Coal requirements Venezia Giulia and Udine.

This is LAC 1 3 6 5 Reference CAL 1523. UNRRA has not agreed to allocation of coal for Venezia Giulia and Udine from allocations already made for Italy. Present allocation not sufficient to do so, as it is only sufficient for minimum needs of italian economy. Situation further aggravated by shortfalls during recent months.

2January requirements were met by loans from fea subject to repayment in kind. February requitements partly met by allocation 2 UK military gargoes totalling 14000 tons, also loan fea coal used.

3. UK military prepared to allocate 1 cargo March but us military not yet advised of any expected March arrivals.

4. Most important that allocations be made to coper Venezia Giulia-Udine requitements to meet needs for those areas during April, May and June as well as cover repayment of commitments for January, February and March.

5. Request you stress to combined coal committee necessity for allocation of coal for Venezia Giulia and Udine. First shipment for arrival early April.

6. Should additional allocation still be considered impracticable because combined coal committee must include Venezia Giulia and Udine, which areas remain a military responsibility for supplies. as an integral part of Italy, it will be necessary to reduce the overall allocation to UNRRA Italy for period January-June 1946 and so provide for total requirements for Venezia Giulia and Udine for period January-June 1946 under LAC Airgram 140 dated 28 December 1945 to be imported on military account.

Therefore, exports of these textiles from Italy to the United States , Brazil, Canada, Mexico and Argentina should not exceed three percent ,and all to the Western Hemisphere should not exceed seven percent of Italys total export availability .

Combed and carded yarn fabrics should be shown separately, with as many specific types of construction as possible., at least cotton duck and cotton gauze. Report total production availability procurge on Jacquard and Dobby Looms.
