Ministerial goals too conservative. Excepting ALESSANDRIA and AOSTA amounts ammassed of this date exceed entire season total projected by Minister. Believe our estimate of provincial goals on July 1st should be followed except for CUNEO and TORINO which are high and ASTI low. Will revise above provinces Monday. Regional total ammasses is 78% of Minster's goal and compares favorably with goal in all Italian territory. Possibly their estimates as conservative for ITALY as for PIEMONTE where AMG aided in establishing amounts.

For General ANDERSON DCA from DUFF.

We spoke on telephone last Wednesday on subject of setting up SACMED REAR HQ in LONDON. You said inter departmental conference would consider on Thursday afternoon. If proposal approved we had intended that British representative should be Brigadier D L ANDERSON whom you know. His experience in ITALY and knowledge of Italian economic situation are exceptional. We have no other candidate nearly as strong. On return here I find that ANDERSON is due for release in near future to return to employment with LONDON County Council. He believes LCC would agree to his continuance in Army for a further period on our request. Decision however in near future is essential. In view of yesterday's discussion can you say whether it is reasonably certain that our proposals will be accepted in such a form that we may count on ANDERSON's employment in this capacity in LONDON by end October. ANDERSON available immediately return LONDON either in anticipation of release or for discussion with you as to his future employment.

ALLIED COMMISSION FOR ACTION RPT INFO AFHQ FOR PMEDC AND UK BASE SECTION FOR CABINET SECRETARIAT.

UNCLASSIFIED

THIS IS CCM 226. Provision of essential supplies to ITALY.

1. Reference following messages : MCC 226, MCC 281. MCC 292, MCC 289, MCC 295, LAC 1275, LAC 1300, LAC 1302.

2. Will send shortly by CCS airgram third revision of program of basic supplies, which can be regarded as latest adjusted program of supplies scheduled for shipment to ITALY from UNITED STATES and UNITED KINGDOM during remaining months of 1945. There are not repeat not many changes in quantities from revision roman numeral two, which was sent to to AIGCM through FRA channels. Please study carefully the notes to each table in revision roman numeral three when it reaches you, as these notes indicate clearly action taken on each item.

3. Supplies which United Kingdom has agreed to supply are limited to 570 tons of raw rubber and 5,000 tons of wool. It is understood that the United Kingdom are preparing to ship these items. CANADA is not repeat not at present committed to supplying anything against present program.

4. Accounting. In reply to LAC 1275 and LAC 1300, for United States shipments procedure outlined in para 2 of LAC 1275 as modified by para 3E of same message is satisfactory, with the understanding that reference in para 3E of LAC 1275 is to civilian agencies having supply responsibility, and that appropriate United States civilian agencies will cost quantitative records and bill recipient government unilaterally. The accounts for supplies from United States under this interim program will be kept on a United States, not repeat not a combined, basis. The United Kingdom have proposed that goods ex United Kingdom be delivered to Italian Government FOB British port (see PAT 160) under this arrangement cost of shipment

5138

Declassified E.O. 12356 Section 3.3/NND No. 785017

to ITALY will still be financed initially by procedure.

5. Shipping procedure for basic program. For shipments from United States sources under basic program procedure is as follows:

(A) Ocean bills of lading will show " War Shipping ~~Board~~ Administrator as principal for account of FEA," as consignor, and " WSA as agent for United States Army " as consignee.

(B) Bills of lading will bear following clauses: " Transfer of property to United States Army will take place at end of ships destination."

(C) One of the original bills of lading will be signed at destination (Italian port) by WSA as agent for United States Army as receipt for transfer of property from FEA to United States Army. This transfer must take place in order to legalise use of FEA funds for this purpose. Receipt is returned to FEA for record.

(D) War Department instructing MTOUSA to work out with WSA and ALCOM in field the procedure for turning supplies over to Italian Government. This procedure should include transmittal of Italian Government receipt to ALCOM

(E) Consignments under Y B program are being marks "ITALY" with no port indication, on assuption that they can be routed from GIBRALTAR under existing theatre procedures.

(F) Schedules of loadings each month will be sent to AC in a form similar to CCS airgram 52, which is shipping program for September loading

Declassified E.O. 12356 Section 3.3/NND No. 785017

beginning October loadings these schedules will include information as to specific cargo on each ship to extent possible.

6. Shipping allocations from United States cover not repeat not only basic program but also include space for shipment of miscellaneous items being sent to ITALY under other programs - that is, category B program (troop pay account - YT requisitions) UNRRA program, Vatican and other relief shipments. In future they will also include any Italian Government purchases through commercial channels.

7. For shipments from United States, administrative procedure does not repeat not require any calling forward by AC. Once a requirement is accepted all details of allocation, procurement and shipment are managed in WASHINGTON by PEA. Requisition is made up in PEA and bears symbol YB. Under present arrangements the one hundred million dollar PEA appropriation is to be used only for purchase of supplies and it is expected that shipping costs will come out of other appropriated funds.

8. Coal. (Reference MOC 252 para 3) Source of supply for all civilian coal for ITALY is United States for October and November loadings, no allocation having yet been made for November loadings. Quantity is 420,000 tons for October loading, 450,000 tons for November loadings. Quantities being procured are those detailed in MOC 261. Somewhat different figures in a cable numbered FX 38206 of 25 August 1945 from AFHQ to CCAC, are not repeat not being used here insofar as they refer to needs for civilian use, since the cable did not repeat not come to CCAC from AC in MOC series. United States War Department is meeting from United States sources its direct military requirements including locomotive coal for railroads.

3 1 3

Declassified E.O. 12356 Section 3.3/NND No. 785017

British Military coal needs, which are still under discussion here are not repeat not at present being met from United States supplies, but are being supplied to extent possible from South Africa.

9. POL in monthly quantities and products as set out in MOO 298 of 30 July 1945 has been approved here as a requirement. United States have agreed to include in basic program 50% of the value of this program from United States sources. It has been previously agreed that POL supply for ITALY would be shared equally by United States and United Kingdom Governments under basic program, but now repeat now the United Kingdom have given notice of their inability to provide a share. If United Kingdom does not repeat not provide 50% of POL that share will have to be financed from Y T funds available to the Italian Government. Detailed administrative supply arrangements will continue for time being to be handled through PETSEC. This arrangement does not repeat not affect termination of combined United States/ United Kingdom military responsibility for provision of civilian petroleum supplies which is effective 1 October 1945. PETSEC will transfer petroleum products to CIP (Comitato Italiano Petrolio) acting for Italian government. After 1 October please report currently to CLAC in MOO series actual deliveries of petroleum to CIP on behalf of the Italian Government as compared with approved requirements which are agreed between ALCOM and PETSEC should be notified immediately by ALCOM to CLAC in MOO series.

10. Wheat. Approved monthly requirements is now repeat now 150,000 tons. 142,000 tons wheat plus 8,000 tons flour are being requested by FEA from United

Declassified E.O. 12356 Section 3.3/NND No. 785017

States for October loading, but it is hoped that some part of the wheat requirement in subsequent months can be supplied from CANADA or ARGENTINA.

AMG LIGURIA FROM SELBY
HQ ALGOM FOR EXECUTIVE COMMISSIONER

RESTRICTED.

Ref your 6136 of 26 September . Letter 3636/EC not yet received. Full text Lieutenant Colonel NICHOLLS speech follows.

1. Gentelemen. I have called you to this meeting to inform you of the future position as regards the occupation. To some, I fear, it will be somewhat of a disappointment. Recently I have been travelling round the northern towns and I have heard many things, some of which are very disturbing for the future of ITALY. It would appear, from all accounts, that the behaviour and terrorisation of Fascism is to be introduced, not for the good of ITALY, but for the good and profit of the individual concerned. The Allies are not concerned in party politics in ITALY but, as long as they are here, they are concerned in eradicating Fascist methods and in maintaining law and order.

2. At a recent meeting in MILAN where Prefect and The CLN were present, it was understood that a clamour was raised for the immediate disappearance of AMG; others are reported to have said that as soon as AMG goes, they will be able to do what they like. This may be wishful thinking, but you will find that it is very far from what will happen. AMG'S place if they go, will be taken by strong formations of the regular army both Allied and Italians, and you will not be allowed the same intimate approach that you have been able to have with AMG.

3. There are rumours, all over the place, of a forthcoming bloody revolution. This is an intimate matter between Italians, but what we wont stand for is that arms and munitions supplied by the Allies, at

a great loss to themselves, aroused. We intend to get those back, we hope, by peaceful means. Up to now, in the main, our orders have been defied, but my advice is to comply now and avoid the drastic measures that will, undoubtedly, be taken should the need arise.

4. There is a great deal that is bad in LA SPEZIA: crime terrorisation and extortion is taking place, decrees and orders are being flouted. We do know that people in high places, if they dont actually aid and abet it, most certainly shut their eyes. I firmly believe that the situation in LA SPEZIA is less bad than in most other places and, with a little bit of cooperation and less selfishness, could be an example to the rest of ITALY. Why not give it a trial.

5. I am convinced that it is a very small minority in the Province who desire to rule by terrorisation. I estimate it at less than 5 %. Major WHITE here puts it at less than 2 %.

6. ITALY will not get back to her old position unless she is recognised by the great powers, and that they will only do if she has an elected government with the elections fairly carried out so the people who now think they have the right to seize power, if they do so, will be doing the greatest disservice to their country and so, indirectly, to themselves. Owing to the lack on troop and police, up to now, I have been powerless to enforce any orders or instructions, consequently, I have refrained from giving them. But now the whole picture has changed: I have now a substantial backing of both British and Italian troops and am empowered to use them if it should prove necessary. I will have to compunction in doing it, although it would be with regret.

RESTRICTED

Declassified E.O. 12356 Section 3.3/NND No. 785017

RESTRICTED

AMG have been a great deal more your friends than you give them credit for, and are more than willing to continue to be so, but that attitude largely rests with you, to see that the necessary orders and decrees are complied with both in fact and spirit. Le the motto of LA SPEZIA be "Justice" and not "vengeance". I am the first to agree that anyone, who has committed crimes in the past, should be punished, but punished by the existing majesty of the law and not by individual who seek personal gain as well. Now is the time to set your house in order and set an example to the rest of ITALY, while we remain to help you, as, believe, you may find it much more difficult when we have gone. Therewill always be crimesin the wake of a war. I am not alluding to those, it is the crime of personal greed and the illegal measure of power and property which we intend to eradicate. I do not want a discussion at the present moment, but I do want each of you to think out the position as I now put it, and any constructive proposal, that any of you put forward, will receive our strongest support. Thank you.

SECRET.

VENEZIA GIULIA and UD INE.

1. Cable TAM 690 has been received from C.C.S. advising that civilian supplies for VENEZIA GIULIA and UDINE Provinces will remain a military responsibility and that AFHQ would continue to be responsible for supplies in theatre.

2. Requirements given in ALCOM letter 20.02/EE of 24 August were forwarded by AFHQ to C.C.S. in MAT 889 with a statement that these requirements had already been anticipated in ALCOM requisitions (COM-MOC series) for period September-December loadings. CCS advise however that they propose to supply these requirements through military channels and that advice of loadings will be sent later.

3. Meanwhile ALCOM will arrange to set aside from Italian Government stocks required supplies for these areas and such supplies as are ultimately shipped by military authorities as result of action in para 2 will be used for replacement to extent that AMG has drawn on Italian Government stocks. Any balance will be applied against future VENEZIA GIULIA and UDINE requirements. Future ALCOM requisitions will be adjusted accordingly.

4. AMG VENEZIA GIULIA and UDINE will coordinate fully with ALCOM in distribution of supplies and planning of future requirements to secure maximum utilization of Italian resources.

4896

Declassified E.O. 12356 Section 3.3/NND No. 785017

(FX 45913 cont'd)

5. It is requested that AMG VENEZIA GIULIA and UDINE submit by 12 October in coordination with and through AIOM to this HQ monthly requirements for the 6 month period beginning January 1946. These requirements will not vary from scales laid down for NORTHERN ITALY and it is presumed that they will closely approximate to those already submitted for September-December.

1. Agree that civil supplies for subject areas will be military responsbility.

2. Understood here that CCS will take action on loading period September-December as per monthly amounts set out para 3 MAT 889.

3. Pending arrival these military loadings arrangements have been made with ALCOM to provide from civilian requisitions. ALCOM will account for supplies and receive repayment in kind.

NOTE: Requirements for these areas September-December included in civilian requisitions put forward by ALCOM, so that after repayment has been effected Italian Govt should have 4 months supplies for a population equivalent to that of VENEZIA GIULIA and UDINE surplus to current needs.

4. Action has been initiated to insure maximum utilization of Italian resources.

5. Program for 1st 6 months 1946 will be submitted earliest.

Reference is made to WAR DEPARTMENT Technical manual TM-38-420, September 45, 4 copies of which were forwarded to Headquarters G-4, CASERTA, ITALY, 2 copies to Captain KOTON and 2 copies to Major General MAGRUDER.

Section IV paragraph 12 A of the reference TM authorizes overseas commanders todeclare civilian type items (items for which there is a commercial equivalent on civilian market) as surplus to ANLC without reference to the WAR DEPARTMENT except for subsistence items, those items listed in Appendices A and B of the Reference document and those listed as in short supply in Appendix H.

Direct transfer of army items to FEA for sale to the Italian Government not approved. UNITED STATES items in question appear to fall within the classification of civilian type items, therefore, request that procedure as outlined in the reference TM be used to extent applicable. Where not applicable submit recommendations to WAR DEPARTMENT through UNITED STATES military channels.

Request that method of disposal of British items be arranged direct with the War Office.

Exchange rates for use by Italian Government. Confirmation requested as to whether Italian Government free to "fix or negotiate" exchange rates irrespective of whether such new rates yield a gross rate equal to official dollar-sterling rate.

To date exchange rates for other currencies have been fixed by crossing official rates with dollar. Italian Government have indicated on numerous occasions that they consider many of these official rates out of line.

It is felt that, if present exchange rate structure (dollar-sterling official rate) is endorsed, Italian Government may proceed to devalue the lire as public opinion is well prepared for such a step and it would also tend to solve their export difficulties which they consider unfavorable at present rates of exchange.

Having been informed of the facts that occurred in SPAIN, they express wishes that the spirit of solidarity that links all civilized peoples may support the spanish people in the battle for their redemption

UNCLASSIFIED.

Prices of all local produce in MALTA are extremely high and still tending to rise. It is doubtful whether ordinary price control measures will be fully successful and only real solution lies in increased supplies of cheap imported commodities. I am accordingly most anxious to increase supplies of eggs fresh fish fresh fruit and fresh vegetables and while I fully recognise supply and exchange difficulties I should be grateful if permission could be granted for a small trade delegation to visit SICILY in order to inform local opinion regarding the availability and prices of the above items of fresh produce in SICILY in accordance with general policy decontrol government is anxious that normal commercial relations with SICILY should be resumed as soon as possible but does not intend to alter any of COSUS programme. It must be emphasized that this would be purely in the nature of an exploratory visit and further developments would depend on the nature of their report.
