Information has been received from 800 reg for CC that the GAZZETTA UFFICIALE DEL REGNO D'ITALIA 26 June current quotes lumber prices agreed between Italian government and AMG for CALABRIA region formal run pine at 1850 lire per cubic meter. This price of 249 percent above 1942 price is considered excessive. Based on careful study in the field of all factors including increased costs of labour this headquarters has established what is considered a fair price of 1500 lire per cubic meter effective 1 July current. Which is equal to 1942 price plus 189 percent. Price published by the above gazzetta is approximately equal to that prevailing in the UNITED STATES where stumpage and labor are much higher than in ITALY. With view to avoiding unrest among millowners request you restudy situation and establish price in the CALABRIA region more in keeping with costs of production

Termination of military responsibility for relief supplies in ITALY.

Agreed military responsibility for civil supplies for ITALY should terminate. Propose to phase out in accordance with program FX 11236, (6) June (which states US military commitments for procurement terminates with August loadings (September arrivals). Consider 1 September is appropriate date towards which plans here have been working pending establishment of CCS policy. This assumes that August loadings will arrive prior to end of September. Present supply accounts would be closed as soon as August loadings have been cleared thru them.

It must be repeated that the Italian economy is, and must remain for a considerable period largely dependent on imports of basic food and items essential for rehabilitation. The extent of the aid thought here to be necessary is known to you through our requisition of food supplies and the industrial program (Category A and B) recently submitted.

Since it is assumed that FEA in US and some agency in UK will procure supplies for ITALY for September through December loadings, recommend that procedure here be that ALLIED COMMISSION submit all requirements direct to CLAC in CCS/SCC series. New accounts would be opened for these supplies by AC.

Declassified E.O. 12356 Section 3.3/NND No. 785017

CONTINUATION PAGE 2

In order to insure smooth transnitional period of supply for arrivals period 1 October to end of year, it must be assured that:

A. There will be an uninterrupted flow of food, essential raw materials and coal.

B. The theater be advised of all items to be shipped from the ZI after August landings.

C. Theater surpluses are applied against existant approved requisitions and future programs submitted by ALLIED COMMISSION. Recommend this be done in ZI by screening the program against declared surpluses.

CANTIERI RIUNITI DELL'ADRIATICO are owners of the big shipbuilding yard at MONFALCONE. The shipyard suffered serious damage due to Allied air bombardment in April and May 1944 and estimated at Lire 192 millions. Negotiations were in progress with ex Republican authorities here for a payment of Lire 100 millions on account and pending final settlement and a sum of LIT 50 millions had been approved. This information has been checked with INTENDENTE DI FINANZA and your authority in principle is sought to advance the sum of LIT 50 millions in instalments over period. The money is urgently needed by the company for general repair work in the shipyard and it would have a beneficial effect economically. Your file 13194/F refers to war damage in ITALY. Any advance you might approve would include those mentioned in your signal 1443 of 11 July and FREEDOM signal FX 19260 of 8 July.

I r ecommend approval.

1. In view of the focus of attention which is being pointed at Allied occupied VENEZIA GUILIA it is necessary that AFHQ be more fully informed on security and public order conditions than would ordinarily be the case. Anti-Allied agitation by JUGOSLAV agents infiltration of trouble makers across the MORGAN line the behaviour of JUGOSLAV civil administrators and stay-behind JUGOSLAV organisations in VENEZIA GIULIA hostile activities of ex-members of the Guardia Del Popolo and infiltration of JUGOSLAV agents into the GARIBALDI Division are the type of questions on which AFHQ desires to be kept informed. A brief summary of events in connection with the arrest in TRIESTE on 9 July is requested as soon as practicable.

2. While no periodic reports are required it is desired that any events of special interest will be reported separately without undue delay and that less important items be furnished from time to time as the situation indicates.

Consider that HAMILTON should remain until withdrawal of AMS if this is near date but if he must be replaced now a successor should be sent immediately to whom he can hand over.
