This is M/T 900. Italo-Swiss payments agreement.

1. On 10 August Italian-Swiss negotiators in BERNE concluded payments agreement, commercial agreement, cancellation of 1935 agreement, and series of supporting exchanges of notes including one providing for 80 million Swiss Franc 3 year loan to Italian Govt. Not til 2 September did Italian Govt send text to AC and then only in response to AC query about reports that agreements provided for payment of Italian debts to Swiss incurred prior to 8 September 1943. Contents of para 3 of FAN 583 were communicated to Italian Govt on 18 July but Govt explained that negotiations in BERNE had begun on 3 July. Assured AC however that British and U.S. legations in BERNE had been kept fully informed and in any event ratification would be withheld until AC approved provision for settlement of old debts.

2. Payments agreement covers all forms of Italo-Swiss payments except frontier trade, 3 country trade, ocean freight, tourist payments, insurance and reinsurance, and transfer of capital and returns from capital (transfer of commercial profits permitted). Proceeds Swiss payments to ITALY for imports, etc., will be deposited in Swiss national bank in Swiss Francs and used by UFFICIO ITALIANO CAMBI for Italian payments for imports from SWITZERLAND and other payments permitted by the agreement. Use of such balances to make payments to 3 countries is precluded.

Exchange rate will be official rate of day of transaction.

3. 15% of Swiss Franc balances accruing under agreement are reserved to settle debts in arrears, all incurred prior 8 September '43, as follows: Commercial clearing debt 135 million Swiss Francs; railways clearing debt 55 million; special supplies debt mainly armament of Swiss manufacture 130 million; balance due on 1940 loan 58 million. Total 378 million Swiss Francs. In memorandum to AC, Italians state Swiss made settlement of above arrearages prerequisite to conclusion agreement and to obtaining new loan which is essential to finance Italian imports from SWITZERLAND.

4. Italians say they realized most questionable item in debt arrearages was special supplies debt and raised issue during negotiations, but this question delicate because SPAIN might use same argument against ITALY during coming negotiations over civil war debt which almost entirely represents deliveries war material (see MAT airgram 27) however Italians say exports to SWITZERLAND not likely to exceed 130 million Swiss Francs per year at which rate settlement of arrearages will take 18 years which Swiss consider means effective reduction of 30% in total amount of debt calculated on basis present value of 18 years payments. The debt arrearages will be settled without interest.

5. ITALY also agreed establish compensation office in ROME which will tax imports from SWITZERLAND and use proceeds to subsidize exports to SWITZERLAND, thus adjusting for discrepancy in Italian and Swiss prices. This apparently in lieu adjustment in present exchange rate.

6. In commercial agreement each country guarantees quota for specified list of commodities both for export and import. Provision for frequent adjustment in

to make payments to 3 countries is precluded. Exchange rate will be official rate of day of transaction.

3. 15% of Swiss Frans balances accruing under agreement are reserved to settle debts in arrears, all incurred prior 8 September 43 as follows: commercial clearing debt 135 million Swiss Francs; railways clearing debt 55 millions; special supplies debt mainly armament of Swiss manufacture 130 millions; balance due on 1940 loan 58 million. Total 378 million Swiss Francs. In memorandum to AC, Italians state Swiss made settlement of above arrearages prerequisite to conclusion agreement and to obtaining new loan which is essential to finance Italian imports from SWITZERLAND.

4. Italians say they realized most questionable debt in arrearages was special supplies debt and raised issue during negotiations, but this question delicate because SPAIN might use same argument against ITALY during coming negotiations over civil war debt which almost entirely represents deliveries war material (see NAT airgram 27) however Italians say exports to SWITZERLAND not likely to exceed 130 million Swiss Francs per year at which rate settlement of arrearages will take 18 years which Swiss consider means effective reduction of 30% in total amount of debt calculated on basis present value of 18 years payments. The debt arrearages will be settled without interest.

5. ITALY also agreed establish compensation office in ROME which will tax imports from SWITZERLAND and use proceeds to subsidize exports to SWITZERLAND, thus adjusting for discrepancy in Italian and Swiss prices. This apparently in lieu adjustment at present exchange rate.

6. In commercial agreement each country guarantees quotas for specified list

of commodities both for export and import. Provision for frequent adjustment in quotas.

7. Of course these agreements cannot apply to private trade or payments until proclaimed and statutory lists recognised by Italian Government. See TAM 679.

8. In view paras 3 & 7 of FAN 583 and TAM 136 above summary is forwarded and complete text and memorandum follow by air mail. Italians stress urgency of need to ratify agreement. Please advise soonest whether approval of financial aspects may be given.

1. In continuance our policy to return management of industry to Italians steps were taken in April 1945 to hand back control certain steel and other industries. In order to assist Italians certain officers of AFHQ were loaned to ALLIED COMMISSION for this purpose. This cable concerns 1 of these officers Brig D L ANDERSON.

2. ANDERSON was filling appointment director engineer stores this Hq; Although it cannot be confirmed by those who made arrangements it seems clear that intention was that ANDERSON should continue to be borne on W.E. AFHQ while on loan to AC until a vacancy in AC occurred and that head of engineer stores section should be downgraded to Colonel as anticipation was that work of that Section would be decreased. Position was therefore that W.E.F. 16 April 45 ANDERSON while continuing fill vacancy on AFHQ W.E. was performing duty with AC and his section at AFHQ was headed by his deputy.

3. Experience however has shown that this arrangement unjust since responsibilities attaching to directorate of engineer stores have been in no way reduced owing to delay in the assumption of control of industry by Italian Govt. Further on 20 August 1945 WSC AFHQ reviewing this we recommended abolition appointment deputy W.E;F; 1 August 1945 and retention Brigadier Director as considered

2383

CONFIDENTIAL

responsibilities rendered this rank necessary. Period with which we are here concerned is from 16 April 45 until 29 July 45 when ANDERSON absorbed into existing vacancy on AC which then became vacant.

4. Only way in which to find solution is for you to authorise additional appointment for Brigadier on W;E: of ALLIED COMMISSION between the 2 dates quoted in 3 above. Emphasise that this request if made only to provide solution and not because an additional Brigadier on AC is now considered essential. Already considered possibility of absorbing ANDERSON in an existing Brigadier's appointment in AC but all of them were filled during the period in question.

5. Lt Col EAQ WILLIAMS G3 CRC this Hq not at the War Office can elaborate if so required.

During 4 months ended July French paymasterin ITALY cites expenditures 778 million lire, of which only 57 million for troop pay and 77 million for local purchases as authorized TAM 24. Balance of 644 million "other" paymen s broken down only for July when total 168 million included 36 million for repatriation prisoners and French refugees, 50 million for exchanged of French notes for Italians in connection French currency conversion, 40 million to delegate of French admiral in GENOA, 13 million for military cemeteries, and balance not clearly specified. Some of these "other" payments must have included maintenance of French troops in ITALY but most clearly fall under other categories. Relief expenditures in our view not covered by TAM 193 which rules out lump-sum advances for unspecified purposes.

French paymaster has on hand about 150 million lire, but urgentlyasks for additional 320 million to Finance French expenses in ITALY.

In view limitations contained in TAM 24 and 193, French request is being denied except where projected expenditures are solely for pay of troops and their maintenance in ITALY. Please advise soonest whether these limitations may be relaxed to permit advances to French forces as requested without verification by AFA of purposes for which advances are required.

UNCLASSIFIED.

Due to extreme drought practically all hydroelectric plants in SICILY are inoperative. Most thermal electric plants burn coal and are operating only at low efficiency due to lack of coal or low quality Sardinian coal furnished. Increased in allocation diesel or could take some load off electric company because some ice and other plants have alternate diesel power supply and could use local diesel generated power in lieu of power from electric company. City of CATANIA now without electricity due to lack of coal. Imperative that quantity and quality coal supplied SICILY be increased as soon as possible. Situation SICILY different from north due to drought which is worst in many decades. Living conditions not good will be worse unless relief is given power or pany on which so many industries and municipalities depend. Recommend ALLIED COMMISSION take immediate measures to correct situation. The urgent need is now and until some days after rains come.

1. Refugee trains BOLOGNA and south 6th and 7th September. Our conversation the AM 5th. MRS MILAN have no objection our dispatching these trains via ALESSANDRIA PIACENZA. We are quite happy to do so. Re future refugee trains BOLOGNA and south. As 1600 departure MILAN via VERONA is unsatisfactory owing to lack of road transport from camp to MILAN station and as we have no buses to be dropped off on the VERONA line and as we can arrange adequate tran arrangements for road transport camp to MILAN station for 0640 hrs departure and as we have buses for MODENA and PIACENZA. Propose future trains from MILAN to BOLOGNA and south proceed via ALESSANDRIA and PIACENZA and leave MILAN at 0640 hrs. 0640 hrs train arrives BOLOGNA about midnight on day it leaves MILAN.

This is NAF 1071

1. Subject is handbook of BOLZANO and UDINE Provinces to Italian Government jurisdiction. FAN 536 laid down that the whole province of BOLZANO and TARVIS and the surrounding area in the province of UDINE, were to remain indefinitely under AMG.

2. I now consider that BOLZANO could with advantage be handed back to Italian jurisdiction at same time as other northern Italian territories, the handback of which was proposed in NAF 1069. Reasons are:

a. The frontier marches with Allied occupied AUSTRIA and with SWITZERLAND, and there is, therefore, little likelihood of agressive movement from outside by force of arms or propaganda. Position is thus different from that in other disputed territories.

b. It is not considered that any internal separatist movement is likely to arise with which the Italian Government should not be able to deal.

c. Risk of appearing to prejudice outcome of peace conference is not considered sufficiently serious to justify maintaining ALLIED MILITARY GOVT for that reason alone.

d. Handover of this territory will be on accordance with the spirit of para 1 of FAN 536.

3. For following military reasons, however, I do not consider handback of UDINE provinces is at present feasible.

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785017

 SECRET

a. Owing to delicate situation in VENEZIA GIULIA, it remains necessary for the Allied Corps in that area, with its supporting air forces, to be disposed semi-operationally and to be capable of operational deployment at short notice. As the portion of VENEZIA GIULIA under AMG does not allow sufficient depth for this purpose, the retention of full military control in the adjoining territory of UDINE is essential.

b. To maintain quiet conditions in northeast ITALY, direct frontier contact between the Italian and Yugoslav Governments should be avoided. It is, therefore, at present undesirable to handback the area round TARVIS to the Italian Government.

c. It is necessary to safeguard the lines of communications which run through UDINE from northeast ITALY into the British zone of AUSTRIA. The security of this area is most important under existing conditions and should be even more so in the event of further trouble with the Yugoslavs.

4. Your approval is, therefore, requested for:

a. The handback of BOLZANO province with the remainder of northern ITALY (except UDINE and VENEZIA GIULIA) on the date proposed in MAF 1069.

b. The retention of AMG in the province of UDINE until further notice.

5. This answers your TAM 678.

SECRET.

Reference your signal FX 39877 31 August.

Policy indicated has been followed.

Scheme of general order 11 approved by AIRCOM indistinguishable except in nomenclature from Italian system. Following points occur.

1st. May we advise locals of directive. This would relieve the field of brunt of criticism which would naturally be welcome. But we do not press.

2nd. Hope directive not intended to require reversion to Italian nomenclature. Psychological device of new names has reduced resistance considerably as terms Prefect and Giunta are objectionalbe to both Italians and Slovenes. Recommend continuing present designations for this season and also because no complete province in territory and Italian titles there are therefore inappropriate.

3rd. Assume first sentence para B directed to you and requires no action here since our rles on confined to west of demarcation line and policy is not to contact Jugoslavs on civil affairs matters except on specific instructions.

4th. Understand juridical position but point out purely for information that locals both friends and critics would contend closing sentence of paraphrase negates balance of signal and that use of Italian institutions does in fact prejudice ultimate disposition.
