On 17 March 45 a letter was sent you reference German war graves in ITALY; file G-5, 293.8. Numerous letters on the same subject have been sent since that date including one sent on 31 July subject: Enemy War Graves, file as above. Your letter same subject file AC.14116/PS to the Council of Ministers dated 4 August 45 has been send. In view of the unsatisfactory progress and the apparent disregard of the Italian Govt of your numerous requests it is considered that positive measures to assure early action by that Govt must be taken: Request report of progress be submitted to AFHQ on 15 September.

Report is incorrect. Words used were "different from" and not "more difficult than".

Statement occurred during discussion of methods being used to implement general order 11 by appointment of committee members and referred to number of Croats in POJA solely as against Slovenes in CORIZIA and TRIESTE.

Letter regarding ratio of Italians to Croats in POJA will follow after Colonel ROBERTSON'S visit there tomorrow. Present impression is Italians definitely in majority.

Normal postal services. Paraphrase of TAM 676 begins.

Present military restrictions as to weight and services for northwest EUROPE, except GERMANY, AUSTRIA and HUNGARY, are being lifted as it is desirable to reinstate normal pre-war postal services as soon as practical. The military have requested appropriate Government Agencies to coordinate with indigenous Governments as additional services are authorized so as not to hinder military plans or to embarrass transportation systems, but they may not consider it feasible because of shipping shortage to lift these restrictions immediately.

Within limitations TAM 608 would like to establish same procedure for ITALY.

Advise soonest whether you could now authorize additional gift parcel services for all ITALY. Paraphrase ends.

Request your views.

Ref your signal 4438. Definitely agree our Ufficio del Lavoro is fully competent to handle wage scale program and there is no question as to its experience or competency for when it will have to stand on its own feet. Has been doing that work for a considerable length of time. Problem here is the preparation of the English counterpart of the new proposals of which there is now a substantial number under consideration. Our work here is likewise urgent and vital. Transfer will only result in displacement of VENEZIA GUILIA's handicap to our office. T/5 NEWMAN is presently indispensable and will be released at the earliest practicable.

AICOM ROMA FOR ACIAB

Subject is strike agricultural workers, reference your signal A300 cife ACIAB. Agricultural workers throughout island but principally in CATTANIESSA and AGRIGENTO are in agitation as to the implementation of Decreto Legge 919 of 19 October 1944 referring to the division of the autumn crop between landowners and workers. Regional Labor Office had arranged for conference between Federterra (workers) and Unione Delle Associazioni Agrarie (landowners) for 9 August and then postponed it to 13 August. Purpose was to reach agreement regarding division of autumn crop. Landowners group refused to participate. Since then the workers have been agitating to have landowners come to an agreement with them. Landowners do not wish to enter into such an agreement as they feel that the Commissioni Circondariali in each province in their judicial arbitrary character are empowered to deal with each situation that might arise between landowners and workers. No incidents reported but situation appears to be deteriorating. Agitation based on economic issues.

WAR FROM OLD CIES SCAC FOR CIAC

ALLIED COMMISSION INFO ADD FOR YOURS AND UK BASE DESIGN FOR CABINET SECRETARIAT

UNCLASSIFIED.

(This is CIB 210) cancellations on CIAC item-produced items.

Para 1. Reference is made to your NOC 279 whereby the AC requests cancellation of certain items procured under CIAC item-requisitions with troop pay funds.

Para 2. This procurement is a one hundred per cent cash procurement and action can be taken only when Italian Government specifically authorizes FIA to do so since a financial loss is involved in almost all cases. Sometimes when contract is not actually placed this action can be taken without any loss involved but procurement orders for CIAC item-2 were received long ago and material is now in warehouse ready for shipment which is expected to take place within a few weeks.

Furthermore we cannot reconcile your cancellation wire rope when at same time you submit very large requirements for the same items (see NOC aircrams 5 and 7 and 77). If these items are needed in ITALY disregarding the specific project to which they will be applied, please do not cancel but divert when received at your end. It will save money, time and labor.

Para 4. Judging from all available information submitted by you it cannot be believed that there is in ITALY a surplus of wire rope. If so advise promptly but note that requirements stated in NOC aircrams 57 and 77 logically should also be revised.

Para 5. No action, therefore, will be taken on your NOC 279.

USFA, AFHQ, FOR ALEXANDER INFO ALCOM ROME, THIRD ARMY

RESTRICTED.

We understand from THIRD US ARMY that owing bad weather which seems to be usual over BRENNER Pass difficulty is being experienced in lifting Greeks from LINZ to ATHENS. Greeks presently being lifted from MUNICH are being sent during bad weather via FRANCE, but distance LINZ-ATHENS via FRANCE is too long for lift. Understand USFA has requested THIRD ARMY to re-stage the 3200 Greeks presently LINZ at MUNICH.

THIRD ARMY able and willing to do this, but since total Greeks remaining to be repatriated is 7100 and remaining promised air lift only 5200 we suggest USFA investigate with AFHQ possibility of moving Greeks from LINZ by rail to BARI for onward movement sea GREECE either by BRENNER route within CDPX quota Italians or possibly via VILLACH, SITTAS UDHO (?)

AFHQ please see our S-16479 of 9 August and your PX-27769 of 25 July which envisages 600 per week ferry service from BARI. In view considerable excess Greeks over air lift available and likelihood of bad weather soon, please treat this as urgent.

Directors Consorzio Agrario of provinces this region are trying to obtain seed from VENETO, EMILIA and RIETE where seed has been purchased other years. Wheat this year not up to customary standard but should produce a crop next year. Previous personal experience with similar drought shriveled grain is that viability little affected. Desire for selected seed is natural but not always possible after war. Have suggested farmers use own grain for seed to supplement shortage.

September wheat, fourth quarter fatr.

Wheat: from UNITED STATES sources only 85000 tons of bulk wheat are available for September loading. Unable to arrange for any part of it to be bagged. Although we are still exploring possibility of furnishing some empty bags it does not appear that any will be available for September loading.

We are also undertaking to supply for September loading 15000 tons of flour because it is at present readily available for shipment and since you have stated your monthly requirements at 8000 we will omit any flour from October loadings and undertake to ship 25 percent of the 100000 tons of wheat for that month in bags.

Please forward shipping instructions for wheat and flour vessels.

Also: our question in OCS aircrom 47 regarding fatr was not answered in any of your recent messages nor has needed comprehensive table of total fatr and oils program been furnished. It is a matter of some urgency that this information be supplied soonest.

Para 1. In view of the cessation of hostilities this HQ is considering the elimination of the prohibition on the employment of smoke and/or tear gas grenades as a means of controlling civil disturbances. The use of these agents was common practice prior to the war and was found to be an effective means of controlling civil disturbances. If the prohibition is removed stocks of these agents will be issued to all agencies responsible for controlling civil disturbances in the theatre.

Para 2. Your views are requested on the following.

- a. Do you consider smoke and/or tear gas grenades an effective means of controlling civil disorders?
- b. Could you maintain sufficient security of stocks of these grenades to insure against their falling into unauthorized hands?
- c. On what grounds if any do you oppose the use of such grenades?

AMSO SIGNED ALEXANDER SITE THREE

ACTION: ADVISE FOR COS AMSDO FOR BRITISH CHIEFS OF STAFF INFO: USFET, ALCON

SECRET.

This is MAY 1965. reopening of the Italian/Swiss frontier.

It is most desirable that normal trade relationships between ITALY and SWITZERLAND should be re-established, the frontier opened and restrictions on communications removed.

The primary obstacle as seen here is the non-acceptance by the Italian government of the US proclaimed and UK statutory lists. In this connection the ALLIED COMMISSION has informed AMSO that the Italian government on 12 July instructed its ambassadors in WASHINGTON and LONDON to press for the removal of most Italian and certain neutral firms from the lists after which the Italian government will effect the necessary legislation to recognize the new lists. Meantime no progress is likely here in persuading the Italian government to take action.

Existing external censorship controls of outgoing mail and telecommunications are being maintained. Such controls are no longer of material interest as regards military security and their continuation is therefore primarily to enforce the economic and financial policy laid down by you.

It is therefore recommended that,

A. AMSO be informed of the progress of the diplomatic representations referred to above.

B. Continued representation to the Italian government respecting the adoption

of the black lists should be handled through US and UK diplomatic channels in view of para 2.

Meanwhile AFHQ will maintain controls as in para 3.

It is requested that every influence including wide publicity be used to demonstrate to the Italian government the advantage to itself ^{ex} to prompt action in recognising the black lists
