Book message.

1. The following instructions are issued, in order that a common policy may be observed by all commands in connection with the celebration of the end of hostilities against JAPAN.
2. Victory against JAPAN is the culmination of many months of bloody, bitter battle, of profound thanksgiving, and of joy and happiness. It must be remembered, however, that much still remains to be done before our task ^(15%) is finally completed.
3. 1 day will be set aside to be observed as a holiday. The day selected will be announced to all commands by ALLIED FORCE HEADQUARTERS. Those who cannot take a holiday on the announced date because they are performing essential services will be given a holiday later.
4. Commanders of formation, units, etc, will arrange a program for the day, similar to the programs conducted on ^(V?) V-E day. It is suggested that the ceremonies be brief, and that as much time as possible be devoted to entertainment, rest, special meals, recreation, etc.
5. Extra issue of rations and post exchange/EFI supplies will not be made, but units will make their own arrangements for supplementing the normal fare.
6. It is desirable that, as far as possible, men should be discouraged from

- 2 -

(011856 cont'd)

visiting larger towns. However, there is no objection to visits to the beaches or organized recreational areas.

7. Apart from the specific points mentioned, observance of the end of hostilities is discretionary with the commanders concerned. Insofar as possible they should be guided by the experience gained in the observance of the V-E Day celebration. All informed.

Effective immediately no further property, either real or personal, will be requisitioned or acquired on temporary receipt unless specifically approved by this HQ.

Action to derequisition all real and personal property, and to release property on temporary receipt, as soon as such properties become excess to requirements, will be initiated. This program will be expedited by consolidating facilities wherever possible and by releasing personal property to the Italian Government when such are no longer essential to operations. It is specifically directed that vehicles be derequisitioned or released if on temporary receipt with the least possible delay. Detailed letter instructions soon follow.

This is MAT 876.

After careful examination it now appears that receiving reports furnished by ICE cannot be used as basis for billing the Italian Government. This is partly due to inefficiency of ICE and partly to inherent difficulties in tallying miscellaneous technical supplies under conditions which do not permit opening cases at times of tally. Unlikely counter tally by WSA/MST Italian Agents on behalf of ship will be of much greater value.

2. A LAC 1275 foreshadows this in pointing out that WSA/MST cannot allow such tallies to be used as a claim against the ship.

Earnestly, therefore, repeat recommendation previously made in para 3 of TAM 650 that TAM 28 procedure should continue to be used throughout period of military responsibility. Up to date list of losses and diversions now in active preparation as indicated our P34536 of 11 presents no compilation difficulties.

This is COM 194 refer MOC air 97 paragraph 3.

Agreement between AC and Italian Government on procurement.

1. Lack of coordination between AC and Italian Government in determining Italian requirements is highly regretted. It is impossible to proceed orderly if requisitions are submitted by AC and cancelled by Italian Government through Italian Mission here and vice versa.

2. AC attention is directed to CLAC (AGFAN) 22 paragraph 6 which states clearly that action on all requisitions between 202 and 243 was suspended upon receipt of MOC air 57 excepting those requisitions included in CLAC (S) Italian series 300/2 as amended. CLAC (S) 22/3 forwarded to you with COM air 49 gives status of cancellations allocations and procurement on these requisitions.

If you firmly believe action taken by Italian Government is not requesting some items mentioned by you will prejudice food production 1946 appropriate steps should be taken by you to reach agreement. No action can or will be taken here otherwise.

Paraphrase of 13 CORPS OLC of 9 August follows.

"Sentences and judgments of AMG courts have heretofore been reviewed by AMG Chief Legal Officer and no questions of jurisdictional nature have arisen. It is necessary in present case involving personality in which press and political parties much interested that we now have definite directive on this subject.

Reviews in territory under ALLIED COMMISSION governed by section 3 article 32 consolidated instructions military courts which states in general final review by Chief Commissioner or officer designated by him this depending on nature of case. Because of the special situation here understood to involve only technical and advisory/not operational relationships to ALLIED COMMISSION there is doubt your HQ will wish this method followed more so since announcement of final decision from ROME would have, in this case, tremendous political repercussions due to leftist record and Slovene nationality of the accused.

Awaiting decision on review, subject/ⁱⁿ confinement, and interest in case very great, please furnish immediately unequivocal instructions specifying each officer or or HQ in chain of review, period within which appeal can be taken, minimum amounts of sentences and fines entitling convicted persons to review and so forth. As the Supreme Allied Commander beyond any question is the only governing authority here jurisdictional questions will be eliminated by simple clear directive and thus enable us to say categorically what judgments are final and when. Time is very important" End of paraphrase.

Ref your 3348 of 8 August. If you have seen my letter of 5 August to Brigadier LUSH you know I appreciate your efforts toward personnel parity and SAGMED told of these. However fact at time of his visit was that numbers of British officers actually received during preceding 2 weeks had continued to exceed American and in response to question also said this. ROBERTSON states subcommissions now better indoctrinated and this trend will change. Good. At SAGMED's urgent suggestion will visit AFHQ on 13 and perhaps several following days where can be reached. Will also, if possible and desired, call at ALCOM before returning.

Form of currency agreement under para 14 of SAN 583 is being considered while reply to NAT 836 and delivery of diplomatic notes per para 13 are awaited. Question arises whether technical regulations in theater relating to AM lire should be carried over into agreement. For example, should Italian Government be required to redeem counterfeit notes and exchange four AM lire notes for Chief Allied pay services, destroy defective notes, etc. Presumably Italian Government will prefer own regulations for AM lire and in any case conversion to new currency is scheduled for November. But unless advised to contrary by you, we shall endeavour include in currency agreement such technical regulations as are considered essential to Allied pay services.

Items 1 and 2 MGS -293-ORD are amended by LAG 1207 are available in full from UNITED STATES theatre stocks. For clarification, however, request reply to AG ltr A51/820E-C, to CG, ASF, subject: Estimate of Vehicles beyond Economical Repair for Military Purposes, dated 8 July.

Item 3, motorcycles, MGS -293-ORDINANCE, quantity 200, are available from UK repairable stocks this theater. This headquarters is exploring the possibility of transferring to AG approximately 400 BR WD vehicles now on loan to them and desired by AG. If this is feasible CGS will be requested to authorize sale to Italian Government of these vehicles against the 4000 at present authorized from UNITED STATES theater stocks.

No other U.K. vehicles available are suitable for application against balance of MGS -293-ORD.

British availabilities of uneconomically repairable vehicles are 2500 lorries 3 ton and 500 lorries 6 ton all class IV. These vehicles are all non runners and would require outside assistance for movement from present location. Also 500 lorries 3 ton A-TK portee of mixed classifications. Consider these convertible to load carriers by using bodies of worst 3 tonners. included in 2500 above.

Your signal FK 29605 of 29 July 45 apprehension still felt by certain lorry owners that upon arrival in ITALY charges will be raised against them by Italian authorities for cost of transport. Can assurance be obtained from Italian Transport Ministry ROME that the Ministry have no such intention. This would dispel unfortunate impression created by terms of reference to Italian Engineer Inspectors quoted in our signal DET/32374 of 23 July 45. Appreciate owners fears probably groundless but jeopardisation of scheme by result if assurance asked for above not forthcoming.

Air lift has been undertaken for 6,500 greek nationals who are at present concentrated in the US zone of Germany. There is no assurance that air lift can be found for the additional number of greeks expected to be uncovered at a later date. Therefore it is anticipated that there may be necessity for movement of greeks overland to southern ITALY.

At present all yugoslavs are being moved to ROSENBAUGH and, providing this land path remains open, there will be no need to move yugoslavs overland to southern ITALY.
