SUBJECT: Chain of Command - Regions still under Army Control.

TO : Distribution below.

1. It has been brought to the Chief Commissioner's notice that Sections/Sub-Commissions of this Headquarters have, on occasion, issued directions to Regions in the North, on the assumption that Regional control has been effected. This is not the case. It must be realized that, until you are notified to the contrary, the greater part of the North is still under the administration of SCAO FIFTH or EIGHTH Army, as the case may be, and directions must not at this stage be issued to Regional Commissioners direct, but to SCAO's of Armies. There is no objection to copies being sent to Regional Commissioners for information.

2. In order that there shall be no misapprehension please note that the following Regions are still under Army control:

LOMBARDIA, PIEMONTE, LIGURIA and the following Provinces of EMILIA Region: BOLOGNA, MODENA, REGGIO EMILIA, PARMA and PLACENZA. VENEZIA Region less the Provinces of ROVIGO, PADOVA, VENEZIA, TREVISO, which have just been handed over to Regional control.

1. The following are extracts from the Restaurant owners statement:-

On 4 Nov 44 about 7 o'clock in the evening, 6 or 10 soldiers came into my restaurant.....
The soldiers were wearing round wool brown hats, basque beret type. They were dressed entirely in brown wool uniforms. I remember an insignia on the arm that included a cross. I think it was upon a shield.

2. It would appear from the above that at least one of the soldiers involved was EIGHTH Army.

3. It is not suggested that any men on the strenght of Allied Commission were involved, but there is a possibility that some one maybe able to throw some light on the matter, as it would appear that Allied Commission personnel were in the cafe at some time during the day.

1. The newly organized United States Information Service is receiving a number of requests to provide American speakers to appear before Italian organizations to talk on their particular technical or professional subject. They have asked us if we can give them a list of Italian-speaking Americans in AG who might be available to talk before Italian groups on their professional or technical field. They are particularly interested in speakers who will outline current American developments in the expert's particular field.

2. It would be appreciated if your section could let the Public Relations Branch have a list of those who might be available for such speaking engagements.

1. On 8 May at about 1745 hrs orders were issued that 9 May would be observed as a whole day's holiday by all personnel, except for the provision of duty officers by Sections and Sub-Commissions.

2. As it was not possible to warn civilian personnel in time, the Adjutant was instructed by my office to arrange with HQ Commandant that someone would be posted at the entrances to HQ this morning in order that the civilian staff could be informed on their arrival.

3. I desire to know:-

- (a) Why no arrangements were made by HQ Commandant to warn civilian personnel. Up to 0835 hrs this morning none of the personnel on duty at HQ entrances had been instructed.
- (b) Felling appropriate action by HQ Commandant, why did not the HQ night duty officer take steps. I understand he assisted the Adjutant in the issuance of the orders and was therefore aware of the circumstances.

14 May 1945

At about 1800 hours, 8 May 1945, Mr. Piombino, Adjutant, Headquarters A.C. informed Sgt. Brown, Chief Clerk Hqrs. Comdt. Section, that the following day (Wednesday, May 9, 1945) would be observed as a whole day's holiday by all personnel of this Headquarters. It was agreed that on the following morning the civilian personnel would be told that they could return home as they arrived at the building. To this end Mr. Piombino instructed the guard (Fus. F. Knight 7045082) on duty at the main entrance that Wednesday was to be a holiday for all. Fus. Knight claims he passed the instructions over to Fus. Ball, on duty Wednesday morning from 0800 to 1200 hours, who was also told that someone would be down to help him on Wednesday morning. It now appears that whoever was to come to help Fus. Ball did not arrive and it was not until 0900 that Fus. Ball took it upon himself to tell the civilians to return to their homes.

It is regretted that this misunderstanding occurred and steps will be taken to prevent a similar occurrence.

14 May 1945

At about 1800 hours, 8 May 1945, Mr. Piombino, Adjutant, Headquarters A.C. informed Sgt. Brown, Chief Clerk Hqs. Comit. Section, that the following day (Wednesday, May 9, 1945) would be observed as a whole day's holiday by all personnel of this Headquarters. It was agreed that on the following morning the civilian personnel would be told that they could return home as they arrived at the building. To this end Mr. Piombino instructed the guard (Fus. F. Knight 7045082) on duty at the main entrance that Wednesday was to be a holiday for all. Fus. Knight claims he passed the instructions over to Fus. Ball, on duty Wednesday morning from 0800 to 1200 hours, who was also told that someone would be down to help him on Wednesday morning. It now appears that whoever was to come to help Fus. Ball did not arrive and it was not until 0900 that Fus. Ball took it upon himself to tell the civilians to return to their homes.

It is regretted that this misunderstanding occurred and steps will be taken to prevent a similar occurrence.

3/20.1/CA

SUBJECT : Committee of National Liberation.

TO : All Officers, Emilia, Liguria, Lombardia,
Piemonte and Venetia Regions.
SOLO's 5 and 8 Army.
HQ IV Corps

1 This directive lays down the policy which will govern the actions of all Officers of Allied Military Government in their relations with the Committee of National Liberation (CLN - "Comitato di Liberazione Nazionale") in Northern Italy.

2 CLN's have been organized on a communal, provincial and regional basis throughout German Occupied Territory. Their activities are co-ordinated by an over-all CLN for the whole of the area, known as the CLNAI - ("Comitato di Liberazione Nazionale dell'Alta Italia").

Intelligence reports from the North show that the various Committees of National Liberation have learned a good deal about the art of government in the year-long struggle against the Fascist, and the German. In many districts, "shadow" governments have been set up, and the various portfolios have been distributed amongst the leaders of the different parties. On the whole it seems that for the time being there is a remarkable degree of unity of purpose in the Committees, and party differences have been sunk in the common desire to chase the Germans from Italy and to punish their fascist collaborators. These Committees have been co-ordinated in their military operations by the Allied authorities and the giving of such assistance necessarily implies a degree of recognition of their position.

3 Relations with AMG. - The Supreme Allied Commander has made his own military arrangements with the CLNAI. He has not given political recognition to the CLN's, but under these military arrangements, the CLN's will endeavour to maintain law and order and continue to safeguard economic resources until AMG is established. (However, CLNAI has agreed that the CLN's will recognize AMG and hand over to it all authority previously assumed.)

Liberation all components of the General Command of the Volunteers of Liberty (GV) will come under the direct command of the C-in-C, 15th Army Group, and will obey any order issued by him (or by AMG on his behalf) including orders to disarm and surrender their arms when required to do so. Upon the establishment of AMG, the SOLO First, and later the HQ, is supreme and possesses all powers of government, and the CLN has no official standing in the conduct of affairs.

29 April 45

1 This directive lays down the policy which will govern the actions of all Officers of Allied Military Government in their relations with the Committee of National Liberation (CLN - "Comitato di Liberazione Nazionale") in Northern Italy.

2 CLNs have been organized on a communal, provincial and regional basis throughout German Occupied Territory. Their activities are co-ordinated by an over-all CLN for the whole of the area, known as the CLNAI - ("Comitato di Liberazione Nazionale dell'Alta Italia").

Intelligence reports from the North show that the various Committees of National Liberation have learned a good deal about the art of government in the year-long struggle against the Nazis, and the Germans. In many districts, "shadow" Governments have been set up, and the various partisans have been distributed amongst the leaders of the different parties. On the whole it seems that for the time being there is a remarkable degree of unity of purpose in the Committees, and party differences have been sunk in the common desire to chase the Germans from Italy and to punish their fascist collaborators. These Committees have been assisted in their military operations by the Allied authorities and the giving of such assistance necessarily implies a degree of recognition of their position.

3 **Relations with AMG.** - The Supreme Allied Commander has made minimum military arrangements with the CLNAI. He has not given political recognition to the CLNs, but under those military arrangements, the CLNs will endeavour to maintain law and order and continue to safeguard economic resources until AMG is established. Thereupon CLNAI has agreed that the CLNs will recognize AMG and hand over to it all authority previously assumed.

Likewise all components of the General Command of the Volunteers of Liberty (CVL) will come under the direct command of the CLNAI, 15th Army Group, and will obey any order issued by him (or by AMG on his behalf) including orders to disband and surrender their arms when required to do so. Upon the establishment of AMG the SOAG first, and later the EC, is supposed and possesses all power of government, and the CLN has no official standing in the conduct of affairs.

4 But there are other considerations which should be borne in mind in implementing the policy indicated in the above arrangements. It is in the interest of the Allies that there should be a stable Government in Italy and the Allied policy is to strengthen the legitimate Italian Government in every way possible. The Italian Government in Rome may not have the entire confidence of the CLNs in the North and, at best, their influence there may be subject to fluctuation. This may be based on several factors. There is the feeling that the North has contributed more generously to the defeat of the Germans than the South, and has suffered far more heavily for Italy. There is criticism of the slow progress made by the Roman Government in the reconstruction of the country, in the solution of the pressing economic problems of food supply and inflation, and above all in the punishment of former fascists. The Italian Government is well aware of this antipathy and has an agreement which goes further than that of the Supreme Allied Commander in recognising the CLNAI as its representative in the struggle in the North. The Government has succeeded in creating a certain measure of recognition from the CLNs in the North, but the possibility cannot be overlooked that they, or their component political parties, may not abide by this agreement if circumstances seem favourable for a political upheaval. It is hoped that after liberation the Rome Government will be able to absorb additional members from the North and thereby become more representative.

5 Relations with the Italian Government. The recognition of the CLIs as the representatives of the Government in the struggle against the enemy does not affect the Allies, who are not parties to the arrangement. Moreover, the Italian Government has no authority of any kind in Military Government Territory. Its arrangements with the CIMA are not operative in Military Government Territory and do not affect the relations between AMG and the CLI.

6 The problem facing AMG, therefore, is to reconcile the military arrangements of the Supreme Allied Commander with the aspirations of the political leaders of the CLIs to self-government, at the same time supporting the authority of the Italian Government in Rome in order that it may be able to administer the Northern Territory once AMG is withdrawn. The solution of this problem may well be found to lie in the absorption at a very early date of CLI nominees into the civil administration. If Allied Officers arrive in the North and bluntly inform the CLIs that their task is accomplished and that they may now disperse and if, after that, Sindaco and other administrative officers are appointed without the views of AMG being considered, the antagonism will be great and may well be disastrous. The danger of setting up local administrations composed of Italians who are not acceptable to the Patriot organizations cannot be over emphasized. AMG officers are not bound to accept the first suggestions of the CLI, who can always be instructed to submit alternative names. If, however, this principle is followed out, many of the problems of maintaining law and order will never arise. It will be easier to exploit the local resources of the country in the work of reconstruction and in the work of feeding the population. It will be easier to bring together the former Patriot organizations and the Italian Government, and it will be easier to prepare the ground against the time when the Government in Rome can take over the administration.

7 While the foregoing paragraph lays down a principle which is calculated to reconcile the Military arrangements of the Supreme Allied Commander with the aspirations of the CLIs, there are special considerations in regard to the office of Prefect and Questore.

Prefects, as the official representatives of the Government, are normally appointed by the Government from career officials. Even in the present situation this practice has generally been followed. Similarly the Questori have normally been appointed from Public Safety personnel by the Central Government. Other appointments, such as the Sindaco, etc., are normally local choices.

For obvious reasons the Italian Government wishes to continue the customary practice in regard to Prefects and Questore, and have raised it again very recently. It is the policy of the Allied Commission to support the Government and it would be unwise to depart, entirely, from the normal practice. The Italian Government has, therefore, been advised that any specific nominees whom they put forward for appointment to the post of Prefect or Questore by AMG will receive consideration. At the same time it has been pointed out that it would be quite useless to appoint any nominee who is not acceptable in the locality.

CLIs and SOs will not, by this arrangement, lose any of the powers delegated to them. It is their duty, however, in implementing the policy of this Commission, to use their best efforts to obtain local acceptance for the Government nominee, endeavouring to reconcile the views of the CLI with those of the Italian Government. This must be the principle although

that, Sindaco and other administrative officers are appointed without the views of the CLN being considered, the antagonism will be great and may well be disastrous. The danger of setting up local administrations composed of Italians who are not acceptable to the Patriot organizations cannot be over emphasized. AMG officers are not bound to accept the first suggestions of the CLN, who can always be instructed to submit alternative names. If, however, this principle is followed out, many of the problems of maintaining law and order will never arise. It will be easier to exploit the local resources of the country in the work of reconstruction and in the work of feeding the population. It will be easier to bring together the former Patriot organizations and the Italian Government, and it will be easier to prepare the ground against the time when the Government in Rome can take over the administration.

7 While the foregoing paragraph lays down a principle which is calculated to reconcile the Military arrangements of the Supreme Allied Commander with the administrations of the CLNs, there are special considerations in regard to the office of Prefect and Questore.

Prefects, as the official representatives of the Government, are normally appointed by the Government from career officials. Even in the present situation this practice has generally been followed. Similarly the Questori have normally been appointed from Public Safety personnel by the Central Government. Other appointments, such as the Sindaco, etc., are normally local choice.

For obvious reasons the Italian Government wishes to continue the customary practice in regard to Prefects and Questore, and have raised it again very recently.

It is the policy of the Allied Commission to support the Government and it would be unwise to depart, entirely, from the normal practice. The Italian Government has, therefore, been advised that any specific nominees whom they put forward for appointment to the post of Prefect or Questore by AMG will receive consideration. At the same time it has been pointed out that it would be quite useless to appoint any nominee who is not acceptable in the locality.

SCAO and IGOs will not, by this arrangement, lose any of the powers delegated to them. It is their duty, however, in implementing the policy of this Commission, to use their best efforts to obtain local acceptance for the Government nominees, endeavouring to reconcile the views of the CLN with those of the Italian Government. This must be the principle although the practice will always depend finally on the judgement of the SCAO or IGO.

8 The action is, therefore, as follows: On arrival in a Province it seems almost certain that a Prefect and Questore appointed by CLN will be found in office. This will be fully in accord with the agreement between the Supreme Allied Commander and CLN. These appointments should not be confirmed forthwith but the individuals should be normally allowed to remain in office as acting Prefect and acting Questore respectively solely for the purpose of carrying on routine business pending the final appointment by AMG. Nominations should then be invited from the CLN, to whom it will be explained that AMG alone have the right to make the appointment from names approved by the Italian Government, CLN and other sources. Nominations may also be sought from other sources, e.g. the local authorities. The names of Government candidates for these two posts will be furnished by this Headquarters as soon as they are available, and local opinion should then be sought as to the possible acceptance of the Government's nominees. The appointments should not be hurried and it is much better to allow a reasonable period, say 10-14 days, to elapse so that full consideration can be given to the matter before final decision is made. In appointing a Questore great importance is to be attached to the professional qualifications of the

readiness. Purely political appointments to this important office should be avoided. The responsible SMC or PC will inform this HQ of the following details exactly they are available

a) Names of Prefect and Quarters found in use.

b) Names of Prefect and Quarters finally appointed.

Once more, it is stressed that these special circumstances apply only to the two offices of Prefect and Quarters. The Italian Government fully associates that other officials are normally local choices and AMG officers will appoint them with due regard to CIN advice.

9 The CINs must be treated with the courtesy due to their political position and their past labours. They should be received regularly by the PC and given the opportunity of expressing their views. They are at liberty to make representations to the PC or the Prefect, both of whom should seek the advice and views of the CIN whenever they think it opportune. It is however entirely a matter for the PC to consider whether, in any particular case, the advice of the CIN is to be followed or rejected. It would of course be in keeping with this directive to accept such advice except where it is in conflict with the Policy of AMG.

10 It should be added that, when a member of a CIN is appointed to an administrative position, it is better that he should resign from the CIN. There may be objections to this in individual cases and it is left to the discretion of the PC concerned. It is most desirable, however, that holders of administrative positions should be entirely divorced from the politics of the CIN.

11 It must be made plain to the Prefect and to other officials that they are the servants of AMG and can take no orders from the CIN. On the other hand, the PC must give his full support to the Prefect and the official administrators. If he no longer has confidence in his officials, the PC should take steps to remove them. The CIN must not exercise executive functions or usurp the authority of the Prefect, e.g. by making official appointments or settling up commissions of enquiry. If, after they have been duly warned and ordered to desist, the CIN persists in attempting to be executive or otherwise violate the orders of the Supreme Allied Commander as Military Governor, then, as a last resort, the PC may ignore them completely. Such an attitude is to be adopted only in case of absolute necessity, when all efforts at conciliation have failed and administration is at a deadlock.

12 There is some criticism that in parts of German Occupied Territory, where the enemy's control is slight, the CINs have set up governing bodies in each commune, elected or an informal system of universal suffrage. Such popularly elected bodies may also be met at other levels. These bodies will not be given official recognition in the official local authorities prescribed by former directives will be established as soon as possible. But every effort will be made to absorb into membership of the official authorities the members of such an elected body at the same level. If in very special circumstances in forward areas, the unofficial body is allowed to continue for a short time, it must be understood that it derives its authority from AMG and not from any popular mandate.

0864

cept such advice except where it is in conflict with the Policy of AUSA.

10 It should be added that, when a member of a CIL is appointed to an administrative position, it is better that he should resign from the CIL. There may be objections to this in individual cases and it is left to the discretion of the RO concerned. It is most desirable, however, that holders of administrative positions should be entirely divorced from the politics of the CILs.

11 It must be made plain to the President and to other officials that they are the servants of AUSA and can take no orders from the CILs. On the other hand, the RO must give his full support to the President and the official administrators. If he no longer has confidence in his officials, the RO should take steps to remove them. The CIL must not exercise executive functions or usurp the authority of the President, e.g. by making official appointments or setting up commissions of enquiry. If, after they have been duly warned and ordered to desist, the CILs persist in attempting to be executive or otherwise violate the orders of the Supreme Allied Commander as Military Governor, then, and as a last resort, the RO may ignore them completely. Such an attitude is to be adopted only in case of absolute necessity, when all efforts at conciliation have failed and administration is at a deadlock.

12 There is some indication that in parts of German Occupied Territory, where the enemy's control is slight, the CILs have set up governing bodies in each commune, elected on an informal system of universal suffrage. Such popularly elected bodies are also to be met at other levels. These bodies will not be given official recognition until the official local authorities prescribed by former directives will be established as soon as possible. 1. The occupation of Northern Italy is taking place with great rapidity. Urgent queries are already being received, and will be received, through out the 24 hours, from AMG in the North. Urgent decisions will have to be taken at any time of the day or night.

2. It is essential, therefore, that:

- (a) each Section should have a Duty Officer (available on the telephone either in the office or Mess.) functioning throughout the 24 hours;
- (b) that Vice Presidents and Heads of Sub-Commissions should be within telephonic reach, when in Rome, at all times, and should ensure that their telephone numbers are known to their respective Duty Officers.

3. Will Vice Presidents please act accordingly.

SUBJECT : Transfer of Files

TO : Provincial Commissioner, A.M.O. Naples Commune.

Reference your signal NO/1119 of 4th April, 1945, permission is hereby given for the loan of files to No. 3 District in accordance with the terms of the attached letter from P.W.U. Sub-Commission, and subject to the following conditions:-

- (i) A list of the files to be borrowed shall be prepared in duplicate.
- (ii) At the foot of the list, a statement as follows shall be inserted and signed by Captain Hibbard -
"I acknowledge the receipt on loan of the files listed above. I accept responsibility for their safe custody and for preserving them intact. I undertake either to send the files to Archives Branch before 6th July 1945, or to ask before that date for permission to retain any files required for a further period"

(iii) One copy of the signed list will be sent to Archives Branch at this R.Q. and the other will be retained by Captain Hibbard.

When the bulk of files from the P.W.U. Office, Naples, are sent to Archives, the covering lists for such files should include particulars of those loaned to Capt. Hibbard, and should indicate that they are in his possession.

SUBJECT : Transfer of Files.

TO : Archives Branch.

Ref. AIDOM NAPLES signal NG/1119 of 4th April, 1945. the position is as follows:-

About eighteen months ago, P.W.U. took over from the Military Authorities the responsibility for Military Highways; this responsibility is now being handed back to the Military Authorities. Certain projects inaugurated by P.W.U. have not yet been completed, and it is considered necessary for the Military Authorities to have access to the relevant files of P.W.U. (Naples) dealing with Military Highways.

It is believed that the filing system employed by P.W.U. Naples does not lend itself to the use of separate files for separate projects; subject files are used - each such file containing papers relating to one particular aspect of work common to several projects.

Capt. Hibbard, of the P.W.U. Office, Naples, is to be attached to H.Q. No. 3 District as Liaison Officer, and any files loaned for the convenience of 3 District would actually be held by this officer. In view of this fact, it is considered undesirable to break up the subject files in order to extract the papers relating to "live" projects. It would be better for Capt. Hibbard to borrow entire files, and thus obviate the necessity for disturbing the present arrangement of their contents.

Fresh projects should be inaugurated on the files of 3 District; any papers relating to the completion of projects already in hand should be added to the files of P.W.U. Naples, the latter being turned over to Archives as soon as they can be released.

SUBJECT: Signal Complaints

TO: Colonel Parkin, Establishment Section. ✓

Suggest notice in orders to following effect:

*TELEPHONE CALLS TO AFHQ

"Complaints are being received from offices at A.F.H.Q. that officers there are frequently called to the telephone from this HQrs. but that the caller cannot then be located. This not only wastes valuable long-distance circuit time but creates a bad impression.

(no delay on calls)
"If delay working is not being used, officers will wait until the call is completed. If delay working is being used, callers will note the ticket number of the booking, and, if leaving the office before the call has been completed, will call the booking clerk and cancel the booking. The booking clerk will state the delay to be anticipated, but it must be remembered that he can only know the circuit delay, not whether the required extension will actually be free at the time the long-distance circuit is available, and that the stated delay time cannot be relied upon with accuracy". *(delay on calls)*

I suggest that a copy of this order be sent to Brigadier General Spofford in reply to his letter.

4 April 1945

Dear Norman:

I would be grateful if you could help me on the following point with regard to long distance telephone calls from your HQ to Caserta.

My officers are complaining that it frequently happens that when the telephone operator here rings to notify them of an incoming call from Rome, they then have to wait as much as ten minutes whilst the Rome operator searches, sometimes in vain, for the officer in HQ Allied Commission who originated the call. This practice not only blocks long distance wires unnecessarily but wastes valuable time at this end and does not improve the tempers of the officers concerned.

Would you consider whether some procedure could be introduced whereby an officer originating a long distance call holds the receiver while it is completed or some other means of ensuring that he sees the call through.

Sincerely yours

1. Reference your 77/67/EST dated 9 March 1945.
2. The assignments set out in our G-5: 334-112 dated 3 March 1945 were discussed at great length at this HQ before any action was taken. They were then referred to the United Kingdom who agreed. It was after this that our G-5: 334-112 dated 5 February was written to you.
3. The Cipher Security Mission must live at Allied Commission and, as such, should come under H. Allied Commission for administration, but for technical purposes they can only function fully in their proper role if they are responsible to G-2 Section and Signal Section (SIS) at this HQ.
4. In view of this the counter-proposal in paragraph 3 of your letter under reference cannot be agreed, and the Cipher Security Mission will be made responsible as below:

STANDARD OPERATING PROCEDURE FOR SUPPLY SECURITY CONTROL1. Fencing:

a. Motor Parks not within a guarded building will be surrounded by barbed wire fencing with one entrance and one exit which will be guarded by military personnel. Special Orders preventing unauthorized persons from entering or leaving the park will be issued.

b. Ration Rooms whether they are within a mess hall or warehouse will be fenced with ordinary chicken wire wherever a probable means of entry other than a door is noticed. Door will be kept locked when room is not occupied by military personnel and only one key should be in the possession of the responsible military representative.

c. Supply Rooms (same as above)

2. Guard Towers:

a. Guard towers will be erected in the case of extremely large motor parks where lack of sufficient military guards prevails or where large quantities of supplies are stored under canvas.

3. Guards:

a. Motor parks or garages will have guards posted 24 hours per day. During the daylight hours (dispatcher may be utilized as guard provided that the motor park has only one means of entrance.

b. Ration rooms and warehouses will be guarded constantly. Guard may be a Charge of Quarters who will make tours of the premises at irregular and frequent intervals during hours of darkness.

4. Entrances and Exits:

a. Entrances and exits of all installations will have guards posted whenever practicable. If not practicable due to lack of personnel, entrances and exits will be kept locked at all times and opened only after identification of authorized personnel.

b. Office furniture such as typewriters and adding machines will be placed under lock and key upon leaving the respective office where the item is in use. Guards at exits will be instructed to examine all articles that appear large enough to cover equipment of this type.

SCP Supply Security Control (cont'd)

c. In addition to General Orders, Special Orders will be issued from time to time depending upon the necessity, locality and situation.

5. Flood lights:

a. Flood lights will be utilized on all open car parks, entrances and exits which are in function during the night. Lights will be erected high enough so that the maximum exposed area will be illuminated.

6. Traffic Control:

a. In car parks, motor pools, supply installations and exposed supply dumps, a one way traffic will be maintained wherever practicable. This will be in coordination with the entrance and exit instructions, thereby prohibiting any vehicle from exiting without surveillance from the appointed guard.

7. Pass System:

a. Pass system will be initiated in any military installation where a group of more than 15 laborers is employed. Passes should bear the name printed and the signature of both the laborer and officer authorizing the bearer entrance to the installation.

8. Guards and Laborers:

a. Guards will be checked at frequent intervals to satisfy the responsible officer that guards are fully aware of their responsibilities. Laborers who physically handle U. S. supplies must be cautioned and checked for all possible means of pilferage. A physical search prior to daily departure of each laborer will be made by an officer or the commander of the guards. Vehicles will be checked for loads, and guards will be mounted on the rear of each truck whenever possible.

9. Checks and Tallies:

a. A simple debit and credit system will be maintained on all items stocked in warehouses and a daily or weekly running inventory should be made wherever practicable.

10. Vehicle Movement of Supplies:

a. Supplies will be moved in small convoys. When drawing rations or other supplies from a warehouse, the following will apply:

- (1) A checker will be posted at the tail gate of the vehicle in order to prevent loss while loading.
- (2) A checker within the depot will check off items prior to their loading and a signature will be obtained as an acknowledgment that the items listed thereon were received and were all in apparent good condition.

SOP Supply Control (cont'd)

- (3) Armed guard will travel on rear of the truck to prevent pilferage while in transit.
- (4) The consignee will check all loads received by him during the unloading and will report all shortages, overages and damages immediately to the consignor.

11. Showdown Inspection of Troops.

a. Inspection will not only be made physically, but whenever possible, the Enlisted Men's Form #32 will be used as a basis for determining unauthorized items of government property in the hands of troops. Disciplinary action will be taken upon the initiation of a Statement of Charges for loss of property.

12. Illegal Disposition of Government Property.

a. The following is extracted from Provost Marshal General Security Instructions for the information and guidance of all concerned:

* * *

"15. Illegal Disposition of Government Property.

a. Articles of War 84 and 94 prohibit the sale, wrongful disposition, misappropriation or diversion of United States government property to unauthorized persons. In this connection, particular attention is directed to the fact that abandonment, misappropriation or bartering in any way of Army rations, gasoline and oils, captured material, clothing and equipment and Army Exchange supplies of all types fall under the provisions of these articles and Army Regulations.

b. All military personnel who observe any act of abandonment, pilferage or illegal diversion of United States government property will, without delay, apprehend the offender, obtain the name, grade, organization and serial number of the offender. They will also obtain similar information concerning witnesses, if any, and submit a detailed report of the incident to the appropriate commander having courts-martial jurisdiction. If apprehension is not possible, all information available will be obtained, and a similar detailed report of the incident will be made. The information obtained from military offenders will be checked against their War Department Identification Cards and Tags. When there is no doubt as to the veracity of information given, the individual will be turned over to the Military Police.

c. Negligence on the part of any United States military personnel in reporting crimes of this nature will be considered dereliction of duty and will be punished accordingly.

d. All commanders having courts-martial jurisdiction will issue such additional instructions as may be necessary to enforce compliance with the foregoing and will take strict disciplinary action in all cases."

SOP Supply Control (cont'd)

13. Reports.

a. Reports will be submitted as per instructions of 1st Indorsement, this headquarters, to letter, Headquarters MTOUSA, file AG 400.73/346-0, subject: "Supply Security Control", dated 24 February 1945.

SUBJECT: British Administrative Channels of Communication between

TO : President, Allied Commission, APO 394.

1. Reference is made to AFHQ Staff Memorandum No.48 of 14 May 1944 defining the responsibility and functions of the G-5 Section, AFHQ, and AFHQ Administrative Memorandum No.74 dated 10 November 1943 activating the Allied Commission.

2. Since on policy matters, the Allied Commission operates under the supervision of G-5 Section, AFHQ, it has become the practice to channel matters relating to British internal administration of Allied Commission through G-5 Section even though such matters do not directly pertain to the Civil Affairs responsibilities of G-5 Section as set out in Staff Memorandum No.48.

3. This problem has not arisen on the American side where the 2675th Regiment, Allied Commission (OVHD) is assigned to Headquarters Command, A.F., for administrative purposes.

4. It has been decided therefore that with effect from 7 March 1945 the Allied Commission will communicate direct with the appropriate staff section of this headquarters in the following matters:

<u>Subject</u>	<u>Staff Section of AFHQ Responsible</u>	<u>Staff Section of Allied Commission Responsible</u>

SUBJECT: Interviews with Italian Journalists

TO : Distribution 'A'

1. As various responsibilities are handed over to the Italian Government, the Italian press tends to get more and more information from Italian sources, and such information may not always coincide with the views of the Allied Commission. Unless the Allied Commission is willing to extend to Italian press correspondents as much patience, explanation, and information as they obtain from other sources, the Allied Commission is bound to be ignored or misrepresented by the Italian press. It is therefore felt that responsible AC officers should now make it a part of their business to interview Italian journalists when this is requested by PRO. Such interviews will no doubt occasion some misunderstandings and possibly misinterpretations, but these must be regarded as offset by the increased goodwill and understanding which should result from a better knowledge of AC subcommissions and their work by the Italian press. With a view to avoiding difficulties as far as possible, the following procedure is laid down.
2. Journalists will first approach the Public Relations Branch for permission to obtain an interview, and will submit to the PRO a list of the questions they propose to ask.
3. Subjects to be discussed will be carefully screened by the Public Relations Branch and will be kept within the strict purview of the relevant subcommission. In their interviews officers will be careful to confine themselves to factual statements as to what has been done and what is being done, but will not deal with future policy.
4. Articles written by journalists on the basis of the interviews granted will be submitted to the officer interviewed and to the PRO for review before publication.
5. Public Relations representative who will be regularly assigned to the task of arranging interviews of Italian journalists with subcommissions and of ensuring that the written articles are submitted for review in accordance with paragraph 4 above, will be Mrs. DOMETTA OXILIA, Italian civilian. She is located in Room 22, 3rd floor, tel. ext. 591.

TO : Headquarters, Allied Commission, APO 394.
(Attention: Chief Commissioner)

1. The Cipher Security Mission composed of Mr. Catty and Capt. Duke which is attached to and works under the Communications Sub-Commission of your HQ, has, if they are to carry out their functions properly, to work in very close contact with two Sections of this HQ, namely, G-2 Section and Signal Section.

2. As they are concerned with ciphers, the security of which is connected with military operations in this theatre, it is felt that they would function more efficiently from a diplomatic and military point of view if they were detached from a particular Sub-Commission (namely, the Communications Sub-Commission) and were attached for administrative purposes to your HQ generally while remaining responsible for technical purposes to this HQ direct? This suggestion is based on experience gained during the last four months.

3. The work carried out by the Cipher Security Mission is of such a nature that it is not desirable to commit it to paper in a letter of this nature but it is suggested that if you would have a personal word with Mr. Catty he would be able to give you information which would supplement the above and show the desirability for the suggestion made.

4. On hearing that you agree to the above the necessary orders will be issued from here so far as this HQ is concerned.

1. With the growing activity of the Committee of National Liberation in Sicily, the political aspect of problems at this HQ is daily assuming more and more importance. Many matters which, in the past, were not referred to Political Section because it was thought that they were non-political would now, if reviewed again, most definitely require political consideration. Indeed almost every important problem at this HQ has now some political aspect.

2. I would be glad if Sections would, in future, in considering every problem give thought to whether there is a political implication. If there is, the question should be referred to Political Section for their comments before it is put up to a higher level. The letter or signal which finally issues on this question should also be copied to them. I shall be glad if you will bring this matter to the notice of your officers.

Does it apply to the officer senior in administration such as a Regional Commissioner or Exec. Officer, or does it mean any officer attached to a Region in any other capacity such as a Provincial Commissioner, or Specialist who may be senior in rank or time in grade.

SUBJECT : Library

TO : Col. C.M. Parkin, Executive Officer (US) ACC

Colonel Fiske and Colonel Clough seem to want a report on the "present position". The reports I sent covered the period Oct 10-20, and that is in fact the "present position". I can of course have another check made, but it will, I am sure, produce the same results - i.e. that about 25-30 people a day visit the library, and in addition a varying number of requests are made (see Lt. Cashman's last two paragraphs) some of which undoubtedly entail a good deal of research.

There is however a new factor emerging since the last report. Several of the Italian Ministries and all of the Italian press are constantly pressing for facilities to see British and American newspapers and periodicals and both PWB and the British Embassy have asked our co-operation in this matter. It is obviously desirable that such facilities should, as soon as possible, be given. Members of the Commission are supplying us with a number of papers and periodicals and the Embassy is also sending newspapers.

This pressure on the library is tending to increase and I am intending to move all security documents and military reports into Room 11 so as to leave the library free for reference works, daily newspapers, periodicals and technical journals.

What is position now?

Colonel Fiske.

2

I think you may be interested to see this. I had previously had a week's check made, which gave an average of about 28 requests a day. But it is impossible, as Cashman says, to categorize this - for instance my own request for the ELAR structure proved extremely difficult and it had to be dug out of ELAR with considerable trouble. My view at present is that the library is still serving a purpose and can continue to do so, even with the staff reduced from 4 officers to EM/ORS and 18 civilians to 1 officer 2 EM/ORS and 6 civilians, - but NOT with any further reductions of 4875 staff or space.

MEMORANDUM TO MAJOR FIELDEN;

RE: The Central Reference Library

4/6

1. Herewith a continuation of the type of information requested from the Central Reference Library.

2. This in addition to the normal, routine, daily information disseminated to the various Regions requesting such information by letter.

3. In addition to the information forwarded in response to written requests, the Central Reference Library, on its own initiative, disseminates much information which is of vital interest to the Regional Commissioners.

4. I submit that some information which we disseminate here, might well be procured if certain officers exercised a modicum of intelligence and initiative; the fact remains, however, that they still address their headaches to us.

5. To illustrate the variety of requests which are addressed to us out of a clear sky, I choose at random the following from my memorandum pad:

- a) Request made by phone to furnish the date of the Casablanca Conference (Col. Pike's office).
- b) Request made by phone to furnish information on the trend of American Prices. (Economic Sec.)
- c) Request made to furnish information on a Synthetic rubber plant located in Milano.
(Mr. Porkovich - Economic Section) 4874
- d) Request for Trade and Finance Papers (American) (Economic Section).
- e) Location of 10 British Con Depot (Capt. Bissell)

6. It is not my intention to exaggerate the importance

6. It is not my intention to exaggerate the importance of the Central Reference Library or of the Information Division, nor is it my intention to infer that either or both are indispensable. I do, however, submit that so long as we continue to function we must be able to furnish the information requested. This memorandum will therefore serve to supply you with a reasonable picture of what is being done.

7. I also submit that it is virtually impossible to keep anywhere near a complete record of the numerous requests directed to us.

PUBLIC RELATIONS BRANCH

20/PWB/

19 December 1944

SUBJECT : A.C. And Italian Press

TO : Chief of Staff, A.C.

This minute is put up at the request of D.C.O.S. Est.
Seco. after the discussion which took place at the Chief of Staff's
meeting on December 19.

Our relations with the Italian Press are not, in my
view, nearly as close and cordial as they should be. There are
three main causes for this, viz:

- (1) I was warned off by Rayner of PWB when I wished to start Press
Conferences here. Rayner stated that it was the right of PWB to
contact and inform the Italian Press. Later, PWB started to hold
Press Conferences which have not been a great success.
- (2) The comparative rarity of Italian-speaking officers in the
sub-commissions makes conferences extremely difficult and inter-
views very lengthy.
- (3) There has been a general tendency to resist granting facilities
to Italian journalists, chiefly for security reasons. For
instance, when I asked Colonel Jenny to give Italian journalists
exact facts about the destruction of the hydroelectric plants
at Terni and Tivoli he strongly opposed the idea. (In fact it was
done later by PWB). Colonel Denamore, at the C.O.S. meeting of
December 19, said that we were "in too much confusion ourselves"
to grant such interviews.

In my view the time has come - concurrent with our
closer collaboration with the Italian Government and the propos-
ed replacement of UNH3 by News Agencies - for a better deal to
be given to Italian Correspondents. There is much misapprehen-
sion still in the Italian Press about the functions, intentions
and personnel of A.C. Press Conferences and Press Releases will
not correct this, partly because Italian journalists, with their
experience of the Fascist regime, view such things with suspicion,

SUBJECT : A.C. And Italian Press

TO : Chief of Staff, A.C.

This minute is put up at the request of D.C.O.3. Est. Sec. after the discussion which took place at the Chief of Staff's meeting on December 19.

Our relations with the Italian Press are not, in my view, nearly as close and cordial as they should be. There are three main causes for this, viz:

For instance, when I asked Colonel Jenny to give Italian journalists exact facts about the destruction of the hydroelectric plants at Terni and Tivoli he strongly opposed the idea. (In fact it was done later by PWB). Colonel Densmore, at the C.O.S. meeting of December 19, said that we were "in too much confusion ourselves" to grant such interviews.

In my view the time has come - concurrent with our closer collaboration with the Italian Government and the proposed replacement of UNNS by News Agencies - for a better deal to be given to Italian Correspondents. There is much misapprehension still in the Italian Press about the functions, intentions and personnel of A.C. Press Conferences and Press Releases will not correct this, partly because Italian journalists, with their experience of the Fascist regime, view such things with suspicion, partly (in the first case) owing to the language difficulty, and partly because every journalist, whatever his nationality, wants personal interviews.

- 2 -

This office is of course in close touch with the Press and it would be a very easy matter to start the arrangement of interviews for Italian Correspondents with the various sub-commissions. We should need to use interpreters but this I think could be arranged; we have two excellent ones in this Branch and could also call on the Italian Liaison Section. But the two following points must be emphasised :

(a) Publicity of this kind, whatever the control, will undoubtedly result in some indiscretions, because we cannot possibly rely on all Italian Correspondents being good boys always. In my view, however, a closer contact with and understanding of Sub-commissions would result in a very favourable balance of publicity.

(b) Heads of Sections and Sub-commissions must be prepared to give time, patience and facts to Italian Correspondents. Probably a directive from Heads of Sections or the Chief of Staff will be needed.

It seems to me that, even if risks are attached, it is very desirable to set some such procedure going now, so that Italian journalists may be encouraged to know A.C. personalities and understand their problems.

Ref. 212/66/008

SUBJECT: Miscellaneous Correspondence.

TO : DGoS Civil Affairs Section.

1. I have given consideration to the point you raised at the Chief of Staff Meeting on 1 December (Minute 12) and would like to state the principle involved.

2. There are letters constantly being received at HQ from the Italian Government and other sources the subject of which is not precisely covered by the terms of reference of any Section or Sub Commission. At one time these miscellaneous matters were dealt with by Civil Affairs Branch but now it is necessary to apply some kind of yardstick to them to decide who will take necessary action.

3. You referred to a letter from Pramus sent to you by my Staff on 29 November (4755/36/008). This dealt with the requisitioning of lodgings by Allied Forces in TARANTO and its effect on the civil population. As a welfare matter I consider this was rightly transmitted to your Section.

4. Another example at issue, I believe, is a letter from Bonomi dated 28 November sent to you for action. This refers to the troubles of the population at LIVORNO, where we know there is a difficult situation. Again, broadly, this is welfare and Civil Affairs Section must deal with it and coordinate any action necessary with Economic Section.

5. Other miscellaneous correspondence is routed by the Message Centre, the staff there using its discretion, but so nebulous is the subject of some of the letters received that occasional errors will occur. This requires some elasticity on the part of Sections so that the recipient either deals with the matter or ensures that someone else does.

Orders & Directives issued by Headquarters
Allied Commission

1. The following is published in order to clarify the contents, manner and scale of issue of the various types of instructions issued by this HQ.
2. Orders and directives of general application which are commonly issued by this HQ are of two classes (A) those which affect the civil population by regulating either its conduct or the conduct of AMG officers towards it and (B) those which are concerned only with the internal organization of the Allied Commission.

3. Of the first class, (A), there are three :

- (a) Proclamations - which declare the fundamental military law to be applied and observed in Military Government Territory and are enforceable by penalties. These are usually issued over the signature of the Military Governor or Deputy Military Governor and the populace is normally notified of the law by posting.
- (b) General Orders - these are amplifications within the framework of the fundamental military law on particular subjects and are enforceable by penalties. They are commonly prepared by the Legal Subcommittee on the facts and to the ends desired by the appropriate Subcommittee and will be issued over the signature of the Chief Commissioner. Publication is normally made by posting but in suitable cases may also or alternatively be made by notification in the press. General Orders are usually prepared in advance to meet possible requirements but are not normally put into effect in the field without instructions from this HQ.

- (c) Executive Memoranda - contain the detailed administrative instructions needed to implement Proclamations and General Orders; they are also the means of issuing instructions on other administrative matters which have to be put into effect by AMG officers for the good administration of Military Government Territory. They are of the nature of detailed instructions regulating the conduct of affairs by AMG officers and prescribe procedure and formalities. They impose no penalty. They are commonly prepared by the Subcommittee concerned and will be issued over the signature of the Chief of Staff. Publication is to Allied Commission organization only, by circular letter and normally with distribution "A".

They are commonly prepared by the Legal Subcommission on the facts and to the ends desired by the appropriate Subcommission and will be issued over the signature of the Chief Commissioner. Publication is normally made by posting, but in suitable cases may also or alternatively be made by notification in the press. General Orders are usually prepared in advance to meet possible requirements but are not normally put into effect in the field without instructions from this HQ.

They are commonly prepared by the Subcommission concerned and will be issued over the signature of the Chief of Staff. Publication is to Allied Commission organization only, by circular letter and normally with Distribution "A". For the sake of uniformity it is frequently arranged that the Italian Government issues similar instructions simultaneously for their officials in Italian Government Territory.

4. Of the second class, (B), there are also three:

- (a) Executive Orders - lay down the fundamental framework of the Allied Commission, carry out major changes in its organization and are a means of announcing major appointments; these include all senior administrative positions of the Commission, the appointment of Vice Presidents and Heads of Sections, Subcommissions, Regional and Provincial Commissioners. They are prepared by the Establishment Section and issued on Distribution "A". As a matter of general policy, only those orders which announce the creation of a new Section or Subcommission, the appointment of Heads of Sections, Subcommissions, and Regional Commissioners will be signed by the Chief Commissioner. All other orders, such as the transfer of a division of a Subcommission or the appointment of Provincial Commissioners, will be authorized by the Adjutant in the normal manner.

(b) /.....

- 2 -

(b) Establishment Memoranda - effect minor changes in the organization of Allied Commission within the framework laid down by Executive Orders. They also deal with the regulation of the internal organization and personnel of Allied Commission; such for instance as office, equipment, transport and the like. They are prepared by and issued over the signature of the DCS, Establishment Section, on Distribution "A".

(c) Office Memoranda - are concerned with details of administration of HQ Allied Commission itself, and deal with office procedure and similar matters. They are prepared by and issued over the signature of the Adjutant, Distribution "A".

(1) Group 1 consisting of all Sections, Branches, and Sub-Commissions of Headquarters, and Civil Affairs Section Headquarters, APO.

1. Attached Distribution List No. 3 supersedes Distribution List No. 2 (and all amendments thereto) forwarded under letter, this Headquarters, AAF 161 dated 5 August 1944, which is hereby cancelled.

2. Amendments to Distribution List No. 3 will be published in Daily Bulletin, this Headquarters, periodically, as and when effected. Requests for increase or decrease in number of copies or notification of any other desired amendments will be made to the Office of the Chief of Staff, this Headquarters.

3. The following information concerning the new Distribution List is furnished for the guidance of all concerned:

- a. List "A" provides the normal distribution for all operational and administrative publications of the Allied Commission.
 - b. List "B" provides a limited distribution for Headquarters AG, Regions, AMG Armies and certain outside authorities. (This list is used for distribution of Special Orders).
 - c. List "C" is a limited internal distribution for Headquarters AG only.
 - d. List "D" is for publications of general interest requiring the widest distribution, covering all Serials in Groups I and II and Serials 77 and 85 in Group III. (This is used for Daily Bulletins).
 - e. All four lists include Civil Affairs Section, Headquarters ^{AMG} 49
- a. The lists have been divided into the following three groups:
 - (i) Group 1 consisting of all Sections, Branches, and Sub-Commissions of Headquarters, and Civil Affairs Section Headquarters, AAF.
 - (ii) Group 2 consisting of the Regions, and AMG 5th and 8th Armies.
 - (iii) Group 3 consisting of the outside authorities with which the Allied Commission principally deals, other than Headquarters AAF which receives through the Civil Affairs Section, at HQ, AAF.

- b. A serial number has been allotted to each recipient indicated in Column 1.
- c. The object of 4 a and b above is to give originators of correspondence an easy means of cutting down the distribution to what is actually necessary.

DISTRIBUTION:

1 Copy each serial.

31 October 1944

SUBJECT: Conduct of Correspondence.

TO : Deputy Chief of Staff,
Economic Section.

1. In accordance with the declared policy of this Headquarters and in order to provide the maximum number of staff for Finance Divisions in the Regions, personnel of this Sub-Commission have been reduced to the absolute minimum required satisfactorily to perform the Headquarters functions.

2. To function effectively with, as at present, the minimum of staff, it is highly desirable that the maximum period of time be allowed for reports, returns, etc., called for by higher authority. Returns and reports called for as a matter of urgency, and requiring priority and special attention, are extravagant of man-power with the present shortage of personnel and are to the detriment of other work, which is probably as important but to which no particular degree of urgency has been attached. Consideration should also be given to the fact that the quality of reports, etc., is also liable to suffer as a result of insufficient time being allowed for proper consideration and compilation.

3. It is fully appreciated that in some instances it may be necessary to call urgently for certain information, but this letter is put forward as a plea that this be done as an exception, rather than as the general rule, as at present.

CORRESPONDENCE AND FILES

In order to achieve a uniform system for the handling and presentation of correspondence in this Headquarters and thus make for more efficiency, the following procedure will be adopted forthwith in all Sections, Sub-Commissions and in the Public Relations Branch.

1. INCOMING CORRESPONDENCE.

All correspondence will be put on a file as soon as possible after receipt, having been entered in a register suitably columned to record:

- (i) Reference number of office of origin.
- (ii) Office of origin.
- (iii) Date of origin.
- (iv) Date of receipt.
- (v) Subject.
- (vi) Number of file and folio number of document.

2. FILES.

- (a) All files will have a number and the department of origin will be indicated by a suffix, e.g. on Chief of Staff files, COS follows all numbers.
- (b) The subject of the file will appear boldly on the outside cover.
- (c) The security classification of the most highly classified enclosure will appear on the outside cover.
- (d) The following file records will be kept:

- (i) Alphabetical index.
- (ii) Numerical index.
- (iii) Register of date of receipt, and return, of files from other departments.
- (iv) Register of date of sending out, and return, of own departments' files.

4. CORRESPONDENCE FOR THE SIGNATURE OF THE ACTING CHIEF COMMISSIONER OR CHIEF OF STAFF.

- (a) All correspondence will be submitted, suitably minuted, on a file with relevant references prominently flagged.
- (b) Two extra copies are required for the C.O.S. Office.
- (c) Specimen letters for signature by Acting Chief Commissioner and Chief of Staff are appended at Annexures "A", "B", "C" and "D" hereto.
- (d) The original with file and all copies (except the two for C.O.S. Office) will be returned to the department of origin, who will arrange despatch.

5. DRAFTS FOR THE APPROVAL OF ACTING CHIEF COMMISSIONER AND CHIEF OF STAFF.

As in the case of correspondence in final form, drafts will be submitted, suitably minuted, on a file and all relevant references prominently flagged.

Drafts, when approved, must be prepared for signature by the department of origin.

6. OUTGOING CORRESPONDENCE.

All OUTGOING CORRESPONDENCE will have a reference number composed of (a) number of the file (b) folio number of the particular letter (c) suffix showing department of origin, e.g. 1304/72/CDS. It will be entered in a register suitably columned to record:

- (i) Reference number.

OFFICE INSTRUCTIONS.52. CIVIL AFFAIRS STAFF - HQ AAI(a) APPOINTMENT

A Civil Affairs Section has been established at HQ AAI under the control of the Deputy Chief Civil Affairs Officer, Allied Control Commission.

(b) FUNCTIONS

The officer holding this appointment is the representative at HQ AAI of the Chief Commissioner, Allied Control Commission. He is at the disposal of the Commander-in-Chief AAI for consultation on all matters connected with civil affairs in the area administered by the Commander-in-Chief as Deputy Military Governor.

(c) RELATIONS WITH BRANCHES AND SERVICES, HQ AAI.

The Deputy Chief Civil Affairs Officer and his staff are available for consultation by Branches and Services on any matters connected with civil affairs in AAI operational zone.

Normally matters of policy or routine should be referred direct to HQ Allied Control Commission, if necessary after consultation with Deputy Chief Civil Affairs Officer or his staff; matters requiring urgent decision should be referred to Deputy Chief Civil Affairs Officer or his staff.

(d) RELATIONS WITH ARMIES AND FORWARD REGIONS.

Army AMG Sections and Forward Regions will continue to seek and take their general directions from HQ Allied Control Commission. Deputy Chief Civil Affairs Officer will, however, be in a position and has authority to give directions on urgent operational requirements.

(e) COMPOSITION OF CIVIL AFFAIRS SECTION.

The Section will be composed as follows:-

- (1) Deputy Chief Civil Affairs Officer - Col NELSON W. MONROE, AUS.
- (11) Chief Staff Officer - - - - - Lt Col. P. PHILIP JAMES, and representatives of

(111) Economic Section AGC.

Serial 2.

1. MINUTES.

All minutes on files will be numbered by the initiating officer.
In numbering the minute the number to be used will be the one following the last folio on the file, so that the next folio number will be that following the number of the minute, if one has been made.

This system has the advantage that if on reference to the file a folio number is missing it automatically directs attention to a minute on the subject contained on the lefthand side inside the file.
