This is NAF 1250. Subject is abolition of ALCOM. NAF 670 and NAF 1173 refer. Early ratification of Italian Peace Treaty appears distinct possibility. AFHQ, MTO and CMF will in that case be pushed to complete evacuation within 90 days period. One step which can be taken now to eliminate duplication effort and relinquish current activities is the abolishment of ALCOM. Understand this matter already under consideration by You and decision awaits consent of French and Soviet Governments. I consider it essential that ALCOM be abolished immediately and in any case not later than "S" date, and recommend that early instructions to that effect be issued.

Para-1°. Subject is report of Dr M V Royse Representative as US State Department Advisor on refugee and Displaced Persons Affairs recently forwarded to State Department Foreign Office War Office and War Department.

Para-2°. Summary of Doctor Toyse's recommendations para 7B proposes that ~~the~~ the 11760 chetnik ex-soldiers now held in this theatre as British enemy surrendered personnel should be transferred to refugee status, in order to break up their quasi-military organisation.

Para-3°. To be able to do this it will be necessary for the bulk of Chetniks to be moved to Allied Commission Displaced Persons Camps where they can be distributed in groups.

Para-4°. Maintenance of those thus moved would become an Allied Anglo-US instead of purely British Commitment. Your authority for this transfer of responsibility will therefore be required.

Para-5°. Understand that War Office have already instructed JSM to ask CCS to issue this authority.

Para-6°. Accommodation for approximately 500 Chetniks is available in presently occupied Allied Commission Displaced Persons Camps. The Italian Government has however served notice that it will be unable to support Allied held Displaced Persons after 31 December (see NAF 1238). Therefore provisioning action from War Department and War Office will be necessary for maintenance of these as well as presently held Displaced Persons.

This is NAF 1238. Subject is maintenance of Displaced Persons
 in Allied camps in Italy.

Para 1. The Italian Government has informed the Allied Commission that
 from 31 December 1946 she will cease to supply foodstuffs and funds for
 the maintenance of Alcom Displaced persons in Italy.

Para 2. The Italian Government in serving this notice emphasizes the fol-
 lowing statements.

A. There is no clause in the armistice which can compel the Italian
 Government to provide the necessary means for the upkeep of camps organi-
 zed by the Allies for foreign displaced persons.

B. The Italian Government has no responsibility whatsoever for these
 foreign displaced persons now under Allied protection while the Italian
 Government is not allowed to enforce upon such displaced persons the
 Public safety laws regarding the sojourn of Aliens in Italy.

C. Italy has not joined any international organization or signed any
 agreement for the relief of displaced persons.

Para 3. Since 1 January 1944 distribution of foodstuffs to displaced persons
 camps has been made from Alcom or British military stocks originally debi-
 ted against and for the past year repaid in kind by the Italian Government.
 Essential lire funds for all camp expenses except salaries of military

personnel transport including maintenance gas and oil have been provided by the Italian ministry of the Interior.

Para 4. In view of the Italian Government's notice that the supply of funds and foodstuffs must be considered an Allied responsibility after 31 December 1946 estimates of monthly requirements follow:

A. Foodstuffs in metric tons read in 3 columns (one) item (two) commodity (three) total (one). 1. (two) wheat (three) 140 (one) 2. (two) meat frozen (three) 26 (one) 3. (two) Jam (three) 4 (one) 4. (two) cheese (three) 3 (one) 5. (two) cooking oil (three) 13 (one) 6. (two) tea (three) 3 (one) 7. (two) sugar (three) 9 (one) 8. (two) skim milk powder (three) 10 (one) 9. (two) luncheon meat (three) 13 (one) 10. (two) fruits, vegetables (fresh-local purchase) (three) 242 (one) 11. (two) milk evaporated (three) 2 (one) 12. (two) milk fresh (three) 1 (one) 13. (two) salt (three) 4 (one) 14. (two) vegetables, dried (three) 12.

B. Finance. Estimated total monthly ten million lire.

5. Estimates sub para 4 A and B are based on an average holding of refugees in 14 camps. Requirements may be increased proportionally if a future directive change the SEP (B) status of some 12000 chezniks of refugees under Allied DP care. Such a recommendation is embodied in the royal preliminary report on the alien problem in Italy.

Para 6. It is my view that the arguments of the Italians are sound and to I cannot really compel them to continue support of Allied held DPS.

However in view of the very material assistance to Italian economy by the Allies and especially the Americans Italy may well accept diplomatic proposals. The quantities of food involved are comparatively insignificant. In spite of the Italian Government statement that she is unable to furnish the required amounts the matter appears to be one of principle. In this connection however Unrra has forbidden Italy to use Unrra imported items for Allied held DFS.

Para 7. I recommend that authority to supply foodstuffs and equipment on a 50-50 basis from British/US military sources be granted and the necessary instructions be issued by the war department and the war office. Lire funds can be advanced by AFA.

Para 8. Should you hold view that Italy is required under the armistice provisions to support the Allied held DFS I am prepared to make such a demand. If you consider that such a demand cannot properly be made and that a diplomatic approach should be made to the Italian Government I request that action be instituted as a matter of urgency.

Following is repetition of our 3655 DTD 251640Z to joint Staff mission Washington repeated to you for information.

Subject is royce report on the refugee problem in Italy.

1. This is being examined and meanwhile consider it essential early action be taken in order further progress is to be made with the splitting up of the chetnik groups as recommended in para 7(B) of the summary of recommendation of the report before the withdrawal of the military personnel necessary to carry out the task. HM Government have previously stated no responsibilities can be accepted for the care and maintenance of these refugees and to this end had in the past opposed their transfer. Do not therefore propose to comment at this stage on sub paras A, C, D.

3. With regard to sub para B AFHQ has now submitted a plan for the process of splitting up of the chetnik Groups within Italy which is reported in detail in our immediately preceding telegram. This would seem in line with royce' recommendation while at same time be impossible objective with the manpower available locally, as however this plan involves the transfer of Chetniks from British custody as sep to DP Camps as refugees where they will become duly integrated Anglo-American responsibility it cannot be implemented unless and until Sacmed receive instructions to do so from CCS.

4. Request therefore you take steps to obtain agreement to the implementation of this plan at once and to the issue of the necessary instructions to Sacmed by CCS.

1. Subject is Soviet citizens within British and US definition of term who are unwilling to be repatriated and who are at present held in PW status as a British National responsibility under terms of Anglo-Soviet Crimea agreement. GHQ CMF have suggested they should be transferred to DP status as preliminary to hand over to interim organization when Royce report is implemented.
2. If you decide that provisions of Crimea agreement need no longer be applied in Italy to unrepatriable Soviet citizens you will no doubt issue appropriate orders to GHQ CMF. If however it is desired to transfer them to Alcom DP Camps, instructions from CCS to SACMED will be required.
3. Regarding acceptability of IRO, agree position of Soviet dissidents appears (except for Crimea Agreement) to be no different to that of dissident Yugoslavs who are acceptable. Urge that before any decision to transfer them to Alcom care is taken acceptability to IRO be confirmed. Many were only recently transferred from DP Camps to PW Cages by means of delicate military operation. It would be very unfortunate if, after retransfer, proceeds (?) had to be repeated to meet IRO requirements.

Para 1.- Ref.your 4814 of 31 August. In para 4 of that signal you stated that 500 public security agents were immediately available for duty in Venezia but no accommodation was available.

Para2.- On 4 October 1946 such accommodation with capacity for 600 was handed over to Italian Ministry of Interior for use of police.

Para 3.- At present only 50 public security agents 100 Carabinieri and 60 finance guards. Totalling 210 have arrived.

Para 4. - Understand that Italian authorities propose to move in a further 100 Carabinieri and 150 public security agents bring total to 460 however ~~xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx~~ in spite of repeated reminders from British Military Authority in area these extra police have failed to materialize.

Para5.- In view of your previous assurance that 500 police ~~xxxxxx~~ were available and that the Venice area still requires these additional police you are requested to press the Italian Government to make good their promise and provide this total number is (500

Subject in disposition of Alcon Archives refer your W 84414 of 31 October.

1. Present plans now tentatively approved by United States and British Embassies in Rome and submitted 14 November in WAF1233 for approval of Combined Chiefs of Staff envision future organization to discharge, after the end of military period, all remaining commitments of Allied Forces Records Administration. Responsibilities would include, in addition to those pertaining to Allied Commission Archives, the reproduction and proper disposition of certain combined British American records other than those of Allied Commission, including principally still active records of Allied Force Headquarters that cannot be released until the headquarters is inactivated. It is not believed that the personnel and equipment requirements would be appreciably increased to provide for the discharge of these additional responsibilities. The contemplated organization would be complete and self sufficient and would operate under the supervision of the Military Attaches.

2. You are assured that substantially the same key United States Army personnel would continue to be employed on this project until its completion some three years hence, but plans now afoot will recommend change to civilian status of all except a few officers whom it desires to retain in Military status at top level and provided that present War Department redeployment requirements

especially section Roman Two ED Circular 272/1946, could be waived. Request Decision.

3. The estimate of approximately three years to complete this project is based upon capacity of present Microfilming equipment and considers the fact that over two years will be required to Micro film Allied Commission records alone.

4. In order to clarify administrative picture for your information herewith are present essential details. Allied Force Records Administration formulates all procedures and directs all Micro-filming and records disposition work under policies established by Combined Chief of Staff. These functions include but are not confined to the Allied Commission project. Allied Forces Micro-filming and Records Depot reproduces Combined records for the entire theater and houses and services and ultimately disposes of such records. These administrative provisions would not be affected by dissolution of Alocm but would disappear at end of military period unless provisions are made for their continuation.

5. Should Combined Chiefs of Staff approve plans for transfer to the Embassies at the end of the military period of the undischarged Allied Forces Records Administration responsibilities completely new organizational and cost tables will be prepared in consultation with the Embassies. It is therefore requested that State Department be so informed with a view toward withholding final action until these plans are approved.

Subject is "Reproduction and Disposition of Combined British and American Records.

1. For 672 authorized Supreme Allied Commanders to make necessary arrangements with United States and British Embassy for transfer of responsibility for Allied Commission Archives and for transfer of necessary personnel and equipment to complete Microfilming Project at end of military period.
2. Allied Forces Microfilming and Records Depot, operated by Allied Forces Records Administration has just begun the Microfilming of Allied Commission Records. This project alone will require over two years for completion with present equipment and does not take into account other Allied Forces Records Administration commitments, which cannot be entirely discharged prior to the end of the military period.
3. It therefore appears desirable to transfer also to the British and American Embassies, at the end of the military period, all other undischarged responsibilities pertaining to the duplication of records of a combined British American character, and the appropriate disposition of such records per your directives in Pan 630. Included in these additional responsibilities would be the Microfilming of certain active commands that cannot be release for Microfilming until those headquarters are inactivated.

4. United States and British Embassies in Rome have agreed subject to concurrence by proper authorities in Washington and London, to the under mentioned proposals to become effective upon dissolution of Allied Forces Headquarters and withdrawal of Military Forces in Italy.

(A) The respective Military Attaches of the British and American Embassies would assume responsibility for the completion of the ~~entire~~ entire Allied Forces Records Administration program including the Allied Commission Records, and would maintain direct contact with the Combined Chiefs of Staff in order to complete the program, with the reservation that major policies affecting the use and ultimate disposition of Allied Commission Archives would be formulated by the Embassies on a separate basis.

(B) The Contemplated organization would be completely self sufficient and would comprise the present Microfilming Unit and one Archives Unit, both of which would operate under the immediate control of the Allied Technical Administrative group responsible to the respective Military Attaches of the British and American Embassies. This Group would take on present function of Allied Forces Records Administration and would be composed of technical and administrative personnel ~~thoroughly~~ thoroughly familiar with all the aspects of this program.

(C) The cost of the whole undertaking would be borne by such departments of the United States and UK Govt and determined by those governments.

Thanks for your letter on subject of DPS in transit through Italy have ascertained however that Italian frontier authorities refuse to recognise any longer DP movement procedure as stated in your letter. For example we have 300 CDD Turks waiting to go back to Turkey. These Turks have been vetted by the Turkish Liaison Officer who recently visited Austria. Turkish Consulate in Italy will not recognise the findings of the Turkish Liaison Officer and the Italian Government will only accept the word of the Turkish Consulate in Italy. Result is that no movement of Turks from here is possible. Similarly we have several hundred Greeks waiting to go back to Greece they have already been vetted by the Greek Liaison Officer but the Greek Consulate in Italy refuses to give Visas for Greece until they have seen the DPS in person and they are unable to obtain Italian entry Visas they cannot be moved. Grateful if you could make representations to the appropriate Italian as this state of affairs is acting as definite impediment to repatriation. You might possibly point out to them that we in Austria continue to observe the original DP movement procedure as laid down by AFHQ and are continually accepting into Austria for onward movement batches of DPS of all nationalities at short notice and without clearance from the Consular Authorities of countries. Paragraphs relate to your paragraphs of same number.

1. Class one, vessels over 30 tons only, 600 vessels fifty thousand gross tons, class two, 108 vessels 222 thousand tons, class three 27 vessels 111 thousand tons. Class two particularly concerned. No particular tonnage contemplated because of prohibition (para two(B) FAN 658) Italian vessels arriving Trieste with UNRRA or other cargoes not permitted to load export cargo from Central Europe to ports outside Italy and leave in ballast or partly loaded. No Italian tonnage in excess of Italian needs. Only cargo in immediate contemplation is export to fill vacant cargo space in out going vessels. No estimate possible. Is dependant on space available in out going ship. No political implications. No diversions are contemplated. Generally Trieste though Italian did not supply Italy. Restriction to Italian needs in FAN 658 retards recovery Trieste which is now in worse situation than other Italian ports. Desirable recovery of Trieste be started before her severance from Italy.

Your para one sub A. In anticipation of directive from CCS to implement those recommendations following plan is being prepared in coordination with GHQ CMF. 4-5000 Chetniks at present employed by British ~~XXXXXX~~ Forces outside Eboli camp to be transferred as refugees to Allied Commission DP Camps. These Chetniks to be distributed throughout the 12 available camps so as to disintegrate their quasi military organisation as far as possible with due regard to their political and racial classification. Above Chetniks to be ~~xxxx~~ replaced in their employments by a further 3-4000 from Eboli. Above operations considered practicable with resources now available. On completion of plan some 3000 Chetniks will be left at Eboli comprising about 1000 senior officers old men and sick and about 800 married men with families amounting to some 1200 women and children. The 3-4000 replacements referred to above will have to be disposed of should their employments cease prior to ultimate handover to interim organization is under consideration.

Emphasise that above plan involves transfer of Chetniks from British custody as SEP to DP camps as refugees where they will become an integrated Anglo-US responsibility. Plan cannot therefore be implemented until and unless SACMED receives instructions to do so from CCS.

"Reference Alcom letter 6517/EC of 13 April 46 to GHQ CMF.

Your request for Italians, including those mentioned in HAF 1165 who are wanted as War Criminals by any of the United Nations will be handled as follows since Allied Military Government has been abolished throughout the whole of Italy with the exception of Venezia Giulia and the province of Udine. The request for the delivery of Italians who are alleged War Criminals will be taken up directly with the Italian Government by the nation requesting the alleged criminals."

2. Ruling will be applied to requests already made which have not yet been complied with, Governmental representatives who have made such requests will be so informed forthwith.

3. Governmental Representatives of United Nations other than British and US will be informed of the above ruling as and when they submit requests to you to arrange for alleged War Criminals to be handed over.

4. In event of a governmental representative questioning validity of above ruling he should be advised that matter is one to be raised (with American or British Governments(+)) through diplomatic channels.

5. The ruling is considered to debar AFHQ or Alcom from acting as a medium for communication between Yugoslav Governmental Representative and Italian Government on matters connected with surrender of

1. The following is a summary of recommendations my report on Alien Refugee problem in Italy.

" A. To relieve the Allied Military Forces in Italy of their refugee burden and to meet the overall refugee problem an International Interim Organization should begin to operate in Italy at the earliest possible moment.

B. An agreement should be made with the Italian Government that it continue to supply rations and wages if necessary on a replacement repayment basis.

C. There should be an early progressive transfer of responsibility for the refugees now under the care of the Military Authorities. Their advice and existing facilities should be utilized. Some experienced Officers now in the theater whose active military service is about to terminate may be available to the new organization.

D. The new Interim organization should negotiate with the Italian Government for undertaking the formal protection of valid refugees.

E. All Displaced Persons and Surrendered Enemy Personnel except those who come under the IRO exclusion clauses should be classified as refugees. This should be applied to persons in and out of camps estimated at 160000.

F. Efforts towards repatriation should be increased

1. Reshifting active dissident elements in camps.

3. Indirect ballots .

4. All other ethical means.

G. The Ukrainian Ex-Wehrmacht WEF group 3000 at Rimini should be transferred to US and British camps in Germany.

H. To meet the special problem of the Yugoslav refugees which is politically the most embarrassing to the Italian Government.

1. The Ex-Wehrmacht elements should be transferred to Allied camps in Germany.

2. The Chetnik groups should be broken up where possible they should be re-classified as refugees and transferred to other camps.

3. Those not classifiable as refugees ,E.G. Para-Military leaders should be transferred to Allied camps in Germany or otherwise moved out of Italy.

4. To meet an acute situation a radical solution would be to transfer all Yugoslavs in camps to holding camps overseas.

I. In addition to the many refugees at present outside camps provision should be made for a large number of new entries who might flood in to Italy unless exclusion from care is considered desirable."

2. Paper is still under examination by GHQ CMF. Preliminary reaction of AFHQ is concurrence in the reports its conclusion
