2. The Italian Government requests that current payment for printing and transport cost of Am Lire notes be delayed and that billing begin from the date when Allied Forces shift over from the use of new Am Lire to the use of Metropolitan Lire .

3. The Minister of the Treasury has advanced the following reasons in support the request for your consideration (A) The Italian Government was prepared to begin supplying Metropolitan Lire immediately after 1 February 1946 but the necessity of working out Administrative arrangements with the Allied pay services has delayed the change over date until 15 March 1946. (B) The application of the new Military rate of exchange has resulted in extra heavy drawings of Am Lire by the Allied Forces in early February. (C) A shortage of 500 Lire notes had forced AFA to issue notes of smaller denominations this has increased the delivery cost since the printing and transport cost is quoted on a per box basis.

ALCOM

UNCLASSIFIED.

Reference yoyr 1441 of 26 February.

Para 1. Lack of international coordination in summer slash winter time changes in Europe during 1945 caused difficulties in planning transcontinental transport time tables.

Para 2. Understood from CCS that international coordination is well under way under the auspices of ECITO and that European coordinating office of ECITO at Brussels has received from ALCOM its agreement to any date which is most suitable for rest of Europe. CCS state furthermore that a meeting of railway representatives of all nations, including Italy, has agreed a date and Headquarters, ECITO are now sending formal communications to all Governments concerned seeking their agreement to selected date.

Para 3. It appears from the above that negotiations in which both Italy and ALCOM have partecipated for an international time change are already in progress. In view of this and the obvious advantages of a simultaneous time change, SAC does not approve an indipendent time change in Italy on 4 March.

TOP SECRET. THIS IS N.A.F. 1117

SUBJECT IS CEILING OF CARABINIERI IN INTERIM ITALIAN ARMED FORCES.

1. In NAF 1051 I stated that no overall alteration to the establishment of Ha Carabinieri was necessary and in FAN 621 you authorised a ceiling of 65,000.

2. Under pre war conditions forces in charge of the various services of public order in ITALY amounted to 207,000. Of these some 130,000 belonging to Fascist Specialist Militia (now suppressed) such as railway, harbour, frontier, customs and forest militia. In spite of re-activation of some of these on democratic lines carabinieri are now called upon to carry out some of these tasks in addition to their normal duties with consequent shortage of personnel for their primary police role and hence an inability to maintain law and order effectively.

3. Furthermore with the return of all metropolitan Italy less the provinces of UDINE and VENEZIA GIULIA to the control of the Italian Government the latter has now far greater responsibilities than when my recommendation in NAF 1051 was made.

4. To assist the Italian Government therefore and to cater for requirements for which the present ceiling of the carabinieri is not designed recommend that the ceiling of the Interim Italian Army including carabinieri approved by you in para 4 FAN 621 be increased to 215,000 to allow the ceiling of the carabinieri to be raised to 76,000. Your 1260 of 18 February. Regret there was misunderstanding on our part in this case. Basilico now states that her husband is still in Belgrade and has been interned by Jugoslav authorities. She wishes to go and live with his family at address given since she states she is destitute and has no relations in Jugoslavia to whom she can turn for help. She has produced marriage certificate as evidence to support her case for going to Italy.
She is also as stated in original application in advanced state of pregnancy. May this case which seems quite genuine please therefore be reconsidered Roberts.
