Concur with nr ADO/SPTAA 77618 of 20 October with following provisions: Concur with loading HUNG/HOCU cargo on SAMR vessel employing block stowage load all Army cargo for MITE civil affairs cargo on MITE/TESH vessels. Top stow legs cargo for first discharge on MITE vessels. Do not desire under any circumstances to combine TESH/HUNG/HOCU cargo; as loading east coast ITALY and west coast ITALY cargo on same vessel causes great complications in trans-shipments. In this connection point out that it is understood cargo for British zone of AUSTRIA is desired discharged at HOCU; and cargo for American zone AUSTRIA is desired discharged at TESH. In view of individual and sometimes unexpected arrivals of vessels, request the sailing cable transmitted giving following information: 1. On vessels loaded for 2 port discharge give order of discharge of cargo by port, transmitting cable to PENBASE for action, PENSOUTH, AFHQ and ALCOM, ROME for information. 2. On vessels containing both Army and civil affairs cargo advise tonnage of each and stowage. If possible would suggest discontinuance of use of shipping designators (code words) since need for security no longer exists. Code words have tendency to cause confusion, and in the impending turn over to the Italian Government it is felt that code words would be difficult for the Italians to comprehend.

Subject coal for ITALY.

AGWAR advises in COM 261 of 26 current that, as a result of recent US coal strikes, 52 out of 90 coal cargoes for ITALY, scheduled for September and October loadings failed to sail. Result will be to reduce November coal arrivals for ITALY by 200,000 tons or approximately 50%. This reduction will have most serious effect on Italian economy principally in industrial north where it is estimated unemployment will be increased 1 million. Main industries affected will be cement and brick making (for reconstructions purposes), textiles, rubber, heavy industries (turning out trucks and industrial machinery), chemicals, pharmaceuticals and fertilizers (for next years crops). Industry has no stocks of coal on hand as all imports have had to be consumed as soon as received. In addition, there will be no coal for domestic heating.

AGWAR has promised resumption of shipments as soon as possible but state that no pickup in shipments can be expected until 1 November. In view of repercussions of unemployment problem, the essential nature of industries affected and the lack of domestic heating, the November coal position for ITALY is causing us gravest concern. Immediate requirements are 200,000 tons run of the mine coal for general purposes similar to American high voletile coal now being shipped.

Please advise if release can be made of 200,000 tons coal for ITALY. If 279 total amount not available, request any portion that can be released. Also,

In view of the extreme urgency of the situation, we will undertake movement to ITALY by the use of rolling stock and locomotives of this theater which would have been used to move coal from ports in ITALY if the coal had been shipped from the US and by seriously cutting our essential commitments. Upon receipt of your reply as to amount available, plan will be submitted to you for movement of coal to ITALY.

This is sent to you because the situation may become so critical as to involve the military end, also, because we understand that ECO does not control the entire coal production from the RUHR. Request, therefore, that you press this matter urgently on our behalf.

Reference your 7743 dated 27 subjet JACSETIC.

Widespread felling among civilians of all categories that sentence excessive particularly when compared to those imposed in POLA for actual assaults on Allied personnel. General impression is charge was far fetched and actual crime for which JACSETIC was punished was his political views. Feeling that sentence excessive or that subject should not have been convicted at al extends beyond VENEZIA GIULIA as witness petition for clemency from leading Italian journalists of many political shades. Political balance in this area is delicate and I feel our reputation for fairness and tolerance would be enhanced by clemency with no hint of weakness implied. When subject was freed to visit his son reaction from press and public was very favourable with no objection from anyone. Statement that case was being forwarded for review also well received and general impression then was that reduction of sentence would show justice rather than vulnerability to pressure of which there has actually been very little. After first sensation of conviction all left wing papers hoping and expecting full sentence would not be served have maintained moderate tone on the case which will not continue much longer.

1. There are 2 categories of transactional communication (A) Those which involve parties on the present statutory and proclaimed lists (B) Those which do not. This is MEC 568.

2. Until receipt of TAM 696 both categories were blocked to SWITZERLAND. Interpretation here of TAM 696 is that category (A) is still blocked but that (B) is now authorised. This policy is now in force. Varied interpretations of TAM 696 caused delay.

3. Understand new lists about to be re recognised by Italian decree. Until this takes place consider unwise to authorise category A. Such action would involves re imposition of restrictions on parties common to old and new lists and would embarrass Italian Govt.

4. Civil mails ITALY/SWITZERLAND are routed direct in both directions.

This is CCM 271. Refer MOC 209. Payment to American Briarwood Corporation of proceeds of sale of 519 bales briarwood.

1. Reference is made to MOC airgram 79 inquiring whether it is in order to credit proceeds of the sale of 519 bales of briarwood to the Italian Government account. AC reported to CCAC January 24, 1944, (refer E-111) that the 519 bales of briarwood were taken over by the controller of property, ACC. In September, 1944, AC consigned and shipped the briarwood to the American Briarwood Import Corporation as the owner. The American Briarwood Import Corporation has made claim to the net proceeds based upon the fact that it paid for this briarwood before the war and is the owner. ALLIED COMMISSION's consignment to the American concern indicates that it regards the American concern as the owner. The available facts appear to substantiate this ownership. USCC, before coming to a decision in the matter, request confirmation that ACC took over and shipped this briarwood as the property of the American Briarwood Import Corporation and the consent of AC to the payment of the net proceeds to the American firm. Please cable ALLIED COMMISSION's consent, also cable views regarding INSTITUTO COMMERCIO ESTEROS interest in the matter and obtain INSTITUTO COMMERCIO ESTEROS consent if it has an interest.

2. With CCM 159 you were advised of inability of USCC to keep 2 consignments

This is COM 270. Cotton shipments to ITALY.

Numerous unjustified complaints have been received here from Italian sources with respect to American cotton so far sent to ITALY. These consignments were 14303 bales in August and 16798 bales on SS NORWICH VICTORY in September.

Complaints are twofold:

1. Low quality.

2. Bales lack proper marking to identify grades and length of staple.

As to number 1 AC has been advised with COM air 50 and COM air 61 on all selection of grades and staples as requisitioned ex UNITED STATES with the intention that such distribution be discussed with proper Italian authorities and unfavorable comments, if any, promptly forwarded to WASHINGTON.

You may advise the Italian Government that it is believed here that the quality of cotton now shipped to ITALY is superior to what ITALY needs now for domestic purposes and to some extent even for export as disclosed by recent special investigation by Mister TAYLOR, UNITED STATES DEPARTMENT OF AGRICULTURE expert.

It has been pointed out by Italians that cotton shipped in August is not usable to make fine materials for export. The cotton sent under basic supply program is not for manufacturing textiles for export but for covering basic Italian relief needs. Justification for requisition AC-QM-110, which was

It has been pointed out by Italians that cotton shipped in August is not usable to make fine materials for export. The cotton sent under basic supply program is not for manufacturing textiles for export but for covering basic Italian relief needs. Justification for requisition AC-QM-110, which was approved as military responsibility with CAL air 39 and shipped ex UNITED STATES, is wholly based on Italian domestic requirements. In the circumstances it is believed that the cotton shipped against AC-QM-110 is adequate for the purposes for which it was procured.

As to complaint number 2, you are informed that all cotton procured by the UNITED STATES DEPARTMENT OF AGRICULTURE is properly marked and such marks appear on all bales as well as bills of lading. (See COM 268) HILLDRING.

USFET informed me that ACSAR is making inquiries but ACSAR indicates that civilians with required qualifications will not be easily obtained at an early date.

In view of your personal acquaintance with the problem and your knowledge of civilians who may be interested in a short term of Foreign Service it is requested that you submit to General HILLDRING specific names of individuals for this work or that you make other contacts in states which would assist ACSAR in providing the replacements.

NO 1 TRANSIT CAMP REFUGEES DP AND RSC AC

ALCOM FOR DISPER INFO DISPER LECCE. UNRRA NON ITALIAN BRANCH BARI
LIAISON OFFICER AC BARI

UNCLASSIFIED

Subject is irregular movement of refugees.

1. On 25 October 45 13 Jewish refugees were directed to this camp by UNRRA non Italian Branch BARI as a party separated from main body of 400 routed from PADUA to LECCE.

2. Same date a further two parties of Jewish refugees arrived numbering 20 and 30 respectively. Liaison officer BARI and Col FOTHERGILL telephone conversation refers. Today a further 26 Jews are reported by UNRRA non Italian branch in same circumstances as the 13 of 25 October 45.

3. In all these cases we are being asked to provide food arrange transport and or disposal.

4. None of these parties are in possession of any documents other than DP1.

5. In may cases they do not know the destination for which they were intended and it is not known if they are properly organised moves or not.

6. At present time this camp is near capacity and when Jews for PALESTINE are received in approx 3 days time will be full to capacity.

7. Under latest scheme for arranging transportation by rail for small numbers of refugees to respective collecting centres at least 3 days elapse before transport available.

8023 -

Declassified E.O. 12356 Section 3.3/NND No. 785017

8. If Jews are authorised to enter this camp and arrive at present rate camp will have between 300 and 400 constantly in transit.

9. It has been revealed that UNRRA LECCE provided food to IGCR for these stray transients but as they state they are now full to capacity in the HEEL they have ceased to supply the food to IGCR at BARI. IGCR have accommodation in BARI for 100 but have no food. This camp yesterday arranged to supply food for the 50 who arrived but the refugees refused to remain in the IGCR hostel(?) BARI and insisted on going to LECCE. In view of this IGCR refused all further assistance and cancelled food arrangements with this camp.

10. In the last 36 hours approx 100 Jews have arrived BARI.

11. These irregular arrivals are a constant source of trouble and disposal food and accommodation are exceedingly difficult when nothing is known about them.

12. All branch of UNRRA in BARI all branches of ALLIED COMMISSION in BARI and presumable UNRRA LECCE are daily receiving a constant stream of people of this nature and in almost every instance the enquiries are ultimately directed to this camp. May some instructions be given about this matter please.

This is MAT 938.

1. Numerous inquiries from US and UK nationals and business concerns regarding possibility of cashing dollar and sterling checks and drafts. Such persons point out that normal remittance procedure are cumbersome and cause undue delay to their operations.

2. Present restrictions tend to deny Italian Government acquiring dollar and sterling exchange due to black market activity in dollar and sterling checks and drafts.

3. 1 (C) and (D) of TAM 396 provide facilities for cashing dollar letters of credit and travellers checks, but do not permit negotiation of dollar drafts on U.S. commercial banks to meet unanticipated private and commercial needs of Americans in ITALY. May authority under para 1 be extended to cover commercial bank drafts.

4. Please indicate to what extent present complete prohibition on negotiations of sterling drafts in ITALY may be relaxed.

1. There has been grave concern here over coal shipment situation as 6 out of 42 cargoes originally scheduled for September loadings failed to move due to lack of coal. Out of 48 scheduled for October loadings we have info to date that only 2 have sailed due to coal shortage as result of strike.

2. However strike settled October 17th and miners returned to work October 22nd. Solid fuels administration stated it cannot expect any pickup in shipments until November 1st since will take approx 2 weeks after miner return to work to realize any appreciable increase in production. They have made assurances, however, that coal shipments will be resumed as soon as possible and continued at maximum rate possible. Your second para MOC 335 answered COM cable 248.

In order to meet actual total Italian consumption and bring Italian stocks of fuels and lubricants up to a working level of 45 days supply fuels and 60 days lubricants by December 31st it is necessary to withdraw from present military holdings and or from military uses in the following quantities of fuels and lubricants over and above Italian uses as shown on STAT 32. Fuels. All quantities in thousands of barrels. October. 20 AVGAS. 74 MOGAS, 17 kerosene, 103 Diesel, total white 214. Navy special fuel 240. November same quantities except no AVGAS. Item 4. Practically all of lubricants being turned over but excepting all asphaltum will be taken from August 31 stocks and are no less than 90 days supply. Of the fuels approx 984,000 barrels will be from August 31 stocks on a lire basis (less than 60 days supply) and remainder of 338,000 barrels plus all dues in on a dollar repayment basis.
