Your 4755/EC of 2 October 45.

Area commander personally states his view situation not correctly represented. Understood no further requisitioning has taken place or is contemplated. Plans for winter quarters have been completed and will be discussed between area commander and prefect Wednesday. These plans include reallocation of accommodation to make most economical use of existing premises. Sindaco regards quartering of fresh troops in ANCONA with misgiving as had hoped for substantial derequisitioning this winter. Possible that conference may lead to some derequisitioning but details not yet certain. Prefect and area commander are in touch in this matter. Will advise further in writing.

1. Ref as to my 44949, your W 73305 (neither to Cabinet Offices and draft military and civil affairs agreement received from War Dept airmail by Brig Gen HAMBLEN.

2. I agree generally with proposed UNITED STATES agreement as drafted with the following major exceptions:

A. Para 2A mentions certain airfield by name as being the ones requtred exclusively for American use. These are not however the ones that it is planned here to use. Suggest para should be redrafted to avoid specific mention of particular airfield.

B. Para 6D does not appear to be clear. The first sentence states no payment to be made for "facilities". The second one provides for credit to be given for "public service facilities".

C. Para 11A and B. The provisions of this para are dependen on governmental policy of which I have no information. However it is believed undesirable to include in the agreement any reference to the term "net troop pay procedure".

D. Para 17. In view of redeployment I am unable to continue the processing of all such claims mentioned in this para and consider it should be redrafted to place the onus of investigating such claims on the Italian Govt.

E. My detailed comments follow by air.

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785017

3. In addition to the American draft a copy of the British agreement has been received in this Hq and Field Marshall ALEXANDER made a copy available for my information.

4. There are 2 major differences between the 2:

A. The British agreement is to run initially for 5 years with an option for a further unstated p riod after consultation between parties: The duration of the American agreement is unspecified.

B. The Brtish agreement provides for free tre supplies and services, including costs for caring for displaced persons: the American agreement provides that no payment will be made for facilities (undefined) but that agreed rental value for fixed installations and the cost of public service facilities used by the US Forces shall be credited to the Italian Govt against its obligations to the Govt of the U S (GDP). Furthermore a separate agreement, whose terms are not indicated, is envisaged for the supply of lire and in the mean time the troop pay procedure will obtain which means dollar credit (para 17). These divergent financial policies appear irreconcilable. In addition there are several other variations in the drafting of clauses common to both agreements and certain additional points included in the American draft which are not in the British one.

5. I am including a copy of the British agreement with Gen MORGAN's comments thereon in my letter forwarding my detailed comments on the UNITED STATES one and have included also a note of the main variations and omissions.

6. In view of the fundamental differences in financial policy, a joint Anglo American agreement seems impracticable.

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785017

I recommend that, in so far as is possible, all clauses common to both agreements should be drafted in the same form and both the time elements of both agreements should be the same.

SECRET

I understand from TROOPERS signal 74075CA (B) from the Director of Civil Affair that my views on the draft Military and Civil Affairs agreement with ITALY contained in TROOPERS signal 74076CA2(B) would be appreciated.

1. I am generally in agreement with proposed British agreement as drafted with the following major exceptions:

A) In view of possible difficulties over transport of supplies to AUSTRIA from ITALY the right to take complete control of any section or sections of the railways should be reserved. A similar right in the case of ports and airfields is already reserved in Sect 3 Roman numeral (III), paras 2 and 3.

B) The right to arrest and detain or call upon the Italian Govt to arrest and detain any one in ITALY who is deemed to be a danger to the security of British Forces should be reserved. I suggest a new para 3 be added to Section XI (II?) to cover this.

C) The ban on operating radio and radar stations in Sect IV B appears most undesirable and I consider the first part of the sentence should read "The right to construct, maintain and operate" etc.

6046 SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785017

D) My detailed comments follow by air.

2. In addition to the British draft a copy of the American agreement has been received in this Hq and Commanding General MTOUSA has made a copy available for my information.

3. There are two major differences between the 2:

A) The British agreement is to run initially for 5 years with an option for a further unstated period after consultation between both parties (para 2 of Memorandum attached to the agreement) the duration of the American agreement is unspecified.

B) The British agreement provides for free lire supplies and services, including costs for caring for displaced persons (Sect Roman numerals one eight -XVIII): The American agreement provides that no payment will be made for facilities (undefined) but that an agreed rental value for fixed installations and the cost of public service facilities used by the UNITED STATES forces shall be credited to the Italian Govt against its obligations to the Govt of the UNITED STATES. Furthermore a separate agreement, whose terms are not indicated, is envisaged for the supply of lire and in the meantime the troop pay procedure will obtain which means dollar credit. In addition there are several other variations in the drafting of clauses common to both agreements and certain additional points included in the American draft which are not in the British one.

4. Section Roman numerals one eight -XVIII- in the British agreement is fundamentally different from the UNITED STATES method of dealing with this problem. With the knowledge and advice available in ITALY I do not feel competent to comment upon this paragraph, except to state that any form of agreement requiring a balance to be struck between services rendered to the Italians by the British and

Declassified E.O. 12356 Section 3.3/NND No. 785017

...s would be impracticable. Further, any reduction in the services to be provided free by the Italian Govt would result in there having to be a reduction in this services now being provided for the accommodation and welfare of the British troops in ITALY.

5. I do however feel that consideration should be given to the possibility of bringing British policy into line with current American policy as far as troop pay procedure is concerned. Under the existing American practice dollar credit is given to the Italian Govt equivalent to the amount of lire paid to civilians by American troops in ITALY out of their pay. It seems possible that a similar arrangement might be acceptable to HMG which would result in a sterling credit accruing to the Italian Govt which might be used for expenditure by that Govt within the sterling area. The necessary records are already maintained by DPIC CMF, so that no administrative difficulty would arise here.

6. I am including a copy of the American agreement with Commanding General MTOUSAS comments thereon in my letter forwarding my comments on the British one and have included in the letter a note of the main variations and omissions.

7. In view of the fundamental differences in financial policy, a joint ANGLO - AMERICAN agreement seems impracticable. I recommend that, insofar as is possible, all clauses common to both agreement should be drafted in the same form, and that the time element of both agreements should be the same.

For GENERAL DUFF FROM ANDERSON. Your FX 46243 28 September.

1. Postponed Interdepartmental meeting yesterday felt that amount of Italian business now coming before International Committees in LONDON does not justify special SACMED representation in LONDON at this stage. Detailed examination of position as regards individual committees gave the following results.

2. Supply requirements go to CLAC in WASHINGTON and only such small proportion as provided by UK is dealt with here.

3. Civilian coal for ITALY at present provided by U STATES ECO does not at present allocated coal to ITALY but merely takes cognizance of U STATES decision. In view of allocation from USA there would seem to be no necessity for adviser from SACMED regularly to attend their council meetings but we shall presume right of SACMED representative to attend meetings as adviser to British and American representatives as well as representative from SACMED in ECO Secretariat. It was however thought better not to ask for special representation of Italian interests on ECO until UNRRA takes over as agreement of ECO would have to be sought to this. When UNRRA takes over the position will have to be reviewed.

4. Controlling powers represent ITALY at ECTO Council and Board meetings and we understood ECITO Office to be opened in ROME for Liaison with military and control authorities. Council does not meet frequently and best solution would seem to be that controlling powers representative on ECITO can if necessory ask for assistance from you when Italian interests under discussion.

5. Matters discussed in EECE at this stage do not appear to affect ITALY greatly and it is thought that her interests could adequately be protected by representatives of controlling powers who would ask for assistance from you if special problems should arise. There however sub committees are appointed to consider technical problems particularly from long term point of view there would be no objections to technical experts being appointed either by SACMED or Italian Govt as seemed most suitable. This would be matter for special arrangements in each case.

6. There was very full discussion and I am satisfied that problems discussed by these committees at this state are not such as to necessitate any change from the present arrangements of setting up of SACMED representation in LONDON provided that we can ask for expert (ADHOC?) help if necessary. It certainly does not seem necessary to ask Brig ANDERSON to postpone his return to LONDON County Council for this purpose though I agree that he would have performed these duties excellently if permanent representation had been necessary.

1. In NAF 1051 it was recommended that you approve an Allied police mission to overhaul and increase the efficiency of the Italian Carabinieri and stated that details would be forwarded. This is NAF 1077.

2. The present situation with relation to the Italian Govt is this. PARRI personnel appears to agree the desirability of such a mission. He officially states however:

A) That it would be inexpedient to invite a Mission because the communists would probably demand Russian participation.

B) That if the Allies imposed a mission it would be contrary to present Allied policy and would be resented by the Italians.

C) That, after elections when presumably the communists would be an opposition party, the Govt might request a mission.

D) That a mission might be agreed as part of a supplementary agreement to the Peace Treaty or even imposed as part of the Treaty.

3. I still hold to the view that, unless the reorganization and training of the Carabinieri is placed under a qualified Allied Police Mission, it will remain an inefficient and undependable force in which the Govt cannot depend in any crisis. I am hesitant however about insisting that a Mission be accepted until it is clear that such

SECRET

SECRET

action conforms to your policy.

4. A detailed examination is therefore being made of the feasibility of making the reorganization and training of the Italian police the responsibility of the Military Mission to Italian Army. As the training of the Carabinieri is a function of the Italian Ministry of War this would not be illogical. In this event the provision of a small increment of police officers on the staff of the Military Mission would be required and it might be necessary for these officers to be given army rank.

5. Meanwhile, no action by you in regard to para 12 (D) of NAF 1051 is at present required.

Reur your G418 of 2 October.

1. AFHQ interpretation of Article 1 of BELGRADE agreement in regard to command and control of anchorages on west coast of ISTRIA is contained in appendix G of MORGAN-JOVANOVIC agreement. Most unlikely that Jugoslav would agree to maintenance of Allied liaison officers on shore, particularly when anchorages not being used.

2. The occurrence of repeated incidents on the TRIESTE - POLA road in spite of definite agreement to keep it open shows that, even if agreement for these liaison officers were secured, local action against them and difficulties of maintaining them would make it impracticable to pursue the course you propose.

3. Any commission investigating ethnic character will undoubtedly inform itself concerning changes in residents.

AlCOM ATTENTION DIRECTOR LABOUR SUB COMMISSIONER

1. Information reached me on october 4 that FIAT group had concluded agreement for 50% increase on all basic wages. Commissario CAVINATO signed agreement without previous consultation with Unione Industriali.

2. At meeting held Unione Industriali on October 5 CAVINATO explained that the increases had been conceded in view of an alleged compromised situation which he had inherited from previous Giunta Di Gestione and further pledged himself for the future to coordinate his initiative with Unione Industriali.

3. Unione Industriali decided that no such wage increases could be met by other industries in PIEMONTE.

4. RIV and MICROTECNICA of FIAT group do not receive the wage increases as these are automomous limited liability companies. Unless some concessions are made these 2 companies will strike monday and similarly other companies like LANCIA and metal works.

5. This FIAT agreement likely to produce repercussions not only in TORINO and in PIEMONTE but also in other industrial centers in Northern ITALY. With view of advising eventual industrial unrest Regional labour office now inviting intervention of Minister BARBARESCHI
