MAIN 13 CORPS  
AFHQ INFO ALCOM SCAG 55 AREA PASS

SECRET.

Ref your F43665 of 15 September.

1. It is agreed that application to the day to day conduct of business of CGE principles laid down by AFHQ in regard to the respective responsibilities of 13 CORPS and ALCOM in connection Allied Military Government in VENEZIA GIULIA is being progressively clarified as result of working experience.
2. Provided principles that as SCAG 13 CORPS is responsible to SAC for security of Allied communications through VENEZIA GIULIA he must control AMG policy in all matters directly or indirectly affecting maintenance of law and order. And that ALCOM responsibilities are limited to advise and assistance in technical matters, continue to be fully accepted by ALCOM no serious difficulties are anticipated in evolving satisfactory working arrangements out of practical experience in specific cases.
3. Difficulty in defining "Technical" matters is appreciated but if present set up is likely to continue more than 2 months at most it is considered that development of relationships between 13 CORPS and ALCOM may well need to be crystallised in the form of a new or altered directive by AFHQ. However in view of possibility of some clarification of Allied Govt's intentions regarding the future political status of VENEZIA GIULIA resulting from current meeting of foreign secretaries council it is suggested that further discussion of this matter be deferred till conclusions of council in regard to VENEZIA GIULIA are known.

Continued redeployment US and British accounting personnel makes it increasingly urgent have firm estimate of personnel needed to complete remaining civilian supply accounting task, ITALY and BALKANS.

For greatest economy in accounting personnel, we recommend establishment combined supply accounting agency to take over such civilian supply accounting and billing for ITALY and BALKANS as is CCS responsibility. If considered desirable, agency could also handle supply accounting of ITALY for period from end period combined military responsibility to assumption responsibility by UNRRA. Agency could initially be placed under AC for administration.

Personnel of agency should be Allied, but could be civilian and/or military. As to Allied civilians, see MAT 787, para 5 of TAM 668, and promise in W 56072 of 2 civilian accountants and 2 clerks from CAIRO.

Final directive promised para 2 of TAM 668, and your views requested urgently on above proposals for accounting and billing for civilian supplies ITALY and BALKANS.

1. Would point out emphatically that no action advisable by Italian Government in VENEZIA GIULIA for political reasons. Nor can we allow detachment of 228 Italian Div into VENEZIA GIULIA for demobilisation purposes as this would contravene the DUISO agreement. Therefore reiterate our suggestion that this be done in DISTWO. See our I 98 dated 17 September para 4.

2. Do not anticipate any difficulty from JUGOSLAV side regarding those willing to return to JUGOSLAV occupied zone.

3. As returning personnel are likely to be involved in demonstrations etc serious difficulties may arise if they are in uniform. As they are likely to arrive destitute would underline importance of their being set up in civilian clothing before arrival.

GIOGIO JACSETIC, whose appeal from conviction and sentence of 18 months for possession of weapons is now pending before you, has been nominated by Italian Communist Party and designated by Italian Govt as member of Consulta from this area. I have freed JACSETIC temporarily from custody to visit in LUBBIANA his dying son recently returned from concentration camp and yesterday extended this parole for 10 days. JACSETIC has asked provisional release pending determination of appeal so that he may consult with his party and Italian Govt officials to determine whether he will accept Consulta position. For many reasons which may not be recited but some of which will occur to you, I recommend favorable action on this request. Also suggest this appointment is a proper factor to consider in connection with possible extension of executive clemency.

In order to produce all possible pit props during remainder of September, it is desired that every effort be made to increase pit prop production in COSENZA by 500 to 1000 cubic meters for shipment to REGGIO during September, over and about normally scheduled 1000 per month. Lumber shipment will be delayed as necessary to meet this increase.

1. Supplies and equipment purchased by UNITED STATES Forces from Italian sources with lire drawn from Allied Financial agency are held in this Theatre. To ensure a continuing supply cash payment for these items was necessary, and the expenditures were charged against funds allotted to this Theatre.
2. Many of these items are not now needed in this Theatre, also they are ~~in~~ unsuitable<sup>in</sup> condition and type for further military use either in the UNITED STATES or in another Theatre.
3. The British policy is to return to the Italian Govt, items purchased with lire and this procedure is recommended for disposition of items purchased by UNITED STATES. The Theatre Judge Advocate states that such property should be disposed of through ANLC under the surplus property act as it is his view that these items are UNITED STATES property.
4. Dollar reimbursement will not be made for such lire as it is considered that Italian Govt supplied lire with which purchases were made (Ref FAN 583). Therefore, the Italian Govt has an interest in these items and they should be handed to the Italian Govt when they are no longer needed by the UNITED STATES Forces. Such procedure will

save passing the items through ANLC and will help to clear unwanted items from UNITED STATES depots. Complicated accounting will also be avoided, and if disposal of the items by ANLC should take place for dollar, Dollar Credit or Lire or other foreign currency, to the Italian, or any Foreign Govt, it will not put the UNITED STATES in an undesirable position. Similar to this is the policy operating, giving the Supplying Govt the right to recapture items or indicating their disposition <sup>of</sup> ~~for~~ items received as reciprocal aid.

5. The War Dept is requested to authorize delivery by this Theatre to the Italian Govt, such ~~items~~ <sup>SCORES</sup>, equipment etc, which are no longer needed, and which were purchased with lire from the Italian Govt. Items will be evaluated at original purchase price, and a record will be made of each return which will be centralized and maintained by Allied Commission.

At the moment of the Liberation of PALERMO by the Allied Forces, the Allied Military Govt found our cooperative society on the spot ready to cooperate with them with all their means, even going through hardships and working day and night for the purpose of helping the Allied authorities in bringing to an end the occupation of the city, while other harbour Unions' workers had evacuated the place.

Now the Ministry of Merchant Marine has recently granted a bonus (premio di liberazione - Liberation Bonus) to those workers, while it denies same to our longshoremen only because they are not on the list of permanent harbour personnel, which is unjust as they should be entitled to be. It is requested, therefore, that the said bonus be granted also to our workman, who, for the period from 1943 to 1945 have worked and collaborated with the Allied authorities of occupation. We wait for a favorable reply.

1. Agreed in principle to repatriation these personnel.
2. BELGRADE has already given considerable publicity to its demands for return of these mainly pro-TITO elements and therefore their arrival in VENEZIA GIULIA would appear as moral victory for Jugoslavs and tend to lower Allied prestige since it would appear to Italians that Allies were unable to obtain return of Italians deported from VENEZIA GIULIA. Suggest therefore that return of Slovenes be made bargaining counter for return of Italians still held by Jugoslavs.
3. Assume those persons unwilling to return to VENEZIA GIULIA and in particular to Jugoslav occupied zone will be weeded out prior to arrival our area.
4. In view probability of use by local pro-Jugoslav faction of return of these elements for political purposes eg demonstrations etc, at time when tension somewhat high request they be despatched in small bodies not all belonging to same locality over period of some weeks so that minimum local publicity be given. Suggest transit reception arrangement to facilitate this might be established in DISTWO as concentration in corps area for this purpose considered most undesirable.

ATTN: SIGNED SACRED CITE INFO

ACTION: ALCOH FOR CHIEF COMMISSIONER

**SECRET.**

1. General ANDERS has drawn my attention to a libellous article in "UNITA" edition number 210 of 7 september front page of which refers to aggressive action of "ANDERS Bands and fascists poles". Also sketch depicting 2 Polish soldiers with clubs in an Italian house occupants of which lie beaten or dead. Anti Polish articles are now featured almost daily. In particular see "UNITA" of 11 and 12 september.

2. Such articles coupled with deliberately provocative acts such as the recent distribution of anti Polish leaflets by communists in Rome cause serious unrest among Polish troops.

3. These attempts to undermine the morale and discipline of 2 Polish Corps will not be tolerated by the Supreme Allied Commander.

4. You will immediately draw the attention of Signor PAVI to the above and request that immediate steps be taken to stop this organized communist campaign. You should point out firstly that 2 Polish Corps has played a most distinguished part in the campaigns which have freed ITALY from fascism and secondly that it is absurd to complain of the behaviour of Polish troops while provocative action of this sort is permitted by the Italian Government.

Ref my EAC/1316A/3/CA of 14 August and first para my EAC/1316A/5 CA of 15 August.

1. There are approx 1600 waling sick and men over 50 years of age amongst the civilian Italian evacuees ex ETHIOPIA at present (here in this?) command.
2. It appears possible that shipping accommodation may become available from time to time in which some of these could be repatriated to (ITALY?).
3. Authority is now sought to utilise any such accommodation that may materialise for batches selected from the above 2 categories.
4. It is considered that the repatriation of even small numbers of these sick and aged civilians would alleviate the growing unrest among 15000 evacuees still remaining under detention who do not appreciate the reasons for the priority repatriation that has been and is being given to PSW of similar categories.
