70. MINUTES OF PREVIOUS MEETING.
Confirmed.

71. CONSIDERATION OF BIDS.
The bids accepted by the Sub-Committee for transportation by rail are shown in Appendix "A" .

The following amendments were made :-
Internal Movement - East Italy. Bids 656/662 inclusive.
As the extension of the Bari-Matera line through to Montalbano is not yet operating, these bids could not be accepted for the narrow gauge line. DGMRS will, however, submit proposals next week for the service to be provided on this section of the line.
It was agreed however, that as Ferrendina Pisticci and Montalbano can be served by the Standard Gauge lines, Bids Nos. 659, 660 and 661 could be accepted for a daily lift of 100 tons (allocated between the three stations) on the West to East Line to Bari.

72. FERRY SERVICE MESSINA - REGGIO.
The Chairman reported that ACC had proposed to abolish passes on the Ferry Service and to charge a flat rate of lire 4.90 per journey. Considerable civilian traffic was already passing between Sicily and the mainland, and, in view of military requirements, he was not in favour of encouraging any increase of civil traffic. 4560
He then submitted a scale of charges which had been put forward by Mov. (Reggio) in agreement with local ACC and ISR authorities, as under :-

FERRY FARES

Single	20 lire

" over 4 tons	600 lire empty	850 lire full
Trailers - 2 wheel	250 lire empty	350 lire full
" - 4 wheel	300 lire empty	500 lire full
Dogs		20 lire
Mules		50 lire

The chairman asked the Meeting to agree to the above charges and to the maintenance of the PASS system.

Lt. Colonel Vining asked on what basis the rates had been decided. The Chairman replied that they had been agreed locally between Movements, ACC and the Italian railway authorities.

AGREED that the charges be adopted forthwith and the PASS system maintained.

Such traffic cannot be accepted there and should be consigned to SARNO.

54. WAGONS FOR "SMALLS" (from East Coast.)

The question of the provision of a special wagon to run for the conveyance of small consignments was raised. Decided to discuss this matter at next Meeting.

55. CONVEYANCE BY SCHOONERS.

Major Glanville reported that Bids Nos. 363, 364 and part of 375 have been fixed up for conveyance by schooners. It would, however, be some time before Bid No. 375 (1300 tons Fertiliser - Crotone to Naples) could be completed at the present rate of movement. To move this by rail would necessitate a cut in the bids already accepted, and it was agreed to let the bid stand as shown, i.e., for conveyance by schooner.

37. CONSIDERATION OF BIDS.
The bids accepted for rail transportation are shown in Appendix "A".

Bids 169 and 171. Peas, Soup and Flour - Naples to Avellino.
The tonnages required to be moved were greater than the capacity of the bi-weekly mixed train from Nocera to Avellino. Lt. Lucas (DGMRS representative) could not agree to this train running more than twice weekly as scheduled. Major Mc Creadie said the Food Sub-Commission were sending as much as possible to Avellino to augment the present ration and to disperse cargoes now being off-loaded. In reply to Brig. Fellowes' question as to the exact position with regard to the situation at Avellino, Major Mc Creadie undertook to obtain the information. Subsequent to the meeting it was agreed between Brig. Fellowes and Lt.Col Huttenbach (Transportation Region 3) that 500 tons of Flour should be accepted for Avellino and that DGMRS would be asked to provide the extra power from Nocera to Avellino to meet the requirement. This figure represents 8 days rations at 150 grammes per day compared with the official ration of 200 grammes. The Soup and Dried Peas would not be sent forward at this stage.

27. CONSIDERATION OF BIDS.

(a) The bids accepted and their relative priority are shown in "Appendix" "A" attached. It will be observed that they are to be handled by the Basic Civilian Train Service. On the Toronto-Naples section this is one freight train each way daily with a nett lift of 250 tons.

Sch. arrange for M.T. to clear to destination.

(g) Bids Nos. 105 & 106. Fertiliser - Campi Flegrei to Termoli and Istonio.

28. BASIC SCHEDULE OF TRAINS FOR CIVILIAN REQUIREMENTS.

Lt.Col. C.C. Scheuble (for DDMPS) stated that the service from SAN BUFEDA to BATTIPAGLIA will forthwith run daily instead of tri-weekly, and the train from REGGIO to NICOTERA will, with immediate effect commence running daily. This is the result of electrification.

29. DISCHARGE OF SHIPS AT CALABRIAN PORTS.

The Chairman stated that considerable delay in discharge of ships at Reggio and Crotone had been caused through the local AMG officials requiring a large proportion of the cargo to be moved to destinations inland by rail direct from ships side. No demand had been made previously for this committment. Consequently wagons were not available. He asked who was responsible for making such demands and requested that in future the rail distribution programme should be submitted in good time, based on the arrival of shipping as bid at the ten-daily tonnage meeting. Colonel Todd stated that the responsibility lay within the Region concerned. A meeting is to be held in Naples on 7th. or 8th. February at which all Supply and Transportation Officers will be present. He undertook to bring forward this matter and ensure that the necessary programmes would be submitted in future.

This report was received and dealt with at the Transportation Committee Meeting 24 Jan 44 (Minute 20).

22. CONSIDERATION OF BIDS.
(a) Details of bids accepted are shown on Appendix "A"

(b) Bid - Fertiliser, Cancello - Benevento 400 tons.
Brig. Fellowes pointed out that there was a heavy back-log of operational traffic on this line. Urgency of getting fertiliser moved was appreciated.

AGREED: that Brig. Fellowes would refer the matter to the DCAO. If rail transport was impossible, then road transport would have to be considered.

23. INCREASE IN CIVILIAN TRAFFIC.
Lt.Col. Scheuble expressed concern at the increase in civilian traffic and recommended more rigid control of traffic on the Basic Schedule of Trains.
Brig. Fellowes pointed out that absolute control of loading, at present, was impossible owing to lack of communications. Should civil traffic exceed the capacity available, then the priority bids traffic as passed by this Committee must be given preference. "Stop" would have to be imposed as necessary if loadings exceeded capacity to move.
When asked the capacity of such trains, Lt.Col. Scheuble replied approximately 250 nett tons. Colonel Fitch suggested that authorised traffic should not at present exceed that figure.
It was noted that the Italian Railway Authorities must be responsible for the regulation of loading of low priority authorised civil traffic and for ensuring that such traffic was not loaded until it could be despatched without delay.
AGREED: D.G.M.R.S. impress this upon Gen. di Raimondo and urge him to make every effort to improve railway communications.

24. UNDERSECRETARY OF STATE FOR ITALIAN RAILWAYS AND HIGHWAYS.
The Chairman expressed regret that this representative was absent through illness.

25. NEXT MEETING OF TRANSPORTATION SUB-COMMITTEE.
AGREED: be held at AFHQ Adv. Adm. Sch. on 3 Feb 44 at 1430 hours.

13. ABSENCE OF CHAIRMAN.

In absence of Brig Fellowes, Capt Plews representing Movements, AFHQ Advanced Administrative Echelon, requested the Sub-Committee to appoint Col. S.A. Fitch as Chairman.

AGREED.

14. MINUTES OF PREVIOUS MEETING.

Confirmed, subject to amendment shown in Minute 15 hereof.

15. AMENDMENT TO MINUTE 9 (a) line 6 (Salt from Barletta)

(a) The sentence "Major Fischer said U.S. Transportation would supply transport from Docks to warehouse at each port" should read "Major Fischer said U.S. Transportation would not supply transport from Docks to warehouse at each port, and it is the liability of ACC or AMG to provide or arrange for transport and agree discharge with Port Commandant at each Port." 4499

(b) Secretary to ensure that Col. Murphey's attention be called to this amendment.

16. REPORT ON SALT CONSUMPTION AND EXISTING STOCKS.

Reference Minute 9 para (b). Capt. Curran presented further statistics. It was not possible, however, to reach any definite conclusions on actual requirements.

It appeared that for January, 1900 tons would suffice and for February and March, 1800 tons each. 16

Declassified E.O. 12356 Section 3.3/NND No. 785016

16. REPORT ON SALT CONSUMPTION AND EXISTING STOCKS (Contd).

Existing stock was approximately 700 tons, and there were 200 tons awaiting unloading in the harbour, and 1500 tons en route, shipped by schooner in Nov. and Dec. It was uncertain when schooners would arrive.

Capt. Curren understood that a ship of 4000 tons would be arriving ex Brindisi at Bari and that authorisation had been given for the loading of the salt. Capt Curren explained that the salt was located at Margherite de Savoie. Therefore, a 10 mile rail haulage of 40 wagons daily from St. Marguerite - Barletta would be required. Col. Dougherty said he could haul it providing it did not interfere with military movements. Capt. Plews considered it a difficult proposition at the moment.

AGREED

(a) That 'Movements' would investigate the position at Barletta both for Shipping and Rail.

(b) That Central Economic Committee should further investigate the position to establish actual requirements to meet essential needs.

(c) In the meantime the Bid of 2700 tons which was accepted at last meeting be cancelled.

(d) That an emergency bid would be accepted if the necessity arose before the enquiries referred to in (a) and (b) had been completed.

17. COLLATION OF BIDS.

The Chairman read out a draft minute to be included in the Transportation Sub-Committee Minutes of this meeting.

AGREED Minute be included as follows :

In view of the necessity for obtaining the prior approval of the appropriate representatives of the Central Economic Committee to all "bids" from other sources for movement of civil supplies, it was noted that Internal Transportation Sub-Commission will arrange for all such "bids" to be screened by the Central Economic Committee representatives before they are presented for consideration to the Transportation Sub-Committee.

This arrangement does not alter the existing procedure under which all "bids" are submitted through Internal Transportation Sub-Commission. It is essential, however, that "bids" reach Internal Transportation Sub-Commission by the date already agreed and earlier if possible.

17. COLLATION OF BIDS.

The Chairman read out a draft minute to be included in the Transportation Sub-Committee Minutes of this meeting.

18. CONSIDERATION OF BIDS.

(a) Details of Bids accepted are shown in Appendix "A".

(b) Appendix "B" shows details of Bid for transportation of civilian mails on military trains. Civilian mails are now carried on bi-weekly civilian trains between Naples and Bari serving important intermediate stations.

The Postal Service would be improved greatly if civilian mails could also be conveyed on the bi-weekly military trains on this route.

It was fully recognised that no special van for civilian mails could be provided on the military trains and that it would be a case of using any suitable spare accomodation which might exist. Guards would have to be provided by the Civil Postal authorities.

The point was also made that an improved Postal Service would tend to reduce the number of civilians now demanding rail travel.

AGREED that proposal be considered further by "Movements" (British and U.S.) in time for next meeting.

19. NEXT MEETING OF TRANSPORTATION SUB-COMMITTEE.

AGREED be held at AFHQ, Adv. Adm. Echn. on 24 January, 1944 at 1430 hours.

Brig. Fellowes asked on what rate of consumption the bids of 5400 tons of Salt in 20 days was based. Col. Murphey said he accepted the demands of the Italian Ministry of Supply.

Capt. Curran stated that a figure of 330grammes per person per month had been used by AMG Region 3.

On this basis 750 tons per month were required for Naples and 250 tons for Salerno, but this did not include the Avellino Battipaglia areas.

Brig. Fellowes asked whether the Economic Committee was not concerned.

Major Todd (MGS Adv) said the matter had not been raised but no doubt salt was required.

600 tons of Charcoal Atena to Naples. This bid had been accepted at the previous meeting of the Transportation Sub-Committee and movement was in progress.

1500 tons Salt Barletta to Naples

(a) The bids must be made to the proper representative and sufficient detail given i.e. quantity of stores for loading to each destination (not block tonnages) and date on which it will be ready for moving.

(b) That road transport and labour are available to load on the agreed date and that similar organisation is available at destination.

(b) That road transport and labour are available to load on the agreed date and that similar organisation is available at destination.

Col. Rycroft pointed out that the Basic Schedule of Trains was not yet in operation but when functioning, careful review will have to be made by this Sub-Committee and that top priority bids must be on the Schedule. It may be possible that traffic becomes so regular as to warrant DGMRS being asked to run additional Basic Trains to the Schedule. Equally, experience may show that certain Basic Trains are no longer necessary.

2. MOVEMENT OF CIVILIAN TRAFFIC BY MILITARY TRAINS.

The Basic Schedule of Trains was discussed and the question arose as to whether all civilian traffic could be carried on this schedule. Col Dougherty (DGMRS) stated that should it be found that the Basic Trains were loaded to capacity, it might be possible for additional civilian traffic to be carried on military trains providing that AMG/ACC representative in conjunction with Military Movements were agreed at the despatching point. AGREED.

3. CONSIDERATION OF BIDS.

Col. Rycroft said that Agendas (See Appendix "A" attached hereto) had been circulated to all concerned by the Secretary.

(a) Reference No. 1 of Appendix "A"

This bid was deleted from the Agenda as out of an acceptance of 1,000 tons of Olive Oil only 668 tons had been purchased. Movement had already

Declassified E.O. 12356 Section 3.3/NND No. 785014

been effected as an emergency measure.

(b) Reference Nos. 3 and 4 of Appendix "A".

Owing to the lack of firm tonnages for each destination these bids could not be dealt with completely. The Secretary pointed out that Signals had been despatched but so far no replies had been received. Col. Rycroft expressed regret that these bids lacked essential information, and stated immediately it was received, the bids would be treated as emergency ones.

Concerning Reference No. 4, the Shipping Sub-Commission were asked whether they could carry by coastwise shipping the fertiliser concerned from BAGNOLI and PORTICI to SALERNO, BRINDISI, and TARANTO.

Maj. Clarke (Shipping Sub-Commission) stated that they were in the process of collecting small craft to cover this type of traffic, but difficulty was being experienced in obtaining the numbers required.

Col. Rycroft pointed out that it was essential that this type of traffic should be carried coastwise thereby relieving the pressure on the railways.

AGREED that this traffic should be left to the Shipping Sub-Commission.

(c) Reference No. 7 of Appendix "A".

AGREED bid be accepted and traffic dealt with as follows :

FROM POTENZA PROVINCE: 1 wagon from LAGONEGRO - 9 tons
2 wagons from MONTESANO -18 tons
2 wagons from ATENA -18 tons
to load 6 days a week for 30 days - destination NAPLES.

FROM SALERNO PROVINCE: 1 wagon from SICIGNANO - 9 tons
1 wagon from CONTURSI - 9 tons
1 wagon from POLTECASTRANO - 9 tons
1 wagon from MONTESANO - 9 tons
to load 6 days a week for 15 days - destination NAPLES.

Service for above to commence 31 Dec 43

DGMRS to arrange wagon supply and movement with Italian State Railways.

15 Army Group to arrange local road transport, and labour for loading and unloading.

4. FORM OF AUTHORISATION FOR MOVEMENT.

In order to ensure that the correct consignor loads the wagons placed at his disposal, and to facilitate the regulation of traffic on Basic Schedule of trains as soon as possible, it was agreed that a standard form of authorisation for movements of goods be adopted.

It was also agreed that this authorisation would be necessary for both large and small consignments, whether despatched by AMG/ACC or a civilian consignor. This authorisation to be issued by the Regions concerned or by 15 Army Group, after the bid has been accepted. These authorisations would only apply on lines operated by the military which will be specified.

Declassified E.O. 12356 Section 3.3/NND No. 785016

4. FORM OF AUTHORISATION FOR MOVEMENT (Contd)
It was left to the Internal Transportation Sub-Commission, ACC to circulate a draft of the type of authorisation to be used.

5. LOADING AND UNLOADING OF RAILWAY WAGONS.
Maj. Fischer (D/COT) again emphasised that it must be clearly pointed out to civilian consignors and consignees that railway trucks must be loaded and unloaded with the utmost speed, and not used as warehouses.

6.
Col. Rycroft expressed regret that no representative of the Department of State for Italian Railroads and Highways was present and requested DGMRS to take appropriate action.
