Commission does not have direct contact with non-Italian Nationals living or finally established in communes. These are dealt with by Regional Commissioners, through their welfare officers. The Displaced Persons Sub-Commission desires notice of problems which Regional Commissioners may encounter in respect to such persons.

SUBJECT: Promotions of Italians in R.C.Territory.

TO : R.C. Region III.

1. The Italian Government has reported that :

(a) certain Italians have been appointed to governmental positions,

(b) promotions of Italian governmental officers have been made in grade,

and that these appointments and promotions have been ratified by Regional Orders.

2. Legal Sub-Commission advise that officers of Allied Military Government, whilst empowered to remove Italian officials and appoint temporary substitutes, do not have power to make permanent appointments and promotions in grade that will be binding on the Italian Government.

3. Legal Sub-Commission further point out that a person acting as substitute gets the salary called for by the position he is filling even though he is doing so temporarily.

4. Obviously such appointments and promotions embarrass the Italian Government. The officials concerned are also embarrassed when they learn that promotions ordered by A.M.G. are illegal.

5. Will you therefore ensure, in the light of the foregoing, that the temporary nature of the appointments and promotions made by Regional and Provincial Orders is fully understood by the Italian Government servants concerned.

6. An Executive Memorandum on this subject is in course of preparation. Your action should anticipate the publication of the memorandum.

1. Reference your GA/141 of 7 June 1944 the documents forwarded are copies only. The statements are in our opinion not full enough as they stand. That signed by Lt. Col. Raymond is hearsay and Captain Nebity's statement is to the effect that the above named was killed by an enemy artillery shell. What is required is a statement by someone who was in or with this Patrol or who knew that this Italian was guiding Allied Troops toward the enemy and that he had been killed doing so. It may be that Lt. Col. Raymond or Capt. Nebity could elaborate their statements to cover the above points. It is considered that a disposition of the matter as it stands could not be made. Can the original statements be forwarded. In the meantime we are communicating with 1st Gds. Bde. through channels.

TO : Major Friend Jones, A.C.C. Liaison, H.Q. A.A.I.

1. A number of people claiming to be British nationals are anxious to join the British Army in Italy. As you know A.A.I. have prepared a memorandum setting out the conditions of service, one of which is that proof must be provided that the applicant is a British subject. This is going to be the greatest obstacle as in most cases proof will be unobtainable, except probably from the U.K. or Canada. Perhaps you will be good enough to ask A.A.I. what standard of proof would satisfy them.

2. There is enclosed three applications which have been prepared as a result of the A.A.I. Order. We shall be obliged if you will submit them to A.A.I. as test cases and find out whether these men would have a chance of success or otherwise.

EXECUTIVE MEMORANDUM)
: Replacing Executive Memorandum No.12
NUMBER 12) of 15 Feb. 1944.

APPOINTMENTS TO THE OFFICE OF PREFECT
IN MILITARY GOVERNMENT TERRITORY.

1. Where the office of Prefect is vacant, the Senior Civil Affairs Officer or Regional Commissioner will endeavour to find a suitable candidate locally. If such a candidate is available, the appointment will be initiated in accordance with established procedure.

2. When a suitable candidate is not available locally, resort will be had to a list of suitable candidates which is being prepared in consultation with the Italian Government and will be circulated to Senior Civil Affairs Officers and to the Regional Commissioners concerned. This list will constitute a pool from which candidates may be selected. In the meantime a telegram should be sent to Admin. Section stating requirements.

3. When an appointment to fill the office of Prefect is to be made by Allied Military Government, such appointment will in future be made under the title of "Prefetto Reggente" and not under the title of "Prefetto". Provided, however, that the title of "Prefetto Reggente" is invariably used in formal documents and official communications, by both the Reggente and officers of Allied Military Government, there is no objection to the Reggente being addressed or referred to in conversation as the Prefect. The Italian Government lay great stress on the title "Reggente".

4. When necessary to draw on the pool the Senior Civil Affairs Officer or Regional Commissioner will communicate with Interior Sub-Commission, Near Headquarters, Allied Control Commission. If he has a preference for a particular name on the list, he should state whom he prefers and his reasons. The Sub-Commission will arrange for the person selected to be directed forward. On arrival of the candidate the Senior Civil Affairs Officer or Regional Commissioner will formally appoint him to his office.

5. The Prefect will be sent to the A.M.G. Headquarters of the Army concerned, or to the Regional Headquarters. It will be the SCAO's or R.C's responsibility to send him to his post.

6. The procedure here laid down in no way impairs the right of the Allied Military Government to appoint and remove such officials as they consider necessary.

7. Appointments to the office of "Prefetto Reggente" will be made in the form shown at Appendix "A".

7. Appointments to the office of "Prefetto Reggente" will be made in the form shown at Appendix "A".

8. In exceptional circumstances in forward areas, an oral appointment may be made, but if so made, a written order drawn so as to operate from the date of the oral appointment will be executed as soon thereafter as is reasonably possible.

9. S.C.A.O's and R.C's should do their utmost in the interests of continuity to abide strictly by this procedure.

SUBJECT: Loans from Tripoli & Cyrenaica to Italian Exhibitions.

TO : D.C.C.A.O., Tripolitania.

1. The Monuments and Fine Arts Sub-Commission of ACC is anxious to obtain information of any objects from Museum collections in Tripoli and Cyrenaica which may have been sent on loan or temporary exhibition to Italy within the last six years. In particular it is believed that in 1940 certain items were sent to the Mostra Triennale dalle Terre Italiane d'Oltremare at Naples and never returned.

2. The records for both Cyrenaica and Tripolitania are at present in Tripolitania, and both Dr Pesce, the Superintendent of Antiquities, and Cav. Ragamato, the head of the Sabratha excavations, were transferred to Tripoli from Cyrenaica shortly before the Allied occupation and should therefore be in a position to answer from personal knowledge.

3. If any information is forthcoming, a signed statement from the Italian official concerned would be appreciated. It should include sufficient detail for purposes of identification, the circumstances of the loan, and particulars of any publications or photographic records which may exist.

Brigadier,
Executive Commissioner.
