I am replying to your war 82625 in the absence of General RIDGWAY who is in N. Italy.

Colonel MENAPACE is the chief Finance officer in the A.C. The losses in technically qualified finance personnel have been so great that to release Col. MENAPACE without a qualified replacement would be extremely unwise. SACMED has already indicated the seriousness of the situation with regard to finance personnel in several signals to CCAC. The stress being placed on demilitarization has not yet produced qualified civilians to relieve any large percentage of officers. If a qualified civilian is furnished to replace Col MENAPACE I shall be glad to release him as soon as the new man can be oriented.

1. At my suggestion I had an informal meeting with Signor PARRI at [redacted] at 1900 hours 10 November. After exchanging greetings I explained that being responsible to S.A.C. for law and order and security of Allied Troops and their communications in this area I was naturally interested in his visit since when known it might well have repercussions. Signor PARRI informed me that he had just come from a meeting with leading members of the action party at which he had touched on the Venezia Giulia problem in general terms. He explained that the Italian Govts wish and aim was to secure the interests of Italian nationals by agreement, and to do all possible to help in finding a solution which would enable the facilities of the Port of TRIESTE to be accessible to all user nations. He went on to emphacise the moderation and restraint shown by the Italian Covernment up to date. I agreed that they had shown restraint and expressed the wish that the restraint would continue, adding that in my view it was particularly important at the present juncture that in their own interests the Italians should refrain from any provocative action. He fully agreed and repeated his previous remarks about Italian moderation adding that none of the reconciliatory advances made so far by his Covernment and elicited any response at all from the Jugoslavs. Signor PARRI then explained that he was attending a general meeting of the action party that evening but that he did not intend to make a formal speech then and in any case would

not be touching on the frontier problem. He appeared to appreciate the interest I had shown in his visit.

2. At this stage I asked Signor PARRI what his own views were on the solution of the problem of Venezia Giulia. He replied that he shared the views already expressed by Signor DE GASPERI. He obviously hoped for a frontier on the WILSON LINE. Though he admitted it might be modified slightly in places to the advantage of Jugoslavia by negotiation with that country. He was most emphatic in the view that no Italian Govt could remain in power if at was prepared to accept a treaty that did not provide for the predominantly Italian city of TRIESTE and west coast of ISTRIA being witain the political frontiers of Italy.

3. The discussion then turned to the question of the frontier between Italy and Austria and Signor PARRI said that while Italy had no ethnical claim on the TARVISIO area he felt very strongly that for economic reasons the southern TYROL must remain in Italy. He added that Italy had however no wish to evict or Italianise the TYROLESE.

4. Signor PARRI then raised the question of the present position of the Italian population in western ISTRIA and enquired whether it would not be possible for Allied troops to intervene to protect them in the case of incidents such as that recently reported at CAPO D'ISTRIA. I explained that I could not take action east of the MORGAN LINE, he then asked if I would point out to any Jugoslav commanders with whom I came in contact how damaging such incidents were to an agreed solution and future

relations between the 2 countries. I agreed to take any opportunities that arose to make that point. Signor PANNI expressed that hope that it ~~XXXXX~~ might be possible for Allied warships to visit ports on the west ~~ITALIAN~~ coast which he considered would have a reassuring effect. I replied that I would discuss the matter with GEN MORGAN during his forthcoming visit. This ended the discussion and we parted on the friendliest terms.

In view of the many representations made by you concerning the overall shortage of officers your recommendation that Lt Col HARRY C QUARLES should be relieved from duty with AICOM is not understood. The mere fact that his particular job has been filled should make available for other assignment in AICOM. Except for a few technical jobs there must be extreme elasticity of assignment. Certainly a graduate from the Military Academy with many years service in the regular establishment should be able to fill any of a large number of vacancies.

RESTRICTED

1. The distribution of UNRRA supplies in Jugoslav occupied VENEZIA GIULIA was authorized by the 3rd session of the UNRRA council in london in the 12th plenary meeting on 22 August 45.

2. For AICOM. This same meeting authorized UNRRA supplies for Italy and Austria. The meeting apparently was unaware that Allied occupied Venezia Giulia was being supplied by the Military and intended that all of Italy including Allied occupied Venezia Giulia should be supplied by UNRRA. In view of this it might be advisable for us to recommend discontinuing present Military responsibility to CCS. That would result in uniform treatment both sides of MORGAN line. Your views desired.

3. For 13 Corps. Please comment on advisability of terminating military responsibility your area in favour UNRRA responsibility.

following is text of «61 and 1/2 million dollar UNRRA program for ITALY January 1946»

«the flow of basic supplies for ITALY, now assured by
/the $100 million FEA program, will stop on or about December 31 1946. Unless an early decision is reached by US Congress on the new $1350 million appropriation, there may be an interval before the UNRRA shipments which should start on January 1 1946. In order to avoid such a disastrous event, the Director General of UNRRA has authorized the use of $61 and 1/2 million, out of the $550 million now being appropriated by US Congress to UNRRA as a fulfilment of its early commitments, for advance procurement of the January portion of the 1946 program. The present draft requisition is meant to implement such decision and is to be regarded as a valid request for procurement in the US, before the ends of the current year, of commodities to be shipped beginning January 11946.

the criteria followed in preparing the draft requisition are given in appendix A: for overall justifications of the various items reference is made to narrative statements on the 1946 UNRRA program for ITALY, prepared by FEA in WASHINGTON.

further details and specifications as well as a list of items to be included in the category of «unspecified items» will follow in due course, in particular the gasoline situation is under discussion. »

Agenda A follows : the basic principle underlying the determination of the items to be included in this program is the origin of the commodities to be supplied. Agencies dollars 62 and 1/2 million can be spent as a general rule in the US. several items such as coffee, lumber, cellulose for rayon, building materials, paper, jute and agricultural products have been excluded. A special case is presented by phosphate rock the source of supply of which is Tunis North Africa, negotiations are underway between the Italians and French governments with the object of concluding a direct deal. Should such negotiations not prove to a favourable conclusion, in view of the indispensible character of the material, it might be necessary for USIA to take the matter into its own hands. For the time being however, phosphate rock is not included in the draft requisition . The remaining differences between the total primary program and the draft requisition are explained below. Polyethylene also is not included in the draft requisition because new contracts will not be necessary until late February 1948 in view of the stocks at present available in the country and the shipments under way. The problem of paper bags for cement is still under consideration, the Italian government is considering the purchase of paper for bags in the own transitional program . No provision is made for Sea machinery since it is not known whether it will become available for shipment in January. Special mention should be made of medical and health supplies. In the Italian program for 1948 there is a long list of pharmaceutical and chemical products which is under consideration and there it is

expected that a special requisition will be forwarded for three and a man of dollars one and half million has been allocated for that purpose. there is a number of items which will appear as essential for early shipment in the course of supplementary investigation during the next few weeks, provision has been made for such a possibility by setting aside about 3.5 million for "items which cannot as yet be specified". this sum is also to be regarded as including contingency reserves."

1. Reference is threatened strike.

2. FIOM Commissioner UNIONE INDUSTRIALI reports that industrialists met this afternoon to decide on attitude towards strike which they consider breach of faith because of workers undertaking to abstain from such action pending negotiation and also because workers are so far not out of pocket as anticipatory payments already made cover to date advance of wages being negotiated.

3. Most serious objection is to demand for further 2000 lire a sum much in excess of amount required to accomodate workers pending settlement next week.

4. Lock out of 1 hour by TURIN industrialists has been suggested but FIOM will endeavour to dissuade them from taking such action and instead will try to clarify position in as far as 2000 lire demand is concerned in hope of reaching basis acceptable both to industrialists and workers. Present suggestions are that industrialists should make advance of 2000 lire in respect of each worker to establish co-operative societies to purchase food in bulk for workers or that 2000 lire should be an advance on 13th month payment.

5. Every effort is being made to exert moderating influence but it is imperative that settlement be no longer delayed as workers demands are likely to get further out of hand.

6. It is suggested that Minister declare his intentions regarding CANADA IMMIGRANTS immediately and arrange that industrialists meet workers either in Rome or in the north in order that wage negotiations may be concluded this week.

7. Although position occasions concern it is anticipated that strike will be conducted in orderly manner and will not exceed 1 hours

1. Understand that although military supply responsibility was due to cease with August loadings, small quantities of items already in pipeline are still continuing to arrive, and that this delays closing of ALCOM accounts for the military supply period and operations of the Allied Supply Accounting Agency.

2. It is suggested that as of a date to be specified, arrivals against military requisitions should be considered as having ceased, and that any isolated arrivals after that date against outstanding military requisitions should be considered non military and chargeable to the YB programme in the case of items of US procurement, and to the comparable programme being arranged by SLAO for items of UK procurement. Understand no items Canadian procurement outstanding. This will enable supply accounts for the period of military responsibility to be definitely closed.

3. Suggest that date under paragraph 2 is 15 November.

4. Request your comments earliest. If you approve, we will recommend accordingly
