ACCOMMODATIONS IN ITALY

1. In order that there may be no misapprehension as to the attitude which should be adopted towards Italian private individuals, officials, and corporations in respect to obtaining necessary accommodation for military agencies or civilian agencies working for the armed forces, the following instructions will be strictly observed by all persons whose duty it is to obtain or allot accommodations.

2. It is desired to emphasize that strict adherence to this policy becomes increasingly necessary as more and more of the great centers of population in Italy come under our control. Every effort must be made to remove underground influences which might tend to limit the proper accommodation of military personnel and installations or civilian agencies working on their account.

3. a. The needs of all Italian agencies, whether commercial, governmental or private, are subordinate to those of the United Nations.

b. The fact that an Italian commercial or governmental agency or an Italian private individual or group of individuals may suffer inconvenience or hardship if evicted to provide for the needs of United Nations personnel will not be regarded as a valid reason for acceptance of less suitable accommodations offered alternatively.

c. In implementing these two principles the responsible officials of the United Nations agencies will not make unreasonable demands, but at the same time will not accept anything less than that which is necessary completely to fulfill their requirements.

d. Intervention by Italian personnel, either by private individuals or through unauthorized channels, will not be accepted by any official of the United Nations. Persons making such approaches will be referred to the approved Italian agencies.

a. Definition: The Army Courier Service is operated throughout the world where United States Army Forces are located for the transmission of Confidential, Secret, and Top Secret mail. Both air and surface means are used. All urgent matter is transmitted by air courier while heavy shipments, requiring security handling but not requiring air transmission, are transmitted by surface, accompanied by an officer of the Army Courier Service. Courier transfer officers are located at or near principal A.T.C. airfields and ports wholly or partially operated by the U.S. Army. This service may not be used for restricted and unclassified matter.

b. Theater Locations: Courier transfer officers in this theater are presently located at Dakar, Casablanca, Oran, Algiers, Tunis, Naples, and Foggia. Stations are opened or closed as needs of the theater change.

c. Receipt and Dispatch:

- (1) Material may be received and dispatched direct through courier transfer officers or forwarded to and received from them through existing message channels.

- (3) If the articles are to be forwarded through other message channels before reaching a courier transfer office, each accompanying invoice must bear the notation: "The articles listed hereon are classified confidential or higher, and it is requested they be dispatched to destination by Army Courier Service or Air Dispatch Letter Service," followed by the signature of an officer giving name, rank, and unit. d. Preparation for Dispatch:

- (1)* Articles will be enveloped, wrapped, or bagged in accordance with paragraphs 25, 26, and 27 of United States AR 380-5, dated 15 March 1944, or War Office pamphlet "Classification and Handling of Protected Documents", dated 1 April 1944.
- (2) Articles will show both a complete address and return address. In exceptional cases, where no APO serves the unit and the only way matter can reach the unit is to include a geographical location, then unit and geographical location may be used. However, the use of addresses of this type will be held to the absolute minimum and confined to matter transmitted by ACS. Proper measures will be taken to safeguard against unauthorized persons obtaining such addresses. Unauthorized abbreviations will not be used nor will a geographical location and its corresponding APO number be shown in the same address. Articles will not be addressed to an individual. If they require the special attention of a particular officer at a headquarters or unit, the notation "Attn: _____" may appear in the address.
- (3) A reference or file number will be placed on the outside cover, preferably directly under the return address, for recording purposes.
- (4) If the article is addressed to any point outside this theater and requires Air Transmission from origin to destination the notation "Air Service Required" will be stamped or type-written near the address and followed by the signature of an officer, giving name, rank, and unit. Such notation or signature is not required for intra-theater mail.
- (5) If the contents are so highly classified that the article should be in the personal custody of an officer from origin until final delivery to addressee, the notation "Via Officer Courier" will be placed on the outside cover followed by the signature of an officer, giving name, rank, and unit. This certification may be incorporated with the certificate required in subparagraph (4), above. The certification "Via Officer Courier" will be held to the absolute minimum. Notations such as "Via Courier", "Air Courier", "Courier", "Safe Hand", etc will not be placed on any article to be dispatched by Army Courier Service.

- (2) Officers in charge of ACS offices and other officers engaged in the handling of Army Courier Service or Air Dispatch Letter Service articles are authorized to open packages or letters suspected to be of an unofficial nature, special care being taken that no material of an operational nature is opened. Any unauthorized material found will be held and a report will be made to the Adjutant General of the headquarters concerned showing description of article, addressee, and addressor, and name of officer who certified the article to be official.

3. Air Dispatch Letter Service

a. Definition: The AFHQ ADLS is a service established by this headquarters to provide fast and safe delivery of confidential, secret, and top secret official dispatches to major tactical, SOS, and L of C Headquarters within this theater. Restricted and unclassified matter will not be handled by this service. The ADLS operates in close conjunction with the Motor Dispatch Letter Service (MDLS) provided by the various headquarters throughout the theater, and with the Air Forces. On certain main routes, ADLS Couriers will deliver material to "Field Offices" established on airfields near armies or separate unit headquarters functioning directly under this headquarters. Delivery and collection of dispatches to units in the vicinity is not the responsibility of Field Offices. The Field Offices act only as a segregation and collection point relying on unit MDLS to contact them for forward transmission of outgoing dispatches and collection of incoming dispatches. The AFHQ ADLS must not be confused with the Army Courier Service (ACS) which is operated by the War Department, or with the regular airmail services operated by the Army Postal Service (APS). AFHQ ADLS emphasizes tactical messenger service to forward elements.

b. Locations: AFHQ ADLS Field Offices are located throughout the Mediterranean Theater in Algiers and East and North thereof. Stations are opened or closed as needs of the theater change.

c. Receipt and Dispatch:

- (1) Material may be received and dispatched direct through the AFHQ ADLS field offices, or forwarded to and received from them through existing message channels.

R E S T R I C T E D

- (3) In lieu of Form NAP 26 (Revised), senders may use their own receipt forms providing they bear the statement and are certified as prescribed in paragraph 2c(3), above.

d. Preparation for Dispatch:

- (1) Material for dispatch by ADLS will be prepared and authenticated in the same manner as that for Army Courier Service. (See paragraph 2d, above.)
- (2) The colored cross previously used for recorded pieces will be discontinued.

e. Unauthorized Use:

- (1) Personal mail or personal packages will not be transmitted by ADLS.
- (2) Suspected packages and violations will be examined and reported as described in paragraph 2e(2), above.

f. Money:

The transmission of money, of an operational and highly classified nature, may be made through the ADLS. Money dispatched through the ADLS will be properly classified and wrapped, and will be treated as any other document. This will not be construed to mean the transmission of personal money or money for the routine payment of troops. In the event of a loss, no financial liability will fall upon personnel of the ADLS.

4. U. S. Army Postal Service

a. Definition: A service for the delivery of official mail by air or surface means wherever U. S. Army Forces are located. It offers a safe and expeditious means for the transmission of all types of official mail, other than Top Secret. It is recommended that the ACS or ADLS be utilized for the transmission of all matter classified Confidential or higher, by all units having ready access to such services. All official mail for air dispatch travels on a No. 1 priority and each APO within this theater makes at least one dispatch daily, weather permitting.

b. Locations: U. S. Army Post Offices serve every U. S. headquarters and unit in this theater.

c. Preparation and Dispatch:

- (1) Top Secret matter may not be sent through the U. S. Army Postal Service.
- (2) Confidential and Secret mail will be prepared in accordance with AR 380-5 and will be presented at the registry window of an APO for registration. Under no circumstances will such mail be sent without registration. There is no charge

(contd)

for registration of such classified mail when addressed to points within this theater. A minimum registration fee of twenty (20) cents plus surcharges, if applicable, must be paid for all official registered mail addressed outside this theater.

- (3) Restricted and unclassified matter need not be registered, but may be registered if the sender desires. The registration fee and applicable surcharges must be paid in such cases, even though the articles are addressed for delivery in the theater.
- (4) The use of the word "Registered" on outer covers is reserved for the exclusive use of the Army Postal Services and will not be used on the outer cover of mail matter by any other service in this theater.
- (5) Each article must bear a complete address and return address.
- (6) No article will exceed seventy (70) pounds in weight or one hundred (100) inches in length and girth combined.
- (7) All official mail weighing not in excess of four (4) pounds will be given air dispatch within the theater, within the limits of available air space. Articles weighing in excess of four (4) pounds, the urgency of which requires air transmission to destination, must bear the stamped or typewritten indorsement in capital letters "WD ESSENTIAL OFFICIAL AIR MAIL", followed by the signature of an officer which will be taken as a certification that the article requires air dispatch. Postage is not required on any type or size of official mail for delivery within this theater.
- (8) All official mail addressed for delivery outside this theater may be deposited in U. S. APO's without the payment of postage providing the weight of each piece does not exceed four (4) pounds. If over four (4) pounds, postage must be prepaid at the rate prescribed for fourth class mail matter. Such rate is applicable regardless of the character of the inclosures, or whether the article is sealed or unsealed.
- (9) Official mail addressed to the Casualty Branch, Adjutant General's Office, Washington, D. C., or when indorsed "Casualty Mail" and addressed to a commanding officer of a camp, post or station in the United States will be accepted without the payment of postage although the weight of the article is in excess of four pounds.
- (10) If dispatch by air from the theater is desired, each piece including letter size articles, must bear the stamped or typewritten indorsement in capital letters on the face of the envelope or container "WD ESSENTIAL OFFICIAL AIR MAIL" and have postage prepaid at the rate of six cents for each half ounce.

ALLOCATION OF RESPONSIBILITY FOR MALARIA CONTROL MEASURES

1. Coordination of responsibility for malaria control measures will follow the lines for coordination of all activities laid down in AFHQ Administrative Memorandum Number 11, of 24 January 1943, revised to 21 October 1943, which this directive is intended to amplify but not to supersede.
2. Selection of sites is a matter of general administration, under the control of higher headquarters of the nationality concerned.
3. Other malaria control measures are a part of sanitation and hygiene, which is a matter charged to local administration of organizations, while the overall malaria control program is the responsibility of the commanding officer of the Controlling Agency.
4. The responsibility of the commanding officer of the Controlling Agency will include:
 - a. Coordination of all malaria control schemes in the area, and ensuring that such schemes work smoothly and efficiently throughout the area and in units of all nationalities and services.
 - b. The delineation of the limits within which special and other units will carry out malaria control work, to prevent doubt as to responsibility or reduplication of work.
 - c. The provision of assistance to units, amounting where possible to execution of all mosquito control work outside unit limits, and where this is not possible to the supply of any special personnel, additional labor or tools needed. Technical advice will be available from the A.D.M.S. or Surgeon of the area, who in turn, may request the services of a malariologist nominated by higher authority of the same nationality.
 - d. The programming of such airplane dusting as is needed. Demands for aircraft for this purpose will be limited to a statement of the location in which dusting is needed, and the estimated hours of work needed each week. All administrative arrangements for the provision, operation, and maintenance of the airplanes will be made by M.A.A.F.
5. The responsibilities of the commanding officer of the Controlling Agency extend to all units of the Army, Navy and Air Forces of all nationalities under his command.

6. The total number of special personnel necessary will be estimated by the commanding officer of the Controlling Agency, and the different nationalities concerned will each supply a proportion equivalent of the proportionate strength of their forces in the command. In their allocations to areas of work the general principle will be recognized, but need not invariably be followed, that they should work in areas predominantly occupied by troops of their own nationality.

7. Supplies and equipment will be made available for units of the different nationalities as laid down in paragraph 5 of the above mentioned Administrative Memorandum.

HUNTING PARTIES

1. The participation of personnel of the Allied armed forces in hunting parties organized by or with local civilians in various sections of this theater presents a general security problem in that:

a. Firearms and ammunition are often in possession of and used by civilians in the parties without formal permit.

b. Often civilians travel in restricted military areas without formal permit, and only by virtue of the presence of Allied military or naval personnel in the parties. This tends to relaxation of enforcement of control measures by the military guard in the areas.

2. To provide for greater security, the following action will be taken by all concerned:

a. All Allied armed forces personnel desiring to organize a hunting party must obtain specific permission on each occasion from the area or base commander to hunt in a certain locale for a certain period of time.

b. All civilians hunting or acting as hosts, guides or companions, must have in their possession, for each occasion, the following specific permits:

(1) Permit to hunt in certain locale for a certain period of time.

(2) Permit for travel involved.

(3) Permit for possession of firearms and ammunition carried.

c. Allied armed forces personnel participating in the hunt will be responsible for obtaining the necessary permits for civilians accompanying the hunting party.

d. When obtaining permission or permits the owner and type of firearm and ammunition will be indicated.

e. Consideration will be given the danger to areas contiguous to hunting locale because of the range of firearms and ammunition used in the hunt.

1- ESTABLISHMENT OF CENTRAL ECONOMIC COMMITTEE (ITALIAN MAINLAND)

1. To insure the necessary coordination and control of civilian supply and economic matters in occupied or controlled territory of the Italian mainland, there will be established in NAPLES a Central Economic Committee under the Chairmanship of the Deputy Chief Administrative Officer or his Deputy, responsible direct to this headquarters. In addition to the chairman, there will be one senior representative of AMG 15th Army Group and one senior representative to be designated jointly by the Allied Control Commission and AMG Headquarters. The representative of ACC/AMG will be the executive vice chairman. The vice Chairman and the representative of ACC/AMG 15th Army Group will devote their full time to the work of the committee.

2. Such other personnel as may be required will be made available by the Allied Control Commission, AMG Headquarters and AMG 15th Army Group upon the request of the committee. Necessary vehicles and other equipment will also be provided by these three headquarters as requested by the committee.

3. The functions of the Central Economic Committee will be ¹⁷⁹⁵ as follows:

a. To determine the essential requirements of the civilian population.

b. To control and allocate local resources of essential civilian supplies in coordination with the Local Resources (Italian) Board, and particularly to control the collection and distribution of wheat and olive oil. --- over

Cont. From Page 1

- c. To coordinate the work of the ACC/AMG representatives on committees and sub-committees of the Allied Force Local Resources (Italian) Board.
- d. To make necessary arrangements for the receipt, warehousing and distribution of supplies imported for the civilian population.
- e. To establish the prices at which supplies imported for the civilian population will be sold, and to establish uniform or standard prices ~~h~~ for such other essential commodities ~~or~~ services as may be considered necessary.
- f. To establish such uniform or standard wage scales for civilian employment as may be considered necessary.
- g. To coordinate requests for transportation of civilian supplies by facilities under the control of the allied military services. The internal transportation sub-commission will exercise such functions as may be delegated to it by the Central Economic Committee and shall be subject to its authority insofar as matters outside the jurisdiction of the ACC are concerned.
- ~~h.~~ To coordinate the use of motor and sea transportation under control of ACC/AMG in the transportation of civilian supplies, including the requisitioning and pooling of civilian motor transport if this should be necessary.
- i. To undertake such additional functions as may be recommended by the committee and approved by this headquarters, or as assigned to it from time to time by this headquarters.

4. To facilitate the formulation of a comprehensive program for the distribution of essential civilian supplies, copies of all outstanding requisitions for each area or region will be forwarded immediately by the responsible higher headquarters to the committee at FLAMBO. All future requisitions will be forwarded through the committee for concurrence or comment.

1794

5. In the discharge of its responsibilities, the committee will make the maximum use of Italian governmental agencies, the existing machinery of ACC/AMG, and the facilities of the Allied Force Local Resources (Italian) Board. At an appropriate date to be determined by this headquarters, the functions of the Central Economic Committee will pass to the Allied Control Commission.

Cont. on page 3

Cont. From Page 2

6. The representatives designated by ACC/AMG and AMG 15th Army Group will report to the chairman of the committee in NAPLES as soon as possible and not later than 20 December 1943. Accommodations for the committee and attached personnel will be given priority over all other ACC/AMG personnel except those of Allied Military Government Region 111.

7. Direct communication between the committee and ACC/AMG areas and regions on the mainland is authorized, but arrangements for such direct communication will be coordinated with the appropriate higher headquarters. Within the scope of its assigned functions, the decisions of the committee will be binding upon all ACC/AMG organizations on the mainland and its orders will be enforced by them.

8. Movement matters will be dealt with through local movement channels or coordinated with Movements, FLAMBO, as directed by the chairman.

11--CIVIL FOOD CONTROLLER (ITALIAN MAINLAND)

1. The situation in regard to supply and distribution of food for the Italian civil population is grave, and is liable, if unremedied, to have an adverse effect on our ability to conduct operations. It may be desirable in certain cases to accept some diversion of military transport and/or supplies in order to alleviate situations which would result in internal security commitments, rather than to allow such internal security commitments to arise. The primary interest of this headquarters, in meeting the minimum food requirements in ITALY is to avoid interference with military operations. It is an over-riding military consideration that the Civil population be fed. In emergencies where this consideration involves direct interference with military build-up and maintenance, the decision of the General Officer Commanding-in-Chief, 15th Army Group, will govern. Machinery for dealing with such matters is, therefore, being established immediately. *one (1)*

2. The machinery for the execution of this policy will be that of the Central Economic Committee established by Section 7, above, under the Chairmanship of the Deputy Chief Administrative Officer, AFHQ Advanced Administrative Echelon (FLAMBO.)

3. Colonel E. E. Hume, GSC, United States Army, is hereby appointed additional Vice-Chairman for food control and Civil Food Controller for the mainland of ITALY. 1793

CONT. FROM PAGE 3

4. The duties of the Civil Food Controller for the mainland of ITALY are:

a. To coordinate the requirements for foodstuffs for the civilian population and insure that these requirements are placed upon this headquarters through the approved channels.

b. To keep under constant supervision the food situation in the occupied portions of the mainland of ITALY.

c. To keep under constant supervision the status of the distributing agencies available for the distribution of the food stocks to civilian consumers.

d. To bring to the notice of the Deputy Chief Administrative Officer at the earliest possible moment any situation which is likely to create a civilian food crisis which might be prejudicial to the conduct of military operations.

5. The Civil Food Controller shall consult with the Deputy Chief Administrative Officer and a representative of the General Officer Commanding-in-Chief, 15th Army Group, on all cases brought to notice under 4d. above. If, as a result of this contact, it is considered that the situation brought to notice by the Civil Food Controller is in fact such as may prejudice military operations, then this situation will be brought to the notice of the General Officer Commanding-in-Chief, 15th Army Group, and his directions obtained. The Deputy Chief Administrative Officer, AFHQ Advanced Administrative Echelon is hereby authorized to divert, under direction of the General Officer Commanding -in-Chief, 15th Army Group, the minimum army resources for the minimum time necessary to correct the situation under discussion. General Officer Commanding -in-Chief, 15th Army Group, is authorized in his discretion to limit military operations for this period to such an extent as shall be deemed necessary by him to compensate for the diversion of the military resources in question.

NUMBER 85)

BILLETING IN ITALIAN TERRITORY

1. The Allied Forces are authorized to billet in Italian territory. Billeting is defined as the process by which military personnel are provided with lodging or billet by a community. It is distinct from the requisitioning of buildings, in that it enables the inhabitants to remain in occupation and to provide the lodging or billet out of space ordinarily occupied by the household.

2. Application for Billets.

a. Upon arrival in a community, commanding officers will apply in writing, giving the number of officers and other ranks to be billeted. The British Town Major, US Billeting Officer, Civil Affairs Officer, or Podesta (Mayor) will supply information as to the billets available, and where necessary, issue billeting orders (Biglietto D'Alloggio).

b. In exceptional cases, such as the arrival of troops at night, when it is impossible to follow the above procedure, commanding officers are authorized to secure temporary accommodations. Notification of this temporary acquisition of billets will be given to the appropriate authorities as soon thereafter as possible.

3. Selection of Billets.

a. Troops will not be billeted in places of worship, convents, or buildings classified as historical monuments, or with women living alone.

b. Unless absolutely unavoidable, troops will not be billeted in town halls or buildings used for trade, industry or agriculture. When the use of such buildings cannot be avoided, arrangements will be made to prevent interference with the administration or enterprise, and for the safe custody of documents and chattels.

4. Additional Accommodation. Normally the requisitioning procedure should be followed to obtain the additional premises mentioned below. However, commanding officers may, in exceptional circumstances, obtain accommodation for the following in the manner prescribed in paragraph 3 b above: office space, messing facilities, recreation rooms or workshops, store rooms or dispensaries, drying rooms or unit bathrooms.

U S R E S T R I C T E D Equals British R E S T R I C T E D
AFHQ CIR No. 85

5. Payment for Billets.

a. Payment for billets will not be made by the unit. All payments will be the responsibility of the Podesta or other appropriate Italian authority.

b. In order that payment for the billet can be effected by the appropriate Italian authorities, commanding officers will give to the Podesta a statement in the following form at the end of every fourteen (14) days or on departure of the unit:

Name of Billetor	Address of Billetor	Period:		Number of:	
		From	To	Officers	Other Ranks, Enlisted Men

6. Electric Light, Heating and Water.

a. Where available, the occupant of a billet is entitled to bathing and washing facilities and to electric light and heating.

b. Commanding Officers of units will impress upon all ranks the necessity for conservation of fuel, electricity, gas and water. The commanding officers will insure that strict economy is exercised and will take disciplinary action against anyone guilty of waste.

7. Discipline in Billets.

a. Commanding officers of units will remind troops that they are entering private homes and are to conduct themselves in the way they would wish billetees in their own homes to behave.

b. An officer will be detailed to make frequent inspections of billets and remedy any cause for complaint.

c. Fire and P.A.D. precautions will be maintained. Commanding officers of units will take disciplinary action against anyone found guilty of making illicit and surreptitious connections to an electric wiring system. This is a theft of electricity, and it constitutes a grave danger to life and to the safety of the lighting system of the whole community.

8. Hygiene in Billets. Billets will be kept scrupulously clean and steps will be taken to insure proper ventilation, disinfection and sanitation. Each man should be allowed 45 square feet of accommodation.

9. Voluntary Organizations. Personnel and vehicles of voluntary organizations authorized to accompany the Forces, such as the Red Cross,

341

U S R E S T R I C T E D Equals British R E S T R I C T E D

AFHQ CIR No. 85(cont'd)

may be billeted in the same manner as personnel of the Army.

10. Damage to Billets.

a. Commanding officers of units will take disciplinary action against anyone guilty of causing avoidable damage to billets.

b. Billeters should make their claims for such damage to the Podesta. If the commanding officer is satisfied that the damage was caused by his troops, he will give the Podesta a certificate describing in detail the damage so caused. Settlement will be made by the appropriate Italian authorities.

REQUESTS FOR AIR TRAVEL

1. Circular Number 82, this headquarters, 1943 series, is being rescinded and the following substituted therefor.

2. Requests for travel by air have continued to increase and the volume handled has overloaded the existing air passenger facilities in this theater. In order to correct this situation, and to provide reasonable reserve of aircraft for operational emergencies, passenger travel by air must be reduced at once.

3. Travel by air is authorized only for those persons whose transportation by this means is of importance to the war effort, and will under no circumstances be approved solely for the convenience of the individuals concerned. Full use must be made of existing rail schedules, and when possible, travel planned sufficiently in advance to permit utilization of this means.

4. The Air Priorities Board will henceforth consider for priority only those requests that are accompanied by formal travel orders issued by one of the following headquarters which are authorized to issue orders directing travel by air within this theater:

SUBJECT: Non-Secret Short Title Unit Designations.

TO : All Concerned.

1. Circular Number 75 and Section I, Circular Number 79, this headquarters, 1943, are being rescinded and the following substituted therefor,

2. The following non-secret short titles are approved to designate the units indicated below for use in all communications in this Theater when brevity of the transmitted material is a paramount consideration. These short titles are not secret code words for units, but are merely to be used for brevity in messages in place of the full name of the unit. Subordinate commands will submit additional proposed non-secret short titles for elements of their command to this headquarters for approval and announcement.

3. For uniformity and to avoid confusion, no other non-secret abbreviations or non-secret short titles should be used for these units. The purpose of these short titles is brevity in the preparation of messages and to facilitate the transmission of messages by electrical means. The short title is to be used in the text of the message in place of the whole name of a unit or installation. They are not to be used in addressing official correspondence. All new short title names or changes in non-secret short titles will be approved and announced by this headquarters.

4. For convenience, the list of Short Title Unit Designations is in two parts; Part I being the units or organizations listed alphabetically and Part II being the Short Title Unit Designations listed alphabetically.

PAYMENTS IN ITALIAN TERRITORY

1. The following instructions regarding payment by the military forces for goods and services in Italian territory will be observed.

2. It is important that the U.S. and British forces should, where possible, act in unison. Coordination of executive action, based on policies prescribed from time to time by this headquarters will be effected. Commanding officers will insure that competitive buying between the forces does not occur and that there is adequate coordination over the prices to be paid. Appropriate methods of financial control and economy in expending Allied Military lire and other currencies in Italian Territory must be observed for military purposes.

3. a. Wherever practicable, arrangements are to be made in conjunction with Allied Military Government or Allied Control Commission local representatives for the Italian Government to make available for Allied use naval, military and air installations, power stations, oil refineries, public utility services, ports and harbors, transport and inter-communication facilities and equipment, and other local resources and services that are required.

b. Where any goods or services are provided under arrangements with the Italian Government no payment from military funds will be made without authority from this headquarters unless the need for some immediate payment is operationally essential and temporary financing cannot be arranged through the local Allied Military Government or Allied Control Commission representative on behalf of the Italian Government.

c. Wherever the policy in paragraph 3 a. above cannot be implemented, action will be taken as follows.

4. Privately-owned Goods.

a. Goods should not be seized or requisitioned without payment unless strictly required for military purposes, the test being whether, if payment had to be made, the charge would be admissible against public funds. Requisitioning will be confined to authorized officers of the procuring services. In all cases where payment is not made, accurate records must be maintained of the articles requisitioned, including the date, place, identification of article, and name of owner. 1779

b. Consumable goods, of which continuous and regular supply is required by the Allied Forces and can only be maintained in return for payment, may be requisitioned and paid for under properly approved requisitioning arrangements or purchased under local purchase arrangements.

However, it is the policy of this headquarters that only known surpluses, as determined by the Allied Force Local Resources (Italian) Board, will be purchased locally. Under present circumstances, the only articles falling under this category are perishable fruits and vegetables known to be in surplus. Small day to day requirements of spare parts may also be purchased. Where local purchases are made, it is essential to insure that excessive prices are not paid, in order to reduce the tendency towards inflation and to curb profiteering. Where excessive prices are demanded under local purchase arrangements, goods authorized to be purchased will be requisitioned and fair prices paid, these being fixed in cooperation with the local Allied Military Government or Allied Control Commission representative. If such goods are concealed because the individual owners hope to secure blackmarket prices, they will be sought out. The local authorities are instructed to cooperate to the fullest extent in finding them, as it is essential to do everything possible to prevent soaring prices.

c. Durable goods which are unlikely to be in continuous, rapid, production in the occupied territory, or which the owners will be unable to replace locally or will not need to replace at present, will be requisitioned or seized by authorized officers without payment under properly approved arrangements pending further instructions. Such goods as motor and other transport vehicles, heavy plant and machinery, constructional materials, structural steel, railway plant and war material would be treated in this way. In requisitioning motor vehicles (particularly passenger), the injunction in paragraph 4 a. above should be strictly observed. Unnecessary requisitioning of motor transport seriously disorganizes essential civilian communication.

d. In instances where durable goods are in continuous production, they will normally be requisitioned without payment and the question of financing the firm's further operations will be handled as prescribed in paragraph 6 d. below.

e. It is impossible to define with exactness which privately-owned goods should, or should not, be paid for from military funds. The method of treatment will have to be resolved on commonsense lines for each class of goods, bearing in mind the principles set out in paragraph 4 b, c, and d above and the following considerations:

(1) The forces should not use manpower unnecessarily in negotiating prices, contracts and agreements for goods which can be secured in adequate quantities without immediate payment.

(2) Excess unnecessary payment for goods leads to inflation. However, it is recognized that there will be cases where cash payments for small day to day requirements will be the most effective method of getting access to available local supplies.

(3) Important, or long-term contractual commitments for goods should not be entered into by the forces without reference of the case with recommendations to this headquarters.

5. Privately-Owned Real Estate (Land and Buildings).

This class of property, including accommodation and furnishings thereof, required for military purposes will be occupied without payment of rent or other compensation. The owner should be advised that both the determination of the rate to be paid and the payment thereof are the

(Cont'd)

responsibility of the Italian authorities. Military authorities will not pay for machinery, equipment and plant installed in workshops, factories, etc., which it is essential to take over and operate. The operation of workshops and factories by the military should be avoided wherever reasonably possible in order to conserve military manpower.

6. Services Performed by Private Persons and Firms.

a. Labor employed by the Allied Forces will be paid fair wages, the same rates and same conditions of employment being observed by each force in the same localities. The rates of wages will be determined in consultation with appropriate Allied Military Government or Allied Control Commission Officials and the local military financial representatives. Inflated wages will not be paid.

b. Contracts may be made where necessary (by competitive tender, wherever possible) for ordinary military services such as repairs to clothing, equipment and vehicles, laundry, bread-making, small manufacturing services, and minor works services. Important, or long-term contracts or agreements should not, at present, be entered into without authority from this headquarters. Examples are storage of petrol and use of cold storage plants.

c. Contracts should not be made, or expenditure incurred from military funds, for services, e.g., repairs to roads and bridges, which the State or local authorities should arrange and pay for. Such work will, of course, have to be undertaken under military arrangements when it is operationally essential and it is impracticable to arrange for the Italian Authorities to undertake it, but in all such cases Allied Military Government or Allied Control Commission officials should be consulted when possible.

d. Where private firms are required to turn over their whole output, or the greater part of it, regularly to the military forces but the factories are not taken over and run by the military, reference will be made to the Italian Authorities and to representatives of the Allied Military Government or Allied Control Commission and the local military financial representatives as to arrangements for financing the continued operation of such firms. At present contracts should not be made for buying the products of such firms.

7. Services Performed by Municipal Authorities and Public Utility Concerns.

At present no payments should be made by the military forces for such services as removal of refuse, supply of gas, water and electricity, use of port facilities, non-State-owned telephones, telegraphs, or railways. The method of dealing with the financing of such services should be explored with the Allied Control Commission or Allied Military Government and the local military financial representatives, bearing in mind paragraph 3 above.

8. Goods and Services Provided by State-Owned and Parastatal Concerns.

Payment may not be made from military funds for any goods taken over which are owned by the State or parastatal concerns or for any services provided by State-owned organizations, e.g., railway traffic. The methods of financing those State Services which the Allied Forces must utilize, is being considered by the Allied Control Commission, and they will arrange any temporary financing which may be necessary until a final decision is taken. Where it is necessary for parastatal concerns to produce goods or perform services for Allied military purposes, the method by which the cost of production shall be recovered may vary with the particular case or class of case and the arrangements under which the concern continues to operate. In particular cases proposals for financing the continued operation of such firms should be worked out in conjunction with the Allied Control Commission or the Allied Military Government and the local military financial representatives.

9. Claims for Damages, Traffic Accidents, etc.

Payments will not be made in respect of these claims. Separate instructions are being issued about Workmen's Compensation for Industrial Accidents.

10. General.

These instructions are intended as a guide to what may be paid from military funds in the interim period until the policy outlined in paragraph 3 can be fully implemented. It is impossible to make provisions now for every type of case and it is recognized that many individual cases will have to be considered on their individual merits. (AG 386.2-5 GDS-AGM)
