AUSTRIA civil supplies; second 90 days requirements.

Para 1. Conference CASERTA agreed that:

(a) First 90 days would be taken as June July August.

(b) Second 90 days would be taken as September October November.

Para 2. Military Government was established AUSTRIA in May before civil supplies cables forward. Earliest arrivals will be miscellaneous supplies July wheat late August or September. Supplies for interim period have had to be borrowed by us from stocks intended for ITALY and by you from stocks intended for other countries. Consequently supplies for first 90 days period will arrive at end of period and have to be repaid to the lender countries.

Para 3. We are now calling for requirements for second 90 days for British zone. Screened bid unlikely reach CCS before mid-August; hence any shipments approved can not arrive till near end of period again.

Para 4. We therefore propose to submit 2 bids to CCS simultaneously:

(a) Bid for second 90 days (September October November). Approvals will not arrive till end of period, but anticipated that requirements will be small owing to:

1. Austrian harvest.

2. Possibility of carry-over from first 90 day period owing to non-occupation of large part of British zone during June and July.

(b) Bid for third 90 days (December, January, February). This should give

Declassified E.O. 12356 Section 3.3/NND No. 785017

time for any approvals to arrive before the start of the period and would avoid need for further borrowings.

Para 5. Suggest you may care to consider taking similar action and would be grateful for any comment before we inform CGS.

This is MAT 810.

Exchange rate for German marks in ITALY.

A. Ministry of Treasury does not wish to apply rate of 10 lire equals 1 mark in exchanging currency for civilians returning from GERMANY. Prior to 8 September 1943 rate was 7.63 lire per mark (with some transfer at 6 to 1 or less), and then Germans forced Fascist Republic to raise rate to 10 to 1. Minister argues this rate is not reflection of relative purchasing powers of 2 currencies, and fec is best provisional solution and feels best provisional solution is to use 7.63 rate.

B. Minister was informed rate of 10 to 1 was only one authorized (see TAM 550), but opposition to use of it for current non-commercial exchanges involving marks is strong due to desire of Treasury to keep lire cost of taking up marks from repatriates as low as possible.

C. Please advise what reply should be given.
