INFO FROM CIVIL AFFAIRS INFO FROM FROM CH, CRT

FACT LISTED.

1. Italian Government has raised question of payment of transit fees due to Governments of countries over whose lands pass long distance Allied military telephone calls originated in Italy.
2. Under international agreement such fees are payable periodically in gold after balancing credits against credits. For month of October 1946, cost to Italian Government of transit fees for Allied military calls was 1,775 dollars.
3. Payment of these transit fees is at present treated as an occupational cost. Italian Government has asked through whom that it may be relieved of this charge and stresses adverse effect of gold disbursements on Italian economy.
4. Consider that by offering Italian revised armistice terms and accompanying civil and military affairs agreements, which they rejected, Allies have already given them opportunity to escape from rigid application of present armistice terms. In view however of policy of HQ is further economic rehabilitation of Italy matter is referred to you for decision. Your instructions as to reply to be made to Italian Government are therefore requested.
