XV. PETROL POINT:

The facilities available for drawing POL at the RAC ED on Route 4 closes w.e.f. 31 December 45. Nearest Petrol Point is at FOLIGNO.

XVI. COURSES - SCHOOL OF MECHANICS: (BR Units Only)

It has been reported by the School of Mechanics, CMF, that students who are due or overdue for LIAP are being sent on courses. This is most undesirable as the student arrives at the School dissatisfied and greatly concerned over the possibilities of losing his chance of leave due to the course. This particularly applies to the Dvr Mech and Veh Mech Courses, the latter being of 3 months duration.

A student who is dissatisfied on this account is likely to fail the course and is a disturbing element so far as other students are concerned. It may even be necessary to send him on LIAP from the School before he qualifies, in which case a vacancy is wasted.

Units, therefore, will not send students on courses if they are due for LIAP. (G-3 Br)

XVII. MILITARY TELECOMMUNICATIONS NETWORK:

It has been ruled by the Supreme Allied Commander that it is the policy of the Allied military authorities to return to the Italian Government sufficient telecommunication facilities to enable the latter to exercise normal governmental functions. This inevitably means the reduction of the military telephone network. It is, therefore, urged that in order to reduce the traffic load on the military telephone network further use be made of the military telegraph system. (G-3 Br)

XVIII. COURSES UK - AIR LIAISON OFFICERS: (BR Units Only)

To meet theatre requirements for Air Liaison Officers up to Sep 46 two ALO courses are to be run in UK, commencing probably early Feb and mid-Mar 1946. Candidates will return to this theatre and should be Regulars, potential Regulars, or of late Release Groups. Qualifications required of candidates are as shown in this headquarters 136/G-3 (Br) of 8 Sep 45, less para 2 (b). Nominations will reach this headquarters not later than 27 Dec, and application Forms, on reverse of the above-quoted letter, not later than 3 Jan 46.

INSTRUCTIONS FOR OFFICERS ACTING AS MILITARY COMMANDERS IN CHARGE OF TROOPS EMPLOYED IN AID OF THE CIVIL POLICE IN ITALIAN GOVERNMENT TERRITORY.

1. It may happen that cases will occur when the local Italian authorities may ask for the assistance of Allied Troops to quell civil disturbances.

2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied Military interests. He will point this out to whomsoever makes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives assistance the territory in question will forthwith become an Allied Military Zone.

3. After receiving such a request the local commander will, if time permits, consult the local AC officer a nd seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken whereon without delay.

4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is HQ Rome Area Allied Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.

5. Within Rome Area Allied Command but outside the City limits, any officer who received such a request for assistance will, if time and circumstances permit, similarly refer the request to this headquarters In the event of emergency, however, when in the judgment of the Offic concerned circumstances do not admit of the delay involved in referrin the matter to this headquarters, he will act on his own initiative but will invariably report action taken a t the earliest possible moment.

6. Firearms will only be employed when the military commander is of the opinion that loss of Allied lives or the destruction of valuable installations will result unless drastic measures are taken.

7. If firearms are used the following procedure will be adopted excep in the case of the gravest emergency:

a. The intention that firing is about to take place will if possible be made clear to the rioters. A line of levelled rifles is the clearest possible indication. If possible some announcement should be made that unless the crowd disperse within a stated period they wil be fired on.

b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.

c. A limited number of rounds will be fired from each rifle and that number clearly stated before the order to fire is given.

d. The soldiers detailed to fire will if possible concentrate their aim on the ringleaders or apparent ringleaders and will not fire indiscriminately into the crowd.

e. Shots will not be fired over the heads of the crowd, and blank rounds will not be fired.

f. Automatic weapons (including TMC (Br), TMB (US), and Grenades will not be used in any circumstances.

g. All precautions will be taken to prevent the shooting of women and children.

h. Firing will cease as soon as it becomes effective.

USE OF TEAR GAS - CIVIL DISORDERS

OBJECT

1. The employment of Tear Gas is authorised for the purpose of dealing with civil disorders subject to the conditions laid down in the following paragraphs.

2. The use of Tear Gas may be justified in circumstances which would hardly warrant opening fire. Officers i/c Troops employed in circumstances of civil disorder must therefore always keep watch on the changing temper of a mob, bearing in mind that this temper is liable suddenly to deteriorate, and must judge of the moment when the use of Tear Gas is calculated to stop it from getting out of control, and to obviate the necessity for opening fire.

POLICY

3. The employment of Tear Gas, having been authorised in principle by higher authority, powers to order its employment are vested in the Commanding General, Rome Area Allied Command.

4. The Commanding General, Rome Area Allied Command will therefore:

a. designate units or parts thereof to draw, hold and employ Tear Gas.

b. issue orders to commanders of specific units detailed as protective units when alerted, either wholly or in part, to carry Tear Gas,

c. issue general orders to the commanders of those protective troops authorising the employment of Tear Gas.

METHOD

5. Tear Gas will never be used by any troops other than those detailed in accordance with para 4 above, and as given in para 6 below.
It will never be used until after the issue of a general order by HQ Rome Area Allied Command in accordance with para 4 (c) above.
The executive order for the use of Tear Gas will only be given by an officer.

6. Tear Gas will be drawn and held only for use by:

a. US and British Military Police.
b. Personnel of Emergency Column.
c. Mobile Reserves.

7. Personnel of static guards will [illegible]

8. On receipt of code word "THUNDER" all personnel detailed for protective duties in this Operations Memorandum (indl static protective detachments) will wear respirators/masks, service, gas in the alert position.

9. a. Tear Gas will be stored separately and well away from dumps of ammunition and explosives and away from quarters and premises in use b personnel.

b. Tear Gas may be stored in water-tight boxes and buried, should it not be possible to segregate it by other means.

c. Storage will be checked at regular intervals to ensure that leakage does not occur.

VIII. LETTER MTOUSA TO BRIGADIER GENERAL BROWN FROM MAJOR GENERAL C.B. MAGRUDER DATED 16 OCTOBER 1945, IS PUBLISHED HEREWITH FOR YOUR INFORMATION: US Units Only)

The arrangements for the reception, transportation, and billeting of the Army Service Forces Oversea Advisory Committee in Rome during the period 9 October inclusive 1945 were especially well handled.

The committe expressed pleasure at the courtesy and hospitality rendered. I wish to take this means to express apreciation for the attention shown these important business consultants.

The assistance rendered by Captain Joseph F. Lamper and Captain James T. Albritton, the personnel of the motor pool, and the military staff of the Grand Hotel was noteworthy.

CARTER B. MAGRUDER,
Major General, U.S.A.

IX. COURSES: ARMY SCHOOL EDUCATION (Br Units Only)

Units will forward requirements for courses to be held at Army School of Education, CMF, as under:-

APPENDIX 'R' TO OPERATIONS MEMORANDUM NO 15

USE OF TEAR GAS - CIVIL DISORDERS

OBJECT

1. The employment of Tear Gas is authorised for the purpose of dealing with civil disorders subject to the conditions laid down in the following paragraphs.

2. The use of Tear Gas may be justified in circumstances which would hardly warrant opening fire. Officers i/c Troops employed in circumstances of civil disorder must therefore always keep watch on the changing temper of a mob, bearing in mind that this temper is liable suddenly to deteriorate, and must judge of the moment when the use of Tear Gas is calculated to stop it from getting out of contorl, and to obviate the necessity for opening fire.

POLICY

3. The employment of Tear Gas, having been authorised in principle by higher authority, powers to order its employment are vested in the Commanding General, Rome Area Allied Command.

4. The Commanding General, Rome Area Allied Command will therefore:

a. designate units or parts thereof to draw, hold and employ Tear Gas,

b. issue orders to commanders of specific units detailed as protective units when alerted, either wholly or in part, to carry Tear Gas,

c. issue general orders to the commanders of these protective troops authorising the employment of Tear Gas.

METHOD

5. Tear Gas will never be used by any troops other than those detailed in accordance with para 4 above, and as given in para 6 below.
It will never be used until after the issue of a general order by HQ Rome Area Allied Command in accordance with para 4 (c) above.
The executive order for the use of Tear Gas will only be given by an officer.

6. Tear Gas will be drawn and held only for use by:

a. US and British Military Police.
b. Personnel of Emergency Column.
c. Mobile Reserves.

7. Personnel of static guards will not be authorised to use Tear Gas.

8. On receipt of [illegible]

SUBJECT:- Marriages US - British Personnel

DISTRIBUTION :- List "B" (British).

Reference this HQ letter 73A/Pol of 28 Sep 45.

1. The following information has now been received.

"American Consular Officers are forbidden by Executive Order to perform marriages.

With reference to the validity of marriages, the Department of State recognises, for the purpose of citizenship and Passport services, marriages between Americans and Aliens if they are performed in accordance with the law of the country in which the marriage takes place.

American Consular Officers are authorised to act as official witnesses at a marriage ceremony, when requested, provided that one of the contracting parties is a citizen of the United States, and provided that the Consular Officer has assured himself that the requirement of the law at the place of celebration has been complied with. The presence of a Consular Officer at the marriage is purely optional and has no effect upon the validity of the marriage".

SUBJECT:- Marriages US - British Personnel.

DISTRIBUTION :- List 'B' (British).

1. There is still some doubt arising as to the validity of marriages contracted in this theatre between personnel of the American Forces and British females of the ATS and other Women's Services.

2. The Judge Advocate Mtousa has ruled that the only marriages which are valid in this theatre are those performed in front of the American Consul. The point of issue as to whether those married according to the Italian Civil Law are valid is being explored on a very high level.

3. In future therefore, until a new Directive is issued all marriages between American Officer or Enlisted Man and an ATS or other British female will be performed by the American Consul and a Church Ceremony will be used after, if wanted.

APPENDIX 'H' TO OPERATIONS INSTRUCTION NO. 15

INSTRUCTIONS FOR OFFICERS ACTING AS ITALIAN COMMANDERS IN CHARGE OF TROOPS EMPLOYED IN AID OF THE CIVIL POWER IN ITALIAN PO/ADRIATIC TERRITORY

1. It may happen that cases will occur when the local Italian authorities may ask for the assistance of Allied Troops to quell civil disturbances.

2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied Military interests. He will point this out to whomsoever makes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives such assistance the territory in question will forthwith become an Allied Military Zone.

3. After receiving such a request the local commander will, if time permits, consult the local AC officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.

4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is H.Q. Rome Area Allied Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.

5. Within Rome Area Allied Command but outside the City limits, any officer who receives such a request for assistance will, if time and circumstances permit, similarly refer the request to this Headquarters. In the event of Emergency, however, when in the judgment of the Officer concerned circumstances do not admit of the delay involved in referring the matter to this Headquarters, he will act on his own initiative but will invariably report action taken at the earliest possible moment.

6. Firearms will only be employed when the Military Commander is of the opinion that loss of Allied lives or the destruction of valuable installations will result unless drastic measures are taken.

7. If firearms are used the following procedure will be adopted except in the case of the gravest emergency:

a. The intention that firing is about to take place will if possible be made clear to the rioters. A line of levelled rifles is the clearest possible indication. If possible some announcement should be made that unless the crowd disperses within a stated period they will be fired on.

b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.

c. A limited number of rounds will be fired from each rifle and that

a. The intention that firing is about to take place will if possible be made clear to the rioters. A line of levelled rifles is the clearest possible indication. If possible some announcement should be made that unless the crowd disperses within a stated period they will be fired on.

b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.

c. A limited number of rounds will be fired from each rifle and that number clearly stated before the order to fire is given.

d. The soldiers detailed to fire will if possible concentrate their aim on the ringleaders or apparent ringleaders and will not fire indiscriminately into the crowd.

e. Shots will not be fired over the heads of the crowd, and blank rounds will not be fired.

f. Automatic weapons (including T 3 (Br), T 3 (US)) and grenades will not be used in any circumstances.

g. All precautions will be taken to prevent the shooting of women and children.

h. Firing will cease as soon as it becomes effective.

TO : Distribution 'B' (UC & Br)

1. Rome Area Allied Command Daily Bulletins 206 (IV) dated 30 August 1945 and 208 (III) dated 3 September 1945 refer.

2. ALL Allied calls for assistance at FIRES hitherto made on 615 (First Class) Army Fire Bde TELL, WITH EFFECT the date of this order, be made on:

ITALIAN CIVIL FIRE SERVICES

Telephone: DIAL 471555, 471304, 473010.

3. English speaking personnel are available on these telephone numbers, but should response be in Italian, then demand to speak to English speaking operators must be made.

4. Always give name or number of unit, and location CLEARLY, SLOWLY and IN FULL. This is important.

5. Unit commanders will ensure that an officer is always available to liaise with, and, as may be necessary, to assist Italian Fire Services in carrying out their task.

6. Due to the withdrawal of Army Fire Services, all units will take immediate action to review and overhaul their fire protection schemes so as to ensure the highest degree of domestic fire cover, and will make sure that the procedure to be followed is understood by ALL ranks.

7. All unit commanders are hereby instructed to permit entry to unit lines and premises by Italian Fire Service personnel for the purpose of making reports and fire inspections at and when called upon. Without the full cooperation of units in this matter, little will be achieved; therefore, it is essential to Allied interests that this order is complied with at all times.

IX. ICE CREAM MANUFACTURING: (US Units Only)

There are no civilian ice cream plants in the city of Rome approved for military use with the exception of the Red Cross Fassi Plant, and those in military billets with military supervision. Units will not use civilian ice cream plants. Ice cream will soon become a Quartermaster issue to all units from the ration point. (Surgeon)

X. VETTING:

Complaints have been received concerning the slowness with which security vettings are completed.

It should be realised that the volume of vettings required is very large in this Command, and that there are only few security personnel available to carry out this work.

Delays are, however, being caused by units who fail to give the necessary particulars concerning the subject to be vetted.

In all cases the full name and address, together with the name of the father and the mother of subject, must be given.

All requests for vetting should be addressed to 276 Field Security Section, CMF. (G-3)

SUBJECT: Transportation of Italian Service Personnel. 5 July 45

DISTRIBUTION: List 'B' British.

1. Owing to shortage of transport the greatest difficulty is being found in moving Italian Army personnel when proceeding on leave or demobilization. Moreover British and American drivers are often unwilling to give lifts to Italian Army personnel, so that the difficulty of their reaching their homes and returning on time to their units is considerable. Lack of leave is the main cause of absence in the Italian Army.

2. In view of the fact that a considerable amount of Allied transport is constantly moving empty, it is considered that Italian personnel could be moved by local arrangements with Allied Commanding Officers.

3. Unit Commanders are directed therefore that they should, if approached by Italian commanding Officers, give every assistance to facilitating the movements of properly authorized Italian Army personnel, when such assistance will not interfere with the mission of the transportation concerned.

VI- UNITED STATES MILITARY ACADEMY- 1. Enlisted men to be informed. The provisions of this section will be brought to the attention of all enlisted men without delay.

2. General.-Enlisted men of the Army of the United States who posses the qualifications prescribed herein are eligible to make application for selection to compete for admission to the United States Military Academy to fill vacancies allotted to enlisted men of the Army of the United States for admission on 1 July 1946. Quotas will be allocated by the War Department in a separate communication to the commanding general of each service command and theater of operations. Those selected will be issued letters of appointment authorizing them to undergo special preparatory training in the United States and to report for the regular entrance examination on 5 March 1946 which they must undergo competitively. The available vacancies will be awarded to those physically qualified competitors making the highest proficient averages in the order of merit established at the examination mentioned without regard to the service command or theater of operations from which selected.

3. Applications.-Enlisted men who are eligible as prescribed herein may make application immediately by letter, through military channels, to the commanding general of the service command or theater of operations in which they are serving. Each application must contain all essential information concerning the applicant's qualifications and a statement that he desires to enter the United States Military Academy Preparatory Training Program, to become a cadet of the United States Military Academy, and, upon graduation, to become an officer in the Regular Army. The immediate commanding officer of each applicant will determine that a report of physical examination in triplicate is attached to each application (see par. 5j).

4. Responsibility.-In accordance with the general instructions contained in this circular and under such detailed procedures as they may prescribe, commanding generals of service commands and of theaters of operations are responsible for the selection of candidates within the geographic boundaries of their commands who make application in writing to their headquarters without regard to the jurisdication of troops. To insure the selection of enlisted men of the highest type, personal supervision of the

4. Reaponsibility.-In accordance with the general instructions contained in this circular and under such detailed procedures as they may prescribe, commanding generals of service commands and of theaters of operations are responsible for the selection of candidates within the geographic boundaries of their commands who make application in writing to their headquarters without regard to the jurisdication of troops. To insure the selection of enlisted men of the highest type, personal supervision of the selection process by appropriate commanding generals of service generals is enjoined. Direct correspondence between commanding generals of service commands or theaters of operations and commanding officers of troops not under their jurisdiction is authorized in carrying out the provisions of this circular. Each echelon through which an application is submitted will expedite its processing. In the past applications have been received too late for consideration because of unwarranted delays occasioned by failure to act promptly on such applications.

c. Marital status.-The candidate must be unmarried and must never have been married.

d. Army General Classification Test.-The candidate must have attained an Army General Classification Test score of 135 or higher.

e. Previous education.-The candidate must have graduated from high school or achieved the equivalent education. It is desirable but not mandatory that the high school education or its equivalent include high school algebra and plane geometry.

f. Character.-The candidate must be of excellent character.

g. Capacity for leadership.-The candidate must be considered to possess the capacity for leadership required for an officer of the Army. The record of the applicant's military training and any subsequent performance in campaign or battle will be carefully explored in judging his ability to lead others. Where opportunities for demonstration of such ability have been limited, consideration will be given to the judgment of the applicant's immediate superiors as to his latent capabilities and to his record as a student, an athlete, or an employee prior to entering the military service.

h. Service.-The candidate must have completed 1 full year of active enlisted service as of 1 July 1946, the date of admission to the United States Military Academy, and be in an active enlisted status on that date. Prior enlisted service may be considered in determining an applicant's eligibility.

i. Desire for service.-The candidate must at the time of the interview prescribed in paragraph 6a express a strong desire to participate in the United States Military Academy Preparatory Training Program, to enter the United States Military Academy, and to become a commissioned officer of the Regular Army.

j. Physical qualifications.-The candidate must meet the physical requirements for entrance to the United States Military Academy as outlined in AR 40-100 and AR 40-105. An enlisted man who possesses all of the foregoing qualifications will be physically examined and report thereof will be recorded in triplicate on WD AGO Form 263. The number of enlisted men selected from the Army of the United States as candidates for the United States Military Academy who did not meet the required physical standards in past years is entirely without justification. However, enlisted men who physical qualifications are doubtful or

Declassified E.O. 12356 Section 3.3/NND No. 785015

g. Capacity for leadership.-The candidate must be considered to possess the capacity for leadership required for an officer of the Army. The record of the applicant's military training and any subsequent performance in campaign or battle will be carefully explored in judging his ability to lead others. Where opportunities for demonstration of such ability have been limited, consideration will be given to the judgment of the applicant's immediate superiors as to his latent capabilities and to his record as a student, an athlete, or an employee prior to entering the military service.

h. Service.-The candidate must have completed 1 full year of active enlisted service as of 1 July 1946, the date of admission to the United States Military Academy, and be in an active enlisted status on that date. Prior enlisted service may be considered in determining an applicant's eligibility.

i. Desire for service.-The candidate must at the time of the interview prescribed in paragraph 6a express a strong desire to participate in the United States Military Academy Preparatory Training Program, to enter the United States Military Academy, and to become a commissioned officer of the Regular Army.

j. Physical qualifications.-The candidate must meet the physical requirements for entrance to the United States Military Academy as outlined in AR 40-100 and AR 40-105. An enlisted man who possesses all of the foregoing qualifications will be physically examined and report thereof will be recorded in triplicate on WD AGO Form 263. The number of enlisted men selected from the Army of the United States as candidates for the United States Military Academy who did not meet the required physical standards in past years is entirely without justification. However, enlisted men who physical qualifications are doubtful or who may have correctible defects may be recommended and if selected the reports of their physical examinations will be reviewed and final determination will be made by the War Department as to their physical qualifications.

6. Selection procedures.-a. Interview.-The selection procedures prescribed by the commanding general of the service commandor theater of operations will provide that each applicant under consideration be carefully interviewed with respect to his antecedent history, ideals, ambitions, and general attitude toward the Military service. During the interview the candidate will be advised that if he is admitted to the United States Military Academy he will be discharged as an enlisted man to take his oath as a cadet, and that such action obligates him to serve for a period of 8 years, unless sooner discharged by competent authority

b. Verification of qualifications.-Officers who are authorized by commanding generals to recommend enlisted men for selection as candidates for the United States Military Academy will be specifically charged by the appropriate commanding generals with responsibility to insure that all candidates recommended by them are fully qualified under the provisions of paragraph 5. Candidates who have doubtful physical qualifications or correctible physical defects are excepted from the provisions of this paragraph as indicated in paragraph 5j.

c. Reports.-Not later than 15 July 1945, commanding generals of service commands and of theaters of operations will report the name, grade, Army serial number, age, organization, and station of each selected candidate to The Adjutant General by TWX or radio, Attention: SPAFM. The written application and report of physical examination will be forwarded via air mail through channels to The Adjutant General, Attention: USMA Section. The commanding generals of service commands and theaters of operations will return the applications of those candidates who are notselected within the allocated quotas. Each such candidate will be informed that his application was eliminated when considered in connection with all other applications received from that command or theater.

d. Instruction to candidate.-A selected candidate, whose name has been reported to The Adjutant General in accordance with c above, will be instructed to procure immediately a certified copy of his birth certificate showing date of filing and to forward it direct to The Adjutant General, War Department, Washington 25, D. C., Attention: USMA Section, indicating in his letter of transmittal that it is being filed in support of his application for admission to the United States Military Academy. The selected candidate will be advised that his failure to provide The Adjutant General with a certified copy of his birth certificate may preclude his admission.

7. Selected overseas.-Enlisted men who are serving in overseas theaters of operations at the time of their selection as candidates for the United States Military Academy will be returned in grade to the continental United States, under instructions to be issued by The Adjutant General, to arrive not later than 1 September 1945 but not earlier than 15 August 1945.

c. Reports.-Not later than 15 July 1945, commanding generals of service commands and of theaters of operations will report the name, grade, Army serial number, age, organization, and station of each selected candidate to The Adjutant General by TWX or radio, Attention: SPAMH. The written application and report of physical examination will be forwarded via air mail through channels to The Adjutant General, Attention: USMA Section. The commanding generals of service commands and theaters of operations will return the applications of those candidates who are notselected within the allocated quotas. Each such candidate will be informed that his application was eliminated when considered in connection with all other applications received from that command or theater.

d. III. EXCESS PUBLICATIONS: (US Units Only)

A critical shortage of Field and Technical Manuals has arisen in this theater due to the increase in redeployment training and the necessity for shipment of appropriate publications together with equipment leaving this theater.

It is therefore desired that all units of this command return to the 2602 Publications Depot, APO 790, all excess current WD publications no longer required. Publications will be segregated by type and number, securely wrapped and dispatched by Army Postal Service to the above address. (AG)
