RESTRICTED:

Further to message 1591 todays date. At 1730 hours on 7 January common prisoners at Marassi prison mutinied, seizing and holding as hostages 20 prison agents, 2 magistrates, and 2 court clerks who were interrogating some prisoners. Public forces consisting of CORR, UGFF, City Police and Firemen promptly intervened and prevented any attempt at mass escape. During necessary firing by public forces 2 prisoners were killed - ROSSI Alfredo - charged with theft and GARBUINO Giobatta - charged with murder and false self representation as public Official, and 1 wounded - BONAFINO BENEANDEN charged with theft. Personal intervention of Prefect failed to obtain surrender of prisoners or to alter in any way their attitude. Military action by Italian public forces commenced inside this building at 0145 hours 8 January and after 10 minutes shooting succeeded in calming the mutiny without further victims. The mutiny occurred for the purpose of obtaining the pardon of Piazza, condemned to death by AMG court for murder of 3 Carabinieri at Voltri and to protest against the slowness of the Authorities in connection with penal proceedings. Hostages liberated and safe and the situation re established.

Para 2. From about you will note wheat shipments amount to 142,000 tons and coal 210,000 tons approximately. Cables have been sent notifying additional sailings, however this information was based upon completed loadings and not on sailings.

In Hampton Roads as of January 33 were 13 coal boats loaded for Italy but had not sailed due to lack of crews. You were notified of these loaded cargoes in various COM cables; please disregard and consider data in para 1 above as being latest complete sailings.

Para 3. Impossible to give sailing based upon completed loading as has been done in past. Crew position still unstable. Suggest TSA sailing data be used exclusively and that Naples WSA office be consulted for accurate sailings. Will continue to give you completed loadings if you desire, but discrepancies between loading and sailing dates are certain to occur. Request this information not be released to Italian press at present time Hilldring.

Here follows partial repeat AGWAR cable W X 91193: "It is becoming increasingly difficult to interest civilians of proper qualifications to accept positions in Germany, Austria, Italy, Japan and Korea. This is particularly the case with respect to those individuals who accept a large financial sacrifice when they take government employment at an annual income of 10000 dollars a year or less. However, it is true also with those whose earning power in private life is below the 10000 dollars maximum limit for government service, because of separation from family, less comfortable living conditions and the reports, true or untrue, which seep back from the theaters that existence for a civilian on duty with the army is not a too happy one.

The secretary of war believes that if the army is to succeed in securing and keeping a suitable number of properly qualified civilians in military government it must, among other things, give suitable recognition to those civilians who serve the army well. He believes that some of these individuals are eminently qualified for award of the medal for merit and others for medal of freedom."

Commanders will take action recommending such United States citizens as are considered qualified for medal of freedom or medal for merit. Recommendations will be forwarded to this Headquarters in accordance with existing regulations. Complete

In view shortage US Officers in VENEZIA GIULIA it may well be advisable to place less qualified officers on duty there as a stop gap until they learn job or until they can be replaced. The fact officers senior in grade to present ones need not prevent their temporary assignment. Feel sure they will give loyal service in situation explained to all. Venezia GIULIA should have priority over liaison teams <sup>EXCEPT</sup> expect on northwest border. No objection to higher ratio British on liaison teams during readjustment period. Presume you are holding officers on civil affairs duties as presently authorized. With authorized strength 250 officers and present strength 230 officers you are probably better off than any other US Unit in the theater.

Reference previous correspondence and my signals 1481 of 12 December regarding political prisoners condemned to death and 1535 of 22 December respecting sentence of death against Piazza Liborio formurder of carabinieri. For some time considerable discontent expressed here at delays in confirming sentences against condemned political prisoners. Information received from time to time regarding attempts to release and summarily execute these political prisoners and to set at liberty prisoners convicted for murder of carabinieri. So far precautions successful. Arrangements for execution of Piazza Liborio in hand vide your 9590 dated 22 December but if Piazza executed before political prisoners grave disturbances may occur. Suggest postpone execution of Piazza pending decision RE condemned political prisoners. Reply instruction urgently. Report follows.
