Please give following further information for our guidance. At conference held in ROME Monday 13 August following proposed vehicle establishment was circulated with agenda. For AMG UDINE 1 staff car 3 cars light utility 26 jeeps 3 lorries 3 ton plus 4 vehicles for US Company HQ. For VENEZIA liaison group including displaced persons 1 staff car 4 cars light utility 23 jeeps 3 lorries 3 ton. Vehicles for proposed BOLZANO liaison group not settled at conference. An assuming provision of these vehicles is first charge on our existing holding. My notes of conference record that captured vehicles could be held in place of jeeps. In view greatly reduced dependability propose holding 1 and half requisitioned or captured vehicles against 1 WD vehicle on establishment until WD are available for issue.

1. As you know, the two regions concerned are equipped with U.S. vehicles and we shall probably soon receive similar demands from Venesia, which is equipped with British vehicles.
2. You will have observed that 22 vehicles are required, so presumably at least 22 officers are earmarked. If we knew what these officers are doing now, we might find they are using vehicles today which could go with them.
3. Availability from G-4 (B) depends on issues between now and the time when these regions are occupied.
4. At present we have not sufficient vehicles in the pool to cope with Venesia when they need vehicles.
5. Investigation as in para. 2 might produce something, otherwise I can only suggest awaiting new issues, or taking impressed vehicles out of the Headquarter Pool.

HEADQUARTERS PIERMONT REGION, AMO, APO 394, U. S. ARMY, 17 JANUARY 1945

TO: Headquarters Allied Commission, (Att: 0-4)

1. The number of vehicles requested in the basic letter cannot be met out of the transportation allotted to this Headquarters.
2. A careful survey of the situation and plans indicate that there will be required immediately upon entry into the Region 10 of the vehicles required and the remainder 5 days after entry. The availability of these vehicles at the proper time will be essential if roads, bridges, aqueduct systems, electrical generating plants and lines and communication lines are to be serviced. Without this service these utilities will not function and the AMO/AC Organization will be subject to criticism.
3. Therefore it is requested that the vehicles requested be made available from either military transport or civilian transport in operating condition.

TO : Acting Deputy-Chief of Staff

FROM : P.W. & U. Sub-Commission.

1. I am attaching hereto some correspondence received from the Regional Engineer of Abruzzi-Marche Region regarding his difficulties in obtaining automobiles for his staff. I note particularly that, in the letter of 13th December 1944, the Regional Transport Officer states that he is unable to furnish cars " due to prohibition of further requisitioning".

2. In view of the fact that all Engineer Officers, whether at Headquarters or in Regions, must be able to go to the scene of their activity to make inspections and to carry out their duties, it must be obvious that they just cannot function and be held responsible for the tasks assigned to them, if they have no means of reaching locations of projects.

3. Col. Latimer asks that a passenger car, preferably a WD car, be assigned to his Region for the use of one of his officers. Will you please see what can be done to either : -

- (a) permit Regional Officers to requisition cars locally which would be the simplest way, or
- (b) to furnish transportation from A.C. Headquarters and advise me accordingly.

Dear Dusty,

1. Thank you for your letter of 21 March 1945. I much appreciate you writing to me personally.

2. Regarding the staff car I feel sure that you do not know that the Executive Commissioner promised Colonel Monfort that the Ford staff car would be exchanged for a Hummer Snipe when you received a new quota of cars that were expected shortly.

3. If the British personnel had been transferred to the W.E. of Headquarters 15th Army Group it would have been their responsibility to supply adequate transportation for Lt. Col. Stewart and myself which S.D. had promised to do.

4. As however we are remaining on the strength of Allied Commission, it is their responsibility to provide adequate transportation.

5. The Ford staff car is old and although it has been driven well and kept by Dvr. Harvey who has taken a pride in his job and who has been with me for over a year, at the same time it is not in good condition, far from it. Nevertheless it is preferable to a P.U. or Jeep and if there is not a new Hummer Snipe available which the Executive Commissioner understood would be the case, I should be obliged if you would represent to the Headquarters Commandant and to the officer who presided at your conference of 20 March 1945 that I should retain the use of the Ford staff car.

6. Pending hearing from you, I have not written to the Headquarters Commandant.

*Yours ever
Finnis*

SUBJECT: - Assignment of vehicle.

6 July 1945

TO: - Chief Commissioner,
M. A. S.

1. The 865th Central Civilian Medical Depot has a component attached to the Allied Commission, Headquarters in charge of Capt. F. B. Gushard. This organization maintains depots for distribution of medical supplies through the Commission to the Italian Government at Naples and Florence and will probably open one at Genoa in the near future.

The officer in charge acts as medical supply liaison between the A.S. and the Italian Government and is also responsible for the distribution of civilian medical supplies for A.S. territory, including XIII Corps areas.

2. The P.S. of the 865th CCMD has now been reduced, so that transport for the above-named officer is no longer available therefrom.

3. Therefore it is requested that a suitable civilian type A.S. requisitioned vehicle be placed on permanent assignment to this officer.

MRS. J. J.
M. A. S. Chief Commissioner,

1. Reference the attached letter from D.P.R. Sub-Commission (DPR/4/Q of 24 July).
2. It is, of course, absolutely essential that D.P.R. Officers in the field are not hampered by lack of transport. The present time is more important in that respect than any other. I am sure you appreciate that and will do all you can to solve this particular problem.
3. Captain Lombard is not correct in saying that D.P.R. personnel are not on the strength of the Region. They were not so originally, but the recent change which brought the Sub-Commission into line with others and under the command of Regional Commissioners in the field altered the position.

1. When this headquarters arrived in Rome, some twelve (12) cars were requisitioned by A. C. and were given to the Air Forces Sub Commission in Rome. Colonel Eliot then gave a number of these vehicles to members of the Italian Air Ministry without authority.
2. When this office received this information, all vehicles found to be in use by the Italian Air Ministry were derequisitioned by A. C. and rerequisitioned by the Italian Air Ministry.
3. Eleven (11) of the twelve (12) cars originally requisitioned by A. C. were regularized, and one (1) vehicle, HQ 263, remains "whereabouts unknown". The Air Ministry is at present investigating this case.

MEMORANDUM:

TO : Deputy Chief of Staff.

1. Reference paragraph 2 attached report, it is the opinion of this office that very little differentiation can be made between the thirty four (34) vehicles listed as "Permanently Assigned" from Headquarters Motor Pool and the twenty six (26) vehicles directly assigned from the office of G-4 (A) in accordance with Establishment Memorandum 31, dated 28 November 1944.
2. It is proposed therefore that the Headquarters Commandant, as Headquarters Transportation Officer, take over, for matter of record and to avoid duplication in records, the twenty six (26) vehicles mentioned above.
3. That would leave only two (2) units having vehicles on direct assignment from this office, 1st Truck Battalion and D.P.&R. S.C.
4. The reason for retention of direct control of the vehicles on strength of D.P.&R. S.C. and 1st Truck Battalion, is that this office is better equipped to handle the necessary paper work and accounting for vehicles operating outside of Rome.
5. The details of transfer can satisfactorily be worked out between Headquarters Commandant and this office.
6. Maintenance on all headquarters requisitioned civilian vehicles is still the responsibility of the Headquarters Transportation Officer.
7. Latest figures of G-4 (A) direct assignments are shown in Appendix "A".
8. Reference par 15 (b) attached report, conversion of jeep wheels is not justified as there are jeeps in A.C. without spares.

(M) 1/4 ton 4x4 Amphib., U.S.A. 702285, was drawn ³⁶⁰⁷ Class B from Ordnance and issued to Co.S. on the 27th April, 1945. Previous to issue this vehicle was used by Co.C

for 1 year.

(N) 1/4 ton 4x4 Amphib. U.S.A. 704891 was drawn Class B from Ordnance and issued to Co.S. on 27th April, 1945. Previous to issue this vehicle was used by Co.C. for 1 year.

(O) 1/4 ton 4x4 C/R, U.S.A. 2047904, was drawn Class B, from Ordnance and issued to Co.S. on 20th January, 1945. Previous to issue this vehicle was used by Co.C. for 5 months; by Co.C. again for 3 months and by Co.K. for 5 months.

2. Previous to issue to Co.S., the above vehicles were reconditioned as best as the capabilities of the vehicle, time and parts would permit.

3. In my opinion at the time these vehicles were issued to Co.S., they were in comparatively better condition than they were at the time they were drawn by this organization from ordnance.

SUBJECT: Proposed Distribution of Vehicles.

TO : Chief of Staff, Allied Control Commission.

Reference your 209/2/C.O.S. of 2 October 1944.

1. A new proposed distribution is attached for approval of C.O.S.
2. The Regions referred to in your Min. 1 are equipped with American vehicles. The policy has been NOT to mix them for maintenance reasons.
3. Today G-4 (A) has allotted 5 American vehicles to Liguria Region. Fifteen additional vehicles have been released to 2676th Regt. and these will shortly be available for allotment to Northern Regions equipped with (A) vehicles.
4. The attached paper plans for the replacement of 22 American Jeeps by British jeeps, the former will then be available to G-4 (A) for despatch to Liguria, Piemonte and Region XI etc.
5. An additional 21 vehicles are now to be released by A.V.H.Q. in replacement of B.L.Rs.
6. The original plan sent to the C.O.S. yesterday visualised the issue of vehicles now to actual vehicle users, who are short on their B.L.Rs. I reasoned that these to be released vide para. 5, would arrive in time for the Northern Regions, who are not actual vehicle users at present, and may not be for a little time to come.

MEMORANDUM TO: Colonel Clough

1. Confirming conversation Colonel Clough-Major Doe-Captain Volstad today, it is my understanding that you intend to assign 2 or 3 additional weapons carriers to Liguria Region. I also understand that you may be able to let the Region have another 2½ ton 6 x 6. I should be grateful if you could let me know by Monday when this transportation will be available so that I may send drivers down to pick it up.

2. Thank you for your permission to requisition civilian transport in regions other than our own, provided requisitioning has the approval of the regional headquarters in control of the area in which the requisitioning is carried out and provided regular rules issued by AOC Hq covering requisitioning of civilian vehicles are adhered to.

3. In regard to our Ford staff car (British), Colonel Miller stated that if a BIR certificate were obtained from the RMSE, that this vehicle, now useless, could be turned in in exchange for another vehicle. Colonel Miller said that he would request Colonel Scoggins to issue a weapons carrier in place of this Ford staff car. This would be acceptable and even preferable to another British vehicle as that would simplify maintenance since all of our vehicles are American except this one staff car. In the event that a weapons carrier in addition to the extra ones to be assigned to the Region cannot be given us in exchange for the staff car, then Colonel Miller's offer of a PU in its stead will be acceptable.

SUBJECT:- Vehicle Releases.

TO :- G-5 A.F.H.Q.

Enclosed is copy list of releases made by A.A.I. included in their file "All Demands and Releases". This list has been sent by G (AR) A.A.I. to G (AR) A.F.H.Q.

It is desired to put on record the position of vehicles marked on this list with red and blue crosses.

The former were issued to Public Safety Sub-Commission for use by the Italian Fire Brigade and have never been taken on charge by this formation.

The latter have been issued from time to time to Districts for road repairs which are supervised by Public Works and Utilities Sub-Commission.

The vehicles have never been taken on charge because the responsibility of this formation. (see copy letters enclosed).

The releases of Public Safety vehicles are correctly stated but it is impossible to confirm the releases for road - mending vehicles which have gone to Districts and not to this formation. The numbers stated approximately agree with the numbers of vehicles being used but Public Works and Utilities Sub-Commission have no knowledge of any 3 Ton Water-Trucks in use.

ASSIGNMENT OF TRANSPORTATION

1. In order to provide adequate military and civilian transportation for operational needs of newly activated Regions, it has become necessary to reduce the number of military and civilian vehicles at Headquarters, ACC.
2. With regard to assignment of civilian vehicles in Headquarters, ACC, commencing from this date on, the following will govern:
 - a. Vehicles will be assigned to Branches, Sections, and Sub-Commissions and not to individuals, with exception of those individuals listed in (b) below.
 - b. Vehicles will be assigned on the basis of one per each General Officer and Chiefs or Heads of Branches, Sections, and Sub-Commissions and one vehicle for every additional four officers assigned.
 - c. Requests for assignment of vehicles will be forwarded to Office of G-4 (A), Headquarters, ACC, for necessary action.
3. It is strongly urged that Heads of Sections, Branches, and Sub-Commissions instruct their officers that the vehicle situation is a precarious one and that every effort be made to protect vehicles in their care.
