Since despatching your instructions have been received by HMS from here to the effect that 5 trains each way are now authorised on HELAN PLACENTIA line. This worsens the situation as now half of the workers can be carried and the other half will be more furious than ever. I have further instructed engineer STACEY that he will be reinstituting the full service. The situation is sufficiently serious for me to raise this action. If THEY remain adamant that only 5 trains each way are to run then they must take full responsibility for riots which certainly will continue. There is no need whatsoever to cancel this essential service.

2. We have seen 711 AFFAR from MADRID. view shortage rosin we could not agree to Italians negotiating in SPAIN for present time as it would endanger our present negotiations. In any case Italians have been allocated 760 tons from MEXICO and are about to be allocated 1680 tons from GREECE for fourth quarter which should satisfy their immediate requirements.

3. There is in LONDON a rosin working group under the AEGIS of the Ministry of Supply of the principal European rosin consuming countries which allocates available supplies. We have not hitherto suggested that the Italians should be represented on the rosin working group for the same reasons that we could not agree to their being represented on the timber working group (see absent 31 to ROME). Since however no objections have been raised to membership of FINLAND on the rosin group we now see no reason why ITALY should not become a member too. Will you explain to Italians that we are prepared to suggest their membership and ask them whether they would like to be represented. Presume Signor SIGNORELLI would be a member. Advantage to the Italians is considerable as they would be able to see that they were getting fair treatment in line

Your TX 48151 of 31 October.

1. Taking cash transaction by itself we would allow Italians to take proceeds in pounds as being the currency actually earned by them.

2. Italian Government have however done all they can to evade repayment of such larger advances (some 3 million pounds) made by HMG to Italian Legation LIAISON and we have in fact had to arrange for reimbursement out of Italian post-liberation sterling. We must insist that Italians should make payment as far as possible in currency actually advanced and only to extent of deficiency can we accept payment in sterling.

3. Portugal payments are too difficult for us to be able to ignore our counter item for providing ITALY with pounds against sterling.

4. Result is that proceeds of coal should remain in post-liberation sterling account so that exchange element counts against pounds advances repaid in sterling

Subject is Italian demonstration in TRIESTE 3 November and probable Jugoslav counter measures on anniversary of Italian entry into TRIESTE 1918.

1. Italian CLN have been granted permission to hold demonstration AM 3 November in main square. Indications are attendance will be large and OSOPPO supporters together with students from VENICE and PADUA are believed arriving TRIESTE. CLN have well organised plan to protect demonstrators and Italian flags with squads armed with sticks and knuckle dusters and have informed AMG if intention to with stand all opression by pro Jugoslavs. Have however forbidden supporters to display Savoy crest or sing provocative songs. In view of recent Yugoslav action at CAPODISTRIA where several thousand Partisans from hills attacked demonstrating Italians killing 3 CLN fears similar action TRIESTE and supporters may consequently carry some arms.

2. Leading pro Jugoslavs have made three visits of protest to AMG on usual anti Fascist lines. Claim demonstration is provocative and that they cannot control reaction of indignant populace. Have also asked permission for counter demonstration 200,000 strong on 4 November. Comment figure appears gross optimism.

3. Conclusion. Italians determined to hold demonstration despite possible opposition for which they are preparing to meet force

8314

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785017

with force. It is reliably reported that pro Jugoslav and Communist Committee considers complete negation of their work to date if demonstration is a success. Consider that attempt to break up demonstration is therefore possible and there are indications that steps to do so are in hand. Some bloodshed may result and extent will depend on pro Jugoslav determination to prevent demonstration and ability to do so before Italions congregate.

4. Police and military precautions have been taken and the leaders of both sides warned against provocation and violence. Additional steps have been taken to prevent influx of agitators partisans etc but limitations of frontier control allow inevitable leakage.

All informed.

A. Additional conditions of Armistice with ITALY.

COMMENT: The extent to which certain clauses of the following agreement signed on behalf of the United Nations on the one hand and the Italian Government on the other have been implemented or modified is shown in Italics under the revelant clauses. The remaining clauses. The remaining clauses have either been superceded by events and therefore dormant, or are still in force. Theses clauses are not commented upon.
NOTE: Clauses of Armistic Terms to be inserted above each applicable comment.

CLAUSES 1 to 5. Were complied with. CLAUSES 6 to 12. With the cooperation of the Italian Government, the Italian Armed Forces have been used to the maximum useful extent in the services of the United Nations and have contributed towards the liberation of ITALY and final victory. The Italian Navy has operated with Allied warships in the MEDITERRANEAN and elsewhere, and since the cessation of hostilities has largely been employed in the Italian interest in minesweeping and the transport of Displaced Persons. The army fought alongside Allied formations during the Campaign in ITALY and the Air Force took its place with the Allied Air Forces. CLAUSE 14. While Italian merchant ships have been employed in the general interests of the United Nations they have been primarily employed in the Italian interest.

SECRET

Declassified E.O. 12356 Section 3.3/NND No. 785017

Italian inland transport and ports have now been largely returned to Italian administration except in so far as redeployment and maintenance of Allied Forces has had to be effected. CLAUSE 15. The provisions of the clause, as regards small vessels and craft, have not been fully satisfied owing to the difficulty of locating and identifying the vessels and craft concerned. CLAUSE 16. Control of radio has been returned to the Italian Government. All military and rehabilitated civilian telecommunications have been and will continue to be handed over to the Italians as military requirements decrease. Internal censorship has been abolished in the areas under Italian Government control. Clause 18. The second sentence of this clause has never been invoked, except in 2 Frontier Areas. CLAUSE 19. Care has been taken to conserve wherever possible Italian resources for the use of the civil economy and to utilize local goods and services only when military necessity demanded. The Allied Forces Local Resources Board, on the committees of which Italian representatives have sat, was established as the allocation agency. While the legal rights of the Allied Forces under this clause have not been modified, in practice it has been administered with as much regard as possible for Italian needs. With the redeployment of Allied troops from ITALY, the utilization of local resources and facilities is diminishing rapidly. In addition, substantial quantities of food, coal, clothing and other commodities have been imported into ITALY by the United Nations largely in United Nations ships to supplement local resources and to alleviate distress. CLAUSE 20. Allied Military Government was rigorously enforced in Combat Zones for obvious operational reasons. This was progressively relaxed as the battle moved forward until territories were handed over wholly to Italian Administration. CLAUSE 21. All Allied Forces are redeployed,

SECRET

facilities are progressively being handed back to Italian Control. CLAUSE 22. With the Declaration of WAR upon the Germans by the Italian Government in October 43, there has never been any necessity to invoke this clause. CLAUSE 23. The Italian Government has been informed that the Allied Commission will no longer intervene in the Italian Internal Financial Affairs (except in cases of Allied Military necessity) and that, with certain exceptions, the Italian Government need no longer obtain the approval of the ALLIED COMMISSION prior to the execution of external financail transactions. The Italian Government is now free to fix or negotiate exchange rates for the lira without prior consultation with the ALLIED COMMISSION. CLAUSE 24. Private export trade may now be resumed and all types of commercial and financail correspondence may now go forward from ITALY to the non-enemy world, subject to the Italian Government putting into force certain trade control measures similiar to those employed by the United Nations. CLAUSE 26. This clause is no longer enforces, and provided an individual has the necessary civil documents, such as passport, visas, etc. There is nothing to prevent him leaving Italian territory, subject of course to the immigration laws and regulations of the countries of intended destination. CLAUSES 30-31. The Italian Government has of its own violition done all that would have been required. CLAUSE 32. This clause has been complied with and is, in the case of sub-clauses A and B, no longer applicable. As regards sub-Clause C the Italian Government has cooperated loyally in carrying out such instructions as have been given concerning the conservation and administration of United Nations property in ITALY, previously sequestered by the Italian Government. CLAUSE 33. The part of sub-Clause 33 (B) that deals with the disposal of foreign assets has been modified in favour of the Italian Government. CLAUSES 36/37. The

execution of these clauses has been modified by the MAC MILLAN AIDE MEMOIRE of 24 February 1945. CLAUSE 41. In practice ALBANIA is no longer included in the definition of Italian territory.

B. CUNNINGHAM-DE COURTEN Agreement. Part the following general comments show the extent to which certain clauses have been implemented or modified.

1. As explained in the document this agreement was produced in modification of the Armistice Terms so that the Italian Fleet and Mercantile Marine could assist in the prosecution of the war against the AXIS POWERS.

2. In justice to Marshal BADOGLIO and Admiral DE COURTEN it should be stated that additons to the agreement were inserted after the original agreement has been signed and were only accepted by the under strong protest and in view of an amelioration of certain clauses in the original terms of the Armistice.

3. The provisions of this agreement have been carried out and those provisions that remain operative with the cessation of hostilities and change of circumstances are still being carried out. Furthermore many Italian Warships are undertaking work of direct benefit to the Italians themselves, for example transport of Displaced Persons.

4. While the employment of Italian ships has been of use to the United Nations it is pointed out that considerable United Nations resources have been expended in ITALY and elsewhere to help the Italian Government in keeping the Italian ships running and their crews fed and clothed.

5. In addition to the use of Italian Mercantile shipping under this agreement a number of the smaller Italian Merchant ships has been

This is NAF 1084.

Subject is publication of Italian Armistice Terms.

1. My comments on additional conditions of Armistice with ITALY and the CUNNINGHAM-DE COURTEN agreement are given in my immediately succeeding telegram. I recommend that when these 2 documents are published they should be released with my comments in this form. I would point out that the publication of the CUNNINGHAM-DE COURTEN agreement will probably bring to light the conditions under which the additons to this agreement were inserted 2 months after its signature despite the strong protests of Marshal BADOGLIO and Admiral DE COURTEN. I would again stress, however, that is the CUNNUNGHAM-DE COURTEN agreement is released it must be in its full entirety. I do not consider that any comments on the other papers under consideration for release are necessary.

2. I consider it desirable that my comments be shown to the Italian Government and its comments solicited prior to publication. This would enable any helpful suggestions of the Italian Government to be incorporated in the published comments and might avoid subsequent contradiction of any particular comment by that Government. I have therefore instructed the CHIEF COMMISSIONER, ALLIED COMMISSION to be prepared to show my comments to Signor PARRI and to obtain his views as soon as authority to take this action is received from you. -

"A. This office has received information indicating that the Area Commissioner at GORIZIA has reported serious interference in political and administrative affairs in the GORIZIA AREA by the Jugoslav detachment west of the MORGAN LINE. Reports indicate that the power of Jugoslav troops over civilians is increasing and in GORIZIA the presence of Jugoslav officers and troops in uniform and in mufti has been having an intimidating effect on local civilians. It has been reported that several serious crimes have been committed by Slovenes in that area controlled by Jugoslav troops but it is impossible to render justice owing to the fact that the Jugoslavs can readily recross the Jugoslav line.

B. This office is further notified that in the QUISCA and CASTEL DOBRA DISTRICT secret police are operating at all times and are in control of civil offices. Yugoslav officers are openly frequenting the city hall and Yugoslav troops fails to cooperate with AMG administration and evidence open resentment. Civil Affairs Officer Major BALLARD was discourteously treated by troops while on a field visit and was forced to clear himself with local Yugoslav military headquarters. Also his car was fired on the bullet narrowly missing him. Many school buildings are occupied by Yugoslav troops and no intention to leave is indicated. Yugoslavs apparently expect

SECRET.

Reference AFHQ signal FX 51267 of 1st November.

1. Statement by Italian Prime Minister on Italo-Jugoslav relations in firm tones, however measured, addressed to frontier population from UDINE, is likely to provoke Jugoslav counter measures. In prevailing conditions these may well disturb present easy (?) calm and leap to series of demonstrations if nothing more. We wish to avoid this and therefore consider undesirable that Prime Minister should raise VENEZIA GIULIA problem in frontier area.

2. We do not object to visit as such providing that it is confined to urging firm action in smuggling and food control generally. But in view of difficulty of keeping within these limits if Prime Minister comes to UDINE and real danger that he may be manoeuvered into dealing with the VENEZIA GIULIA problem once here we would rather he did not come.

3. Conclusions. Would prefer visit did not take place. If it absolutely necessary consider that Prime Minister should not address frontier population on Jugoslav relations from UDINE at present time. Such a course is likely to disturb political situation here and prejudice internal security.

My commentary is being prepared urgently but owing to need for consultations between all 3 services cannot be dispatched to reach WASHINGTON by 1 November.

I am in complete agreement with view expressed by COMDENMED in signal FX 49611. that this commentary should be released at same time as text of Armistice terms. Effect will be unfortunate if this is not done.

Recommend therefore publication of terms planned by STATE DEPARTMENT for 2 November should be deferred till my comments available for simultaneous release on Allied basis.
