Your 38 signed Orelli, have now received by important Roumanian  
institution purchase offer land calea Victoriei. Total amount  
about 2500 Million lei.

Proceeds converted at free market rate which is now 36000 lei  
per dollar would give at least 60 or 65000 lei while when land  
was bought in 1939 its price corresponded 50000 dollars.

Proceeds could assure financment of legation consulates and  
cultural institutions here which being given progressive  
inflation must be reckoned in sold currency and not in lei.

Purchase of building institute culture seems now untimely in  
view of known dangers for our investments here.

Authorization should be sent immediately in order to take advan-  
of most convenient offer. Gerbore.

Note 1: 8028 tons wheat received against wheat and flour for January as advised for arrival approx 21 March and included in total receipts figure 6047 wheat and 2054 flour, ex SS Andrew Furuseth.

Note 2: 557 tons called forward ex UK.

7063

Note 3: No further supplies advised shipped.

Note 4: 10861 tons of sups called for April are not reflected in above figures.

3. Assuming an average monthly import of 15000 Lt, 2 conclusions are evident:

A. The food programme is 2 months in arrears.

B. The formation of a reserve is impossible.

2 PAGE

H/1136

4. To date maintenance has been continued by loans from military stocks and from UMRAL stocks intended for Italian territory not under AMG. Due to short supply UMRAL is increasingly reluctant to loan items and requires prompt repayment.

The item of wheat which is most frequently needed is not available from military stocks.

5. In order that we may be able to compete with the vagaries of actual shipment it is most desirable that the arrears be made up and the reserve established as soon as practicable.

Refers my cable N.19 Polish Undersecretary for Foreign Trade has informed me that text of agreement concerning transit of Polish goods through Austria will be finally settled today. Nevertheless agreement will be signed only after approval of Polish and Austrian Governments and is meant to be of temporary duration until transit agreements will be reached between Austria on one side and Italy and Jugoslavia respectively on the other. Polish-Austrian agreement foresees that Poland will be liable for charges connected with transit through Austria and that same charges will be paid exclusively in coal through cession to Austria of quota of total coal amount assigned to state of destination. In case of Italy quota should to 18% to which must be added stiller quota of 10% for transit through Czechoslovakia. Amount of Polish coal which coal be reach Italy would be diminished therefore to nearly 43,000 tons monthly. Polish delegation excludes any increase in Italian coal quota for the present year. 921 repeated ROMS as 10. My immediately preceding telegram was sent before we received ROMS of 19th and was based along with my colleagues telegram to which it refers on British version of Yugoslav notes which appear to be identical to those to us. I assume full text of SULLIVAN's comments available to you reiterate my concurrence therewith. Principle points are :-

1. Allegation of Allied Military Governments partiality and hostility seems to amount to complaint against enforcement of laws which only pro-Yugoslavs have violated.
2. Enforcement may contrary to instructions have occasionally been brusque and
3. Yugoslav and pro Yugoslav propaganda some able far more systematic than admitted anti Yugoslav propaganda by Italians and dissident Yugoslavs. My earlier impression Sarvola incident was staged not diminished by speed with which Jugosla Foreign Office lodged protests. See my 177 through 182.

Passing from the specific to the general Yugoslav case appears to me to be based on (A) Fundamental disagreement with nature and objectives Anglo American Administration of this part of disputed territory and (B) Desire to prejudice by political manoeuvre and agitation stability of a settlement based on ethnology, economics and geography. Local realizations this attitude are clearly primarily designed to discredit Anglo American and any settlement to which they may be party unless it fully concedes Yugoslav claims. Furthermore, that this attitude has had its effect is best indicated by fact that local Italians have felt compelled adopt an anti-allied line with of course appropriate modifications and are in addition tending to favour physical retaliation

**SECRET**

H/1038 Centa

SHEET TWO.

Accordingly, as intimated in my preceding telegram, I would suggest that if it has not already been done time has come bluntly to ask Jugoslavs to explain their position and connection therewith of obviously satellite organisations in some A. Unless present unhelpful attitude is called to account and changed, position of Allied Administration will in my estimation become increasingly difficult and stability of any border settlement will suffer correspondingly.

I have not yet repeat not yet had opportunity to discuss foregoing with MOSLEY but observations over past few months have led me to feel thus strongly in the matter.

Signed GURNEY.
