Subject is telecon 0626/1430 L-IT 6553 "accounting and billing procedures allied supply accounting agency" of 26 June 1946.

This is MAT 1030

1. Reference your RD 1 and our MAT 11.

A) Estimated volume of future monthly releases ex the Balkan stockpile to USSR is being ascertained and will be forwarded to you earliest.

B) No information in regard to origin of commodities which went into the stockpile is available in this theatre. It is possible that middle east could furnish this information but in view of reorganization and changes in personnel it is suggested that even the most approximate estimate of percentage contributions to the stockpile would require a considerable time to produce.

C) A considerable amount of time has been spent in compiling the following documents in order that they might provide all possible answers.

1) "statement of issues to USSR by the SL organizations in GREECE YUGO-SLAVIA and ALBANIA" ref B/2226/fin of 28 November 1945 and "schedule of amendments thereto" ref 13673/F/A of 17 April 1946.

2) "statement of supplies and stores shipped ex the depots to USSR for Balkan civil relief" ref cover letter B-3/100-4 of 26 April 1946.

3) "analysis of lend lease categories-Balkan civil relief supplies ex middle east stockpile" ref 13673/F/A of 11 March 1946.

Page 2

W/373

D) It is suggested that application of the figures contained in the 3

documents under C above would provide a more rapid and accurate result of percentage contribution by us UK and CANADA in respect of all items on the stockpile ~~than~~ than the result which would be achieved from long and probably inconclusive investigation by middle east of percentage contribution to the us stockpile.

2. Reference our LFO-6 and your SD-7, we have schedules of breakdown of cost of rehabilitation of Italian state railways. Values by categories are as follows;

Category	Value
Materials (tracking bridging etc)	7348079
Labour (British and American)	4321725
Use of mechanical equipment	3179659
Sundry stores and supplies	940970
Total	<u>16296016</u>

Received from Commanding General 13 Corps, is urgent request for 6 months supply of penicillin for use in civilian hospitals in Venezia Giulia. This is LMC 1361. Such supplies if approved will be safeguarded by AMG who will authorize and account for all issues to civilian hospitals.

Previous supplies (which have been insufficient) for 104 for the 45 hospitals in the area were received through American War Relief and Italian Red Cross sources. Further amounts which were loaned from military stocks are now exhausted, and as present military stock positions preclude further issued bring made from them, subject hospitals are placed in a desperate situation with regard to this commodity. Estimated that of a population of 500000 persons in Venezia Giulia, 5 per cent require constant treatment with penicillin, the normal monthly consumption of which is 300 million units.

The request has been screened and recommended by medical services of AMG 13 Corps. Requested therefore is early approval and procurement of the above quantity of penicillin.
