	Reggio	1500 tons

	<u>JUSTIFICATION:</u> It is estimated that in Calabria, 1,380,000 persons will be dependant on imported food as from 1 Nov. 43. Lucania will be self supporting until end March 1944. To give the lowest practical ration of 200 grams bread daily, needs a supply of 244 tons Flour daily. The requisition has been cut to an absolute minimum of 200 tons, as it is intended to mix a proportion of Bean and Pea Flour with the ration. Calabria has never been self supporting and this year's crop was under 40% of normal. Matera's small surplus has had to be diverted to NAPLES and APULIA, and a small portion issued as seed.
