OF PRINCIPLES WE SEE NOTHING OBJECTIONABLE TO HGS LETTER 3 109 OF 4 BUT
REQUIREMENTS FOR CIVILIAN USE ARE DETERMINED BY AGC AND PARAGRAPH TO
INITIATIVE MEMORANDUM 78 IMPLIES THAT THE BOARD ALLOCATES SURPLUS
MINIMUM CIVILIAN NEEDS TO THE ARMED FORCES. LGSE 109 STATES
"ESSENTIAL CIVILIAN REQUIREMENTS WILL NORMALLY BE MET BEFORE
ALLOCATION IS MADE TO 'ARMED BOARD'". IF MILITARY NECESSITY REQUIRES
REDUCING THE AMOUNT STATED BY AGC AS BEING THE MINIMUM CIVILIAN REQUIRE-
MENTS IT IS THE FUNCTION OF THE BOARD TO NEGOTIATE THIS REDUCTION

2. It is not clear to this Section to what extent the Industrial Planning Staff of AMG is entitled to speak for AMG/ACC as a whole.
3. The demands for copies of Minutes of the Board and of its Committees not only by AMG/ACC but also by the Armed Forces are steadily increasing: in view of the confidential nature of some of these documents any excessive distribution would appear inadvisable.
4. It is the opinion of this Section that such copies should in general be limited to two per appointment or formation represented.

a. As a result of its responsibility for Region II, AMG HQ have at the present time a direct interest in the decisions of the Board. This responsibility is not expected to continue, however, and it is suggested that the situation might be met by inviting AMG HQ to send a representative to the next meeting (3 January 1944) at which time the desirability of increasing the membership of the Board to include a permanent representative can be discussed in the light of the circumstances then existing.

b. Attention is called to para 2 above. Lt. Col. Merrill is General Rennell's alternate and not a representative of A. C. C. I understand that Col. Murphy has been designated by General Joyce as his alternate.

1. The attached information is intended as an advance resume of the broad Policy which has been agreed, with other interested AFHQ Sections, in relation to Local Resources and the needs of the armed forces.

2. It is expected that AFHQ LOCAL RESOURCES (ITALIAN) BOARD will commence work at FIATRO by the end of this month.

3. We have also indicated the broad Policy which should be adopted in relation to Exports, pending the issue of a detailed Directive, because certain aspects of both Local Purchase and Export are immediate problems with you.

4. The whole question of Buying and Selling Prices for Exports and Imports (their relation to inflation and Italian economy) is the subject of our immediate attention. It is planned to discuss this matter with you shortly and then to forward our joint recommendations to the O.G.S.

Ref. (23)

12 November 1943

SUBJECT: Local Resources for the Use of the Armed Forces

MEMORANDUM TO: HQ AMG
HQ ACG
AMG 15 Army Group

The following information is intended as an advance indication of the broad Policy which has been agreed in relation to LOCAL RESOURCES and EXPORTS.

LOCAL RESOURCES.

1. An AFHQ LOCAL RESOURCES (ITALIAN) BOARD is now being set up to control the local procurement of supplies, services and facilities available to the armed forces within ITALY (including SICILY and SARDINIA).
2. This Board will co-ordinate all Navy, Army and Air Force requirements from local sources and lay down the procedure for procurement of them.
3. Working under the central Board there will be local Boards (similar to the one already functioning in SICILY).
4. ACG/AMG will be represented on the central Board (and local boards) and will advise the Boards what local resources are and can be made available to them, i.e., all such local resources as are not essential to civilian requirements.
5. The way in which the Boards will work, is broadly as follows:-
 - (a) the Navy, Army and Air Force in any one area will make known their requirements to the local Board.
 - (b) the local Board will then ascertain from its ACG/AMG member what local resources can be made available to the armed forces and will authorize their procurement.
 - (c) the ACG/AMG representatives will only make available to his local Board such local resources as ACG/AMG Headquarters has instructed may be made available.

3569

- ✓ 6. Because there are surpluses over civilian requirements in one area, or developable resources, it does not follow that these surpluses and resources can be made available to the armed forces in that area.

In providing for civilian needs throughout the whole of ITALY (including SARDINIA and SICILY), ACC/AMG will often have to transfer the surpluses of one area to another area, and the Reps. of ACC/AMG on local Boards will need to work very closely with ACC/AMG Headquarters in that connection.

7. On the other hand (after providing for essential civilian needs) ACC/AMG will do everything possible to meet the full requirements of the armed forces -- by making available surpluses -- by placing at their disposal local industry, services and facilities -- by fostering increased production of foodstuffs -- and generally assisting in the development of those industries which can produce military requirements.
8. It follows of course that ACC/AMG Headquarters will work in the closest liaison with the central AFHQ LOCAL RESOURCES (ITALIAN) BOARD, which is expected to start work by the beginning of Dec.
9. From ACC/AMG standpoint, this Policy should ensure:-
- (a) the systematic utilization and allocation of local resources between civil and military
 - (b) prevention of competitive buying
 - (c) authoritative information to guide ACC in its development of local industry and resources.

* Refer also to our cable

of 11 November.

3568

EXPORTS.

10. After civilian needs, C.C.S. priority exports, and requirements of the armed forces have been met (in that order), ACC/AMG is responsible for exporting such surpluses ~~and~~ it may decide.
65.
11. Pending the issue of a detailed directive the method of dealing with exports from ITALY (including SICILY and SARDINIA) will be as follows:

CHANNEL OF PROCEDURE.

- (a) ACC/AMG will advise available exports to MGS.
- (b) MGS will negotiate the sale of exports, and all enquiries, correspondence, and negotiations with Govts, Ministries and Agencies outside ITALY will, provisionally, be conducted through MGS.

BUYING PRICES AND ACCOUNTING PROCEDURES WITHIN ITALY.

ACC/AMG will agree or if necessary fix a fair price to be paid to the supplier. As a broad basis, this price will be determined by manufacturing or production cost, including a fair margin of profit.

ACC/AMG will pay in A.M. lire for goods to be exported, recording quantity purchased and shipped, and accounting money thereon expended as straight expenditure by ACC/AMG.

Reference your MGSA 13 of 13 November, the responsibility for follow-up and action belongs to ACC and AMG.

New Para. Subject is Food-stuffs. Necessary to have coordinated and consolidated plan similar Region 4, your MGSA 14, for all regions, so that overall allocations can be made within limits of availability, shipping, port facilities, etc. Include seeds, fertilizers, etc. Full justification of all requisitions essential, including acreage to be planted, yield expected, amounts of seed available locally. Planning must cover a 12 month period, phased to approximate probable tactical advance.

New Subject. Engineer Supplies. No individual regional requisitions for road, bridge or construction supplies will be considered. Must have coordinated plan as outlined above. AMG or ACC Chief Engineer should consolidate, give project and priority numbers, phase for 6 months or year. Also estimate what industries will be needed for military purposes. Order supplies in advance by types of industries, for example tinplate for canning factories. Projects must be closely coordinated with army to prevent duplication. No rehabilitation will be considered. All projects must requisition items only minimum needed.

The terms of A.C.I. 1365 of 1940 will not be made applicable to the mainland of ITALY. This decision has been dictated by the following considerations :-

- (a) The necessity for price control, which can only be ensured by centralised purchasing.
- (b) The necessity for ensuring that essential civilian requirements are not prejudiced by military purchases.

2. Hence, in general, powers of local purchase will be restricted to delegated Service representatives.

3. This ruling does not affect the right of a Commander to make local purchase of commodities which are a vital operational necessity and which, at the time, are not available from normal military sources. In such cases a certificate as to the "operational necessity" must accompany the account.

4. The above ruling will take effect from the end of the present accounting period, that is 30 Nov. '43. Orders to this effect will be included in all formation, District and Area Orders.
