Pricing of locally produced commodities is a function assigned to ALLIED COMMISSION by this Hq.

In cases involving price differentials, the questions will be discussed with ALLIED COMMISSION before deviating from ALLIED COMMISSIONS published price lists.

ALLIED COMMISSION price schedules will be observed in all instances unless the prices set appear out of line with the local prevailing levels. It must be borne in mind that local prices are based on local standards and comparisons with US prices will not furnish a fair basis of evaluating the costs involved. AICOM 2555 of 26 July refers.

ALCOM owes us 250 railroad cars for order of 3000 cubic meters and should furnish 90 cars for 1000 cubic meters order. Single car loadings with this type of material run 5 to 7 tons or 10 to 12 cubic meters net. This part your message. "on key at COSENZA", not clear. If you mean, on hand at COSENZA the answer is 100 cubic meters at COSENZA and balance of orders on or near our other railheads.

3. Warehouse stock reports will commence for period ending as of 31 July.

4. Difficult to understand why planning to date has been impossible as you have always been kept informed of FIRENZE grain situation. As is well known, FIRENZE has had no substantial stocks of grain under control at any time during Allied occupation; ACOTA and PERUGIA have always been dependent on outside sources, and other provinces have been on day to day basis. With regard to Aug flour you have had complete information on movements. With regard to allocations you have had control of movements from RAVENNA and GENOA, and other allocations have not been substantial enough to affect planning. With regard to amount of grain, information has been promptly forwarded as to approximate character during July (RR/FOOD/63 of 11 July)

5. As is well known there have no substantial stocks of grain within any FIRENZE province at any time to date for movement to another province. The FIRENZE deficiency provinces have been dependent on outside sources for grain. FIRENZE needs have been promptly made know to you.

6. Fundamental difficulty is crop failure and lack of grain outside FIRENZE [illegible] send in, not lack of information concerning FIRENZE requirements.

This is MAT 844. refer TAH 590. MAT 744 and CIVMED 22. Remittances to ITALY.

Italian Government still has not issued general license to cover outgoing mail. But foreign exchange control adequately reconstituted, civilian postal channels open between U.K., U.S. and ITALY, and decree soon being issued transferring dollar/sterling balances in U.S. and U.K. banks to account of Banca D'ITALIA as they accrue.

Consequently consider no objection to banks in U.K. and U.S. communicating directly through civilian postal channels with head offices of all commercial banks in ITALY, with exception VENEZIA GIULIA.

Please advise whether sterling remittances to expended area per CIVMED 22 will be channeled only through Banca D'ITALIA or also through head offices commercial banks as above.

Also confirm whether general license 32A has been amended as proposed TAH 590 and concurred MAT 744 and whether dollar remittances to rest of ITALY (except VENEZIA GIULI. will be effected through head offices Italian commercial banks and Banca D'ITALIA.
