Following report has been received from A Unit in the Foggia Area: "Civilian food situation in this area is becoming critical. Pasta, base for civilian diet, is not now available on the market. Bread is insufficient and of poor quality.

Belief is prevalent among civilians that this situation will continue and grow worse for at least 3 months if some action is not taken toward reallocation of available supply of grain in the theater.

The situation seems to be of local nature and could result in activities endangering military security.

Recommend action be initiated to relieve the situation before any incidents caused by hunger occur".

Para 2. In view of fact that Foggia is a major wheat producing area request investigation by your Liaison Officer Bari and your comments as soon as possible together with details of any actio which you propose to recommend to Italian Government.

Subject is transport of lorries from Eritrea to Italy.
Reference my signal 78521 of 10 January 46 lorries and drivers have been standing by for shippingspace since mid September and majority of lorries have been off the Road for 8 months. Delay is causing serious local situation. Many of the drivers have been compulsorily out of work since July ad reduced to penury. Some have been forced to sell lorries and other are being for closed in mortgage while the price of lorries on market is falling rapidly. Blame for this situation is attached ministration which is held to have made empty promises.
Request you exert all possible pressure to ensure that shipping is diverted to Massaua earliest.

Ref British Embassy Belgrade signal NO 109 dated 8 Jan and AFHQ FX 58275 dated 10 Jan.

1. Can see no objection to providing jugoslav authorities with specimens of identity cards issued in allied occupied territory.As these are already in possession of civilians their appearance and design is common knoledge and it is to be assumed that jugoslav authorities are already familiar with them.Moreover this HQ is intending to ask the jugoslav authorities for 200 specimens of jugoslav issued identity cards to assist allied road post personnel and police in checking movements.

2.Do not consider that discussions should be opened locally at this stage. Method of control was laid down in AFPI H to D U I N C agreement.Prefer therefore to use existing machinery provided by the jugoslav military mission to this HQ.

3.As suggested in this HQ signal I 314 dated 8 Dec recommend jugoslav military mission also performs function of permit office for non residents of Venezia Giulia of italian and other nationalities wishing to enter jugoslav occupied Venezia Giulia.The establishment of an allied office in may Ljubljana to perform similar function will also be necessary.Consider early decision on these proposals desirable on account of necessity of making full arrangments prior to date when control will be imposed.

4.Recommend that business men be subject to same restrictions as everyone else and that they make application for permits as outlined above. Decision as to desirability of their visit will be treated on its merits after general policy has been laid down by you.

5. Consider this whole question should not be confused with situation as regards italian nationals who wish to enter Jugoslavia and jugoslav nationals who wish to enter Italy.Presume this will be dealt with by italian and jugoslav governments but would like to be informed of what machinery exists or will be set up and what permits will be valid for travel through this territory.

6. Consider a visit by (BMA) Belgrade to 13 Corps HQ would now be most useful.

Understand 2 billion lires recently allocated by Italian Government to Magistrato ALTA ITALIA for Public Works in Venezia Region for next 6 Months. Magistrato ALTA ITALIA denies any part of this grant available for Udine Province as still under AMG. Of this sum believe ½ to ¾ million lire earmarked for projects in direct relief of unemployment. If Province excluded from this grant request immediate allocation of 300 million lire's first instalment for reconstruction and improvement which would relieve materially serious unemployment in this Province.

Point 1. Slovene language daily primorski Dnevnik suspended 7 December 1945 for Editor's failure, after promise, to retract admittedly false statement that all higher executive our Slovene schools were nazis, fascist, and demobranze. R einstated December 23 on publication of agreed retraction.
Point 2. Under Italian law non-italian citizens are denied public employment. By general order 19 of 13 December 1945 this requirement was, after considerable discussion and no objections voiced, abolished. On 5 December it appearing that the order had been useful only in obtaining teachers for slovene schools, had served that purpose and upon re-examination appeared juridically doubtful. It was in turn repealed restoring original situation. Will report details dutc and hartman cases after investigation.

Reference telephone conversation today and messages 1591 and 1592. At the request of the Prefect of Genoa I forward the following information. The Prefect has already sent a telegram to the Minister of Interior on the matter.

(1) The execution of Piazza before the Italian political prisoners condemned to death is likely to create a situation which he will be unable to control.

(2) On 7 January four deputations from various political and workers organisations attended the Prefettura and requested that steps be taken to secure a postponement of the execution of Piazza.

(3) On 8 January deputations from Associazone Partigiani and workers of Ansaldo dock yard and steel works attended Prefettura and requested similar steps be taken. All make it clear their desire is to secure a postponement only of the execution of Piazza until political prisoners are dealt with.
