S.A. CELLULOSA-CLORO-SODA

Napoli, 22 Aprile 1944

TO: Economic & Supply Division
HEADQUARTERS - REGION 3
Allied Control Commission
APO 394, U.S. Army

NAPLES

On the 19th inst. at thirteen hours an American lorry came to our works at Via Argine ai Granili n. 2. The lorry was marked P.B.S. 1090 E.H.Q. 11-USA 449932 and had a yellow disk on the front with the number 18. The party was composed of a USA captain and some soldiers. 22

The captain gave to understand that he had to take away some material, but when asked for the requisition order, he produced one which was addressed to another firm, Soc. An. Industrie Chimiche Meridionali, which has no connection whatsoever with us.

Although we showed him your order that nothing can be requisitioned from our concern, the USA officer refused to take notice of it and tried to take away some electrical machinery which were fixed in the masonry without succeeding in doing so. He then went away promising that he would return next day with a proper requisition order and asked that his soldiers be allowed to start loaning the said machinery from the masonry early in the morning before his arrival.

The next day, i.e. the 20th inst. the soldiers came with appropriate pneumatic tools removed the afore said electrical machinery and loaded it on the lorry, together with other electrical implements as follows:

- n. 1. Switch Siemens for 300A.
- n. 1. Circuit-breaker to protect motors for 15A.
- n. 1. Switch board with 6 switches for 10A. each.
- n. 10. Porcelain reflectors for lamps of 40 cms. diameter.
- n. 3. Aspiration engines for the Marvelli Co. with 1,75 HP motors each.

We insisted that the lorry should not leave our premises before the arrival of the officer with the requisition order, but as by 17 hours the officer had not come, the soldiers went away with the loaded lorry refusing to leave any receipt whatsoever for what they took away. Up to this morning no document has been handed to us.

As we are absolutely prevented from opposing to these irregular taking away, we declare that from now on we do not assume any longer the responsibility, with for the custody of all the material & machines existing in our factory, nor for the resuming of the work.

Yours truly,

CELLULOSA-CLORO-SODA
sgd. Ing. ALDO SACERDOTE

Subject : Requisitioning of premises of Assicurazioni d'Italia
for American Red Cross.

To : Lieut. Col. Griffiths, Real Estate Office, Metropolitan
Area.

(Copy to Lt. Col. A.C. Bowman, PBS Liaison Officer HQ
ACC.--

(Copy to Mr. Healey, American Red Cross.-

1. Reference call upon you on 14 April by the undersigned in company with Lieut. Col. Bowman regarding the requisitioning of the premises of Assicurazioni d'Italia in the building of Istituto Nazionale delle Assicurazioni, the building was inspected on 17 April by representatives of this Department together with Mr. Healey of the American Red Cross, and Capt. Chittick of your office.

2. Whilst no trace could be found of any individual who had agreed to the requisitioning of the premises and who had referred to alternative accommodation elsewhere, it is apparent that the rooms in question are not used to their full extent by the company, and that there is alternative accommodation elsewhere for them, in the offices of their parent company, the Istituto Nazionale delle Assicurazioni.

3. This Department accordingly wishes to withdraw any objection to the requisitioning of Assicurazioni d'Italia's three rooms, and has so informed both Mr. Healey and Capt. Chittick.

4. The management of the parent company, upon whose complaint the matter was taken up in the first place, has been informed that their complaint was without justification; and likely to prejudice the interests of other insurance companies who may be far more genuinely pressed for accommodation.

5. This Department wishes to place on record the helpful attitude and cooperation shown by both Mr. Healey and Capt. Chittick, and express thanks for the trouble they have taken in this matter.

6. It is, however, desired to point out that had this Department been approached when the requisitioning was first contemplated, this "contretemps" would have been avoided. It is therefore suggested that if requisitioning of any other insurance premises is contemplated in the future, your requisitioning officer be instructed to contact this Department at the address or telephone number given below. It will doubtless be appreciated that one of the duties with which this Department is charged is the reestablishment of normal activities of such concerns, and hence it is in a position to advise whether any particular requisitioning would retard the rehabilitation of any company involved.

12th Air Corps

MEMORANDUM

15 March 1944

TO: Lt Col Alfred C. Bowman

FROM: Major C. P. Murchie

SUBJECT: Report on Requisitioning Dispute Reported by
Lord Forester.

1. Three months ago the responsible British authority (Group Capt. Cully) requisitioned a property occupied by an Italian family called Pastori. Property was in 3 Base RAF Area.
2. At the time of the requisitioning Group Capt Cully found alternative accommodation for the family Pastori at 29 Via Carducci again in 3 Base RAF Area; at the same time committing himself to a definite undertaking that the family would not be further disturbed.
3. It is felt by the officer named that apart altogether from the wisdom of giving the undertaking referred to in paragraph 2, that the said undertaking, once given, should have been regarded as irrefutable.
4. A few days ago the 12th Air Force instituted proceedings for the requisitioning of 29 Via Carducci, thus over-riding the promise made by Group Capt. Cully. The family Pastori were given very short notice to vacate, in that they were ordered to quit by 11 A.M. today, March 15th.
5. The cause of the misunderstanding appears to be that the 12th Air Force were working on a Directive of their own, in which no reference to the R.A.F. was made. This directive has since been rescinded and a fresh one issued, signed by General Aker; in which full and final authority for requisitioning in 3 Base RAF Area is vested in Group Capt. Cully.
6. Nothing can be done to prevent the specific eviction referred to above, due to the fact that A.M.G. gave authority for the move. Due, however, to the new directive referred to, trouble of this particular nature should not recur.

2. At the time of the requisitioning Group Capt Cully found alternative accommodation for the family Pastori at 29 Via Carducci again in 3 Base RAF Area; at the same time committing himself to a definite undertaking that the family would not be further disturbed.

3. It is felt by the officer named that apart altogether from the wisdom of giving the undertaking referred to in paragraph 2, that the said undertaking, once given, should have been regarded as irrefutable.

The Allied Control Commission are anxious to increase school facilities in order to keep juveniles off the streets, and to this end have asked that consideration be given to the release of school buildings at present in military occupation.

Since such buildings in many cases form the basis part of our accommodation, it is not possible to contemplate any general derequisition. Nevertheless the need for adequate schooling is very great and it is requested that every consideration be given to the release of schools whenever your accommodation commitments are being reviewed.

LIAISON DIVISION

MEMORANDUM

2 March 1944

TO : Lt. Col. Bowen

FROM : Major C. P. Murchie

SUBJECT: Requisitioning of School at OTTAWIA.

E. SCUOLA INDUSTRIALE "OTTEVIO AUGUSTO"

1. As stated in attached letter from the Provveditori, the school has been requisitioned, but is not yet occupied. It has been taken over on behalf of the Mechanical Warfare Experimental Establishment; and a requisition is in possession of the School Principal signed by Dep. Dir. Mech. Eng., A.F.M.E. Advanced Admin. Echelon; and countersigned by the Town Mayor. The order is dated 9 Feb/44.

2. The Colonel in charge of the unit which will enter into occupation of the school at a later date has promised to provide transport for the transfer of school fixtures and fittings. With this arrangement the School Principal appears to be satisfied. He has arranged to accommodate the students elsewhere in the town. Some 500 students are affected, but by shortening to some extent the period, and by co-operation of the Provveditorato, whereby other local schools will work shorter hours in order to offer facilities to Scuola Industriale "Ottavio Augusto", the Principal hopes to continue to cater to the whole 500 students.

3. It is therefore considered that in this instance no problem exists; and that the requisitioning of the school premises will not seriously affect the educational system of Ottavians.

4. The Principal formally requested that he should be allowed to remove and use for instructional purposes the workshop machinery at present in the school.

The request appears a reasonable one and it is therefore suggested that a suitable recommendation to this effect be made in the right quarter.

R.PROVVEDITORATO AGLI STUDI DI NAPOLI

La R.Scuola Industriale "Ottavio Augusto" di Ottaviano è stata requisita dalle truppe Inglesi per impiantarvi un laboratorio meccanico sperimentale per tutta la durata della guerra. L'occupazione avverrà da lunedì prossimo, 21 febbraio. In queste state di cose la scuola costituita da 17 classi (500 alunni) dovrà cessare le sue lezioni.

Il R.PROVVEDITORE AGLI STUDI
(dr. Francesco Scagliene)

The R.Scuola Industriale "Ottavio Augusto" at Ottaviano has been requisitioned by English Troops to place there an experimental mechanic laboratory as long as the war will last. They are going to occupy the school beginning next Monday, Feb. 21. So standing matters, the school, formed by 17 classes (500 pupils) must be shut.

FROM : Major Archie.

SUBJECT : Proposed Requisitioning of School at Atolia di Napoli.

1. Correspondence returned herewith.
2. School premises at Stabia di Napoli, about 15 miles north-east of Naples, visited and the Secretary interviewed. This institution is definitely functioning as a school, and 250 pupils actually attend daily. Total capacity is 300. Average age of pupils is 12 to 14 years.
3. The threatened requisitioning emanated from an unspecified American source, as the result of a visit made by an American officer about 3 weeks ago.
4. This is very clearly a case where requisitioning should not take place; and it is suggested that representations to that effect be made through Col. Griffiths, Real Estate Officer, of F.B.I.

Pare probabile una nuova occupazione della "R. Scuola Secondaria di Avviamento Professionale a Tipo Industriale" "V. Recce" di Atelia di Napoli, che già funziona regolarmente.

Il Direttore prega che gli venga rilasciata una attestazione in inglese ed in italiano dalla quale risulti che la scuola non solo funziona su autorizzazione del Governo Militare Alleato ma che il funzionamento esclude la possibilità di occuparne i locali.

(Bourgon)

It appears that the R. Scuola Secondaria di Avviamento Professionale a Tipo Industriale "V. Recce" at Atelia di Napoli is probably going to be occupied again. The above school is now functioning regularly. The Principal requires a declaration in English and in Italian, stating that the school has been authorized to open by the Allied Military Government, and has moreover its very functioning rejects the possibility of occupying its premises.

300 - Feb 20/47
