1. Reference your Signal F66599 of 20 June 44.

2. No definite information is available concerning the 7 Greek Subjects mentioned in your Signal.

3. It is known that:

a. During July 1943, 13 Greek subjects were in prison at Vibo Valentia.
b. During August 1943 71 Greek subjects were in prison at Procida.
c. 25 Allied soldiers including Greeks and Jugoslavs were held in jail by the Italian authorities at Ortanzero. They were released by forward troops of 1 Canadian Div. in September, 1943.

4. Regarding 3 c. Two of the Greeks concerned were:

a. PAPAGOS John, Canadian subject of Greek origin. British Secret Service Agent (now with HQ 13 Corps)
b. PURPURA Armandio. Greek Army officer and agent. (now with 13 Corps)

It is possible that these two men might be in a position to give further information concerning the 7 Greeks subject of enquiry.

5. If the names of the persons concerned were circulated by the Ministry of Grace and Justice to all prisons it might be possible to obtain further information from prison records. This has not been done in view of the SECRET nature of the enquiry. If you desire this to be done we shall do so but it will take a little time to get an answer. Further enquiries are however being made and you will be informed of the result.

1. I refer to your letter AAI/5058/1(G3) dated [illegible] and attach a letter sent to No.2 District by the Legal Sub-Commission.

2. It is the policy of the Commission to leave as many cases as possible with the Italian Courts. It has generally been found that the sentences imposed by the Italian Courts are sufficient and there is no evidence in these cases that the sentences hitherto imposed have been inadequate or that justice has not been given.

3. Every assistance will be given to prevent these acts of sabotage and a special direction has been sent to the Regional Commissioners to this effect. Curative measures are, however, of relatively minor value and preventive measures must be taken. The root of the trouble appears to be lack of adequate guards for these large depots of ammunition in towns which contain material of which the population is in dire need. Can an attempt be made to remedy the shortage?

Ref: 127/150/CA.

7th July 1944.

I am writing to you to enlist your assistance on a matter which was first raised in March last, namely, the use by our Communications Sub-Commission of the Postal Sorting Office at Garibaldi Station, Naples.

Those premises are, or were, in use by your Railway Services, whilst the civilian mails are dealt with in a building opposite. The continual extension of mail service in Italy renders the latter increasingly unsuitable and the position is now so acute that we are again casting about for alternative accommodation. We had intended moving into the Naples Post Office as soon as it became free but unfortunately had to give way to demands for its rather lavish office space.

So I renew to you our request for the use of the Postal Sorting Office, which, as you are no doubt aware, contains full facilities for mail sorting and despatch, with the additional feature that there would also be sufficient space for censorship of civilian mail, a task that at present has to be carried out in yet another building over a mile away with consequent wastage of time in handling.

Resumption of communication for the civil population has received a high priority, for it is an important factor in morale, but the increasing use of the Postal Service is overtaxing present improvisation and the fact that Naples is such an important mail transit centre adds to the burden.

It may well be that as time passes Naples will become less important from your point of view, or alternatively some equally satisfactory accommodation for your unit may have become available, but whatever the consideration I hope that on this occasion you will view our application favourably. As the matter has now become urgent, an early decision would be appreciated.

7 July 1944.

SUBJECT: Correspondence.

TO : N.C. Region VIII.

1. A copy of our letter dated 7 July 1944 to AMG Fifth Army with reference to the requisitioning of the car belonging to Doctor Verdiani Baldi is attached and I hope that satisfactory action will result.

2. Referring generally to your letter dated 4 July 1944 reference AVIII/22/9/3 and its enclosures, I venture to make a suggestion as regards its subject matter which may help to avoid confusion in similar cases in the future.

3. Under the subject of "Army action in Region VIII" your letter and the copy of letters with it deal with several different matters viz: a request to move officials over Corps boundary, damage to agricultural installations and equipment, improper requisitioning of vehicles etc. It would greatly simplify correspondence and filing if each letter dealt only with one subject, or if it is necessary to refer to several matters under one heading the use of sub-heads simplifies reference, and extracts can be made appropriate for the different files concerned.

SUBJECT: Inducement Scheme for Collection of Grain.

TO : Acting Chief Commissioner.

1. If the inducement plan first recommended some months ago and endorsed by Regional Commissioners on May 30th is to be prosecuted, I recommend that it be carried out on the lines suggested by Mr. Villa.

2. As the remaining paragraphs of Vice President, Economic Section's [illegible] are directed against such a plan, I submit my opinion:-

(a) I do not agree with the Vice President's approach to the enforcement of law. Certainly we must do all we can to make the people respect the law(which incidentally in Italian law and not AMG law) but in a fairly long administrative experience I have always found that an appeal to the better senses of the people by making them realise that they have everything to gain by obeying the law, is better than resort to threats and indications of what will happen if the law is not observed. Moreover, I have tried the inducement plan with success elsewhere. The experience of Colonel Walker, who has come from Syria to help us here, are that the use of force was not the best way to collect wheat but the employment of any means which would be likely to secure for the Government the goodwill of the peasants. The inducement scheme, ~~which is not a new issue,~~ is in my opinion an aid in the enforcement of the law and a proper psychological approach to a peasant population in dire need of manufactured articles. [illegible]

(b) I do not consider that the inducement plan would establish a precedent for other collection programmes. Wheat and barley are the staple crops.

(c) Regional Commissioner cannot actively enforce penalties prescribed: he can only try to ensure that the Italian Government does so.

(d) If the Island were under Allied Military Government, if there were Allied troops and police and officials in whom one had confidence in enforcing the law, then the use of the term "peasgroot" with regard to artificial aids for enforcing the law might be justified. In the circumstances I submit that it is not and that every means to persuade farmers against evading the law and then bringing it into contempt must be used before final application of force and penalties is employed.

[illegible] that it be carried out on the lines suggested by Mr. Mills.

2. As the remaining paragraphs of Vice President, Economic Section's memorandum are directed against such a plan, I submit my comments:-

(a) I do not agree with the Vice President's approach to the enforcement of law. Certainly we must do all we can to make the people respect the law(which incidentally is Italian law and not AMG law) but in a fairly long administrative experience I have always found that an appeal to the better senses of the people by making them realise that they have everything to gain by obeying the law, is better than resort to threats and indications of what will happen if the law is not observed. The inducement scheme, ~~which is not a new here,~~ is in my opinion an aid in the enforcement of the law and a proper psychological approach to a peasant population in dire need of manufactured articles. [illegible] laid on earlier as might have had some indirect results in Sicily

(b) I do not consider that the inducement plan would establish a precedent for other collection programmes. Wheat and barley are the staple crops.

(c) Regional Commissioner cannot actively enforce penalties prescribed. He can only try to ensure that the Italian Government does so.

(d) If the Island were under Allied Military Government, if there were Allied troops and police and officials in whom one had confidence in enforcing the law, then the use of the term "pussyfoot" with regard to artificial aids for enforcing the law might be justified. In the circumstances I submit that it is not and that every means to persuade farmers against evading the law and thus bringing it into contempt must be used before final application of force and penalties is employed.

4726

(e) The lack of manufactured articles is a serious handicap. Have we ever asked for an increased allotment in order to launch an inducement plan? But I believe that we should attempt to make the plan work.

1. I refer to RC/300.1 of 1.July.1944 from Regional Commissioner, Region I, copy of which was sent to your Interior Sub-Commission.

2. Colonel Hancock has produced the following stenographic notes (of which I enclose a copy) of a speech made by FERDINAND AUSILIA on 25th May in which he is reported to have said:-

> "We solemnly declare that no one will bring to the ammasso a grain of wheat. Those in particular who are near us and desire the rebirth of our land should absolutely keep their word in regards to doing so."

3. The above statement, if correctly reported, appears to be a definite incitement to disobedience and in my opinion the man should be arrested by the Italian authorities and charged with the offence.

4. Regional Commissioner, as you will see from the memorandum on grain enforcement, also recommends the removal of [illegible] and BARON CESARE BRUNO DE BELMONTE. He has no definite case against these two men except that they are close adherents of FERDINAND AUSILIA and in view of the latter's definite incitement against grain collection, I think it would be wise if the Italian Government would remove them from the Island. It would certainly help the task of the Regional Commissioner and the High Commissioner in enforcing the Italian Government decrees.

ENFORCEMENT OF GRAIN COLLECTION IN SICILY.

ACTION BY.

1. The terms of the decree ordering the collection of grain is to be enforced in Sicily with the greatest vigour. We must expect opposition and obstruction from the people and drastic measures will be necessary.

2. The following action by the Italian Government, ACC and other authorities is recommended:-

A. By the Italian Government.

Adm Sec

PWB

(i) A firm statement should be made by the Prime Minister over the air and in the Press, to be repeated at frequent intervals, making it clear:-

(a) that the price of L.1000 per quintal will not be increased by war bonus or any other means;

(b) that the collection of grain will be enforced by every means at the disposal of the Government and that heavy penalties will be imposed on offenders;

(c) that it is the duty of all Sicilians to make themselves self-supporting as an Island by bringing in the grain for proper distribution.

Econ Sec.
Adm Sec.

(ii) This statement to be followed by continuous propaganda and to be backed up by personal tours of the Island by the Minister of Agriculture and if possible the Prime Minister himself (not by Under-Secretaries), directed towards the collection of grain and not towards political purposes. The High Commissioner and Signor Orlando should carry out similar tours.

Adm Sec.

(iii) Direction to be given to the High Commissioner and the Italian tribunals that penalties against the decree must be increased to the maximum and offenders brought immediately to trial.

Adm Sec.
Econ Sec.

(iv) Instructions to be issued by the Ministers of Interior and Agriculture to Prefects and Agriculture Inspectors insisting on drastic action being taken and a Special Order of the Day to be issued to the Carabinieri concerning their responsibilities in helping to collect the grain and to arrest speculators.

Sec Gen.
MMIA.

(v) Arrangements to be made (with MMIA) to place the maximum number of Armed Forces (including Carabinieri) at the disposal

dated 6 July 1944

PUBLICITY - GRIDAI DEL POPOLO.

1. 1944 is bringing to Italy good fortune in that she is at last being liberated from the yoke of dictator gangs, through Allied assistance.

2. Nature also is provident. Food, a sufficiency for all, is now at hand.

3. The most bountiful crop of grain in twenty years has been harvested without waste. Through this rich blessing Italy can feed herself well in a world in which many people are not so fortunate.

4. The threshing of this gigantic crop of grain is well under way. The collection and the distribution of the crop has begun.

5. The important phase of placing bread and paste in the hands of all - each person in Italy is entitled to sufficient to sustain his life - has now arrived.

6. It is the sacred duty of all Italians to collect and properly distribute the grain - farmers, Prefects and their staff, Sindaci and their communal committees, the Consorzios, labourers, warehouse men, judges, priests, you, all must do their part in this, the most important function in the restoration of Italy.

7. Wagons, motors, rail, must be used to move the grain from the overflowing threshing floors to the towns and cities for people to eat who otherwise would go hungry in a land of sufficiency.

8. The Allies guarantee that grain grown on Italian soil will be eaten by Italian people - no shipments will be made outside of Italy of grain grown in Italy.

9. Italians must do the job of collection and distribution. The Allies will support and assist. This collection and distribution of the grain is the first real test of character and fortitude facing Italy in her post War reconstruction.

10. This important and necessary operation is so humanitarian that it transcends political parties or selfish interests. Arise liberated Italy, unite in your efforts and make sure that people of Italy get the food grown on Italian soil.

11. Hard work, team work, and head work, backed up by a determined populace will assure this momentus job.

TO : R.C. Region III.

1. I refer to telephone conversation today with an officer of Region III Headquarters and Lt.Col.Shipp on the above subject. This was to the effect that Region IV were diverting traffic from Route 6 and putting it onto Route 7 wherever possible.

2. A further communication has been received from Region IV today since the above conversation took place saying that Route 7 is also getting congested. R.C. Region IV is endeavouring to turn as much civilian traffic as possible off both routes and putting them wherever possible onto side roads. It is realised that it is not possible to keep harvest traffic entirely off the main routes but it is considered that every possible effort should be made to keep both route 6 and route 7 clear.

EXECUTIVE INSTRUCTION)
NUMBER 67) 5 July 1944.

TREATMENT OF ITALIAN OFFICIALS DISCOVERED IN AXIS TERRITORY.

1. Inasmuch as the Directive and the separate Memorandum of the Chief Commissioner both dated 26 May 1944 have given rise to a few questions, the following constitutes a revised and consolidated directive, designed to meet these questions and possibly to forestall others.

2. Many of the Italian officials in the area north of the line marking the beginning of the recent offensive were placed in office by the so called Republican Fascist Government or by the Germans. Others, however, may, despite their hostility to the Fascist Government, have been compelled through coercion to remain in office or through devotion to duty may have chosen to remain and serve their people. Others stayed at their posts for some months and then for alleged fear of persecution deserted. It is impossible at a glance to say in which of these classifications a particular public servant should be placed. Obviously many of the first classification, particularly those highly placed, will have fled before our advancing troops, but on the other hand many will remain and these must be dealt with in accordance with this directive.

3. The object of AMG is to rid the country as we go through it of the important fascist head of persons put in office by the Republican Government. While many important functionaries are not necessarily men who are now holding important administrative posts consideration of expediency make it necessary for AMGOT and SCAO to confine themselves to an examination of those holding the most important posts.

For this purpose two lists have been prepared and are attached hereto. List A contains a list of Italian governmental and ministerial offices which should be cleared of fascist personnel as quickly as possible as the offices are important. The list contains three categories in order of importance.

List B contains a list of purely fascist offices and serves as a guide as to what type of fascist party members are particularly obnoxious.

4. These two lists will normally be used together. Thus if you find a person who occupies one of the offices in List A and who has had one of the party affiliations contained in List B he is likely to be an official to be removed at once.

Should an official holding office in List A who has newly been put into office by the fascist-Republican Government should be discharged whether or not he belongs to one of the fascist offices contained in List B.

2. Many of the Italian officials in the area north of the line existing the beginning of the present offensive were placed in office by the so called Repubblica Fascist Government or by the Germans. Others, however, may, despite their hostility to the Fascist Government, have been compelled through coercion to remain in office or through devotion to duty may have chosen to remain and serve their people. Those stayed at their posts for some months and then for alleged fear of persecution deserted. It is impossible at a glance to say in which of these classifications a particular public servant should be placed. Obviously many of the first classification, particularly those highly placed, will have fled before our advancing troops, but on the other hand many will remain and these must be dealt with in accordance with this directive.

3. The object of AMG is to rid the country as we go through it of the important fascists and of persons put in office by the Repubblican Government. While many important fascists are not necessarily men who are now holding important administrative posts consideration of expediency make it necessary for AMG and NGA to confine themselves to an examination of those holding the more important posts.

For this purpose two lists have been prepared and are attached hereto. List A contains a list of Italian governmental and ministerial offices which should be cleansed of fascist personnel as quickly as possible as the offices are important. The list contains three categories in order of importance.

List B contains a list of purely fascist offices and serves as a guide as to what type of fascist party members are particularly obnoxious.

4. These two lists will usually be used together. Thus if you find a person who occupied one of the offices in List A and who has had one of the party affiliations contained in List B he is likely to be an official to be removed hereunder.

However an official holding office in List A who has merely been put into office by the Fascist-Republican Government should be discharged whether or not he belongs to one of the fascist offices mentioned in List B.

5. Officials(s) (and) any other person) regarded as potentially dangerous should in addition be locked up immediately. They may be interned or if the Italian Government requests that they be turned over to it suitable arrangements should be made to comply with the request. Whenever a person is interned a report must forthwith be made to HQ AFHQ, CA & CD Section.

6. It is understood that in carrying out the important duty of ridding the country of fascists nothing herein is intended to prejudice the right of SCAOs and DCs to dismiss and/or intern individuals at their discretion in proper cases without reference to their present official position or past fascist affiliations.

7. In Area officials of the Ministries and members of the Court of Cassation and of special courts of national, or so-called to local, jurisdiction will be dealt with by the AMG Circuit Court by Area Region. Such officials in List A are marked with an asterisk.

8. SCAOs and DCs have full discretion in the final steps to retain as a purely temporary expedient a fascist in office where the result is unsatisfactory

EXECUTIVE MEMORANDUM)
NUMBER.....66)

RELATION BETWEEN ALLIED CONTROL COMMISSION HEADQUARTERS AND REGIONS. REGIONAL ORDERS.

1. The powers delegated to Regional Commissioners are set out in Paragraph 1 of Executive Memorandum No.30, to which this Memorandum is supplemental.

2. This Memorandum is issued with the intention of clarifying the principles which should govern the publication of Regional Orders in whatever form or by whatever description promulgated.

3. Regional Orders must not deal with over-all policies, such as censorship and defascistization.

4. Matters involving long term policy (i.e. extending beyond occupation) should be done by Italian decree, or by General Order (where it will take too long to await the issuance of an expected Italian decree), and not by Regional Order. A simple machinery has been established whereby Italian decrees can be made effective in Military Government Territory by an endorsement signed by the Executive Commissioner and published in the Gazzetta Ufficiale. The above procedure should be followed whenever possible and HQ. ACC should be approached to make the necessary arrangements.

5. It is important that Regional Orders should not contravene Proclamations or General Orders. It is not permissible for a Regional Order to purport to amend or construe a Proclamation or General Order, and any attempt to do so is legally ineffective. Further it is not permissible for a Regional Order to purport to transfer to Italian Courts the trial of offences which would normally be heard before Allied Military Courts. Whenever it is desired to make any such transfer, the matter must always be referred to HQ ACC.

6. Every Regional Order is to be submitted before signature to the Regional Legal Officer, who should sign a certificate that the Order conforms

TO : G-5 Section, A.F.H.Q.

1. The Governor, Malta, informed this HQ that three Maltese students are anxious to resume their studies at Rome University. They are Richard Giovanitto, Albert A Tua and Osmail Camenr. They had studied medicine in 1936, 1937 and 1938. We have no objection provided passages can be arranged by Malta.

2. The University is now in process of defascistization and is prepared to receive these Maltese Students. The University should be in full operation this autumn and there will be some scholastic activity going on through the summer.

3. It may be considered that it is too early yet to allow students to return to Rome University and covers a wider issue than that of students, i.e. movement of civilians etc. Please say what the present policy is.

SUBJECT: Italians - Refugees.

TO : H.Q. Allied Armies in Italy.

1. Some 3000 displaced persons residing in their homes in Rome are now in the care of, but are not maintained by, the Internees and Displaced Persons Sub-Commission. Leaders of National Groups have been asked to submit lists of those requiring, on purely medical grounds, food additional to or differing from what they can now buy. Pending receipt of these lists it is estimated that some 10% will require such diet supplement.

2. The items required are milk, sugar, cocoa, cornflour, custard powder, tea and margarine.

3. All the above items except tea and margarine were authorised by you for refugees in the Southern Camps. MG 2 District 1592 (a) dated 27 April 1944 refers. Tea and margarine were not then required because tea and olive oil were included in Ration Scale 30.

4. A.C.C. Food Sub-Commission have agreed to supply milk and sugar, and your approval for supply of the remaining items is requested. Monthly requirements on the 10% basis referred to above are as below :

Cocoa	240 lbs
Cornflour	480 "
Custard Powder	240 "
Tea	480 "
Margarine	930 "

TO : Allied Force Headquarters, G-5 Section.

1. Reference is made to your G-5: 383.7-13 of 15th June, the contents of which have been discussed with the Deputy Director, Displaced Persons Sub-Commission.

2. The following remarks refer to sections of para.2 of your letter under reference:-

(a) Copies of communications relative to the movement of refugees to, or the accommodation of, refugees in PTA Camp, will be addressed to or repeated to M.G. North Africa District.

(b) Accommodation for a maximum of 2000 persons in each SNF convoy ex-Naples is possible and plans are being made on that basis.

(c) Clothing for refugees in PTA. Arrangements are being made for clothing to be provided for refugees before they leave Italy, but this will necessarily be on a limited scale. It is suggested that provision should be made for repair work to clothing to be carried out in North Africa. Requirements will include needles, sewing cotton, thread, sewing machines, and cloth for patching. This arrangement has the additional advantage of providing an occupation for refugees as well as enabling them to keep respectably clad.

(d) Screening of refugees will be carried out automatically at the Transit Camp, Bari. Any further screening that may be necessary will be carried out under special arrangements to be made at Arrival.

(e) It is noted that chronic cases and the seriously ill should not be evacuated to French North Africa. A ruling is, however, required regarding V.D. cases, many of whom would probably benefit from the climate in North Africa, and also cases of "bodily mutilation", by which is meant those persons minus an arm or a leg who would require no hospital treatment, and who are, to a greater or lesser degree, self supporting.

3. Nominal rolls will be prepared and refugee group leaders appointed on exactly the same lines as has hitherto been carried out for parties to Mideast.

You will remember this file, and the action taken on it at 2. After your departure for Rome an attempt was made to find out the status of the matter from Colonel Bowman who signed the letter at 9. He was unable to give any information on the matter.

When I visited Rome on 30th June I carried the file with me with the intention of trying to find out how the matter stood and whether the Board was sitting. In your absence I consulted Colonel Fiske who was unable to give any real information. I was unable to discover whether any action has been taken or is in progress. On my return here there was still no information. Can you now find out how the matter stands and whether the report asked for in para.3 of the letter at 8 is being compiled.

1. Reference your letter G-5: 383.7-5 of 14. June, enquiries have been made of Displaced Persons Sub-Commission in Bari and at other camps, and also at Displaced Persons Sub-Commission Headquarters regarding the enquiry contained in the above-quoted letter.

2. It is regretted that no definite information can be given.

3. It is, however, suggested that:-

(a) the "tested Jewish group" may refer to these Zionists to whom certificates had been issued before the Allied occupation and who were discovered at Ferramenti Camp;

(b) "1 P.W. Transit Camp, CMP" is now No.1 Transit Camp, Bari, Displaced Persons.

4. If the suggestion in (a) above is correct, this "tested Jewish group" is now in Mideast, having formed part of the 313 family groups recently despatched. Should any of this "tested Jewish group" not have been included in the party mentioned above, the elements will still be at Ferramenti. They are not at No.1 Transit Camp, Bari.

TO : R.C. Region V.

1. Reference your R5/511/17 of 27 June 44, addressed to Rear Hq, your attention is drawn to our letter 278/188/CA of 29 June 1944.

2. Your original letter of 9 June 44 asked for certain proclamations and orders to be forwarded to you stating that "at the moment there is no need for any further deliveries but it would be appreciated if the totals of the proclamations and orders could be brought up to 4300 in due course". There was no intimation of urgency and the only other information we had from you was on 23 June when you stated they were urgently required and the necessary copies were forwarded to you on 26 June 1944. Partial action was taken on your original letter and then full request was met on receipt of your second letter.

3. Legal Sub-Commission advised this Hq. on the 13th that you desired copies as soon as possible. At that time the matter was in the hands of the printers and we had to wait until the printer had run off some more copies. Your reference to repeated request is therefore not understood.

4. Legal Sub-Commission have also advised you that the old Proclamations No. 3 and 12 are out of print. This Section has none of these old proclamations in stock as they were handled by Legal Sub-Commission. We are however asking Region III if they have any on hand and if this is so, we shall forward them to you. It is suggested that you might reconsider having copies printed. We are prepared to assist but it is pointed out if you wish us to have these printed it will take a little time as the printers are very busy at the present with proclamations, orders etc.

5. With regard to old General Orders Nos. 18 and 20, this is not understood here as there were no old Orders of such numbers. Copies of Order No. 20 have been forwarded to you and copies of No. 18 will be sent to you as soon as possible.

SUBJECT: ACC/AMG Certificates of Employment.

TO : Distribution below.

1. The classes of person liable to call-up for service with the Italian Armed Forces are, at present, those males born between 1913-1924 (inclusive).

2. The mechanics of call-up are as follows:

a. The Italian Military District (of which a list in given in Appendix "A") sends a post-card (Cartolina di Procetto) to the address of the person concerned, directing him to report to the Commando Forze Armate (located in the same areas.)

b. If a person fails to report he is technically a deserter and the Carabinieri are informed and make the necessary enquiries.

c. Persons who can prove that they are working for Allied Services are exempted with some exceptions.

3. This system has lent itself to abuse in that persons within the prescribed classes obtain employment with Allied Authorities, work for a few days, are granted a certificate of employment whereby they secure exemption from call-up and then leave their employment and the purpose of this directive is to put a stop to this abuse.

4. A. Branch, Hq. A.A.I. have requested that a monthly report be made to them, showing the number of persons exempted, and the trades in which they are employed. In order that this can be done Regional Commissioners and Headquarters Commandant will submit to this Hq. at once on Pro-forma attached, a return of such persons to whom a certificate of exemption has been given, and the trades in which they are employed.

5. When a male person within the prescribed ages leaves the employment of ACC/AMG his particulars will be immediately reported to the local Italian Military District who will take steps to withdraw his exemption certificate and will institute enquiries through the local Carabinieri to ensure that the person is conscripted into service.

6. It is suggested that this matter could best be handled in Regions through the office of the Provincial Police Officer and at Headquarters through the Employment of of the Hq. Commandant.

4594

7. A thorough check should now be made to ensure that Italian Military Districts are informed of any person who has been issued a certificate of employment in ACC/AMG service, but is now no longer in such.

7. A thorough check should now be made to ensure that Italian Military Districts are informed of any person who has been issued a certificate of employment in ACC/AMG service, but is now no longer in such.

8. In future such certificates of employment will be issued only in very exceptional circumstances, i.e. where the person concerned is irreplacable. A return will be rendered to this Hq. on the 30th of each month of all amendments to the original list. The first return will be made on the 15 July 1944.

9. While this procedure is designed to cover only those persons who fall within the call-up categories, it is obviously inadvisable that any person who has left the service of ACC/AMG should be in possession of any type of current employment certificate, badge or pass and, therefore, every step should be taken to withdraw such certificates, badges or passes as soon as employment terminates. When any person leaves the service of ACC/AMG and fails to surrender his certificate, badge or passes, enquiries should be instituted for their recovery by the local police agencies, and the matter reported direct to the Italian Military District concerned.

AGS A37/GS/7a.

22th June 194a.

SUBJECT: Extract from AGS 5 Army sitrep, 21-22 June.

TO : Vice President, Economic Section.

Following is excerpt from situation report 20-21 June received from DCAO, AGS Fifth Army.

"6. Agriculture.
It is now understood that binder twine will not be available, which will severely handicap large farmers using modern machinery. Distribution of fuel supplies is a very hard to wrath affair - owing to the rigidity of the recent scheme no stockpiles are yet available in the Army area to draw from, and the Germans left very little behind them. There are urgent calls for bolting for the large modern grain elevators in the coastal area which are otherwise undamaged; further demands are anticipated for threshing machines in the near future. Supplies of General Order No.26 finally reached this Headquarters on June 20th and will be posted in all newly occupied communes in future.

Cases are occurring of military units occupying important grain elevators, warehouses, etc., but these are being drawn to the attention of the appropriate Staff Branches. Units are found quite co-operative when the position is explained to them and it should be said that ignorance is the chief cause for breach of Army standing orders.

7. Supplies.
In view of the uncertainty of our supply lines the ration of bread has been retained at 100 grammes even in this grain producing area. This is expected to be only a temporary measure.

With the fall of Piombino expected at any moment a new phase will soon begin. Arrangements have been completed with the Fifth Army for the unloading there of 175 tons daily as soon as ships are arriving. The assignment of another DUKW platoon will help the transport problem considerably. The Westwood ammo depot is now being moved forward to Castiglioni.

In the absence of Italian officials it is impossible for AMG officers to make anything but a very superficial survey. However there is no doubt that substantial quantities of grain exist on farms and in some warehouses. However it is impossible in the first phase of operations to get this distributed to places where there is a shortage of flour and in any case the mills are usually found to be damaged and in need of repairs and restoration of power. Some flour is therefore needed in many grain growing communities in the first few days otherwise the chief needs of the population are for sugar, salt (also needed for cheese-making) olive oil and soap.

Declassified E.O. 12356 Section 3.3/NND No. 785017

6. Agriculture.

It is now understood that timber twine will not be available, which will severely hamper large farmers using modern machinery. Distribution of fuel supplies is a very local to month affair - owing to the rapidity of the recent advance no stockpiles are yet available in the Army area to draw from, and the Germans left very little behind them. There are urgent calls for bolting for the large modern grain elevators in the coastal area which are otherwise unmanageable further demands are anticipated for threshing machines in the near future. Supplies of General Order No.26 finally reached this Headquarters on June 29th and will be posted in all newly occupied communes in future.

Cases are occurring of military units occupying important grain elevators, warehouses, etc., but these are being drawn to the attention of the appropriate Staff Branches: units are found quite co-operative when the position is explained to them and it should be said that ignorance is the chief cause for breach of Army standing orders.

7. Supplies.

In view of the uncertainty of our supply lines the ration of bread has been retained at 100 grammes even in this grain producing area. This is expected to be only a temporary measure.

With the fall of Pisa/Leg expected at any moment a new phase will soon begin: arrangements have been completed with [illegible] Army for the unloading there of 175 tons daily as soon as ships are arriving. The assignment of another MAM platoon will help the transport problem considerably. The Westbrook mobile depot is now being moved forward to Castelfranco.

In the absence of Italian officials it is impossible for AMG officers to make anything but a very superficial survey: however there is no doubt that substantial quantities of grain exist on farms and in some warehouses. However it is impossible in the first phase of operations to get this distributed to places where there is a shortage of flour and in any case the mills are usually found to be damaged and in need of repairs and restoration of power. Some flour is therefore needed in many grain growing communities in the first few days: otherwise the chief needs of the population are for sugar, salt (also needed for cheese-making) olive oil and soap.

8. Labour.

Complaints have been received that the German controlled wage rates were higher than those paid by the Allies. If this appears on further investigation to be a legitimate and widespread complaint the matter will be taken further. Liaison is being maintained on this matter with G-5 Fifth Army. "

Without this oil the agricultural machines will not be able to reap the harvest. I have no doubt that specific demands have been made by Armies and Regions. If so I would only stress the importance of this as seen in the field. If they have not done so, can the matter be taken up in principle and their specific demands asked for.

2. There was a similar demand for the immediate despatch of electrical engineers to Regions 5 and 8 in order to re-establish the hydro electric system.

MINISTERO DELL'INTERNO

Directorate - General Civil Administration

N. 15949-3-9 Salerno 17 June 1944

SUBJECT: Assistance to Children of Prostitutes in VD Hospitals.

TO: All Prefetti of Liberated Provinces.
The High Commissioner, Sicily.
The High Commissioner, Sardinia.
The Prefetti of Naples, Benevento, Avellino, Foggia and Campobasso.

This Ministry has been notified that frequently prostitutes cared for in VD Wards are obliged to keep their children with them during their stay, for lack of anyone to care for the children.

Such conditions in addition to being a disturbance to the normal course of hospital activity, are harmful to the children themselves because of the serious moral effect which they may have on the minds of children often in an impressionable stage of development, who are in contact with such an environment.

Your Excellencies are authorized, therefore, in the above mentioned cases to arrange for the care of the children in question in the most suitable institutions for the period of the mother's stay, assuming there are no relations with whom they may be placed.

It remains understood, however, that the children must be returned to the mothers as soon as the latter are released from hospital.

The expenses of the stay are the responsibility of this Ministry. Your Excellencies will take care to notify the Ministry of the children so placed and afterwards submit the relevant account.

OGGETTO: Assistenza ai bambini figli di prostitute ricoverate nelle sale celtiche.

ALLE LL.AA. I PREFETTI DELLE PROVINCE LIBERATE.
A.S.E. L'ALTO COMMISSARIO CIVILE PER LA SICILIA.
A S.E.L'ALTO COMMISSARIO CIVILE PER LA SARDEGNA.
ALLE LL.EE. I PREFETTI DI NAPOLI BENEVENTO, AVELLINO, FOGGIA, CAMPOBASSO.

E' stato segnalato a questo Ministero che spesso le prostitute ricoverate presso le sale celtiche sono costrette a tenere presso di sè durante la degenza, i propri figli, non avendo a chi affidarli. Detta circostanza, oltre a generare intralcio per il normale svolgimento dell'attività ospedaliera, è deleteria per gli stessi bambini a causa delle gravi ripercussioni morali che si verificano sul loro animo quando, spesso in condizioni di sviluppo, vengono a trovarsi a contatto di un tale ambiente.
Si autorizzano, pertanto, LL.EE., nei casi suddetti, a disporre il ricovero dei bambini di che trattasi negli istituti ritenuti più idonei, per il periodo di degenza delle madri, e sempre che manchino parenti cui possono essere affidati. Resta intesa, però, che i bambini stessi devono essere riconsegnati alla madre non a mano giunte saranno dimesse dall'ospedale.
Le spese di degenza saranno a carico di questo Ministero, al quale le LL.EE. avranno cura di segnalare, volta per volta, i ricoveri disposti e di far pervenire poi le relative contabilità.

Regional Commissioner, Rome Region.

1. Negotiations are proceeding for the establishment of a controlled national scheme for the distribution of coal and coke for essential requirements and in due course full instructions on procedure will be issued.

2. Until such time as the scheme can be put into operation the present system will remain in force, whereby the Coal Section attached to A.F., A.A.I., will make coal and coke available to essential consumers.

3. It is appreciated that certain Regions may not be acquainted with the method of application for coal and coke, and for their guidance, it is essential that the following information accompanies the formal application on ACC Form, M.A.T. 10.

a. For what industry the coal or coke is required.

b. A statement that, after examination, in your opinion, the demands are reasonable and necessary for the particular requirement under review.

c. A detailed statement of the requirement, stating type of plant, daily consumption, and the disposal of the product.

d. If disposal is to the Military, a confirmation from them as to its Military necessity.

4. Demands will only be considered in this form and with the exception of those for Region II, should be sent to THE COAL DIVISION, A.C.C., H.Q., who will arrange to place the applications before the Coal Section, A.A.I., for them to arrange the release.

5. Those for Region II must be put through the Coal Section at No. 2. District, where arrangements have already been made to satisfy a screened demand.

Thank you for your letter R/2125 of 15th June. I suspected there was another side of the story and I think you have acted wisely. I agree that the case has been magnified out of all proportions but that is to be expected at the present moment. I will not issue a directive.

I agree with your interpretation of the sub-para quoted in your paragraph 3 but where there is no Italian military attached to the A.C.C. in the locality (which I presume will be abnormal), then I suppose the soldier will have to be sent back to his unit.

SUBJECT: Deceased Italian P.W.

TO : P.C. Region V.

1. On 26 October 1943 cable notifying death of Italian P.W. CILENTI Domenico was forwarded to AMG 15th Army Group for transmission to the next of kin; his mother Margherita Tavaglione Cilenti, Via Arbusto 5, Naples.

2. It appears that this is the only information the relatives have received with regard to his death, though the normal particulars were given to the International Red Cross Committee and the Protecting Power in the Official List.

3. Will you please transmit the following details to Signora TAVAGLIONE Margherita through the Ufficio Comunale di CHIETI (Foggia), where she is now residing.

"This prisoner of war died on the 21st October 1943, the cause of death being malignant hypertension. He was buried with military honors in a cemetary in the vicinity of the hospital in which he died, on the 26th October 1943.

The Prisoners of War Bureau does not furnish death Certificates, the entry on the Bureau's Official List being deemed to be sufficient evidence of death.

The following effects are held in the custody of the Bureau and will be sent to the Italian Government in due course for transmission to the next of kin:-

Identity Papers	Photographs
Rosary	Personal papers
Prayer book	Exercise books
Religious Pictures	Crayon sketch
Scapular	Purse

TO : R.C. Region III.

1. In reply to your letter R/326/3 of 12 June 1946, I am glad to say that A.A.I. have agreed to relax the restrictions on civilian movement to the extent of allowing free movement between Provinces within the Region of CAMPANIA with effect from 1 July 1946.

2. From that date therefore there will be no restriction of civilian movement south of the northern boundaries of the Provinces of BARI, FOGGIA, AVELLINO, BENEVENTO and NAPOLI. North of this line the present restrictions remain in force as laid down in General Order No.11.

3. A.A.I. are anxious that a comprehensive system of "stop" movement check posts should, however, still continue to be operated throughout your Region and you will make arrangements in conjunction with the local military authorities to see that this is done.

SUBJECT: Veterans Administration Cases.

TO : American Consul General.

1. Further to conversation with Mr. F.J.Stanvell regarding this subject, it has been decided that your Consulate should communicate direct with the Minister of Interior in the Italian Government for cases occurring in Regions I, II, VI, VII and part of Region III (see appendix for composition of Regions).

2. With regard to the remainder of Italian territory now in our hands it is regretted that for the time being no work of this nature can be accepted by Regional Commissioners except in the case of Region III (Provinces of Naples, Avellino and Benevento). The papers in such cases may be addressed to R.C. Region III (Portici-Ercolano, Naples) direct. Copy of our letter to R.C. Region III is attached.

3. The extension of the facilities to the remaining regions will be considered later. When further territory is handed over to the Italian Government you will be informed and the facilities indicated above will be automatically extended to that territory.

4. Would you kindly indicate if this meets with your wishes or whether there is any alteration that could be made that would further facilitate.

5. It is regretted that so much time has elapsed since our first communication. You will appreciate that there has been much to do during the past few weeks.

SUBJECT: Veterans Administration Cases.

TO : R.C. Region III.

1. Investigation of cases in foreign lands on behalf of the Veterans Administration was in normal times conducted through the Consulates General. In Italy the subsequent procedure was to ask the CC.RR to make the necessary investigation, complete and return the forms.

2. With the re-establishment of the American Consulate General in Italy, requests for investigation are being received and will be passed to Regional Commissioners direct.

3. The papers in each individual case should be passed for completion to the Provincial Commissioner concerned. The utmost use of the CC.RR. should be made, though it is requested that Provincial Commissioners give the matter their attention in order that the papers should be complete before return in order to save further correspondence.

4. Completed forms and documents may be returned to American Consulate General direct.
