Reference NCR 271130Z cancel Intel 304, 305, 306, 308, 309, 311, 359. Navy Department has directed that the ship yard at Palermo be returned to Italian owners on 15 December. Major portion property (US NAVY owned) declared to you in references is considered essential to efficient operation of above facility and removal thereof to CONUS pending sale would necessitate a major reduction in operation of shipyard by private owners.

Repair of Italian shipping locomotives is vital to civilian economy. Furthermore shipyard is largest employer of civilian labor in Palermo and a major reduction in work would bring hardship and accompany unrest to that city.

In view of above I urgently request that every effort be made to effect sale by 15 Dec 1945 of property listed in references.

To the Allied Commission wopies of the letters by which the above requests had been made to the Ambassadors.
Para 4. There is no Military objection to the publication of these documents in so far as the Theatre is concerned and it is considered that such a course would help towards better understanding of the Italian position here and abroad.
Para 5. Unfortuantly, while the Italian Governments request was still under consideration here, the substance of both documents appeared in a Rome newspaper, evidently owing to a leakage from same Italian Government source.
Para 6. The desirability of demanding from the Italian Government an explanation of this premature release without Allied agreement has now been considered here and I do not think that such a course would be expedient.
Para 7. In view of the fact that the substance of the documents has only appeared in one of the newspapers and not in the form of an official release, compliance with the Italian Governments request as set out in Para 2 above is recommended.
Para 8. If simultaneous publication is approved, it is requested that I may be advised of date and time of release in London and Washington in time to make necessary agreements here

Reference your 85901 CA (DP) of 22nd November.

1. Your para 1. The Camp in question is at CERVINARA and holds soldiers of the Polish forces who elected in writting to be repatriated to Poland. We have refused visits by Russian Mission to this Camp. See our FX49044 of 16th November para 10 (?) 11 (?).

2. Approximately 300 of these men have since changed their minds and now say they wish to be repatriated to Soviet Union.

3. At a meeting at this GHQ on 8th November with plenipotentiary SNK USSR for the repatriation of Soviet Citizens in Italy he was offered a list and details of these men for his decision as to whether or not they would be accepted as Soviet citizens. This offer was accepted and the list will be handed over by 29th November. It was explained to the Russian representative that we had undertaken to repatriate these men to Poland and that they would leave Italy as Polish soldiers with the repatriation parties as arranged and it would therefore be incumbent upon the Soviet and Polish Governments to arrange whether these men should be diverted to Soviet Union after leaving Italy.

4. This policy has been adopted in the case of some men wishing to go to Czechoslovakia for which see our letter 3687/1/A2 of 17th November.

5. Russian representative asked if these men in question could be transferred to the Russian collecting centre at Pesaro. He was informed that this was NOT possible owing to our understanding to repatriate to Poland as soldiers all men ex Polish forces who were willing.

6. These men signed statements opting for repatriation to Poland but NOT to Soviet Union. Since then they have expressed themselves verbally as desirous of return to Soviet Union. Further some changed their mind a second time hence the list has not been completed.

to over

Declassified E.O. 12356 Section 3.3/NND No. 785017

7. Repatriation of this Polish soldiers commenced on 25th November but the approximate 300 in question are being kept together and retained until later trains pending decision of Soviet and Polish Governments.

8. Your para two. NO camp area Benevento other than Camp in para 1 above. Area Front and Barletta. These are DP camps holding Polish citizens NOT opting for Poland. No Soviet citizens as recognized by MMC are held in these Camps. Area Lake Garda. There is a DP Transit Camp at Pescantina. Any Soviet citizens passing through would be routed to appropriate collecting centres. None are known to be there at present. In cases of Soviet citizens recognised as such being uncovered in DP cages Soviet authorities would be informed.

9. Your para 3 (A). Note in your para 1 or 2 administered as PW.(B). Occupants of camp mentioned your para 2 are DP. (C) See para 1 above. We have no details as to any of Soviet citizenship apart from the approximate 300 now desirous of evacuation to Soviet Union whose Soviet citizenship will NOT be properly established until acceptance by the Russian Misston.

SECRET. This is NAF 1095.

Para 1. With the termination of hostilities and decreased Allied requirements the use of Italian ship building and ship repair facilities their rehabilitation and use by the Italians has been under review. Side scale unemployment which may reach alarming proportions requires prompt action.

Para 2. The British Admiralty is on record in April 1945 as being adverse to early revival of the Italian Merchant ship building industry. The views of the appropriate U. S. authorities are not known.

Para 3. As the Italians have neither materials nor foreign credit for an extensive program their ship building ability is extremely limited.

Para 4. The Italian Government is therefore being informed that without prejudice to any term imposed by the peace treaty the Supreme Allied Commander will adopt the following interim policy:

A. The rehabilitation of Italian ship repair and shipbuilding facilities for the repair and limited construction of Italian Merchant vessels and for other repair work in the interest of the Italian civilian economy is approved and recommended to the extent set out in the following paragraphs.

B. The repair of Allied Naval and Merchant vessels takes precedence over repairs to Italian vessels in accordance with priorities established by competent Allied authorities.

C. The utilization of Italian ship repair and shipbuilding facilities for the repair of Italian Merchant vessels and new construction of powerful twin screw tugs suitable for berthing and long distance towage should be accorded second priority.

D. The completion of all Merchant vessels under construction in Italy of 5000 d.w. or less which are over 50% complete and for which materials are either now available in Italy or can be procured through commercial channels is authorized and should be accorded third priority.

E. Italian ship repair and shipbuilding facilities are authorized to undertake work in the interest of Italian Civilian Economy provided no materials or equipment of any kind intended for war purposes or conversion into warlike stores are manufactured. This work should be accorded fourth priority.

F. New construction of Coastal vessels of 5000 tons d.w. or less minesweepers of 500 tons d.w. or less lighters floating cranes and miscellaneous harbour craft is authorized provided materials and equipment can be obtained in Italy and no demands are made upon Allied resources except in normal commercial channels. This work should be accorded fifth priority.

G. The Italian Government will make arrangements for and designate an agency of the Government to discuss financial matters involving ship repair and ship building facilities with Italian companies. No demands will be made on Allied Governments for assistance in financing such ship repair and ship building work as may be considered as Italian Government responsibility.

H. No construction of Naval vessels or vessels intended for conversion into Naval vessels is authorised.

I. The utilization of Italian Government and privately owned ship repair and shipbuilding facilities for repairs to or modernization of Italian Naval vessels and for the production or repair of arms munitions or other implements of war will continue to be controlled by the appropriate Allied authorities.

J. In implementing theforegoing the Italian Government must ascertain through normal civil import channels to what extent materials are likely to be available. This will prevent the undesirable situation arising whereby the degree of rehabilitation achieved exceeds the supply of essential materials.

Ref your FX6349 of 24 November 1945.Thoroughly agree and will comply.

For the record.I have received through Deputy Political adviserGreat Britain and United States invitations to call at Foreign Office London and State Department Washington to discuss informally political situation here. Understand invitations based o suggestions by your political advisers and copies sent your Headquarters. Washington is on usual air route home anyhow and am quite willing to visit London but appreciate that this would necessitate special travel arrangements and routing perhaps too inconvenient to arrange.While I am quite willing to accept invitations and feel discussions might be useful have no personal axe to grind and decision naturally is up to military superiors. At present planning to be in Rome or Caserta ready to leave on or before 5 December.

[illegible]

Reference [illegible] cable [illegible]1/2374 of 20 November and confirming verbal instructions already issued.

Para 1. Relief of Italian Gruppi from guard duties in [illegible] is being impeded by fact that sufficient accommodation for relieving troops does not exist unless on relief a proportion of Gruppi are moved out of [illegible].

Para 2. It is approved policy that Italian Army which we are in process of returning to Italian Govt Control shall be raised to high state of efficiency as rapidly as possible. It will be appreciated that this can not be done so long as it remains largely employed on guard and other static duties nor can it be considered as available for internal security duties while so employed. Plans have therefore been made to relieve all Italian troops from guard duties.

Para 3. When returned to Italian Govt Control the five Italian Gruppi will form the Government's Strategic Reserve for Internal Security duties and should therefore be located accordingly.

Para 4. Bearing in mind the areas in which Internal Security operations are possible after the Northern Provinces have been returned to Italian Govt Control it is considered that the Gruppi should be located generally as follows.

(A) Three Gruppi North of the Appenines.
(B) Two Gruppi South of the Appenines.

Para 5. You are requested as a matter of urgency to obtain the agreement of the Italian Ministry of War to the general distribution of Gruppi shown in Para 4 above on receipt of which detailed move orders will be issued by this HQ. In the event the Italian Ministry of War does not agree you should forward their reasons and alternative proposals.

Enclosure. Confidential dpc memo reference LIV/1 dated 19th November. Principal speakers in Turin - Summit called for the arrest of the Questurini [illegible] c/o Committee out of Chief of Civil Police results. The speakers also demanded the immediate realignation of the Prefect of Turin. This probably a reprisal against the Prefect who bravely ordered in Torre out of the Prefects office a few days ago. The called order of the day was given to the Prefect ordering him to resign. The Prefect agreed to resign provided the Central Government gave order. The speakers standing on a vehicle told the people that the Prefect had agreed to resign. The so called Order of the Day also demanded the banning of the Turin exchange and Corriere Pedicomune but the Prefect said that he was no authority to do this as prohibition for prohibiting had been given by Central Government. After the demonstration Comitato di Liberazione met to discuss the events of the morning. C.L.N. meeting voted evening of 11th November. Three parties voted for Prefect and three abstain. Message ends.
