SUBJECT: Sitreps and Grain Reports.

TO : R.C. Region III

1. Your Sitrep for period "Y" is acknowledged.

2. With reference to the last portion of it dealing with grain reports it is hoped that for period "Z" you will include the information in the form requested in our signal dated 20 July 44 viz:

a. total quantity of grain collected for preceeding 7 days,
b. total quantity of grain collected to date and
c. any other interesting details on grain collection.

3. Your additional signal of 25 July gives part of the information required so we are filing this with your Sitrep but if all the information could be given in future with the Sitrep it would be appreciated.

4. We should make it clear once again that this request for grain information in the Sitrep is not connected with the return you have to make for the Agriculture Sub-Comm. though no doubt you will use the same source of information.

SUBJECT: Maltese Students.

TO : His Honour the Lieut. Governor of Malta.

1. Reference is made to your Signal GM 86 of 29 June 44 regarding three Maltese students who are anxious to resume their studies in Rome.

2. The matter has been taken up with AFHQ and investigated and there is no objection to their resuming their studies from an educational point of view. A final decision cannot be given on security grounds without further personal information. It is felt however that to permit these students to return to Italy just how would create a precedent which we should like to avoid at this time. On the general question of allowing people to reenter Italy while it is a theatre of operations AFHQ consider that this should only be permitted when it would be beneficial to the war effort.

3. In the circumstances and unless further facts are brought forward we regret permission cannot be given.

2. It is as you know a policy that ex fascists as defined by Executive Memorandum No. 67, will not continue to be employed on the ground of special knowledge or ability.

3. The responsibility for defascistization is the Italian Government's and it would be most improper for us to interfere with their decisions. Action is only called for by us when they fail to remove fascists.

4. If you still consider there are grounds for reopening of the case then it could go before the Ministerial Commission when it is formed.

His Excellency Sir D'Arcy Osborne
British Minister to the Holy See

Dear Mr. Minister:

The Rome Allied Area Command has addressed itself to the Commission with reference to the use, as a dispensary, of the premises of the Irish College holiday villa of Formia by Italian medical personnel for the treatment of civilian sick and wounded. This building has not been requisitioned by any allied military commander. However, the hospital in Formia was destroyed by shellfire and so much other damage has been done to the town that there would be little choice in the selection of shelter for the civilian sick and wounded from the few buildings that remain standing.

In the circumstances, it would appear proper on humanitarian grounds to continue the use of the villa until such time as the rehabilitation of the town may make other accommodations available.

I would be grateful if you could assure me that this action meets with the approval of His Excellency, the Minister of Eire to the Holy See.

SUBJECT: Repatriation of Agriculturists.

TO : R.C's Regions I, II and VII.

1. I have been informed by Italian Officials in Rome, that unless the repatriation of Agriculturists - who had been sent South and now wish to return to their homes - can commence promptly, there may be serious trouble amongst this community in your Regions.

2. I am inclined to discount those statements, because were they true you would no doubt have reported the matter and advised this H.Q. of your views. In view however, of the rumours reaching me, will you please report on the matter by return.

3. This Hq. has every sympathy with the desire to repatriate the civilian population to their own homes as early as possible. This desire however must be subordinated to military interests, and the latter debar for the moment the diverting of any considerable effort towards the general repatriation of the Italian (Displaced) population.

4. It is hoped to get this movement started during the summer. It demands trains, feeding arrangements and transit camps, and the Italians require our assistance. We shall give them this, and help them to get this work started as soon as possible. There is no objection to passing this information on to the Italian authorities if you wish to do so.

1. The Executive Memorandum is not considered sufficiently clear on the procedures for sales of captured (Italian or German) medical supplies which have been turned over to AMG/ACC by Army Units. To clarify the memorandum the following amendment should be added to para iv D thereof:

"Captured medical supplies which have been turned over to the Public Health Officer of a Region or AMG Army may be sold at prices set by the Public Health Officer of the AMG/ACC unit. Payment for these supplies will be made by the receiving agency (consignee) to the nearest Finance Officer or Sub-Accountant. Payment should be made prior to delivery of supplies if possible. Where this is not practicable the Public Health Officer will notify the Finance Officer of the name of the customer and the amount which he shall pay; on receipt of the payment the Finance Officer will inform the Public Health Officer. The Issue voucher on which captured supplies are sold will clearly indicate that these supplies are captured supplies and not imported Allied supplies."

ACCOUNTING FOR IMPORTS

1. The attention of all Regional Commissioners is called to the following instructions which were originally issued on 13 March 1944 by the Economic Section. These instructions have not been followed out in some Regions and much time and labour has subsequently been wasted in rectifying errors which would not have arisen had the instructions been complied with in the first case.

2. Various Sub-Commissions and Regional Divisions other than the Economics and Supply Division have occasion to import goods into Italy. It is essential that the accounting procedure should be understood by all such Sub-Commissions and Regional Divisions.

3. Accounting for all imports will be handled by the Economic and Supply Divisions of the Region into which the goods are imported irrespective of which Sub-Commission or Regional Division is responsible for their import.

4. When Sub-Commissions and other Divisions import goods which are delivered to AMG/A.C.C., warehouses, the accounting procedure will follow automatically on the normal warehouse procedure for receipt and issue of goods and no special notification to the Economics and Supply Division will be required.

5001

5. Where, however, goods imported by any Sub-Commission or Regional Division other than the Economics and Supply Division do not pass through any AMG/A.C.C. warehouse, but are delivered direct to the customer, the Sub-Commission or Regional Division responsible for their import must notify the Economics and Supply Division of the Region into which the goods are imported in order that the supply accountant

22nd July 1946.

With reference to your letter 16/C.T./104(C.A.2) dated 25th June, I have made enquiries regarding the Italian Society of the Performing Right Protection and have to report that most of the members of the staff were obliged to go North with the Republican Government. Two officials, however, remained, and are carrying on with their work. These are Dr. Di Pietro, dealing with theatres and music, Dr. Salen dealing with poems and books. Dr. Di Pietro is working in consultation with the Property Control Section, AMG Rome Region, who have already authorised him to go ahead on the basis of collection of approximate payments for plays and musical compositions

The question of books has come to the fore recently and Dr. Salen has been given the same authority for foreign copyrights.

Your AFC/4163/L of 21st July.

The problem of rehabilitating refugees is the responsibility of the Italian Government. The proper Branch in this Commission to deal with it is in my opinion the Italian Refugee Branch (not Sub-Commission). The Director of this Branch will deal with Caldbeck on all matters of co-ordination with the Italian Government but from time to time the Minister of Interior may be involved and in this case Colonel Bellis will seek your aid, which I know will be freely given.

SUBJECT: De-requisitioning of University of CATANIA.

TO : Headquarters, Allied Armies in Italy.

1. Although a year has passed since the commencement of the Sicilian invasion, the University of CATANIA, the first Italian University to re-open under Allied auspices, is still seriously hampered in its activities by the occupancy of its premises by our troops.

2. (a) The Palazzo which normally housed the library, secretariat, Rector's offices, and the schools of law and of letters, is used by the British EDA, with the sole exceptions of the library and secretariat (the former is without chairs).

(b) The Botanical Gardens and their buildings are now in the hands of the Army Welfare Service, 56 Area. On latest inspection, the building of the Botanical Gardens much needed for scientific work, was used as a billet for twelve soldiers.

3. Now that the Allied garrison in Sicily has been much reduced it is probably possible, although perhaps inconvenient, to find alternative accomodation for these two welfare organisations. While hesitating to disturb the amenities of Allied troops the resuscitation of education is a responsibility of this Commission and I therefore would ask that the University be de-requisitioned as soon as possible, in any case before 1st September so that it may be made ready for the new term.

SUBJECT: Percentage of Ration Card Holders.

TO : Regional Commissioner,
Regions I, II, III, IV, V, VI, VII,
VIII, IX and ROME Region.

1. In my 1003/274/CA of 12th May I told you that the Chief Commissioner required from you an estimate based on reality of the number of people in your Region entitled to ration cards, and a rigid scrutiny in order to restrict entitlement to those who are in need of national food.

2. At the last Regional Commissioners' meeting you produced your estimates which gave an average of 71%. But you have not yet reduced the ration cards to a number approaching that figure and at this moment no less than 87% of the population are receiving the increased ration of 300 grams.

3. The Chief Commissioner obtained approval for this increased ration on condition that the percentage of people entitled to receive it did not exceed 65% of the population.

4. At the moment, therefore, the Commission is exceeding its authority and drawing on its reserve to the extent of 22%: 16% of this overdraft is due to failure in the Regions to effect the necessary reductions.

5. This state of affairs clearly cannot continue. An immediate actual reduction must be made if the 300 gram scale is to be continued.

6. The latest statistics obtained from Regions show that actual entitlement percentages are as follows:-

Region I	-	66.9%
Region II	-	69.5%
Region III	-	79.0%
Region IV	-	73.8% (Includes BMT Region)

Region entitled to ration cards, and a rigid scrutiny in order to restrict entitlement to those who are in need of national food.

2. At the last Regional Commissioners' meeting you produced your estimates which gave an average of 71%. But you have not yet reduced the ration cards to a number approaching that figure and at this moment no less than 87% of the population are receiving the increased ration of 300 grams.

3. The Chief Commissioner obtained approval for this increased ration on condition that the percentage of people entitled to receive it did not exceed 65% of the population.

4. At the moment, therefore, the Commission is exceeding its authority and drawing on its reserve to the extent of 22%: 16% of this overdraft is due to failure in the Regions to effect the necessary reductions.

5. This state of affairs clearly cannot continue. An immediate actual reduction must be made if the 300 gram scale is to be continued.

6. The latest statistics obtained from Regions show that actual entitlement percentages are as follows:-

4974

Region I	-	66.9%	
Region II	-	69.5%	
Region III	-	79.0%	
Region IV	-	73.9%	(Includes ROME Region)
Region V	-	57.9%	
Region VI	-	66.7%	
Region VII	-	70.0%	
Region VIII	-	69.6%	

7. An actual reduction must be effected by 15th August to the figures shown above. Registration of growers entitled to retention allowance should be accelerated on the forms provided: Prefects should be instructed to open a registration centre in each commune: persons failing to register will automatically forfeit entitlement to a ration card: a vigorous scrutiny must be made: a drastic reduction must be effected. Complete returns will be despatched to HQ ACC not later than 5th August 1944.

8. On 15th August the revised allocation and authorised consumption based on the new figures will become effective.

1. I enclose extract from minutes of a meeting held at this Headquarters on the general subject of control of civilian movement.

2. This particular point was brought up by me arising out of my visit to you and has at least cleared up one point viz: that AAI are not involved. I said at the meeting that I would write to the Navy but it occured to me that that would be a lengthy procedure as FOWIT would only have to refer to the Navy1 Commander at MESSINA.

3. I am therefore writing to you instead to see whether you can get your Provincial Commissioner to find out from the Senior Naval Officer there what is the nature of the restrictions imposed by him on movement across the Straits in either direction. Is there any objection to Italians being issued with passes, either by you in Sicily or by other Regional Commissioners on the mainland, to go to places which involve crossing the Straits of Messina by the Ferry. If there are could you please let me know, adding any suggestions which you have so that I can then tie the matter up and issue an instruction to all concerned.

Ref/316/76/CA. 26 April 1944

SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V, and VI.
S.C.A.O's Fifth & Eighth Armies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralise as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission Officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulations will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an AMG pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the AMG authority of the area into which they intend to travel.

(b) Territory under AMG.

In Territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e., civilians in this area will be forbidden to travel from one province to another without an AMG pass.

In Territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e., civilians in this area will be forbidden to travel from one province to another without an AMG pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from AMG territory into King's Italy and vice versa.

4957

3. Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by Allied Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'snap' check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with P.S.S. or C.I.C., Units.

Declassified E.O. 12356 Section 3.3/NND No. 785017

The object of these check posts will be : (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of 'snap' check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation, and investigation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces

Declassified E.O. 12356 Section 3.3/NND No. 789011

(c) Organisation and Composition.

This system of check posts will be organised by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.P./C.I.C., S.I.M. (C.S.), CC.RR and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioner.

The procedure described in para (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the SCAO or PC of the area of destination.

Declassified E.O. 12356 Section 3.3/NND No. T85011

(d) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Foggia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questore or CC.RR to issue passes for inter provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMG/ACC officers.

(i) Semi-Permanent Passes.

Declassified E.O. 12356 Section 3.3/NND No. 789014

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specified and approved officers of the Questore or CC.RR to issue passes for inter provincial travel. It is emphasised, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMG/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

4956

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AMG/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAO/PC of the destination for approval; signature and return.

5. It will be seen that in future, Provincial Commissioners will be authorised under certain circumstances to issue passes for entry into Army areas or Foggia Province without prior permission from the point of destination (vide 4 (c) and further that the movement of members of Italian Military Forces is unrestricted, (vide 4 (g)).

2. The matter was referred to Adm Sec for comment who state they discussed the matter with the Education Sub-Commission who have already had some discussions with an earlier Minister of Education on this point. They feel:-

(a) No ministry after restoration of territory would be willing to continue paying the teachers salary in addition to the salary received from the Allies, but

(b) while the teacher continues in employment by the Allies the Ministry would be willing to keep the teachers job open for them.

3. This is considered fair and just and para. 1 of Regional Order 16 will probably be revoked, after negotiation with the Minister of Education.

4. In the meantime it is suggested that if you are contemplating issuing an order on these lines, paragraph one should be omitted.

MINUTES OF CONFERENCE HELD AT HQ. AAI
19 July 1944.

Twenty Seven Officers were present including :

2 from each Section - R.C. & M.G., Admin. Economic, & Political.
3 from Fifth & Eighth Armies (each).
1 from Regions IV, V, VIII (2) & IX.
and reps from - Establishment Branch, Civil Affairs Branch, Refugee Branch, Patriots Branch, Displaced Persons S/C.) R.C. & M.G. Sec.
and Liaison Officer at HQ. AAI.

ACTION

1. Supply Officers.

Armies and Regions were asked to accept the present ceiling of officers with the possible addition of 200 further British Officers. This was discussed and it was stated that there were no difficulties generally with the exception of Supply Officers. It was thought that there might be a surplus in other Sub-Commissions, (possibly Public Safety ?). It was suggested that Establishment Branch take up with Adm. and Econ. Sections to find 20 - 30 officers and then run a short course of about two weeks for their instruction.

Est. Br.
Adm. Sec.

2. Organization of Region IX.

With the military operational organization it might be necessary to follow suit in Region IX by splitting it into two. The right flank on the Adriatic coast would consist of individual Provinces with POLCORPS but could, if necessary, be temporarily looked after by Region V, from a Headquarters point of view.

3. Regions North of the Apennines.

Region IV stated they wanted a strong team of Economic experts at Regional Headquarters in the early stages. Armies felt the same need but to a slightly lesser extent. This was likely to be felt more keenly the nearer we got to the industrial Regions in the north. After discussion it was thought better to send Italian civilians up as soon as possible in order to make a survey of vital plants and industries. SCAO Army had no objections provided their permission was asked and the Italians were screened. This is the normal procedure and could easily be followed. Economic Section to obtain the views of their Sub-Commissions on this point.

2941

Econ.Sec.

4. Political Section.

They asked for every support to be shown by CAO's in forward areas and Provinces to the present Italian Government. Need was felt for bigger and stronger teams of Italian officials. After discussion it was thought that certain suitable Italians might be found in the towns when they were captured who could be employed and that therefore it would be more suitable to have a pool of officials rather than a team. Admin Section listed the officials required, and would take action.

Adm.Sec.

ACTION

5. Patriots.

(a) Col. McCarthy handed out copies of the new memorandum giving a general directive on Patriots and the terms of reference of the Patriots Branch. He explained briefly this document to Armies and Regions, who had no comments. 2,000 of the new Patriot Certificates were also distributed to each Army. This would be enough for immediate needs and further supplies were being printed.

(b) Policy. The policy is laid down in the memorandum which had been agreed by all concerned and was quite clear except for the re-habilitation of those young Patriots who wished to continue fighting as Patriots and not join the Italian Army. The Executive Commissioner said that there was only one Italian Army. The Patriots must be absorbed into civilian life. (It might however be possible to train some of those young men for mine clearance duties, see later para.6 (c)).

(c) Regions and Armies were asked if they wanted more Patriot Representatives. The ones initially sent up had all arrived and though it was early to say how satisfactory their work was it appeared to be doing well. Patriot Reps were not to engage in local government or political activities. Widespread publicity should be given to the ACC organisation for Patriots and the duties of all concerned therein.

P.R.O.

(d) Military re-employment. Recruiting by MMIA has generally not begun. All agreed that recruiting agents must be right forward. Many Patriots are reluctant to put on uniform and be sent to rear areas to drill on a barrack square, but if they wanted to fight this would be essential. The Executive Commissioner would take this up with General Browning.

R.C. & M.G. Sec.

(e) Patriot Committee for ROME. Col. Poletti is starting a Committee for ROME. Names must be given to R.C. & M.G. Section and Political Section to approve before the Committee is finally set up.

C.A.Br.

(f) It was emphasised at the end of this discussion by the Executive Commissioner that ACC's main job with Patriots was civil rehabilitation.

6. (a) Displaced Persons. Col. Findlay asked if there would be [illegible] for Italians who held our P.W. in the shape of the

(c) Regions and Armies were asked if they wanted more Patriot Representatives. The ones initially sent up had all arrived and though it was early to say how satisfactory their work was it appeared to be doing well. Patriot Reps were not to engage in
P.R.O. local government or political activities. Widespread publicity should be given to the ACC organisation for Patriots and the duties of all concerned therein.

R.C. & M.G. Sec. would be essential. The Executive Commissioner would take this up with General Browning.

C.A.Br. and Political Section to approve before the Committee is finally set up.

(f) It was emphasised at the end of this discussion by the Executive Commissioner that ACC's main job with Patriots was civil rehabilitation.

6. (a) Displaced Persons. Col. Findlay asked if there would be
R.C.& M.G. Sec. any quid pro quo for Italians who held our P.W. in the shape of the release of their relatives in P.W. Camps in England.

(b) Refugee Branch. Col. Hulls stated briefly the general policy. This was that there would be no evacuation further than was necessary and in any case none South of the line ROME - CHIETI. He was planning for up to 50,000 refugees. Both Refugee Branch and Displaced Persons Sub-Commission praised the work and organisation of the American and British Red Cross Units and Friends Ambulance Units. This was heartily endorsed by Armies.

(c) Mine Clearance. The Allied Armies will not accept the responsibility for mine clearance in any areas except for operational requirements in the forward areas. This is roughly a 20 ft. strip each side of main roads. This is now becoming a major problem in the liberated areas of Regions IV, V and VIII. It is getting worse and not better. Many Italians are killed every day, and it retards development. Some organisation is required to be set up to deal with this problem but it must be composed of Italians.

Declassified E.O. 12356 Section 3.3/NND No. 785014

ACTION

Measures taken at present consist in the employment of two mine lifting Coys of the Italian Army, one in Region IV and one in Region V. There is none to spare at present for Region VIII. These Coys are training two Italian Army Inf Coys who will eventually replace them. It was suggested that a school to train young volunteer Partisans in these duties was started. It was hoped that the Army might loan instructors and equipment. Executive Commissioner said he would talk to General Browning on this point.

R.C.& M.G. Sec.

7. Admin. Section.

(a) Col. Upjohn took up Political Section's point of having a pool of Italian officials ready for the early phases of the occupation of Italian towns.

(b) He mentioned the general policy of defascistization and stressed the importance of clearing out the leading Fascists at the earliest opportunity possible. He warned Armies and Regions against being side-tracked by the pushing forward of the smaller fry as a sacrifice.

(c) The general question of Carabinieri was discussed. The unanimous feeling was that the ceiling was too low, even if the peacetime ceiling of 60,000 was granted. Conditions in Provinces and Regions were generally bad and other police agencies such as the PAI have been disbanded, leaving the Carabinieri with extra work. Regions and Armies were requested to give their views to Admin. Section.

Adm. Sec.

8. Supplies and Transport.

These two questions are inextricably bound up together. The supply question is for the moment much better on the whole, partly due to the new harvest becoming available and partly to the fact that fairly large stocks have been captured. The transport situation is bad.

Econ.Sec.

(a) Transport. 548 GT Coy will not be available to AMG Fifth Army after the 23rd July. Col. Toscani will then have no transport to distribute from stockpiles forward. Food Sub-Commission lose the use on the 20th July of the GT Coy placed at their disposal, and will only get a 50% replacement of civilian vehicles. This will be reflected in slower building up of the stockpiles from Rail-head or Port.

Econ.Sec. fact that fairly large stocks have been captured. The transport situation is bad.

This will be reflected in slower building up of the stockpiles from Rail-head or Port.

Economic Section have no vehicles which can be produced to remedy the situation. They asked AAI for 2,000 vehicles. General Hamblen ("Q" AAI) says that AMG Fifth Army must become the responsibility of Fifth Army. Fifth Army denied this. General Hamblen has now cabled to SOS NATOUSA. However no vehicles are in sight for Fifth Army AMG for distribution after July 23rd. 940

(b) FLORENCE. AMG Eighth Army have managed to build up 10 days supplies for FLORENCE and AREZZO Province in SIENA. There is also another 1,300 tons at Railhead if transport for distribution is available. The new harvest will not help since the transport problem remains the same owing to the bringing up of POL for milling instead of the flour.

(c) ANCONA. Here POL is the problem. There is not enough transport in this Province. Col. Frena of Region V asked whether schooners could be made available. POL is chiefly required for the collection of the harvest. No.2 District are prepared to

Econ.Sec. help over this and supply all requirements of Region V in POL if AAI
Col.French approved. Col. French to take up with Col. Adams in ROME.

Declassified E.O. 12356 Section 3.3/NND No. 785011

ACTION

(d) Misc. Supplies. The need for these was stressed. They were actually required at present more urgently than flour. A fair quantity had arrived at PIOMBINO but there was no transportation for distribution. Food Sub-Commission stated that these supplies were still all arriving at NAPLES and had to be re-shipped or railed up to forward areas.

(e) Eighth Army Bread Price. Lt.Col.Spencer, Supply Officer of Eighth Army, said that he had first put up this problem to Economic Section two or three months ago, and finally three weeks ago asked for an urgent decision which was promised in a few days. He still had no answer and had to use his own discretion in fixing the price of "new-grain bread".

The main point he wants to know is what is the proportion of the subsidy. Lt.Col. Spencer is willing to fix a price on his own if he gets no instructions, but it will be uncorrelated to other prices.

9. Establishment Officer.

(a) Warned Armies and Regions that they might not be filled up to Establishment until the harvest was over in Regions I, II and V. After this there would be some officers combed out and sent forward.

Est.Br.

(b) Col. Albright suggested a Rest Home for overworked ACC officers.

10. Next Meeting.

It was agreed that subject to confirmation in a weeks time the next meeting would be held at HQ. AAI (wherever it might be) at 1100 hrs 2nd August.

SUBJECT: Security in Rear Areas.

TO : R.C's Regions I, II, III, IV, V, VI, VII, VIII and IX.
R.C. Rome Region.

1. It is known that German espionage agents are being left behind by the German Armies in their retreat northwards. In view of this it cannot be too strongly stressed that a high standard of vigilance and alertness must be maintained throughout all Regions so that these agents may be detected and placed in custody. Regions will therefore ensure that the security measures laid down by them are being carried out and that all officers and others are informed of these measures and warned to be on their guard.

2. Situations have arisen where former Fascists who have been allowed to remain in office has endeavoured to usurp more power and have tried at the same time to incorporate their doctrines into the organization administered by them. Such officials must be closely supervised and where necessary the provisions set out in Executive Memorandum No. 67 must be carried out.

3. Checks carried out on photographers have revealed that photographs have been taken of heavy guns and other war equipment. Steps should therefore be taken to ensure that cameras are not taken into forward areas by miliatary personnel.

4. Unauthorized movement of civilians presents a considerable problem and R.C's are reminded that they should take all steps possible to stop this movement. R.C's attention is drawn to directive by this Section 316/CA of 26 April 44 which deals with Provincial Movement and movement into Army and Corps Areas, copy of which was sent to you. Further instructions on this subject, slightly amending and amplifying the above quoted letter will also shortly be issued. Meanwhile action should be taken as requested.

With reference to your letter No.11006/655/CA dated 17 June 1944 it has taken some little time to trace the people you name but here is the latest information on them :

1. OMAR PASHA MAHBOUR EL KHEIRY.

2. EL HAJ RASHID BEY MAHBOUR EL KHEIRY.

We have reliable information that these two have been living in SUDAN for the last twelve months but are expected to be returning to ROME. On their arrival in ROME I will send you their address the present one not being available.

3. TAWFIK EFFENDI MOHAMED EL SAOUDY.

Has been interviewed and is well but in need of money. Has studied engineering in FLORENCE but is now in his third year in ROME. Says he has been completely maintained by the Italian Government and is undecided as to whether to return to BENGHAZI if he was allowed to do so. Lives at Piazza Montegrappa 5. ROME.

4. KHADIJA MOHAMED EL SAOUDY.

Is sister of the above and is living in a convent in Piazza Cadroli. Has not been interviewed but her brother says she is unhappy on account of her difference in faith with those around her.

Further action on 1 and 2 is not possible for the moment and before taking steps to repatriate 3 and 4, as they are brother and sister I think we should wait until we hear the views of SAYED IDRIS EL SENUSSI.

TO : Hq. No. 3 District.

1. Your letter 146/4 A of 3 July 1944 is acknowledged.

2. It is noted that there is a discrepancy between the statements by Dr. Dandona and Cpl. Rice as to the number of cigarettes found. Dr. Dandona says "about a dozen" whereas Cpl. Rice says "300".

3. Since this case was first raised a more serious case has arisen concerning another Ministers, namely Minister Pietro Mancini. For your perusal there is attached a copy of a letter from the Royal Ministry of Foreign Affairs dated 5 July 1944. It is stated in the letter that "the Corporal of the M.P. struck repeatedly young Mancini and Signor Melo with the butt of his pistol".

4. It is requested that an investigation be made into the matter and this Headquarters informed of the result so that a reply may be made to the letter.

5. In spite of the incident of Dr. Dandona, however, it is considered that Ministers of the Italian Government should not normally be the subjects of search, but that a special pass should be issued to them instead. This matter was discussed at a meeting at this Headquarters today at which a representative of G.S.I. (b) HQ. A.A.I. was present and it was decided to issue a special pass to Italian Ministers and certain other important Italian persons. This pass would state who they were, give them permission to travel anywhere south of the Army Control line and ask that every facility and courtesy should be extended to them. This would not entitle them to immunity from search, but they should not normally be stopped and searched unless there is reason to suspect any irregularity. Special instructions on this subject will shortly be issued.

CONTROL OF CIVILIAN MOVEMENT

Minutes of Meeting, 17 July 1944

ACTION

1. Movement into Army Areas, i.e. North of the Army Control Line.

It was agreed that the following procedure, which was in most points already in operation, should be followed :

(a) ACC Officers: Permission must be obtained from the SCAO of the Army before the journey is made, if possible. In cases of emergency it is permissible to proceed to HQ Army AMG and there report.

(b) Italian Civilians: Normal procedure to be followed as laid down in General Order No.24 (this General Order is fully explained in 316/76/CA of 26 April 1944).

(c) Italian Government Officials: Important officials of the Italian Government may be granted passes at the point of departure which will in most cases be Rome. The SCAO Army will be consulted, if possible. In cases of emergency it is permissible for Italian Government officials to proceed to HQ Army AMG, without such consultation, and there report, but a pass must be first obtained from HQ ACC.

ACC wished for the Army Control Line to be clearly marked, which was not the case at present. If this was done it would assist Italian civilians and Allied officers who did not realise when they were on the wrong side of the line. AAI promised to consider this.

2. Movement between Rome and Naples.

(a) An attempt had been made to persuade HQ. AAI to relax movement south of Rome, but the request was turned down. Free movement, therefore, in the Provinces south of the Army Control Line but north of Italian Government territory and all Provinces of Region III was now confined to Provinces. Movement from one Province into another required the usual permit. Since this was an order by AAI, ACC would do their utmost to assist the Military Police in the enforcement of this control. AAI were specifically required to produce as many M.P. Patrols as could be made available and to ensure that such Patrols were fully instructed as to their liaison duties with the

down in General Order No.24 (this General Order is fully explained in 316/76/CA of 26 April 1944).

(c) Italian Government Officials: Important officials of the Italian Government may be granted passes at the point of departure which will in most cases be Rome. The SCAO Army will be consulted, if possible. In cases of emergency it is permissible for Italian Government officials to proceed to HQ Army AMG, without such consultation, and there report, but a pass must be first obtained from HQ ACC.

R.C's would give as much assistance as possible to the Military Police in this task.

(b) The chief difficulty was experienced in connection with civilian trucks sent from Rome to collect foodstuffs for the city from the Naples area. This was being dealt with by Rome Region, Region III, Region IV, and the Food Sub-Commission. It was considered that in addition to the normal movement pass for each civilian a special pass was required for each truck that left Rome and this was being done. Rome Region also undertook to exercise a strict control of trucks coming into Rome from outside. Region III expressed themselves satisfied provided the above precautions were strictly carried out.

Rome Reg.

(c) There was considerable movement reported from Region II into Region III. Two parties containing 475 refugees without passes arrived by train in Naples. It was agreed that this should be taken up by Adm Section with the Italian Government, and also by the Refugee Branch with Sig. Zaniboni.

ACTION

(d) Col. Chapman raised the question of supplying petrol for the return journey from Naples to trucks arriving from Rome. He was so short of petrol that he had none to issue. R.C's noted this point and
Region III. it was suggested that Col. Chapman should take up the matter with Economic Section direct.

(e) The notice published in poster form in Rome saying that there was free movement south of Rome would have to be withdrawn and countered
C.A.Br. & by a press campaign of equal publicity. Civil Affairs Branch, P.R.C.,
P.R.C. Region IV and Rome Region were to arrange.

3. Italian Government Officials. (This does not include local Government officials).

The method of issuing passes to Italian Government officials would in future be as follows : The official would apply to the corresponding Sub-Commission or Section concerned for approval of his pass. If approved, Sub-Commissions, Branches of the Adm., Econ., and R.C. & M.G. Sections to channel these passes through their Sections to the Secretary General who would sign the passes. In the case of Political Section, Independent Sub-Commissions and P.R.C., approved passes to go direct to the Secretary General for signature. Instructions will be issued to all concerned. It was decided that
C.A.Br. more publicity was needed to the effect that the only official A.C.C. pass issued is the yellow pass (attached as a specimen).

4. Passes to Rome.

Reference letters No.751/7/CA of 7 June 1944 and 751/22/CA of 8 July 1944, these letters are now cancelled. No special passes to Rome are required in future. The only pass now required to enter Rome is the ordinary yellow pass, which will be required by anyone coming from outside Rome Province.

5. Special Passes for Ministers.

It was decided that a special pass renewable after three months should be made out for Ministers of the Italian Government and other important officials including certain journalists. This would consist of an endorsement on the back of the official yellow pass with the following wording :

" S....., (designation of office) is hereby authorised to proceed to any part of Italy south of the Army Control Line. He should be given every facility and courtesy. "

6. Foggia Province - Issue of Passes by the Questore.

In Military Government and Italian Government territory power has been delegated to the Questore to issue movement passes, (see para.4 (h) of 316/76/CA of 26 April 1944). Foggia Province however was expressly excluded from this permission. With the forthcoming transfer of Foggia Province to the Italian Government there would be a considerable reduction in ACC personnel. P.C. Foggia Province said that he would not be able physically to deal with the issue of passes. He therefore requested that permission be granted to delegate this power to the Questore. AAI promised to consider and let us have a reply.

7. Passes to enter or leave Sicily via Messina.

(a) AAI had no knowledge of any special passes required to cross the Straits of Messina by Ferry. Difficulty was however encountered and people issued with passes for movement across the ferry either into Sicily or the Italian mainland were turned back at Messina or Reggio. It was decided that C.A. Branch write to the Navy to enquire what was the procedure.

8. Discharged Italian Soldiers.

A letter had been received this day from AAI agreeing to the use of demobilization papers for the movement of discharged Italian soldiers without movement passes also being required, in all areas south of Army Control Line including Foggia Province.

EXECUTIVE MEMORANDUM)
NUMBER 70)

APPOINTMENTS TO THE OFFICE OF PREFECT IN MILITARY GOVERNMENT TERRITORY

1. This Memorandum is supplementary to Executive Memorandum No.12 dated 12th June 1944.

2. Since that date and consequent upon the fall of Rome, a number of fully qualified Prefects have become available for forward provinces. The Italian Government now represents that these officials should retain the title of their rank and not be appointed as Reggenti. IX

3. Paragraph 3 of Executive Memorandum No.12 is cancelled and the following substituted:-

"3. In future Allied Military Government appointments the title "Prefetto" "will only be used if the appointee is already of the rank of Prefect. If "the candidate selected is of junior rank or is not a career official, the "title "Prefetto Reggente" will be used. The Italian Government lay great IX "stress on the use of the word "Reggente" in such cases.

"3A. When a candidate is sent forward from the rear, Interior Sub-Commission "will, when moving up the candidate, advise the Regional Commissioner or "Senior Civil Affairs Officer as to the proper title. When it is proposed "to appoint a local man, the Regional Commissioner or Senior Civil Affairs "Officer will first inform the Sub-Commission, by telegram if necessary, "and give all requisite particulars, so that the Sub-Commission can advise "in such cases also. Care will be taken "not to give a candidate who may "only be qualified to be appointed "Reggente"" the impression that he is "going to receive the substantive rank of "Prefetto"

SUBJECT: PWB Publications.

TO : Acting Chief Commissioner.

1. Every day PWB issues a Radio Monitoring Report consisting of many pages. Every day a Radio News is published. Every day many Allied newspapers are published.

2. The Allies are very short of newsprint and paper - vide newspapers in United Kingdom alone.

3. I cannot believe that anyone reads one tenth of any of the PWB publications. The apparent waste of paper appals me and many others.

4. Can we not persuade them to reduce by 70%.

SUBJECT: Repatriation of Italians.

TO F1 Political Section.

1. With refernce to the attached letter from Le General De Sevin dated 19 June 44 the present policy is that the British Government have no objection to the repatriation to Italy of any Italian civilians provided they have been screened by the Security Authorities. Transport facilities should only be prpvided for persons whose repatriation would be likely to lead to some positive benefit to the Italian Administration or war effort.

2. The bulk of these Italians are either Engineers or car drivers and at present there are ample in Italy available for our needs. In these circumstances it is regretted that these people can not be repatriated just now. The matter can however be brought up at a later date, say in three months time.

1. Brigadier Lowe told me that the 120 vehicles now allotted to ROME Region from 1st Div transport (1 G.T. Coy) would be removed at once and would not be replaced. I explained the necessity of replacing them and said that I thought the matter would have to be taken up with AAI

Reg.Com., ROME Region.

2. Brigadier Lowe said that he thought that a great deal of improvement could be made in the maintenance of the Italian Truck Company's transport.

Sec.General for Service Sub-Coms.

3. Brigadier Lowe asked if it would be possible for one representative of the ACC to put forward demands for accommodation including barrack accommodation for the Service Sub-Commissions. At the moment there appeared to be lack of co-ordination between Service Sub-Commissions.

Army Sub-Commission.

4. Brigadier Lowe said that it was impossible to give up the Castro Pretorio Barracks but that the Perioti Barracks might be surrendered to the ACC.

M.F.A.A. Sub-Com.

5. Brigadier Lowe said that in spite of the fact that it was an "ancient monument" it would be essential to requisition the Villa Parnerina as a hostel for Canadian nurses. I asked that a representative of the Monuments & Fine Arts Sub-Commission should be consulted and allowed to remove, if necessary, any treasures before requisitioning and entry took place. Brigadier Lowe agreed.

2. It has been reported that cases of Smallpox have occurred at AFRAGOLA No. 2657 near Naples. One soldier has been infected and AAI request that the area be placed out of bounds to all non-residents and that movement through the area be restricted.

3. Please arrange, in conjunction with No.3 District, to place Afragola out of bounds to all non-residents who have not been recently vaccinated. This is, of course, a temporary measure but it should be imposed as soon as possible. You should also make suitable arrangements to restrict the movement of civilians through the area.

4. We understand that arrangements are in hand to vaccinate the civil population. It is recommended that the temporary restriction be lifted seven days after completion of the vaccinations.

To : Rome Area Command, Real Estate Section

1. I am transmitting herewith for such action as may be considered desirable, a statement as to the situation of the villa at Via Asmara No. 11, the property of the Baroness Christian Nisco Malloch. I might add that I have known the owner for some time, especially during the very critical period for British subjects which began with the Ethopian War in 1935, and have known her to be most favorably disposed towards the allied cause throughout that period; in fact to have been most helpful on many occassions at considerable risk.

2. For your consideration I am attaching also a list of properties occupied by former high fascist officials which might be alternatively suitable and available.

SUBJECT: Proclamations

TO : R.C. Regions III and V

1. Two Proclamations have been prepared which will fall to be published in certain undernoted Provinces in Your Region on an early date. The Proclamations relate to abolishing Military Government within these Provinces. One has been prepared by A.C.C. and the other by the Italian Government.

2. The Provinces are:

Region III	Avellino	(1595)
	Benevento	(1265)
	Naples (but excluding Naples Comune	(4685)
Region V	Campobasso	(1475)
	Foggia	(1625)

3. The publication will be done on an early date and it is essential that they be published on the date they take effect. The numbers shown in brackets at para 2 are the numbers of proclamations required for each Province.

4. The Proclamations mentioned above must be published in NAPLES Comune

The Proclamations are being printed and it is hoped to have them in your hands on the 18th inst with instructions as to the date of publication.

SUBJECT: Public Orders.

TO : R.C. Region II

1. Reference is made to a letter written by Provincial Police Officer Bari to the Territorial Defence Commander (File PS/8/8) of 20 March 44, and to the refusal to permit His Excellency PESENTI, Undersecretary of State for Finace to deliver a lecture announced beforehand for 28 May 44.

2. These matters have been the subject of correspodence between the Italian Government and A/Chief Commissioner, A.C.C.

3. As you know your duties are advisory and not executive but it would appear from this correspondence that one or more of your officers have been acting in an executive manner which you will ofcourse agree is outside their powers. Will you please see that they are reminded of the limitation of their powers in Italian Government territory. Interference with the actions of the Italian Government or their representatives in Italian Government territory can only be warranted on exceptional grounds of military necessity. Otherwise it is undesirable and improper ~~to do so~~.

4. With regard to the prohibiting of the meeting or lecture fixed for 28 May you should report as to why permission was so refused and what action was taken by you or your representative in the matter.

1. In reply to your letter AAI/1401/7/CSI(b) of 4 July 1944. I agree with your para.7 that a token period of liberty would not really be of much effect. I think the situation can be met if it is made quite clear at the opening of the court that the accused will in any event continue to be interned, provided such internment is required by the security agencies concerned. This proviso implies that there will be consultation before the trial between your security agencies and our Police Officers.

1. The Italian Armed Forces are fighting and working as co-belligerents with the Allies in Italy. Their help can, however, only be effective if they have the means to administer and maintain themselves.

2. Cases have occurred (particularly in ROME and other newly occupied localities) where porperty, transport and materials belonging to the Italian Forces have been removed from them without proper authority and when the operational need for such action no longer existed.

3. In future no buildings, real estate, transportation or other materials belonging to the Italian Armed Forces or in the possession of effective units of the Italian Navy, Army or Air Forces, will be occupied, requisitioned seized or made use of without prior reference to this HQ. This does not, however, preclude the rights of operational commanders to make such use of the items mentioned as may be necessary for operational reasons.

4. The Italian Commanders concerned have been authorized to place notices on their property indicating its ownership. These notices will be respected.

The Jockey Club, as you know, is only one of a number of similar organizations having to do with horse treading, racing and equestrian sports which under the fascist regime were grouped together into one governmental organization called the "Unire". The UNIRE is under the direction of the Ministry of Agriculture.

2. SCAOs in terms of the above letter have not been asked to publish General Order No.18. This was done so as to limit the number of Proclamations etc to be published in Army Areas and also because of the rapidity of advance and the speed with which these areas come under Region control. It was felt that it was better to allow Regions to publish those Orders etc not considered essential in Army areas.

1. A proposal was recently put up to AAI to allow freedom of civilian movement south of Rome. This has been turned down and the position is now as it was before, i.e.

(a) Freedom of movement in Italian Government territory (with the exception of movement between Sicily, Sardinia and the mainland).

(b) Free movement within individual Provinces but a pass required for inter-provincial movement north of Italian Government territory and south of the Army Control Line.

(c) The 10 kilometre rule in Army Areas.

2. There has been some difficulty over the control of movement with reference to para.1 (b) above and it is considered that a conference is required to clear up the matter. Will addressees please send a representative to attend a conference at this HQ (in Col. Fiske's Room, 3rd floor) at 1100 hrs. Monday 17 July 1944.

3. Will addressees please inform me of the main points which they wish to discuss at this meeting in order that an agenda may be drawn up.

In feeling that it is our duty to preserve the beauty of Rome I am bound to remark at the untidyness occasioned by the indiscriminate posting of the billposter.

Will you please, in co-operation with the Army authorities, regulate their posting so that the public Notices appear in the appropriate places while commercial advertisements are relegated to the hoardings. This will leave the walls of buildings free and improve generally the appearance of the City.

SUBJECT: Correspondence.

TO : AMG Eighth Army.

1. For some time past it has been noted a large number of letters have been addressed to this Branch with a copy to Economic or Administrative Sections for action. Most of these letters deal with subjects which are technical and on which a reply can only be given by a Sub-Commission not within this Section. I forward copies of one or two examples.

2. In Executive Memorandum No.CB dated 31 January 1944 it was laid down that Heads of Sub-Commission should correspond direct with their representatives in the Regions on routine technical matters, and it is intended that this should also operate conversely. In future therefore unless the subject matter is one for this Section to give a decision, or is directly concerned with us, your correspondence should be addressed to the Section concerned for the correct Sub-Commission. There is no need to send copies of these letters to this Branch on such matters, although there is no objection to doing so if desired by you.

3. This does not of course affect matters of policy on which you should continue to write to this Section as before, with a copy if necessary to other Sections or Sub-Commissions.

SUBJECT: Coal Requisitions.

TO : R.C's Regions IV, V, VIIIand IX.
AMG 5 & 8 Armies.

1. It will be appreciated that coal supplies are very largely dependent upon imports, which in turn have to be arranged for at least three months ahead.

2. This affords little difficulty so far as occupied territory is concerned but becomes a major problem when considering territory at present in enemy hands yet which is likely to come under our control in the near future.

3. In order that some provision may be made for territory still in enemy occupation those Regions which are planning to take over such territory should submit as early as possible an estimate of the minimum amount of coal necessary for essential civilian needs bearing in mind damage to plants, difficulties of discharge of ships and inland transportation.

4. For the purpose we enclose a specimen form "C.D.I." which will be completed by Regions as early as possible in the planning stage, and sent to Coal Division ACC. It must be appreciated that without this guiding estimate it is impossible to plan supplies.

5. On occupation being effected it then becomes necessary to review the position and obtain the earliest possible ifformation from AMG 5 or 8 Army on any stocks available.

6. We enclose form "C.D.2" which it is essential be completed and returned with the least possible delay. This could be completed by one of the A.M.G. officers who is first to enter the newly gained territory and will enable the Coal Division to at once allocate such stocks to the best advantage. Stocks should in all cases be "frozen" immediately on arrival in an area.

7. Likewise it is imperative that Form "C.D.3" - a questionaire is also completed by the same officer and returned to Coal Division in order to enable them to plan future supplies on a more accurate basis.

SUBJECT: Italian Army Transport Forward Areas.

TO : M.M.I.A.

1. AMG Eighth Army are finding as they advance very little transport indeed left by the Germans. They have to re-organise civilian life and their main problem at the moment is getting in the harvest. This requires transport.

2. There is however a considerable quantity of lorries used by the German Army, but destroyed by us during their retreat. Col. Spencer, Supply Officer AMG Eighth Army, states that our CAO's and P.C's have got together a local Italian organisation for salvaging these lorries. This system is working very well even though they only get a few lorries which can operate for the short period required.

3. Q (AB) of AMI have relinquished their claim to German makes of vehicles and G (SD) have confirmed. Italian makes of vehicles however need the permission of MMIA before they can be used. Col. Spencer has already spoken to Major Fieldman of MMIA who said that the matter would have to be referred to HQ.

4. I am therefore writing to you to give the strongest possible support to Eighth Army's request that they be allowed to use any Italian Army vehicles found wrecked on the road which they can salvage and put into operation in those areas where no Italian military recovery organisation has been set up. I attach original of a letter from Col. Spencer, Eighth Army, which further illustrates this point and would be glad if you could return it with your reply.

2. It is regretted that it is not possible to allocate vehicles from those at the disposal of AOC for your requirements at present. It is considered that supplies have first priority at the moment but that if the needs of the Italian Government cannot be met by local requisition, the position should be reviewed and a further request submitted in a month's time.

SUBJECT: Coal Requisitions and Stock Returns.

TO : R.C's Regions II, III, IV, V, VII, VIII and IX, and Rome Region.

1. Reference this Hq. 423/22/CA dated 27 June 44, it will be appreciated that imported coal comes from distances overseas, and it is necessary to know forward requirements at least four months in advance. It is also necessary to know on the arrival of ships whether the consumption already estimated ahead remains unchanged. Experience has in fact shown that figures do often need review.

2. To enable the Coal Division of the Transportation Sub-Commission to have up-to-date accurate figures of both near and future requirements, application on ACC form M.A.T. 10 will be submitted on the 1st August for requirements for the month of December, on the 1st of September for the month of January and so on for each month. At the same time when this monthly bid is made in advance a return, in letter form, will be submitted revising to date the requirements of the month which immediately follows (e.g. on 1st August a revision of the requirements already submitted for August and so on, month by month).

3. In order that some provision may be made for Regions still in enemy occupation, those Regions which are planning to take over such territory will submit as early as possible an estimate of the minimum amount of coal necessary for essential civilian needs bearing in mind damage to plant, difficulties of discharge of ships and of inland transportation.

4. Allocations of those demands which have been approved will be made direct from stocks or ships arriving and will be advised to Regions.

5. STOCKS. In order that the Coal Division of the Transportation Sub-Commission may be in a position to know at any time the stocks of coal and coke in the various works and plants a weekly return is required of the amount of coal received and consumed during the previous week and the tonnage held at 2400 hours each Saturday. It is appreciated that it will be difficult to obtain stock figures from all small consumers and therefore the return from each Region is required as follows:

Each works or plant consuming over 30 tons a month should be listed,

2. To enable the Coal Division of the Transportation Sub-Commission to have up-to-date accurate figures of both near and future requirements, application on ACC form M.A.T. 10 will be submitted on the 1st August for requirements for the month of December, on the 1st of September for the month of January and so on for each month. At the same time when this monthly bid is made in advance a return, in letter form, will be submitted revising to date the requirements of the month which immediately follows (e.g. on 1st August a revision of the requirements already submitted for August and so on, month by month).

3. In order that some provision may be made for Regions still in enemy occupation, those Regions which are planning to take over such territory will submit as early as possible an estimate of the minimum amount of coal necessary for essential civilian needs bearing in mind damage to plant, difficulties of discharge of ships and of inland transportation.

4. Allocations of those demands which have been approved will be made direct from stocks or ships arriving and will be advised to Regions.

5. STOCKS. In order that the Coal Division of the Transportation Sub-Commission may be in a position to know at any time the stocks of coal and coke in the various works and plants a weekly return is required of the amount of coal received and consumed during the previous week and the tonnage held at 2400 hours each Saturday. It is appreciated that it will be difficult to obtain stock figures from all small consumers and therefore the return from each Region is required as follows:

a. Each works or plant consuming over 30 tons a month should be listed, and the amount received, consumed and in stock by each should be shown.

b. All consumers of less than 30 tons per month should be consolidated under "Various" and the estimated amount received consumed and in stock should be shown.

The above figures are required to reach Coal Division of the Transportation Sub-Commission by cable each Monday by 1700 hrs.

SUBJECT: Mines and Minefields.

TO : R.C's Regions III, IV, V, VIII, IX and Rome Region.

1. Reports have been received that both harvesting and public works operations were being hindered by mines.

2. As the result of representations to the Director of Works, HQ AAI, the attached letter (2511/9/RE dated 25 Jun 44) has been received, and is forwarded for your information.

3. The sweeping of mined areas in L. of C. is the responsibility of the District concerned. Regional Commissioners should, therefore, when they wish an area cleared of mines approach the District Commander for his help.

4. There are also attached extracts from AFHQ Operational Memorandum No.45 dated 24 Jan. 1944 dealing with markings of minefields and sketch showing how the markings are used.

5. Separate instructions are being issued direct to Regional Engineers but as the matter also concerns various other Regional activities (as distinct from roads, buildings, bridges etc.) it is desirable that the position should be generally known and the method of marking understood by officers.

SUBJECT: Enforcement of Grain Collection in SICILY.

TO : Regional Commissioner,
REGION I.

1. I confirm minute of discussions with the Acting Chief Commissioner and Vice President, Economic Section that the price of wheat in SICILY will remain at L.900 for soft and L.1000 for hard, and that no war bonus or any other monetary inducement will be paid.

2. The policy to be adopted with regard to the collection of grain will be the rigorous enforcement of the Italian decrees recently issued on the subject.

3. The memorandum recently issued from this HQ explains to you the action which being taken by the various authorities concerned and you will note that Colonel Young will be attached to you in order to assist you in ensuring the enforcement of these decrees.

4. I want to make it clear that the enforcement of law does not mean the use of force. It does mean, however, that every effort must be made to make the farmers bring in their grain and to bring before the Courts those who transgress the law.
