1. Subject is dismissal of workers.

2. Employers who have surplus workers in one locality following transfer of plant or establishment to another district on closure of disperal units are being advised by this labour division that such workers cannot be discharged under existing legislation unless alternative eploument has been found for them. Legal Division this HQ concur with this view.

3. Will you confirm that this is correct as employers appear to be acting on assumption that dismissals in such circumstances are permissable provided they are covered by collective contract or alternatively if agreement to discharge is obtained from internal commission or labour inspectorate.

4. Comera del Lavoro have refused to advise workers whose dismissal have been agreed on internal commission and labour inspectorate.

5. If workers cannot be dismissed in such circumstances can it be stated to what extent employers will be reimbursed under cassa integrazion for wages paid.

6. Employers are obviously not clear as to position and these points should be covered in decree about to be issued or in your accompanying memorandum.

(A) The standard of industrial production envisaged in Italy seems to be much higher than is possible here. Coal emergency is such that we cannot admit possibility of unemployment as consideration to be taken into account. We are consuming negligible amounts of coal for cement and brickmaking and there is virtually no textile production. Domestic heating for civil population has been ruled out. We suggest therefore that claim for an additional 200,000 tons cannot be admitted to whole.

(B) If it decided to send any coal ex Germany to ITALY it would be treated as underport and paid for in dollars.

2. We are at present unable to move all the coal raised in the RUHR and problem is therefore one of transport. There are 2 possible ways of getting coal from RUHR to ITALY:

(A) By rail movement southward through American zone.

(B) By diversion of ocn coal now loading at RHINE ports for export by sea to liberated countries.

derstood that this coal can only be moved down the RHINE at the expense of coal at present being moved for the liberated countries and not in excess of it.

5. Third possibility might be to export coal now at sec ex U S A (USA) for BELGIUM to ITALY. If this were done however it should not be safe to increase our shipments to Belgium to compensate until locos and rolling stock could be provided from ITALY which we estimate would take 2-) weeks. I must emphasize that coal situation in western zone of GERMANY is very critical and that limiting factor is lack of transport.

Wheat ship sinks off TRIESTE crew saved but cargo of 7,000 tons lost.

TRIESTE November 13. A ship which sank after striking a stray mine. About 11 kilometres off TRIESTE Monday was the American Liberty ship WILLIAM HUNT 7176 tons, it was learned here today. crew of 40 were saved but ship went down with 7,000 tons of wheat. After uneventful voyage from BALTIMORE, USA. ship was off SAN SALVADOR light house, on ISTRIAN PENINSULAR, and crew were looking forward to spell ashore at TRIESTE, when there was loud explosion and vessel shook from stem to stern. Captain MR R HARRISON, of SEATTLE, WASHINGTON was on bridge, ready to guide ship into port, vessel began to list dangerously and wireless SOS was tapped out while light signalling apparatus appeared simultaneously for aid on morse code. British Naval tug came to rescue before ship began to heel over dangerously. All but Captain and Chief Engineer MR FRANK FITZGERALD took to lifeboats and reached safety of tug, which began to take sinking ship in tow. But race against time to port did not succeed. After tug had towed vessel for about 4 kilometres, ship began to sink rapidly. Tug came alongside and Captain and Chief Engineer jumped aboard a few minutes before waves closed over "WILLIAM HUNT". From less than 100 metres away, Captain watched his ship go down, ship he had sailed over many seas.

In Britain tonight, Captain HARRISON declared that through out war he had carried troops and supplies to many ports, including MURMANSK in Russia Arctic Circle without mishap. "last is hard luck" he said "that I should lose my ship so near a port months after the war is ended". " I had a good crew thereand no panic when we hit German mine and all abandoned ship in best drill fashion. Its a pity though, that we lost the 7,000 tons of wheat in these days of international food shortage." Wheat was intended for use of Anglo-American troops in Venezia Giulia. ends.

BRIGADIER ELLIS

ALGIERS FOR CHIEF COMMISSIONER

CONFIDENTIAL

1. You are aware of the desperate condition of the police agencies in respect of clothing. There is in LOMBARDIA Region and other Regions in the North, a large quantity of uniform material and stocks sufficient for a large part of the CARABINIERI and other police agencies. Whilst realizing the necessity of clothing the Italian Army, it is most urgently recommended that a decision at the highest level be taken to unfreeze these stocks which have been blocked for 5 months, and issue them to those members of the forces of law and order many of whom are already on duty above the snow line and who therefore should in my opinion have priority over the troops of the Italian Army.

2. Every Regional Commissioner has stressed this point to me with great emphasis and it is patently absurd that men should be required to attempt to preserve law and order without clothes while stocks of clothing lie idle in factories and warehouses. DCC ALG 2 has expressed himself strongly in the matter.

3. As stocks are now controlled by the Italian Government, would it not be possible to get the ITALIAN ADMINISTRATION to give and order unfreezing these stocks and giving priority to CC.RR and police agencies.

4. The drill/advised here would be for DELIVERY of WAR to release necessary material for conversion into uniforms. The North Italy Industrial Council would then distribute material to the textile and clothing committee with the order to convert into uniforms. This can then be done with supervision from ACC as long as is exists.

On 10 November PAUNI visited UDINE and made speech to private meeting of local sec of action party. In speech he touched on problems of VENEZIA GIULIA mentioning necessity of reaching agreement with JUGOSLAVS on basis of justice and mutual economic interests and prosperity etc. Described also deportations as intentional design to destroy local Italianita and stated the necessity of defend Italian brothers against such things with what is in his power. Speech was quite reasonable and non provocative. ANSA version however rendered slightly provocative by omission of one sentence and misinterpretation of another on topics mentioned above. ANSA version therefore killed that night by PAUNI himself when he had been informed by local CAI authorities of mishandling. Revised version approved by PAUNI went to press next day. 2 versions of ANSA story almost identical and unlikely that difference in first version politically XXXX intended.
