15 January 1944

SUBJECT: Anti Rabbio Vaccine

TO : Director of Economics & Supply, Region 3

1. Colonel M. E. Griffin of the Public Health Sub-Commission states that he is taking care of your request for anti rabbio vaccine to the extent that he has asked permission from AFHQ to obtain amounts required in Sardinia and has supplied you with enough to meet immediate needs.

2. Since the CEC has no jurisdiction over Sardinia we cannot help you on this point. Once permission from AFHQ to obtain this vaccine is secured we suggest that you ask Lt. Col. Hensley, T.C.U. Division for assistance in obtaining transports. Since Colonel Crichton states in his letter to you that Lt. Col. Hensley will provide his assistance.

For the Committee:

A. I. HEYDERSON,
Lt. Col., A.U.S.,
Chief Executive,
Central Economic Committee.

ALLIED MILITARY GOVERNMENT
DIVISION OF PUBLIC HEALTH & WELFARE

TO : Director of Economic and Supply.

SUBJECT: Anti Rabic Vaccine.

Ref. N°: PH/I55/I22

Date : 6/I/44

1. Sometime ago I referred to your office a request that A.F.G.Q. be asked to supply Anti Rabic Vaccine to meet urgent Civilian needs. Your office suggested that this could be more productive of results if this office approached A.F.H.Q. Medical Branch directly. This was done and A.F.H.Q. were kind enough to fly over a supply of vaccine.

2. This stock however is only sufficient to meet the immediate needs of the Province and the Ufficio Medico Provinciale has asked urgently for a further 1600 cc. to complete the treatment of existing cases and a regular supply of 2000 cc. permensem in future.

3. This quantity of vaccine is available at the Istituto Antirabbico at Sassari, Sardinia, and it is only necessary therefore for an order to be placed for it and that fast means of transport be provided for it. In the present circumstances, having regard to the nature of the Vaccine and its perishable quality, air transportation would be the means recommended.

4. It is understood that the T.C.U. Division (Lt.Col. Hensley) would be willing to assist in providing the transport if requested.

W. H. CRICHTON
Colonel

Public Health Sub-Commission

AMG/3090/PH

9 January 1944

SUBJECT: - Medical Supplies for Occupied Areas.

TO : - The Central Economic Committee, Adv. AFHQ.
(Through Administrative Directorate)

1. Attached herewith is copy of approved list of medical supplies to be imported from American sources for use in Occupied Areas. It is desired to point out that listed with these medical supplies are two (2) CAD Sanitation Units, one of which is shipped to this area with markings xxxx QM-TOG-4, as this is known in the U.S.A. as the QM Sanitary Unit; the other is marked xxxx ENG-TOG-4, and this unit is known in the U.S.A. as ENG Sanitary Unit. Other units are marked xxxx MED-TOG-4.

2. Because of this marking QM marked supplies are shipped to a PBS, QM warehouse and likewise those with markings ENG go to a PBS, ENG warehouse. Supplies which have a marking of MED-TOG are sent to the Central AMG Medical Warehouse since the PBS, MED Warehouse will not warehouse any AMG supplies.

3. At a recent conference called by the Typhus Commission, the above facts were determined. Arrangements were made informally that, pending a decision of higher authority the PBS, QM would send all requests for insecticide powder from AMG units to this Office for clearance since the PBS, QM office is not in a position to determine which areas under AMG should receive this item. The Typhus Commission has requested that all stocks of DDT louse powder arriving in this theater be frozen for use of the Typhus Commission. It is the opinion of this Office that this request is justified and this Office will not honor any requests for DDT powder from any AMG unit until a sufficient supply is available for the Typhus Commission.

4. It has been further ascertained, from the PBS, QM representative that their office, being a military office, has no knowledge of the existence of the CAD Medical Lists, has no basis on which to make issues, and has in the past issued these supplies to any official from any AMG unit in any quantity requested if available. It is therefore necessary that some reviewing or coordinating unit pass on all AMG requests for any items listed in the CAD Medical list in order that there will be an equitable distribution of these supplies which are to be used by Public Health personnel of ACC/AMG and AMG 15th Army Group.

5. It is requested that consideration be given to the proposal for a Central AMG Medical Warehouse and a Central Coordination unit in or attached to Central Economic Committee for all supplies listed in the attached CAD Medical List as proposed by Brig. Lush HQ, AMG. 15 Army Group.

4844

AMG/3090/PH - Medical Supplies for Occupied Areas (Continued)
9 January 1944

The Medical Warehouse AMG located in Naples is sufficiently large to accomplish this task, it is now being repaired. Personnel and transport is inadequate to accomplish this mission either for present supplies and anticipated arrivals.

COPY NO. 61

COMBINED CIVIL AFFAIRS COMMITTEE

SUPPLY SUBCOMMITTEE

MEDICAL SUPPLIES FOR OCCUPIED AREAS

Note by the U. S. Secretary

The enclosed lists of proposed medical supplies for the care of civilians in occupied areas were presented informally to the British members at the Fifth Meeting of the Supply Subcommittee to expedite their consideration prior to circulation.

The lists here enclosed were prepared by the Office of the Surgeon General and take into consideration a careful review of British plans. Accordingly it should be noted that the plan here proposed has been considerably modified from that submitted by U.S. in August 1943 in an attempt to prepare a plan which is acceptable to both the U.S. and the U.K.

Enclosure "A" is a comparison of British and American programs.

Enclosure "B" is CAD Basic Medical Unit as revised.

Enclosure "C" is CAD Obstetrical Bag. No changes have been made

their consideration prior to circulation.

The lists here enclosed were prepared by the Office of the Surgeon General and take into consideration a careful review of British plans. Accordingly it should be noted that the plan here proposed has been considerably modified from that submitted by U.S. in August 1943 in an attempt to prepare a plan which is acceptable to both the U.S. and the U.K.

Enclosure "A" is a comparison of British and American programs.

Enclosure "B" is CAD Basic Medical Unit as revised.

Enclosure "C" is CAD Obstetrical Bag. No changes have been made in this list from original U.S. proposal.

Enclosure "D" is a Tracheotomy Set which is proposed on the ~~6833~~ ⁶⁸³³ of information on diphtheria epidemics in a great part of Europe.

Enclosure "E" is CAD Sanitation Units.

Enclosure "F" is CAD Supplemental Tropical Unit as revised.

U. S. SECRET
BRITISH MOST SECRET

Enclosure "G" is CAD Anti-Malarial Units.

Enclosure "H" is CAD Supplemental Biological list as revised.

Enclosure "I" is CAD Basic Medical Unit in terms of requirements by country, assuming three possible periods required for occupation.

Enclosure "J" is CAD Special Units in terms of requirements by country.

Enclosure "K" is CAD Sanitation Units in terms of requirements by country.

Enclosure "L" is CAD Anti-Malarial Unit in terms of requirements by country.

Enclosure "M" is CAD Supplemental Tropical Unit in terms of requirements by country.

The requirements for the Supplemental Biological list cannot be represented country by country, nor would it have any significance to divide them into successive periods. The quantities shown on the list (Enclosure "H") are the quantities calculated to be necessary for all of Europe within the expiration dates of the biological products.

Enclosure "I" is CAD Sanitation Units in terms of requirements by country.

Enclosure "J" is CAD Anti-Malarial Unit in terms of requirements by country.

Enclosure "K" is CAD Supplemental Tropical Unit in terms of requirements by country.

The requirements for the Supplemental Biological list cannot be represented country by country, nor would it have any significance to divide them into successive periods. The quantities shown on the list (Enclosure "H") are the quantities calculated to be necessary for all of Europe within the expiration dates of the biological products.

A proposed CAD Field Bacteriological Laboratory Unit is in process of preparation and will be circulated as Enclosure "N" of this paper when ready. 4832

A proposed CAD Anti-Typhus Unit is in process of preparation and will be circulated as Enclosure "O" of this paper when ready.

CAD ANTI-MALARIAL UNITS
REQUIREMENTS BY COUNTRIES

COUNTRY	Expected Cases of Malaria	Anti-Malarial Equipment Units (For 6 months)	1st 3 Months Occupation Complete			Anti-Mala
			On 1st Day	End of 1 1/2 Months	End of 3 Months	
Italy 1	200,000	10	30	20	12	2
Sardinia	40,000	2	6	4	2	
Yugoslavia	300,000	15	45	30	15	1
Albania	22,000	1	3	2	1	
Greece	1,000,000	50	150	100	60	15
Bulgaria	130,000	7	21	14	8	2
Rumania	400,000	20	60	40	24	6
TOTALS	2,092,000	105	315	210	125	31

NOTE 1: One equipment unit is planned in the 6 month's period for each 20,000 expected cases. The number planned for each month of complete occupation for each 20,000 expected cases. The number for each country is that estimated in the British Program, except that their estimate for Italy takes into account the extensive anti-malarial work done before the war, which it is anticipated will be continued.

NOTE 2: Anti-malarial drugs included in CAD Supplemental Tropical Unit.

ENCLOSURE "L"

CAD ANTI-MALARIAL UNITS
REQUIREMENTS BY COUNTRIES

Anti-Malarial Supply Units

1st 3 Months Occupation Complete			2nd 3 Months	Total 6 Months Occupation Complete		
On 1st Day	End of 1½ Months	End of 3 Months		On 1st Day	End of 1½ Months	End of 3 Months
