Subject is coal for SPS territory.

This is RAF 1260.

1. I am most concerned over the coal situation in Porewio Stadio
 and mine. On 22 November by LAC 1403 I called attention to this
 critical condition. Again on 27 December by LAC 1412 I raised the
 issue and asked for something definite. Either signal has been
 answered. 2 ship loads of coal have been borrowed from MURIA
 to meet the emergency. With the arrival of the Howard Kelly
 about 5 January 47 I can see out the supply with barest minimum
 usage until 20 January. MURIA required payment about 10 February.
 MURIA will not loan coal without something definite as to date
 of repayment. I urgently request that immediate action be taken
 and that I be informed as to delivery dates.

1. Italian Government has raised question of payment of transit fees due to Government of countries over whose lines pass long distance filled military telephone calls originated in Italy.

2. Under international agreement such fees are payable periodically in gold after balancing debts against credits. For month of October 1944, cost to Italian Government of transit fees for filled military calls was 14,773 dollars.

3. Payment of these transit fees is at present treated as an occupation cost. Italian Government has asked through ICOM that it may be relieved of this charge and stressed adverse effect of gold requirements on Italian economy.

4. Consider that by offering Italian reasonable armistice terms and outstanding civil and military affairs agreements, which they rejected, Italian have already given them a possibility to escape from rigid application of present armistice terms. It is the however of policy of US Government to further economic rehabilitation of Italy matter is referred to you for solution. Your instructions as to reply to be made to Italian Government are therefore requested.

Health of Troops and civilians in Trieste seriously weakened by water shortage due to failure of pumps on account low tension and frequency of electricity supply. Voltage down to 75 % normal and frequency 1. instead of 41. Without reference to, or this to Italian Electricity Commissioner North Italy on 27 December reduced availability electric energy to Trieste Italia to 45 % below consumption of that date although this area is believed to be only one in theater which has made some fine effort to meet all rationing requirements. Please 1st Italian Government immediately instruct electricity commissioner to restore adequate supply with normal voltage and frequency characteristics.
