1. Prior to my departure from Hardquarters ACC, I desire to officially express my commendation on the work of Lt. Col. J. L. Jones and Lt. Col. S. W. Miller, British G-1 and G-4 respectively. These officers have exhibited outstanding ability in the performance of their duties during the period they have been under my supervision of the Establishments Branch. Each has exhibited a strong sense of loyalty, a conscientious attention to duty and have obtained outstanding results in their particular line of work. I consider them to be the highest caliber of officers either British or American with whom I have come in contact in ACC.

2. It will give me great pleasure to serve with these officers at any future date. I am convinced that the work they have done merits consideration for promotion to the next higher grade.

1. Lt. Louis T. Montant, Jr. has been Headquarters Adjutant, Headquarters ACC since 11 February 1944, and as such he worked under my supervision as Establishments Officer. During that time he has been loyal, tactful, conscientious, voluntarily working long hours whenever it was necessary. His performance of duty has been far above that to be expected from a Lieutenant. He has, in fact, operated with high efficiency the Adjutants Section in a complex organization, a job comparable to that of an Adjutant in a Corps Headquarters, an assignment which normally would have been held by an officer of Field Grade, probably a Lt. Col.

2. I would be greatly pleased to have Lt. Montant serve under me in any grade at any future time.

SUBJECT: Release of Officers for Whom no Suitable Assignment Exists

TO : CO, 2675th Regt, ACC, (Prov), APO 394, US Army

1. At the present time there are assigned to the Regiment a number of officers for whom there are no suitable position vacancies. These officers, by civilian and military experience, are best qualified for duties other than ACC/AMG activities. Thus, in accordance with War Department's current Utilization of Manpower program, it is believed to the best interests of the service that these officers be made available immediately for assignment to other organizations. In order to accomplish this, it is requested that the Regiment obtain authority from NATOUSA to assign such officers to the nearest replacement depot.

2. With the rapid increase in ACC/AMG responsibilities brought about by the current operational advances, it has become apparent that there is a critical shortage of trained personnel in certain highly specialized categories. Our present authorized and assigned strength does not permit the requisitioning of additional officers to meet this critical need. In accepting the ACC ceiling of 635 American officers up to the Pisa-Rimini Line, it was stipulated by the Chief Commissioner that ACC would be permitted to release unqualified officers in exchange for those who, for example, are qualified both by experience and education in civil engineering, agriculture, finance, certified public accounting, and labor relations. Accordingly, once the Regiment is given the authority to transfer those unqualified officers, the vacancies thus created can be used to meet these urgent operational needs.

3. Typical cases in point are those of Lieutenants Di Antonio and Pratt.

a. Lt. Di Antonio's education and background consist of two years' high school, and employment as civilian quartermaster inspector. This officer is a graduate of the Infantry OCS and trained in military intelligence at Camp Ritchie; accordingly, he possesses no special qualifications that can be efficiently employed in ACC/AMG. On the other hand, by experience and training, he is especially well qualified for full duty as a company officer with troops.

Hq, ACC, 16 June 44
Ltr Sub: Release of O for Whom no Suitable Asmt Exists
To: CO, 2675th Regt, ACC

b. Lt. Pratt is a graduate of Culver Military Academy, class '40, and studied business administration for a year at Michigan State. Since entry into the Army in 1941 he has served as a platoon leader and company officer until his assignment to the 2675th Regiment in the fall of 1943. His civilian occupation was that of a clerk in a men's clothing store. Thus, it is indicated that the most efficient and proper assignment for this officer is also that of a full-duty company officer with troops.

The release of such officers will not only help meet combat replacement needs but also permit the assignment of specialized limited service personnel that are urgently needed by ACC/AMG.

1. Approved.

2. Reference paragraph 3a basic communication, the transfer of Lt D'Antonio was accomplished by paragraph 4, SO #37, Hq AAI, dated 13 June 1944.

3. Additional information from Hq Allied Control Commission indicates that approximately fifty (50) officers are available for assignment to a replacement depot for re-assignment to units which may better utilize their qualifications. These officers are available for transfer as soon as specialized officers are located. The close proximity of Personnel Center #6 to this headquarters and Hq Allied Control Commission allows a constant check to be made to ascertain what limited assignment officers possess qualifications needed to perform duty with Allied Control Commission.

4. The exchange would be on a grade to grade basis.

5. If, in the opinion of the Commanding General NATOUSA, a blanket approval for these transfers is not favorably considered for the Regiment, it is requested that in view of the close proximity of this headquarters to Hq Allied Armies in Italy, and in order to expedite the transfer of non-specialists, that the authority for transfer be granted to your headquarters.

2. For the past six months this officer has served as Provincial Commissioner of the Province of Matera. As of the end of August this position is being abolished and nor replacement is required.

3. This officer has served honorably, faithfully, and satisfactorily and his record is one of distinction such as to merit separation under honorable conditions.

4. In view of the officer's age (50 years) and the completion of duty (limited service) for which he was called from civilian life, it is not considered that his retention on active duty is essential to the war effort.

5. Under the provisions of Paragraph 10, AG 210.85/371-P this officer is considered surplus.

6. This officer has 30 days of accrued leave at this time.

TO : Acting Chief Commissioner, Hq, Allied Control Commission
(Attention: G-1 American)

1. Under the provisions of WD Letter, AG-210.85 (30 Dec 43) PO-A-A, Subject: Relief from Active Duty of Officers for Whom no Suitable Assignment Exists, dated 12 January 1944, it is requested that the undersigned be relieved from active duty.

2. The applicant was born on 5 June 1894 and is therefore fifty years old.

3. On 9 September 1944 the applicant will have served eighteen months overseas. During that period he has served as CAO, Eboli District, Salerno Province (5 months), and Provincial Commissioner of Matera (6 months) until ACC closed out its activities in those areas. No replacement is necessary.

4. The applicant desires relief from active duty so that he can return to his civilian occupation -- farming. Since entry into active duty his property -- "Scarlet Gate Farms" -- near Lexington, Kentucky, has been operated by hired employees and production has decreased sharply. In view of the fact that farm products are essential, both now and in the post-war period, it is deemed advisable that he return to his civilian occupation so that he may be able to resume personal supervision and protect properties from jeopardy.

1. Transfer from my present assignment with Allied Control Commission in Italy to an assignment in the Mid-East or to one of the Military Government teams being formed or to be formed for work in the Balkan countries is requested.

2. This request is based on the following factors:

a) With the development of an agricultural supply and production program for Italy well advanced, and with the gradual assumption of the duties and responsibilities, previously carried by the Agriculture Sub-Commission, by the Italian Ministry of Agriculture, Forests & Fisheries, there is no real need for this Officer in a purely supervisory capacity. There are other members of the staff responsible, and much more capable, for this work. Thus economy of effort would be achieved by my release.

b) Civilian personnel from FEA in the United States is now arriving and within a very short time will be able to take over much of the work now being performed by this Officer.

c) I was originally selected for the Balkan theater and my studies in the Military Government School in the States (Standford University) were developed around the Balkans. I have a better and sounder knowledge of the economic life, government affairs, and systems in those countries, than I had of Italy on arrival in this theater.

d) As a private citizen, I have for some years studied various political, boundary and minority questions peculiar to the Balkans, which might be of some value to the service in the event I received any assignment in one of the countries of that area.

Declassified E.O. 12356 Section 3.3/NND No. T85017

e) While I am an Agricultural Specialist, and am familiar with the broad agricultural production and marketing problems of the Balkans, my civilian background equips me for any other work of an administrative or liaison nature that might be open.

3. It is believed that I can be released from my present duties within from 15 to 30 days, without any disruption or detriment to the program of the Agriculture Sub-Commission, in the light of the assumption of more responsibility for agriculture by the Italian Government, and the arrival of civilian personnel.

4. I therefore request any assignment which may be open in the Army in connection with problems arising in the Balkan theater, either in the capacity of an agricultural specialist, or any other administrative or liaison assignment where my services may be utilized.

5. Brigadier King (B) Mid-East, on his recent visit to this Headquarters, expressed interest in securing my services.

6. If such assignment is not available, I hereby request release under Natousa Letter AG 210.85/371-P on the cessation of hostilities, or as quickly thereafter as is possible.

STANLEY ANDREWS
Major, AUS
0132883.

1st Indorsement.

TO : Acting C.C. - (attention Establishments Branch).

1. Attached herewith are original and three carbon copies of communication submitted to this Office, reference subject Transfer to Balkan Area, to AFHQ G-5, dated 6 September 1944, under signature of Major Stanley Andrews, AUS 0132883.

It is with mixed deep regrets and gratification, that we hereby approve request of Major Stanley Andrews, with recommendation that it be approved and expedited.

Declassified E.O. 12356 Section 3.3/NND No. 785017

2. Major Andrews has been an invaluable officer in this theater. His industry, ability and performance in every way has, in our opinion, been unsurpassed. In fact, his outstanding service is in large part responsible for such success as has been achieved by the Agriculture Sub-Commission officers in working themselves out of a job, in accomplishment of what we believe to be our major overall mission in this theater, namely, the transference of responsibility for agricultural operational activities, to the Italian Government Officials in all territory, except that controlled by A.M.G.

Unless unforeseen and unexpected developments occur, we hope within the next few weeks, to succeed in relieving this Sub-Commission of such operational activities as are still being carried under the capable immediate leadership of Major Andrews.

3. A major regret in approving request of Major Andrews, is that his twice recommended promotion has not, to this date, been approved. We are convinced, without reservation, that he has not only earned his promotion, but that realization of a promotion will make it possible for Major Andrews to render greater service, than might otherwise be possible, in whatever new assignment or roll may be his fortune.

With that end in mind, it is hereby strongly recommended that his promotion be approved and expedited.

W.A.HARTMAN

Director.

Dear Chuck:

As you will see from the attached memorandum, the problem of handling foreign correspondents in Rome has been dumped in the lap of A.C.C. We are greatly in need of a first class American public relations officer. I talked with Colonel Stanley Grogan who has just arrived over here from the States to take over the P.R.O. work of the 5th Army and he has suggested two names to me, both of whom are top flight men. They are presently on duty in the War Department and either one of them would be, according to Grogan, entirely suitable. They are:

Lt. Col. Douglas Pannenter
Lt. Col. Stewart Beach

We would very much appreciate anything you could do to get either one of these officers assigned to us. The matter is urgent and he should be given a high air priority.

Sincerely yours,

MORGAN E. FISKE

MEMORANDUM:

TO : Industry Sub-Commission

I cannot sign the attached letter for the following reasons:

a. Despite the fact that Capt. Gillespie has been unassisted in Crotone, it is the responsibility of the Head of a Division to keep him informed of ACC requirements. The fact that officers are on long assignments increases the necessity for Heads of Divisions, who are responsible for their acts, to keep them informed.

b. "Unusually successful in carrying out his mission" is not an excuse for the violation of ACC regulations.

c. I do not feel assured on this correspondence that a repetition of the instance will not take place.

SUBJECT: Use of A.C.C. Transport.

TO : Colonel A. N. HANCOCK, Regional Commissioner, Region I, A.C.C., A.P.O. 394, U. S. ARMY.

1. Reference is to your file RC/500 dated 11 August 1944. The matter concerning Captain JOSEPH S. GILLESPIE, O-1102250, has been discussed with the Chief, Mining Division, A.C.C., as Captain Gillespie has been assigned to temporary duty in Crotone, Region VII, A.C.C. since 4 December 1943, to secure pit props for mine operations in Sicily, Sardinia and the Italian Mainland.

2. The Chief, Mining Division, raises no question as to the facts set forth in your letter. He points out, however, that Captain Gillespie; (1) has been unassisted in Crotone since 4 December 1943, and in the nature of the case has comparatively little contact with Headquarters, A.C.C. He is therefore to some extent uninformed regarding A.C.C. requirements. (2) He has been unusually successful in carrying out his mission and has provided props for mine use in insular and mainland Italy, without which many mines would have been shut down. (3) At present he is engaged in rapidly building up reserve stocks to as high a level as possible, before winter makes the cutting of props impossible in the Sila highlands.

3. Altho it is clear that Captain Gillespie was acting without due regard for official requirements, doubtless your statements to him regarding the need for complying therewith have made the matter clear to him. It is believed, however, that his action is much less serious than if his record of achievement had been less substantial. The Chief, Mining Division, is forwarding a copy of your letter to Captain Gillespie and a copy of this letter is going forward to him. It is believed that a repetition of the conduct described will not take place.

1. Owing th shortage of W.D. vehicles in A.C.C., I feel it advisable to draw your attention to the following allotment and use of a command car and trailer which I found travelling in Region I without covering movement order.

a. A certain Captain J. GILLESPIE C-1102258 arrived without warning at the Headquarters of Provincial Commissioner Eastern Sicily on 5 August.

b. This officer stated that he is assigned to Region VII, but was travelling on behalf of Headquarters Rome, and that he also was to travel to Region VI.

c. He arrived in command car and trailer accompanied by a civilian.

d. The only travel order he possessed was one ordering him to Region III on tempy duty and dated 4 December 43. Certified copy is attached.

e. The officer stated that the purpose of his visit was:
i. To discuss with Lt. POLLARD of HQ Region I the question of payment for the pit-props for Sicilian Sulphur Mines.
ii. To purchase truck tyres on the Black Market for the civilian accompanying him, he being interested in the pit-prop trade.

f. It is believed that the officer left on 8 or 9 August for the Mainland. He was not permitted to purchase tyres on the Black Market.

2. These facts are brought to your notice for such action as you think fit. It appears undesireable for officers representing Headquarters A.C.C. to arrive without notice if wishing to see individual officers, as with the present small establishment in Region I officers are frequently on tour away from Headquarters.

3. If there is a surplus of command cars it would be appreciated if one could be sent to Region I for use in the Grain Campaign unless command cars are more urgently required further forward. 836

A. N. HANCOCK, Colonel
Regional Commissioner.

Ref: Mines-600.7

13 August 1944.

SUBJECT: Use of A.C.C. Transport.

TO : Colonel A. H. HANSON, Regional Commissioner, Region I, A.C.C., A.P.O. 394, U. S. ARMY.

1. Reference is to your File RC/900 dated 11 August 1944. The matter concerning Captain JOSEPH S. GILLESPIE, O-1102250, has been discussed with the Chief, Mining Division, A.C.C., as Captain Gillespie has been assigned to temporary duty in Crotone, Region VII, A.C.C. since 4 December 1943, to secure pit props for mine operations in Sicily, Sardinia and the Italian Mainland.

2. The Chief, Mining Division, raises no question as to the facts set forth in your letter. He points out, however, that Captain Gillespie (1) has been transferred in Crotone since 4 December 1943, and in the nature of the case has comparatively little contact with Headquarters, A.C.C. He is therefore to some extent uninformed regarding A.C.C. requirements. (2) He has been unusually successful in carrying out his mission and has provided props for mine use in insular and mainland Italy, without which many mines would have been shut down. (3) At present he is engaged in rapidly building up reserve stocks to as high a level as possible, before winter makes the cutting of props impossible in the Sila highlands.

3. Altho it is clear that Captain Gillespie was acting without due regard for official requirements, doubtless your statements to him regarding the need for complying therewith have made the matter clear to him. It is believed, however, that his action is much less serious than if his record of achievement had been less substantial. The Chief, Mining Division, is forwarding a copy of your letter to Captain Gillespie and a copy of this letter is going forward to him. It is believed that a repetition of the conduct described will not take place.

1. Owing to shortage of W.D. vehicles in A.C.C., I feel it advisable to draw your attention to the following allotment and use of a command car and trailer which I found travelling in Region I without covering Movement order.

a. A certain Captain J. GILLBERT C-1102.58 arrived without warning at the Headquarters of Provincial Commissioner Eastern Sicily on 5 AUG.

b. This officer stated that he is assigned to Region VIII, but was travelling on behalf of Headquarters ROME, and that he also was to travel to Region VI.

c. He arrived in command car and trailer accompanied by a civilian.

d. The only travel order he possessed was one ordering him to Region II on temp duty and dated 4 DEC 43. Certified copy is attached. 832

Colonel Charles M. Spofford,

My dear Colonel Spofford:

With reference to Major Tolman, I find that he is top Headquarters accountant and statistician for the Food Sub-Commission. They have him set-up as the last officer to leave when the Food Sub-Commission is finally demilitarized and taken over by a civilian agency. It seems that he is actually doing a most important job. I understand that he is both a lawyer and a CPA.

I know that Col. Legg follows a general policy of releasing his officers no matter how badly he needs them if it seems that the officer can better himself in a new job. However, the whole story is that he is a rather vital man in the Food Sub-Commission of Headquarters. In view of this I will take no further action until I hear from you. In case you decide the job is important enough, I know that we will have to hunt for a replacement and train him on the job for Tolman to be released.

Sincerely,

JOHN J. ALBRIGHT,
Colonel, Infantry.

(Thru Commanding Officer, 2675th Regt., ACC, APO 394.)

1. Request that Major Edward H. Richardson, 939th Field Artillery Battalion be placed on temporary duty with Headquarters Allied Control Commission with a view to his transfer as soon as a vacancy exists.

2. The above officer has requested transfer to ACC. He is an educated engineer with ten years' practical experience on highways and Public Works in general, the qualifications which are urgently needed in ACC for work directly behind the Armies. The Public Works Sub-Commission is below the T/O strength but the over-all strength of American personnel is at the moment slightly over our allocation. Officers of general qualifications are being transferred to Replacement Centers for reassignment as rapidly as possible and there will be a vacancy for a trained engineer on or about 1 September.

3. The assignment to ACC of Major Richardson will be requested as soon as a vacancy occurs. Prior to this time it is requested that Major Richardson be attached to the 2675th Regiment because of the urgent need for trained engineers.

1. Request that you have Directors of your Sub-Commissions review appendix "C" to 16031/3/G-1, dated 22 June 46, subject: "Future Planning Regional Strength", with reference to the number of officers required by each Sub-Commission in Regions I and VI under this appendix. It will be necessary sometime between August 15th and August 30th to drop Regional Strength of the above Regions to the approximate strength shown in appendix "C". Conditions and commitments of Sub-Commissions may now be different from those existing on 22 June.

2. It is planned to have a meeting of the Regional Commissioners of Regions I and VI about 7 August. It will be of great assistance to the Establishments Branch if I could have, by not later that 5 August, the numbers and names, if possible, of the officers of your Sub-Commissions who will be required in Regions I and VI on and after 15 August.

SUBJECT: Appointment Board of Officers.

TO : All concerned.

1. Pursuant to the authority contained in letter Headquarters Allied Armies in Italy (Rear Adm Echelon), Subject: Damage to Non-Military Objectives in Rome, dated 6 June 1944 and with concurrence of the Commanding Generals of Fifth Army and MAAF, the following board of officers is appointed to inventory the damage caused to non-military objectives in Rome due to allied bombing.

Brig Gen	WILLIAM S. GRAVELY	09990	AC	(A)	HQ MAAF
Lt Col	PAUL D. CARTER	08416	Inf	(A)	HQ RAAC
Lt Col	HENRY T. ROWELL	0505537	CMP	(A)	Rome Region ACC
Major	V. A. GIANELLI		Inf	(Cdn)	Rome Region ACC
Lieut	PERRY B. COTT	151647	USNR	(A)	Rome Region ACC

2. The Board is authorized to deal directly with the Commanding General, Fifth Army, the Commanding General, Rome Area Command, the Commanding General, MAAF, and such other commands as may be necessary to secure essential witnesses and evidence. All movements of the Board and its members into and within Rome will be coordinated by the Commanding General, Fifth Army, who is requested to facilitate the activities of Board to the greatest extent practicable.

3. Evidence will be as comprehensive as the requirements for expeditious completion of the inventory report permits. The gist of all pertinent testimony will be recorded, and all pertinent documents and written records will be incorporated in the record of proceedings. It is stressed that photographs, sketches and diagrams are of great assistance in securing clarity of understanding. Ten complete copies of the report of proceedings will be furnished CG Headquarters, Allied Armies in Italy.

4. If in the opinion of the Board a partial or preliminary report of the findings of the Board is desirable such a report will be rendered.

5. The report is intended to cover damage, whether direct or indirect due to aerial bombardment to non-military objectives. If there is doubt as to where damage is due to aerial bombardment or as to whether the objective was a true military one the report will include such cases in the inventory with proper explanatory remarks.

6. The report of inventory will contain no findings of praise or criticism of bombing or other military action and no recommendation as to repair or rehabilitation of any damaged objectives. Any military lessons learned from the survey or any conclusions reached by individual members of the Board may be transmitted by those individual members to their respective commanders for such separate action as may be desirable.

1. Reference Finance Sub-Commission's letter 13015/f of 21 July (attached), W.O. Viarengo cannot at this time be transferred to the Finance Sub-Commission. His services are originally required by the Headquarters Commandant for a combination of payrolls for civilian employees and as mess accountant for 5 messes being operated for the officers of ACC.

2. The statement in para. 3a that W.O. Viarengo was sent from America for use in inventory work is to the best of my knowledge correct. He was sent for military supply work in main Headquarters or Regional Headquarters.

3. Prior to the assignment of W.O. Viarengo to his present job, an attempt was made to replace Capt. Marshall, who had been on part time mess accounting and the officer who had previously been in charge of civilian payrolls - local purchases and another officer then assigned to Finance Sub-Commission. Since we were unsuccessful in the trade, it became necessary to make the above noted assignment of W.O. Viarengo.

SUBJECT: - Return to the United States of Col. James P. Growdon - C.E.

TO: - Chief Commissioner, A.C.C.

1. The AAI Central Electrical Board was established and the undersigned, Colonel JAMES P. GROWDON, C.E., was appointed Executive Vice Chairman thereof by A.F.HQ. Adv. Adm. Echelon Adm. Instruction No. 27 dated 8 Feb 44.

2. Orders are presently to be issued abolishing the AAI Central Electrical Board, which will leave the Vice Chairman without a suitable assignment in this Theatre.

3. In view of the above, it is requested that I be relieved from duty with the 2675th Regiment and returned to the United States as promptly as possible.

TO : Captain FRANK A. GUIDATA, Spec-Res, AUS, O-519661, Company "D", 2675th Regt, Allied Control Commission.

1. Investigation has indicated that prior to 30 March 1944, you purchased ten or fifteen gallons of olive oil in Italy which you shipped to your family in the United States in violation of the provisions set forth in PBS Circular No. 8, dated 11 January 1944.

2. Your purchase of this oil is particularly reprehensible in view of your Civil Affairs assignment. There can be no excuse or juntification for any Civil Affairs Officer not knowing that there is an acute shortage of essential fats in this Theatre of Operations, that the civilian population is suffering, and that the supply in the United States is ample even though all officers might not be familiar with all provisions set out in PBS circulars and other directives. It is only your excellent reputation as an officer that precludes more drastic disciplinary action than this admonition.

3. You will acknowledge receipt by indorsement hereon. A copy of this admonition will be filed with your next efficiency report, and will be noted on your form, 66-1.

To : Regional Commissioner, Region II.

1. Capt. G. F. Gardiner, now assigned your Region, is a Finance Sub-Commission officer. He came to Region II with the group of Region V officers and was not reassigned to Region V with the early group of officers for that Region. In the interim, he was assigned to duties within Region II other than Finance. It is our understanding that he is now on duty in connection with the collection of grain. He is, also, urgently needed as a Finance officer for a new Region.

2. The continuation of Colonel Whitley's services was recommended and requested on the basis of the T/O which was in effect at that time. However, per MATOUSA Letter AG 221.02/570 A-O, Subject: Allotment of Personnel, dated 3 June 44, the authorized strength of the 2675th Regiment, ACC, was reduced by 63 officers. As a result of this reduction, AFHQ has informed Headquarters ACC that it must reduce to a sub-allotment of 635 American officers. Accordingly, under the provisions of paragraph 6, WD Circular 167, dated 22 July 43, the services of Colonel F. Langley Whitley are no longer required by Headquarters ACC. It is requested that this fact be reported to The Adjutant General for the reassignment to another unit or for release from active service.

To : Regional Commissioner, Region III.

1. With reference to your letter recommending an award to Col. J. K. Weber (Inf.), under the provisions of W.D. Bulletin No. 3, 1944, I can find no authority for making this award for such services as Col. Weber performed. The NATOUSA regulations which implement the provisions of the above mentioned Bulletin No. 3 limit this award in general to combat troops and those in very close support of the combat. In fact, the statement is made that in most part this award will be given to the Infantry.

2. I thoroughly agree that Col. Weber has done an outstanding job in Naples Province and that his work is deserving of a highest commendation. I have forwarded your recommendation to Hq. 2675th Regiment for file with Col. Weber's record and have asked them if possible to find an award which could be given to Col. Weber for the work that he has performed.

SUBJECT: Relief from Active Duty of Officers for Whom no Suitable Assignment Exists or is in Prospect.

TO: All Concerned.

1. The instructions contained herein will govern the submission of recommendations and applications of officers who request relief from active duty by reason of having passed their 38th birthday and for whom no suitable assignment exists or is in prospect. The instructions are a compendium of the following publications, and other instructions received from the War Department in various radiograms.

a. Letter AG 210.85 (30 Dec 43)PO-A-A, Subject: "Relief from Active Duty of Officers for Whom no Suitable Assignment Exists", dated 12 January 1944.

b. Memorandum W 605-44, War Department, 29 February 1944.

c. Memorandum W 605-44, War Department, 23 March 1944.

2. Officers who meet the eligibility requirements prescribed herein may be recommended by their immediate commander or any other commander for relief from active duty, or they may themselves request relief from active duty. All recommendations and applications will be forwarded through military channels to The Adjutant General, through this headquarters, except as noted in paragraph 10.

3. The instructions contained herein, except where noted to apply to only one class, are applicable to officers recommended for relief from active duty and officers who request relief.

106

4. a. To be eligible for relief from active duty an officer must:

(1) Have reached his 38th birthday.

RESTRICTED

Declassified E.O. 12356 Section 3.3/NND No. 785017

AG 210.85/371-P (Continued)

(2) Have completed the duties for which he was called to active duty or appointed from civil life, or

(3) Must have been rendered surplus as a result of reduction in overhead, changes as a result of reorganization which has eliminated the officer's specific assignment, or as a result of other similar conditions not through fault of his own.

(4) Be recommended for relief from active duty within ten (10) days following date on which rendered surplus. (This does not apply to officers who request relief.)

(5) Have served honorably, faithfully, and satisfactorily and have a record to warrant separation under honorable conditions.

(6) Not be awaiting result of disciplinary action or reclassification proceedings under AR 605-230.

5. It is deemed essential to the war effort to retain on active duty an officer who is filling efficiently a necessary position or one who possesses special skills or qualifications which have been designated as being in scarce categories or in which an overall Army shortage exists.

6. For the purpose of this directive, an officer who is unassigned or assigned to a position established for a lower grade, and whose present status is the result of one of the conditions described in paragraph 4a (2) or (3), may be considered surplus provided no position commensurate with his grade and qualifications exists or is in prospect.

7. Recommendations, or in the case of officers initiating request the 1st Indorsement, will contain a concise, specific statement covering the following:

a. Date officer became surplus.

b. Description of conditions under which officer became surplus, including whether or not the position has been eliminated.

c. Reason for recommending release.

Declassified E.O. 12356 Section 3.3/NND No. 785017

AG 210.85/371-P (Continued)

d. Whether or not any other position exists or is in prospect commensurate with the grade and qualifications of the officer to which he might be assigned.

e. A description of the position to which officer was assigned immediately preceding date on which he became surplus.

f. Whether or not the case is one which should properly be handled under disciplinary action or AR 605-230.

g. Whether or not the officer has served honorably, faithfully, and satisfactorily and whether service has been such as to merit separation under honorable conditions.

h. Amount of leave officer has accrued as of the last of the month preceding recommendation or application.

8. Officers who request relief from active duty will include in their application a detailed statement showing reasons for desiring relief.

9. Each recommendation or application will include as an inclosure a certified true copy of the officer's WD, AGO Form 66-1 or 66-2, which must be complete in all respects, showing duty performed and manner of performance of duty to include date of recommendation or application, and in the cases of officers recommended for relief, a complete certified true copy of the letter and indorsements referred to in paragraph 11 will be submitted. The original form 66-1 or 66-2 will go with the officer.

10. Each commander who takes action on a recommendation or application will reassign the officer to an appropriate vacancy within his command, provided one exists. If reassignment is accomplished, the correspondence will be returned direct to originator. Each indorsement forwarding a communication to a higher headquarters will contain:

a. An expression of approval or disapproval.

b. A statement that a suitable assignment, commensurate with officer's grade and qualifications, does not exist or is not in prospect.

c. A statement that the conditions upon which approval of relief from active duty is based (See paragraph 4a (2) and (3)) are applicable within that particular command.

11. Each officer selected for recommendation for relief from active duty under the provisions of the above mentioned letter will be given notice of such selection by his

immediate or higher commander, and will be given an opportunity to reply thereto. Notification will be in substantially the following form:

"a. Inclosed is a copy of (or reference is made to) War Department letter AG 210.85 (30 Dec 43) PO-A-A, 12 January 1944, Subject: 'Relief from Active Duty of Officers for Whom no Suitable Assignment Exists'.

b. After careful consideration, it has been decided to recommend to the War Department that you be placed on inactive status under the provisions of the letter referred to above. Pending further notification, it is suggested that any arrangements made by you for return to civil life be made on a tentative basis only.

c. It is desired that the receipt of this letter be acknowledged within __ days after its receipt together with any remarks you wish to make."

12. It is desired to emphasize the following points:

a. That only officers who are eligible for relief from active duty in accordance with paragraph 4 of this letter will be recommended for relief from active duty. Recommendations for ineligible officers will not be forwarded to this headquarters.

b. Commanders will take prompt action to recommend eligible officers in all cases where suitable assignments do not exist or are not in prospect.

c. That final approval rests with the War Department and that it is not mandatory that the application of an officer be finally approved.

d. That separation must be accomplished without prejudice to the officers concerned.

13. First Indorsement, AG 210.85/371-O, this headquarters, 27 January 1944, on letter AG 210.85 (30 Dec 43), War Department, Subject: "Relief from Active Duty of Officers for Whom no Suitable Assignment Exists.", 12 January 1944, and other Theater instructions in conflict with this letter, are rescinded.

a. Major B. M. Dreyfus (B), originally assigned to Region VIII as a Provincial officer may be utilized as a Legal Officer.

b. Major R. M. Woodward (A) and Lt. H.G.T. Christiaens (B), now on legal duty in Region III, will be ordered as Legal Officers to Region VIII when needed.

c. Major H. L. Glenn (A), now assigned Legal Division of the Rome Region will be assigned to Region VIII as soon as it can be determined that his services are not necessary in Rome.

2. A final decision cannot now be made with reference to the following:

a. Major Curry Carter (A) and Lt. L. L. Miller (A), now assigned as CAOs Rome - earmarked and badly needed as CAOs Region VIII.

b. Capt. Magnuff (B), urgently needed at his present duties in Region VI, which already has been reduced below the Regional ceiling.

c. Capt. Botham (B), now assigned Labor in Region II, since Labor Officers are more difficult to find than any other of our specialists.

3. The question of ceilings for Sub-Commissions and the distribution of all of our officers for the North of Italy is now under discussion and final decisions must await the conclusion of this study.

Colonel Charles M. Spofford,
Assistant Chief of Staff,
G-5, AFHQ, APO 512.

Dear Colonel Spofford:

MATOUSA letter of 3 June, AG 221.02/570 A-O, subject "Allotment of Personnel" which you have undoubtedly seen decreases the allotment of officers to 766. This is a serious blow to all of us and especially to ACC at this time of increasing operations. As you probably know, we are over our 635 ceiling at present and we are finding great difficulty in getting Region VIII organized and into the area in conjunction with the officers required for the harvest.

What will happen as the advance moves rapidly north, is a very urgent problem. I discussed that point with you here and no solution seemed readily available. The hope that officers with tactical units would be made available was expressed but there is nothing definite on it. We visualize dropping our spear-head units into the last few Provinces but they will not be able to cover too much territory. It appears here that the Pisa-Rimini line will be reached fairly soon. Therefore, some decision must be reached quickly as to whether we will get any additional allotment, if so how many. If not, we must completely revamp our plans.

Our present overstrength did not worry me until receipt of the reduced allowance. It does worry me now particularly since I know it has to cover the whole theatre. If we are forced to cut our present strength, I can reduce a few by getting rid of the incapables. As we stand today, the incapables are of more value than no one at all. Our problem is further complicated by the number of specialist officers currently going to hospital - agriculture in particular.

772

Declassified E.O. 12356 Section 3.3/NND No. 785017

The Army Sub-Commission is in a very bad way as eight of their officers have been directed to return to their parent unit, our request for their assignment having been disapproved. You will hear from General Lemnitzer on that by cable.

I am quite anxious to have some word from you relative plans to continue under the reduced allotment. How many of the 766 officers do you need at once? How soon must we cut to 635 or can we hold on for a reduced allotment? How should I plan for personnel of the above mentioned line? Quite a problem!

Sincerely,

JOHN J. ALBRIGHT

Report (at present at Carovilli)

To : Lt-Col. Selby M.C.
O.C., A.M.G.
5 Corps.

From : Capt. G.W. Bain.
Div L.O. Herman Divn.

Lieut Pratt was sent to Lieut Collop (C.A.O. Carovilli) some three weeks ago, for instructional purposes, from Eighth Army. Lieut Collop reports that, since arrival, Lieut Pratt has shown no interest at all in the work of a C.A.O. nor exhibited any desire to learn. He does not appear to be acquainted with any of the routine matters required by a C.A.O. He knows no Italian, and does not seem to be making any attempt to learn it.

On a short acquaintance with Lieut Pratt, I agree with Lieut Collop's opinion. I believe that Major Giffin (L.O. X Corps) had also a poor opinion of this officer.

I do not consider, in view of the above, that this officer is likely to make an efficient Spearhead C.A.O., or in fact, that he is suited to administrative and executive work of this nature.

Subject: Reorganization of Region VII.

To : Regional Commissioner, Region VII.

1. The speed with which the armies have moved within the last two days and the possibility of continued rapid movement make it urgent that you complete plans for the reorganization of Region VII as discussed with me during the Regional Commissioners Conference. As I stated in the cable to you, you with a minimum staff from Region VII should be prepared to move within five days' notification from this Headquarters.

2. We are setting up a small Regional Headquarters here with Col. Pennyquick temporarily in charge. He will set up a minimum Headquarters and a skeleton organization for the first two Provinces as soon as we can get the officers together. Supply Officers for the Region will be sent forward to AMG 5th Army for training during the move across Region IV.

3. Col. Pennyquick will not be the permanent Regional Executive as he will be moved later to one of the ACC Regions. The permanent Executive has not yet been decided, but you should count on bringing Major Salter, Capt Andrews, and Lt. Opulente with you. We will leave the other Provincial officers in Region VII as long as we can.

4. As you well realize the time will depend entirely on the speed of progress by the Army. If the advance up the west coast is rapid which it may be, we will have to be prepared.

To : Regional Commissioner, Region I.

1. The attached copy of letter from the Economic Section indicated desire of the Food Sub-Commission with reference to the placement of its officers in your Region. Since the Sub-Commissions are being forced to provide officers for new reactivated Regions and to strip the older Regions of the specialist officers, it is almost a necessity that Regional Commissioners comply with its desires as to the distribution and assignment of their officers within the Region.

2. Major Monk was held in Region I to be the Regional Supply Officer. Capt. Lakser was sent from this Headquarters to be Supply Officer at Catania. Request that you comply with the desires/directed of the Food Sub-Commission in the placement of these officers unless you have exceptionally strong reasons for different assignments. In the latter case, please inform this Headquarters of your reasons at once.

SUBJECT: Placement of Officers - Region I.

TO : Executive Commissioner, Hq. A.C.C.

1. It has come to our attention that a somewhat confusing situation has arisen in Region I regarding supply officers.

2. Due to the necessity of transferring specialist personnel it was requested and granted that Major Chayton, R.S.O. at Palermo be returned to this Headquarters. It was planned that Major Monk, formerly P.S.O. at Catania, take his place at Palermo - a Captain Lakser from this Headquarters to fill the vacancy at Catania. Orders to this effect were published and the matter closed.

3. Unfortunately, a delay in the transfer was caused by conflicting orders regarding Major Monk, as Establishments Branch thought that he would be available for Provincial officer work in Region V. This was however corrected and Major Monk has remained in Region I.

4. Evidently, however, Regional Orders have not been issued to the officers concerned so that they may proceed with their duties in accordance with the original plan. We now are informed that as of today Major Monk still remains in Catania, that his relief officer, Capt. Lakser is in Catania and that in addition, a Major Young, P.S.O. from Ragusa is also there.

5. It is regretted that any misunderstanding should have arisen but it is obvious that the matter should be corrected at the earliest possible time. We will appreciate your attention.

1. Your letter of 20 May 1944 re: above subject was discussed with you on 21 May 1944. I desire to confirm what I said at that time that additional personnel for supply activities must be obtained from Region IV. I discussed the matter with Brigadier Dunlop late on 21 May and he promised to telephone you today and make the necessary arrangements to make available to you personnel for supply activities.

2. As the personnel for the northern Provinces of Region IV are needed in their own Province, Region VIII officers will be ordered forward and will be available to you. This will afford training for Regional officers prior to their arrival in the Province to which they are assigned. It is the most efficient use of our very limited personnel.

To : H.Q., A.C.C. Establishments Branch.

1. The nine days of mobile operations have indicated that - at the present speed of advance - AMG Fifth Army (Field) possesses the necessary organised personnel. Casualties and operational developments will of course make further calls necessary as and when they arise.

2. There is one direction, however, in which our existing personnel have been shown to be inadequate, viz. supply.

3. Within a week a supply depot has been erected and put into full operation at Carinola. Already plans are in hand for moving this to Formia. Depots will have to be leapfrogged if necessary.

4. To carry on this supply operation our present personnel is 2 Officers and 3 EM/ORs (1 in hospital). It is of course intended to make full use of the provincial supply personnel (at present 1 Officer for Litteria and 1 Officer for Viterbo Provinces) but it is evident that the Field staff needs strengthening.

5. This is written therefore to confirm my conversation with Brigadier Lush on his visit here yesterday asking for the provision of 1 further Officer and 6 EM/ORs. Why did Italian soldiers? See 2/1 alta?

6. It should be mentioned that 15 Italian civilians are already employed on supplies, that there are limits to the employment of these Italians in forward areas; hence the request for 6 EM/ORs.

Dear Brigadier Lush:

Captain Perry (U.S.) has been employed, since the occupation of Sicily, in the Economics & Supply Division, much of that time working with Major Archie Alexander, who is now with the Gerry Operation.

Major Alexander has written to Capt. Perry that an important assignment is open.

Soon, perhaps within two or three weeks, the volume of work in the Economics & Supply Division, Region I, should be reduced to the extent that Capt. Perry could be spared. Col. Hancock is not desirous of standing in the way of such an assignment for this officer.

Is there possibility that a transfer to Gerry of Capt. Perry could be effected?

1. Reference our EstO/Ma-5, dated 5 May and your reply OA/101, 13 May enclosing a report of investigation. I wish to thank you for your quick action. I disagree with Major Mercer's report in which he states that the Captain believed his action were not in contravention of existing orders; that he had reasonable cause fo for such belief. The Captain stated in his own statement that that his information was received from Reports of the Finance Sub-Commission of February and March, and the report in February definitely states the method by which money could be transmitted.

2. I further disagree with the statement that the American APO should not have cashed the money order since the money order was undoubtedly made out to the Officer in the American Army and would contain no indication of the disposition of the money thereafter.

It is believed that Capt. Malatesta's motives were good, but if officers of AMG/ACC are permitted to circumvent our own regulations, we will soon be in a bad situation.

Subject: Assignment, Reassignment, and use of Specialist Officers in Regions.

To : Regional Commissioners and SCAOs.

1. There appears to be considerable misunderstanding by Regional Commissioners in reference to the assignment, reassignment and use within the Region of Specialist (Sub-Commission) officers. It is hoped that the following notes may serve to clarify this matter.

a. Original assignments of Specialist Officers to Regions are made on the recommendation of the Vice Presidents of Sections in consultation with the Director of the Sub-Commissions and, when possible, with the agreement of the Regional Commissioner.

b. Reassignments and withdrawals of these officers from Regions are made in the same way. Every effort is made to consider the problems and desires of the Regional Commissioners but in case of disagreement, it sometimes is necessary to follow the recommendation of the Director of the Sub-Commission since he is responsible for providing for all Regions, AMG Armies, and his Hq. Staff from limited numbers of personnel.

c. Specialist Officers in Regions, especially AMG Regions where personnel for CAOs is limited, may be utilized for other tasks in addition to their specialist assignments. However, Regional Commissioners must exercise sufficient care to insure that these additional tasks do not prevent the accomplishment of their specialist functions and that they are not given tasks from which they can not be spared when needed as a specialist for another Region.

2. All assignments and reassignments of officers to Regions must have the approval of the Executive Commissioner. The Establishments Branch of the EC & MG Section is charged with the clearance with Sub-Commissions and Regions of all officers prior to transfer. Therefore, all requests for assignments or transfers from Heads of Sections, Sub-Commissions or Regions should be addressed to the Executive Commissioner (Attention Establishments Officer).

3. Requests for relief of officers for inefficiency or in lieu of proper disciplinary action will be accompanied by a written report from

1. With reference to your EstO/Ma-11 of 11 May 44 it is submitted that a duty officer covering the 24 hours is not necessary at Headquarters, Region 6 for the following reasons:-

There are no telephone communications with the mainland at present.

Telephones are established in "A" Officers Mess where the Regional Commissioner lives and at "B" Mess where there are also telephones in the H.Q. Commandant's office in the same building. All local telephone calls are, if necessary, put through to one of the above points after office hours.

2. As regards any correspondence arriving after office hours this is always sent up to "A" Mess where it is dealt with by an Officer. Furthermore, courier services on this Island are of necessity very few and correspondence normally arrives at certain fixed times.

3. Under the circumstances it would appear quite unnecessary for an Officer to sleep in the Headquarters offices, the living quarters of Officers being quite close at hand.

Subject: Leave for Officers.

To : Regional Commissioners, Regions I, II, III, IV, V, VI, and VII.

1. With reference to Para. 4, Minutes of Regional Commissioners' Conference, 15-16 April, "Local leave" was authorized by the Executive Commissioner provided that not more than 20% of officers were on leave at any one time, and that the officers did not make any attempt while on such leave to enter Army areas. It was further agreed that the above provisions should also apply to EM/ORs. Travel will be regularized by the issuance of Regional Orders under authority of this letter placing the officers or EM/ORs on temporary duty for not to exceed six (6) days at the location for which the leave is requested. The order placing them on temporary duty will authorize the travel.

2. The Regional Commissioners of Regions I and VI have previously been authorized to order air travel in the name of Headquarters ACC and that authorization is extended to this type of temporary duty. Regional Commissioners will so space the authorizations for air travel on this temporary duty that the MATS will not be over-crowded with officers on "Local leave".

3. HQ ACC and Regional Headquarters of Regions to which officers and men are ordered will be notified three (3) days in advance of contemplated arrival time so that accommodations may be provided.

2. I am now informed that the personnel and equipment required for the Central Electric Board are:

Officers	3
Clerks	4
Typewriters	1
Motor Cars	2
Drivers	2

3. I must, I regret, protest against the decision that this party is to be provided from the establishment of this Commission.

4. I would point out that owing to the reduction in Staff, due to the revised War Establishment, the provision of officers for this Board will reduce the efficiency of the Public Works and Utilities Sub-Commission, all of whose officers are fully employed. Even if the Specialist Officers required are provided by A.F.H.Q., the number of officers available for the work of the Allied Control Commission will be correspondingly reduced.

5. The provision of the 4 clerks and 2 drivers is not practicable. We have now a serious deficiency in clerks and M/T personnel, and it is impossible at present to obtain any more. We have also extra calls on M/T vehicles which were not envisaged when the War Establishment was approved.

6. The extra commitments of this Commission are already large and I feel that it is not right to place more on it unless the establishment of both personnel and equipment is correspondingly increased, and completed.

To : Military Government Section, AFHQ, APO 512.

1. Reference is made to my letter ref. 16031/1/G-1, subject WE/TO Hq. Allied Control Commission, dated 24 April 1944. While the total officer strength of Allied Control Commission now approaches the ceiling set in my letter, there are serious deficiencies in Specialist Officers necessary for the efficient functioning of the Commission. We have been unable to obtain these Specialist Officers in this theatre and urgently request that you make every effort to obtain these officers for us from the United States or the United Kingdom. The specialists required are as follows:

Agriculture - total 10 officers.

a. 1 Experienced Agricultural Economist - not above rank of Major.
b. 2 Experienced Crop Estimators - not above rank of Major.
c. 1 Forestry Administrator - not above rank of Major.
d. 6 General Agriculturists with specific knowledge of the industry and practical experience in "field" operations - not above the rank of Captain.

Public Works and Utilities - total 26 officers

a. 1 Experienced Public Works Officer as assistant to the Chief in charge of the Public Works Division. Extended experience necessary in charge of Public Works, such as Waters, Sewers, Gas, Streets, and Buildings. - Major.

Executive Personnel File

b. 1 Materials and Supply Officer. A qualified engineer with construction experience and Construction Material supply - Captain or Lieutenant.

c. 1 Building Construction Officer. A qualified engineer with practical experience in Building Construction - Captain or Lieutenant.

d. 1 Designing Engineer. An engineer experienced in 127 structural theories and design with drafting room procedure experience - Captain or Lieutenant

Declassified E.O. 12356 Section 3.3/NND No. 785017

e. 4 Public Works Engineers with experience in responsible charge of such installations as Waters, Sewers, Gas, Streets, and Buildings. General engineering and construction experience is preferred if specialists are not available - 1 Major, 3 Junior Officers.

f. 6 Electrical Engineers with the experience of electrical distribution problems, operation and maintenance of distribution systems, sub-stations, power flow calculations and consumers records - 1 Major, 5 Junior Officers.

g. 12 General engineers with basic knowledge and experience in all phases of Highway and Bridge Construction - Junior Officers.

Labor - Total 22 officers

The qualification requirement is for thoroughly competent officers who are properly trained labor men with actual experience in the many phases of Organization, Negotiation and Control of labor problems - Junior Officers preferred.

2. The Vice President of the Economic Section assures me that these officers are needed for operation in the field, and that they cannot be efficiently replaced by civilian specialists. It might be possible that civilians could replace a. b. and c. of the Agricultural requirements but this is not recommended. A small percentage of both the Public Works and Utilities and Labor Officers might be civilians but effectiveness would be less than if they were commissioned officers. If the addition of these specialists should increase the strength of ACC over that in the reference letter, officers of general qualifications can be released for other assignment to keep our strength within the required limit. It is quite probable that this will be unnecessary due to normal losses from our present strength. It must be appreciated that the low ceiling placed on our strength requires that the officers assigned be highly specialized and highly efficient.

My dear Col. Spofford:

A cable was sent to you on 21 April in reference to transfer to U.K. of Col. Robert P. Marshall, U.S. whom you probably know. There is a considerable story behind the request and its approval which involves personalities of two nationalities. The only thing that could be construed to the discredit of Col. Marshall is the fact that he submitted the request just subsequent to receiving orders appointing him Regional Commissioner of Region II. He had previously stated that he did not desire this assignment but would accept if ordered.

Upon receipt of Col. Marshall's request for transfer to U.K., the Chief Commissioner decided that he had lost confidence in Col. Marshall and would approve his transfer. He requested that you order him to AFHQ pending action on the request. I wish to add my request to his that you issue such orders at once. This would conform to British practice and would clear the atmosphere here quickly.

I hope that you can come over for a visit in the near future. Van Dusen, who is here, says you are planning to come. Hoping to see you soon, I remain,

The statements in your letter of 5 April 1944, reference AS/3/74 on the subject of reassignment of this officer, are quite true and appreciated by this Headquarters. It has been considered necessary, owing to the shortage of properly qualified officers for Malaria Control and considering the needs of all Regions, to centralize the Malaria Control work at this Headquarters. It is considered that it would be preferable to have an officer in each Region, but this is impossible due to the shortage of officers.

Lt. Col. Vetch, CFO (B) - on UK party.

Note: Major Baird (B) who was Assistant CFO, is considered available as a CFO if a suitable Assistant is made available. Major Ralston (B) now on duty in Campobasso Province, is not desired as a CFO.

3. Lt. Col. Spencer, Public Health, now assigned to Region V or to Region IV. What has happened to Capt. W. J. Nolan? Has he gone to U.K. or been transferred to Region IV or somewhere else? He was originally a Region V officer.

4. a. Region V desires a British "Q" officer who would release Capt. Robinson (A) and Lt. Hatt (B) for use as CAOs. Since CAOs are becoming scarce, this would be a good move if we can find a "Q" officer.

b. With reference to Capt. D. F. HRoyston (B) Medical Officer, he can now be transferred to Region V - see correspondence in G-1 file. Group Capt. Benson and Col. Whiteley have agreed on his assignment.

5. 18 Enlisted Men formerly Region V, should be transferred to I&DP Sub-Commission, list attached, and Pfc Betti should be ordered to report to Headquarters, Region V, Campobasso from I&DP Sub-Commission. Region V should be given replacement of approximately 18 men, at least eight of whom should be typists. This Region is urgently in need of clerks.

6. Major Armstrong, F.C., Benevento, needs three CAPOs for the Province. I do not know whether they can be supplied by officers now on duty with Region III.

7. Lt. Col. White, F.C., Avellino Province, needs two CAPOs.

Vehicles:

Region V should be given the following vehicles with drivers:

3 - Jeeps
5 - 3/4-ton Weapon Carriers
4 - 1/4-ton Trailers.

Subject: Additional Personnel Requirements for Public Works and Utilities Sub-Commission.

To : Director, Establishment Branch, A.C.C.

The functions performed by this Sub-Commission fall into the following classifications:

A. Public Works: Waterworks, Sewers, Gas Plants, including their operation and Maintenance, Buildings, Irrigation, Highways, Bridges, Ports, clearing ports of sunken ships, shipyards to build ships, Rates for Water and Gas services.

B. Electric Utilities: Operation and Maintenance of Electric Power Systems, Management Problems, Sub-Stations, Transformer Stations, Transmission, Distribution, Power Sale and Current Control, Electricity Rationing and Electric Utility Rates.

C. Military Highways: Reconstruction and Maintenance of Military Priority Roads, Reconstruction of Bridges and the Reorganisation and Reactivation of the Italian Civil Road Organisations so as to permit them to carry on the continued Maintenance of these Roads.

In addition to the principal tasks cited above, there are the vast numbers of daily provincial and communal engineering problems which must be solved and upon which the lives in these centers depend.

Considerable additional personnel is needed, to cite but one example. At the present moment considerable activity centers around the problem of what must be done when Rome is occupied. In this connection alone we estimate that, based upon our recent experience with such problems in Regions II, III and V, seven electrical experts will be needed for several weeks to control electricity rationing, four of these for a very extended period. Today none of these are available in Region IV which must have at least the four permanent men for this task.

This Sub-Commission was asked to relieve the Military Enginner forces of the task of reconstruction and maintenance of Military Highways behind the Army Zone, a task which never was included in any A.C.C. program or Table of Organization and which alone occupies about half of the personnel of this Sub-Commission, which has been asked to extend and accelerate these operations.

The present officer personnel, of this Sub-Commission at Headquarters and in all regions, is only forty six, of whichtwelve are exclusively engaged/ 1 4

on Military Highway problems in the field and a good portion of the time of key men and others at Headquarters is taken up with these problems.

The requirements of this Sub-Commission are as follows:

	Present officer Strength	Additional officers Required	Total no of officers
Headquarters	16	4	20
Military Highways	12	15	27
Regions	18	10	28
Total	46	29	75

In addition to the officer requirements, this Sub-Commission needs thirty additional enlisted men with construction experience to supervise portions of the military highway work.

Attached hereto is a detail statement from the P.W. &U. Sub-Commission showing where the present personnel is, where new personnel is needed, why it is needed, and what the qualifications must be.

It is imperative that steps be taken immediately to obtain this personnel from the U.S. where such men are available and eager to serve over here.

As this matter is so urgent, it is requested that consideration be given to sending a qualified officer of the P.W. & U. Sub-Commission to the U. S. to select this technical personnel.

In addition to the request for additional personnel, a request for a considerable quantity of highway construction equipment will shortly be made. In connection with this, and in connection with the considerable added personnel needed for Military Highway Reconstruction, we are advised that Brigadier Anderson, D.D.W., and Brigadier Rogers, C.E., A.A.I., will back up our request as they are most anxious that A.C.C. be properly organised and equipped to do this work.

Subject: Personnel Requirements of P.W. & U Sub-Com.

To : Vice Pres. Economic Section.

1. Attached hereto are detailed statements giving the Personnel Requirements of this Sub-Commission. We have made every possible effort to obtain engineering personnel from the forces here, but have been unsuccessful in obtaining all of the officers needed. The reason for this is that we require specialists in several engineering fields. The specialists with the armed forces are all fully occupied insofar as we have been able to ascertain and can not be transferred to us. We have a vital key task to perform and we must have the personnel with proper experience so we can fulfill our task.

2. It is imperative that steps be taken immediately to obtain this personnel from the U.K. or the U.S. Senior British Officers in this Sub-Commission advise me that the engineering field in England has been combed so thin that they doubt that these experts could be obtained from there. I do know that such men are available in the U.S. and many of them would be anxious to come here. This Sub-Com. has never specified any nationality, we were glad to get the men with proper experience irrespective of nationality. However, in view of the above, it is suggested that the attached draft of a cable be sent to Washington with a request that these men be sent here by Air and without delay.

3. Will you please assist us in obtaining this much needed personnel.

Declassified E.O. 12356 Section 3.3/NND No. 785011

Detail Explanation.

The problems to be dealt with are so far reaching and so numerous as to make it impossible, on many occasions, to give these matters proper and expert attention, with the result that work is either held up or, in some instances, is not done properly and we suffer in the long run. The question of Public Works personnel has been discussed with Regional public works officers in an effort to have a balanced organisation, that is, the Regions and this HQ. to supplement each other and avoid duplication wherever possible, and the table of requirements presented herewith has been prepared as a result of these conferences.

It must be fully realised that if the principle of Regional Organisation is to be adhered to, the Regions must have the personnel to carry out their day to day tasks. We at headquarters will have specialists to go out and assist these Regions whenever and wherever any special problems present themselves, or emergency situations arise beyond the ability of the Region to handle. However, it is not our job to go into these Regions and do their actual work for them, as has been the case, to wit :

Electricity Rationing.

Although this was a military responsibility the task of rationing all civil consumption was assigned to A.C.C. We found that neither Region II and III had any electrical engineers to carry out the detail day to day tasks in this connection. We promptly assigned one officer to the Bari center and one to Naples to make a study and to do this work for these Regions. The task was far beyond the ability of one man to handle and we assigned a second officer to each of these Regions, thus depleting our headquarters staff to a point where we would have been unable to cope with any other problems.

These Regions must have one such expert to handle such constant problems and we will assist in any emergency by assigning other experts for temporary duty. Our present plan is to transfer one of the two men in each Region, who is now trained in these problems, to these Regions and to replace these with new men for this HQ.

Public Works Problems - Region II.

A large number of projects and requests for materials have come to us from Region II without having received any study at the regional level. Attached to a recent batch of requests for

704

Declassified E.O. 12356 Section 3.3/NND No. 785017

materials was the following notation :

> "as this Region has no Public Works Officer, no Public Utilities Officer, no Industries Officer, and no Supply Officer with any engineering experience, it has been impossible to verify them."

Obviously what headquarters cannot do the work which these Regions are supposed to do under our Regional Organisation procedure. Either they must be given personnel to do this work, or we must have it, and handle all work directly from this headquarters, which we do not want if we can avoid it.

As a consequence we are asking for a Public Works Officer, preferably with the rank of Major, to be assigned to Region II, in addition to the electrical expert.

We have studied the problems of Region I and we feel that no additional officers are needed there, but some changes will have to be made.

As stated above, Region III must have one electrical engineer. But in addition to this it must also have one Public Works Officer, preferably a captain, with general engineering and construction experience. There are far too many problems to be handled in this Region with the personnel available and this Sub-Commission cannot continue to handle regional tasks which we have handled in order to assist the Region.

We have also studied the problems of Region IV. This Region has more Engineer Officers assigned or attached for work in the Region than any other Region. It has one officer each for transportation, communications, water works, sewers and several general engineering officers. In these fields it is well equipped to function effectively. However it lacks electrical experts which must act very promptly and with sufficient strength to handle the problem of electric distribution and rationing just as soon as power for Rome is made available. This is going to be a very critical task.

From our own experience with such problems in Region II and III it is our judgment that four electrical officers are needed

Declassified E.O. 12356 Section 3.3/NND No. 785011

not want if we can avoid it.

From our own experience with such problems in Region II and III it is our judgment that four electrical officers are needed for that work, one major and three junior officers. At the outset this force will be augmented by some trained officers from this headquarter to help organise this task, but to withdraw as soon as the work is well in hand.

While Region V has three engineer officers to day this force will not be sufficient to cope with the many problems which will have to be handled when the 8th Army resumes the offensive. 703

Declassified E.O. 12356 Section 3.3/NND No. 789011

This Region will require one more Public Works Officer and one Electrical Engineer whom we will train.

The problem in Region VI are being studied by officers of this Sub-Commission this week. However, we do not anticipate that any additional officers will be needed there for Public Works and Utility problems. We may have to send some expert there occasionally to handle problems.

Region VIII has no P.W. & U. officers and we do not plan to make a request for such officers. As soon as Region IV is well in hand some Electrical Engineers will be available for transfer and from present indications we feel that, by the time such personnel is needed, Public Works Officers can be made available from other less active Regions, such as Region I, or also from Rehion III and V, and possibly also from this HQ.

PERSONNEL REQUIREMENTS FOR

MILITARY HIGHWAY RECONSTRUCTION

April 4, 1944.

It should be stated at the outset that these Military Highways have always been the responsibility of the various military establishments, and not of A.C.C. or A.A.C., although occasionally A.A.C. had been asked to help. These highways continue to be the responsibility of the military establishments and while this Sub-Commission has taken over the task of financing and supervising the work, obtaining contractors and labor and directing Italian Civil Engineer personnel in the execution of these tasks, thus relieving the military of this detail and free them for other tasks, the military establishments retain jurisdiction and we take instructions from them.

Consequently the personnel required for this task should NOT be considered as coming within the overall strength of A.C.C., as no provision was ever made for this, but it should come out of the total A.A.I. strength instead.

For this reason a separate personnel statement is submitted to cover the work to be done on these highways.

Declassified E.O. 12356 Section 3.3/NND No. 785011

It should be stated at the outset that these Military Highways have always been the responsibility of the various military establishments, and not of A.C.C. or A.A.C., although occasionally A.A.C. had been asked to help. These highways continue to be the responsibility of the military establishments and while this Sub-Commission has taken over the task of financing and supervising the work, obtaining contractors and labor and directing Italian Civil Engineer personnel in the execution of these tasks, thus relieving the military of this detail and free them for other tasks, the military establishments retain jurisdiction and we take instructions from them.

Consequently the personnel required for this task should NOT be considered as coming within the overall strength of A.C.C., as no provision was ever made for this, but it should come out of the total A.A.I. strength instead.

For this reason a separate personnel statement is submitted to cover the work to be done on these highways.

TAIL STATEMENT REGARDING

MILITARY HIGHWAY RECONSTRUCTION

DONE BY P.W.&U. SUB-COMMISSION

On 20 Jan. 44 this Sub-Commission was requested by Adv. A.F.H.Q. to relieve the Armed Forces of much of the highway reconstruction work then in progress, and to be undertaken. On 13 Feb. 44 revised instructions were issued giving further details on the procedure to be followed. Under this procedure we are to organise the Italian Civil Engineer forces to do this work and to direct and supervise the work; also to arrange for its financing. In this instruction of 13 Feb.44 the following statements appear:

"The following are the details of the procedure to be adopted in order to make the fullest possible use of the Civil Road Organisation as it develops."

"The Civil Organisation under A.C.C. control will be set up as shown in Appendix 'A' hereto, to deal with all military roads in occupied Italy."

"It is essential that the maximum possible use be made of the Civil Organisation."

Shortly after this, F.B.S. and 5th. Army Engineers also asked us to relieve them of some of their Military highway tasks, and we complied to the limit of our ability.

While we had received some additional officers and passenger transportation to carry on this work, it soon became apparent that much closer supervision was required, that much more personnel was needed as well as trucks and jeeps if we were to give effective relief to the Armed Forces.

We have been pressed on numerous occasions, and in some instances the armed forces have had to resume portions of the work because of the lack of personnel and equipment at our disposal.

In spite of our inability to cope fully with this situation the interested Military Authorities have discussed with us, on several occasions, ways and means of improving our position and of taking on more work. In addition to the prime task of reconstructing these military highways, the Military Authorities were also most anxious for us to reorganise the Italian Cantonieri system (Highway Maintenance) so as to put them on their feet again, and function in a normal way under our direction in the continued maintenance of these highways. This required the making of a survey of the equipment used normally on these highways, and the listing of such equipment remaining, with a view to supplying the deficiency through requisitions. It is common knowledge that much of this

It is common knowledge that much of this equipment was taken away by the Armed Forces.

Several conferences were held on the above subjects, and a general understanding reached as to the equipment and personnel required to carry out the task we are to perform, so as to enable the Armed Forces to concentrate on military activities elsewhere. In connection with this we received the following letter: 699

1. With reference to your letter of 6th March and to our meeting on the 12th can you now let me have what you consider to be the minimum requirements of the Civil Road Organisation in transport, plant and tools in order that they may fulfil their function of the maintenance of essential roads.

2. I am most anxious that the employment of the organisation you are setting up should be extended and accelerated.

Particular attention is called to the last paragraph wherin Brig. Anderson states that he is most anxious that our organisation be extended and accelerated. In several conferences held with the Chief Engineer of P.E.S. he expressed the same desire, to have us give them the utmost relief possible.

We, on our part, do not only feel quite capable and willing to take on these tasks and to relieve the Armed Forces so that they may concentrate their efforts in other directions, but we think it is our duty to do this work as it involves the reestablishment of the Italian Civil Engineering forces, which had been badly disrupted. This will take time and patience, and will require much more direct field supervision for quite some time, than we had anticipated.

A very careful study has been made of our personnel requirements after having obtained actual experience in the field and discussions with interested Military Authorities. The statement presented, therefore, represents a reasoned judgment of our present foreseeable needs.

Subject: Return of Lt. Col. Miller to the United States.

To : Lt. Col. Henry Parkman, Jr., AFHQ, MGS.

1. Lt. Col. Carl A. Miller, Finance Sub-Commission, whom you probably remember, has requested return to the United States under authority of the NATOUSA regulation which gives authority for surplus officers over 38 years of age to return to the United States. Lt. Col. Miller has been in control of financial institutions and the technique of their operations has been very well settled so that it does not require an officer of his age or experience to extend the procedure as more of Italy is liberated.

2. Since submitting his application, which was approved here, Col. Miller has had a physical examination, initiated by himself, because he has been in poor health for sometime. This examination indicated very high blood pressure and a heart condition on which the doctor recommended at least a month's rest and thereafter that he take things very easy. In order that he would not have to spend a long period in hospitals here and in North Africa, prior to returning to the United States, we desire to send him home for return to inactive duty rather than send him before a medical board in this Theatre. His approved application for return to the States has been forwarded through Headquarters A.A.I. and should be at Headquarters NATOUSA now or within a very few days. In the meantime the Economic Section are asking that he be sent to the States on a special mission in connection with the shipment of cigarette paper to Italy. At a recent recheck of his physical condition the doctor stated that he did not think it would be injurious for Col. Miller to fly to America, since transport planes do not fuly at high altitudes.

3. Anything you can do to speed Col. Miller's return to the United States will be very much appreciated.

1. Approval of the attached application of Lieut-Colonel Carl A. Miller for return to inactive status is strongly recommended.

2. Lieut-Colonel Miller has carried out the duties to which he was assigned in an honourable, faithful and highly satisfactory manner. As stated in his application, the work on which he was employed has been largely completed and the technique of banking and insurance established to apply to present circumstances. As additional Italian territory is liberated, operations will entail an extension of procedures now in operation and no new technique will be required.

3. In the Allied Control Commission, there are no vacancies of sufficient importance in which Lieut-Colonel Miller's rank and qualifications can be properly used. If there were, his request would not have been made nor recommended. In view of his rank, age and outstanding qualifications as a banker, it would be unsuitable and ill-advised to place him in any subordinate position.

SUBJECT:- Return to Inactive Duty

TO: The Commanding General, NATOUSA, APO 512

1. In accordance with provisions of letter of 12th January, 1944 of The Adjutant General on the above subject, request is hereby made for return to inactive duty.

2. I was placed on active duty August 19th, 1943 direct from civil life with the specific assignment of supervising the Financial Institutions of Italy (National Controller of Financial Institutions) through the medium of the then proposed Headquarters of AMG/ACC to be established in Rome. I arrived in Algiers September 6th and have been in Italy since the latter part of October, first in Palermo, then in Brindisi, and since December 28th in Naples.

3. Though the tactical situation made it necessary drastically to change the plans for the control and rehabilitation of Financial Institutions, rapid progress was nevertheless made in their supervision and rehabilitation. With the turnover to the Italian Government of much of the territory of liberated Italy, it can be stated that the situation surrounding Financial Institutions is sound. Banks are operating on a national basis, most of the financial services of the Post Office system, including sale and servicing of Postal Bonds, are in operation, social insurances are functioning, and commercial insurance is about to be re-established. A plan has been perfected through which the Italian Government will aid Banks to finance the rehabilitation of industry. A plan is also about to be placed in operation whereby the Italian Government, through the Bank of Italy and the Post Office system, will pay for goods and services furnished to the Allied Forces. As a result, the need for a National Controller of Financial Institutions has almost ceased to exist.

4. During the period from early in January to mid-March, either or both the Chief Finance Officer and Deputy Chief Finance Officer were away, the former on sick leave and the latter on a mission in Washington. During that time, I acted as Chief Finance Officer until the appointment of the present incumbent, and then as Deputy Chief Finance Officer until the return from the United States of the latter on March 12th.

SUBJECT: American Officer Strength, ACC.

TO : MGS - AFHQ, APO 512.

Attention: Lt. Col. PARKMAN

Some two or three weeks ago, Col. Maxwell wrote to the Executive Commissioner in regard to personnal strength of ACC/AMG. At that time he stated that there would be no replacements coming from America to replace losses to the other theaters for whom we are furnishing officers and that the American Officer strength in this theater would be about 611. So far as I know, there has been no official publication indicating that ACC would be limited to a total of 611 officers. If there is such a limitation, please inform me at once.

General Sawbridge, G-1, AFHQ, on a visit here told us that there would be no objection to our filling vacancies as they occurred, from Limited Service personnel in Personnel Centers. This would seem to indicate that we could build up again to 829 officers which was the authorized strength of the 2675th Regiment. Thus far Personnel Centers have furnished us with Limited Service personnel on our request with such personnel with specified qualifications. I believe that we can get a considerable number of American officers qualified for duty in ACC by this method, however, I do not want to fill up the organization with Limited Service personnel and suddenly be confronted with the necessity of cutting down to 611 officers. In such an event they would undoubtedly require that we turn in to Personnel Centers officers physically qualified for combat duty. In some cases this would take key personnel and would be disastrous to the functioning of our activities. If it is necessary to function with 611 American officers I would much rather know it now than at a later date.

I have already recommended that you attempt to get from Personnel Centers in North Africa, certain types of qualified officers for Col. Gerry's group, which we are unable to furnish. I have not yet received a reply to that letter, but I am informed that a considerable number of Limited Service officers have been sent from here to North Africa. A Limited Service group seems to me to offer a chance for a large number of replacements and the possibility that we could regain the strength of 829 American officers.

Request that you confirm that the authorized strength in officers of the 2675th Regiment has not officially been changed and inform me as early as possible.

HENRY PARKMAN, Jr.,
Lt. Colonel, GSC
Acting Chief of Section.

3rd Ind.

HEADQUARTERS ALLIED CONTROL COMMISSION, APO 394. 13 April 1944.

TO: Military Government Section, AFHQ, APO 512.

1. I am directed by the Chief Commissioner to say that he feels sure that you did not intend to approve of the continued attachment of 6 officers from the already attenuated strength of this Commission to PWB without prior consultation with this Hq.

2. Had that consultation, which Lt. Gen. Mason MacFarlane considers he had every right to expect, been made, you would have been made aware of the fact that it is impossible to carry out the increasing commitments of this commission if officers are detached from the Commission to some other formation. Moreover, it is imperative for future planning that the Chief Commissioner should know that his ceiling is fixed and will not be reduced or tampered with except after prior consultation.

3. In principle, therefore, the Chief Commissioner is compelled to ask that officers are not detached from his commission without prior consultation; in practice he directs me to say that he cannot agree to their future detachment and that if the officers are needed for PWB they should be assigned to the T/O for that formation. I am to add that no account will be madeof their detachment in proposals for the distribution of officers required in your MGS.210/3 of 19th February 1944, which will shortly be submitted to you.

4. The Chief Commissioner would be glad to learn by telegram that you agree with his request.

M.S. LUSH, Brigadier,
Executive Commissioner,
For Chief Commissioner.

AFHQ FOR MGS

In view high malaria rate anticipated by Military and personnel this Headquarters services of outstanding Malariologist required for coordination Military, ACC and Civilian Malaria Control programs for Italy. Understand Colonel Paul Russell may be available for special temporary duty assignment this nature. If Colonel Russell not available desire man with similar background of training and experience at early date. Perhaps Hackett of Rockefeller Foundation who spent many years in Italy on malaria control might be available. Impending situation justifies immediate and concerted planning and action.
