1. The attached requisitions are forwarded for materials necessary to rehabilitate sulphur mines in Sicily; see MCS letter JEM/CTT/jm dated 4 Dec 43.

2. It is stated in TAM 13 from COAC TO FIMCO that sulphur production is to be increased to the maximum, irrespective of immediate export prospects.

3. A list of requirements for this industry was taken to Algiers early in October by Lt.-Col. Hayes, and it was stated by Major Todd that you would make enquiries about the items concerned, we were at the same time instructed to cut requirements down to the bare minimum. No advice has been received from you, but the attached requisition represents the minimum of supplies needed to get the mines working; the sooner they are provided, the sooner will production come into full swing. Calcium carbide and explosives are needed most urgently.

	Shoes - ~~100,000~~ 20,000 sets per Unit 40% Children 30% Women 30% Men	Unit	-	-	1	

Above items to be drawn from Red Cross Supplies.

Shipping - To be shipped so as to arrive at port of Palermo by 30 November 1943 or as soon as possible.

Justification - This requisition was placed after a conference with Public Welfare and Red Cross officials.

It had been estimated that a much larger quantity of clothes and shoes were needed but every effort is being made to take care of only the most essential civilian requirements.

It may be necessary at a later date to increase the requirements as it is estimated 20% of the population of Sicily are in immediate need of clothes and shoes. Every effort is being made to supply only those who are employed in essential industries and hardship cases.

Since 100,000 Sets is the total amount requested by ARC for Italy, So. of Rome, and including Sicily and Sardinia, this requisition is reduced to 20,000 sets in ratio to population.

To be shipped 165 tons per month to Palermo or Catania.

[illegible]: This is needed to supply consumers with proteins in their diet. The present diet is basically starch, and some proteins are necessary. The amount requested will supply 100,000 undernourished people in the cities of Palermo, Messina, Catania, and Trapani with 2½,000 extra calories each this winter. This is highly recommended by the Public Health Division.

8	[illegible] Laundry	Tons -	-	100	

To be shipped, 50 tons to Palermo by 1 Jan. 44, and 50 tons to Catania by 1 April, 1944.

JUSTIFICATION: The soap requested is based on a ration of 2 oz. per person per month. It will supplement soap made locally with 300 tons of caustic soda which has been requested in a requisition on C.C.S. The sanitary condition in Sicily due to lack of soap has been critical, and the Public Health Division strongly recommends the importation of the above quantity. Should caustic soda be unavailable, it will be necessary to increase the above soap tonnage.
