1. The Spanish Minister, BERNE, has approached the British movements Officer, BERNE on the subject of repatriation of spaniards at present in GERMANY. Report is requested on the following:

A) Number of spaniards in each zone desirous of repatriation (both inside and outside camps) and when they will be ready for movement.

B) Will each zone permit entry of limited number of Spanish officials (say 4) for necessary screening. It is suggested that such officials commence operations in British zone and work south through United States and French zones of Germany and AUSTRIA. To facilitate screening, will it be possible to concentrate repatriable spaniards in 1 particular camp in each zone.

C) It is assumed that the screening team will eventually arrive by air form spain, or possibly SWITZERLAND. Will each zone afford accomodation. Rations and motor transport facilities also. Repatriation will probably be by rail through the brenner pass to GENOA for onward passage by sea in Spanish vessel when it can be arranged.

Please see my 127 of 11 January and previous signals concerning case of Naumov.
2. Naumov has experienced considerable delay in obtaining Swiss visa. This has now been obtained but simultaneously there arrived letter from Istituto Sottore Munari Florence Via Mazzini 38 stating that Naumov can be received and treated there. Letter is in my possession and is dated 17 December 1945.
3. In view of this undertaking on part of sanatorium may we grant Naumov permit to enter Italy other than in transit. Transit visa already granted in Alcom 225 of 14 January and VGP SEC 34 of 16 Jan.
4. Would appreciate decision by end of week as if permission not granted Naumov has opportunity of being flown to Switzerland early next week. He would much prefer to be treated in Florence and in view of his evidently serious condition would urge that permit be granted.

Public Health requirements Venezia Giulia/ Udine.
This is LAC 1351. Reference CAL 1511 and LAC Airgram 135.
Justification for total requirements for Venezia Giulia as requested in LAC AIRGRAM 139 are submitted for your consideration.
(A) Geographical conditions peculiar to zone B particularly in Trieste, Pola and Gorizia makes that part of Venezia Giulia dependent on zone A for medical treatment and supplies.
(B) In order to prevent disease and unrest in zone A and because of the absence of adequate medical centres and supplies in zone B it will be necessary for zone A to continue the medical services heretofore provided under both Italian and Austrian administration.
(C) Unless the requirements requested are forthcoming the medical supplies for Venezia Giulia and Udine province will be prematurely exhausted.

2. The question of preplacement of supplies expended in zone A for treatment of Jugoslav personnel by UNRRA is the subject of discussion at this Headquarters.

3. In case request in LAC AIRGRAM on 39 cannot be granted then will you please reduce the requirements for Venezia Giulia by 25% for the period January through June 1946, but in agreeing to such reduction temporarily, must emphasise that it may still be necessary to ask for the original total.

Date/Time of Origin:

United Kingdom and considerable delays in arrivals of commodities under both United Kingdom and UnitedStates (FEA) portions of CLAC programme has caused considerable shortfalls in Italian programme. Instead of having 4 months supplies for population equivalent to that of Venezia Giulia surplus to needs Italy is short of both food and coal.

3. Para 2 A above appears a matter for your rather than for us and we have no comment.

4. Para 2 B above. This hinges on whether backlogs on CLAC programme will eventually be met or not. If they are not then Italy will have met Venezia Giulia/Udines needs out of the supplies originally programmed to cover them and has no claim to furtherrepayment. If CLAC backlogs and shortfalls are not repeat not made up then we suggest Italy has a claim to repayment of her loans to Venezia Giulia/Udine since these will have been at the expense of her own food employment and production needs. This important in view of necessity for ensuring continued Italian cooperation in supply of Venezia Giulia/Udine from Italian local resources which might be jeopardised by non repayment of loan on top of shortfall on CLAC

Para 2. Whether you decide to confirm or cancel repayment recommend you disregard MAT 889 estimates and review TAM 728 in light of following facts. Sub

A. Basis for TAM 728 is MAT 889 whose tonnages were only a forecast of requirements and are completely at variance with tonnages actually lent. Consequently TAM 728 para 1 columns 2 plus 3 do not correspond with actual loans made.

B. Para 1 column 2 lists MTOUSA surpluses which no longer exist having been disposed of in accordance with your W-84300 of 21 November to COMZONES. All TAM 728 allocations will therefore have to be deleted

Reference your 340 dated 24 January. Repayment to Italy of subsistence lent to Venezia Giulia/Udine Sept through Dec 45. Your para 1.A This is a matter for settlement between CCS and CLAC and is not a question which concerns this HQ. Your remarks are however being reported to CCS without comment. See MAT 930.

2. Your para 1 B. CCS attention is being drawn in MAT 930 to practical effect of their ruling in TAM 726. If however Italy import programme for September - December 1945 is met to the full complete with all supplies as indicated (for FEA portion only) in TAM 705 para 3 Italy will not suffer by non repayment of loan. TAM 650 indicated clearly that future Alcom requisition would have to be reduced by the amount of the repayment and that Italy could not expect to receive these supplies twice over. See in this connection Food and Agriculture sub Commission monthly report November 1945 part 2 para 12 final sentence.

3. Your para 1 C. In view of CCS ruling in TAM 650 para 1 that maximum utilization of Italian resources will be made for supply of Venezia Giulia your reasons will only apply in event shortfall on CLAC programme is not made good. Reference to this is being made in MAT 930. Repayment of any loans of imported supplies made in 1945 is not prejudiced in TAM 726 which only stops double repayment for September - December 1945.

1. Italian proposals for imports of refined seed oil from UNITED STATES against exports of olive oil to UNITED STATES have been discussed since last November through Diplomatic CHANNELS. Italo Government has been repeatedly advised that imporations of this nature would be treated over and above any other fats allocation they might receive against requirements submitted by UNRRA or Italo Government and would be discussed only on a 1 to 1 basis and limited to soya beans oil at this time. Do not understand therefore request MOC 441 on a 1 to 3 basis.

2. Not with standing the fact that fat supply of the country does not increase in making 1 to 1 exchanges Italo Government will enjoy the benefit of prive differential in foreign exchange between olive oil and soya bean oil in UNITED STATES.

3. Should 1 to 1 fat exchange basis be devised to expedite transaction through private trade CHANNELS.

1. Your letter CCB/1000/192 of 19 January received after dispatch our letter 37/1/GSI of 20 January. Grateful therefore your views by signal on para 3 of our letter requesting censor station for Venezia Giulia mail should not be moved from Venice to Udine consider that if principle of Allied censorship of Venezia Giulia foreign mail is accepted location of station is largely immaterial and that any objection from Italian side is overruled by practical consideration of accomodation. There is no accomodation available in Udine. Suggest that similar considerations applyin case of Venice internal mail censorhip since even if this mail IS handled in Udine it will not be possible to disguise that fact that Venice mail is being opened by Allied authorities.

2. Assume your para 1 does not imply that Washington and London have yet given permission for censorship of Venezia Giulia non-transactional foreign mail to be carried out in Allied postal censor station.

3. Your para 4. It is confirmed that in our view security reasons justify the retention of Venice telephone control.
