Following is text of Allied supply accounting Agency memorandum

This is LAC 1383 refer CAL 1555. Aluminium cable "with referen-
ce to the above cable the only info which we hold regarding the above
transaction is that the material in question was brown from American
Army sources and sold for lire 7500.

This sum is shown as having been deposited in life and according to
procedure would be accounted for to the Italian Government.

The fact that it was a lire cash transaction in the theatre does
not in any way affect the billing of the item to the Italian Govern-
ment in dollars consequently a combined price (overage weighted
landed cost) would appear to be necessary." Regret no info relative
to subject transaction is available at this HQ.

1. Instances are continually occurring of dependents of Polcorps refusing to entrain at the last moment.
2. Every effort is being made to move dependents to UK as rapidly as possible but owing to shortage of suitable rail and sea lifts it is essential to fill every available train and ship to capacity.
3. Failure of dependents to conform to mov instrs is slowing down the move and creating a great deal of unnecessary additional work amending nominal rolls etc.
4. Please inform all concerned that in future no dependent will be allocated a seat or cabin for a second time unless they can satisfy OC camp at Barletta or Porto S. Giorgio that they have a good and sufficient reason for not entraining when originally instructed to do so.
