SECRET PRIORITY CIPHER

TO Flamingo for MRS Advance Rptd. Furgo Fatima for ACC 15 Army Group for AMG
FROM Freedom Cite HMGs 1530 16 NOV 43

Preliminary conference set up for 20 November affords opportunity to discuss long range planning for food-stuffs and Engineering Supplies in particular and to apply these principles of action to all other supplies in general. Reference your MESA 13 of 13 November, the responsibility for follow-up and action belongs to ACC and AMI.

New Para. Subject is Food-stuffs. Necessary to have coordinated and consolidated plan similar Region A, your MESA 14, for all regions, so that overall allocations can be made within limits of availability, shipping, port facilities, etc.

Include seeds, fertilizers, etc. Full justification of all requisitions essential. Including acreage to be planted, yield expected, amounts of seed available locally. Planning must cover a 12 month period, phased to approximate probable tactical advance.

New Subject. Engineer Supplies. No individual regional requisitions for road, bridge or construction supplies will be considered. Must have coordinated plan as outlined above. AMG or ACC Chief Engineer should consolidate, give project and priority numbers, phase for 6 months or year. Also estimate what industries will be needed for military purposes. Order supplies in advance by types of industries, for example triplicate for canning factories. Projects must be closely coordinated with army to prevent duplication. No rehabilitation will be considered. All projects must requisition items only minimum needed.
