18 Feb 1945

To: HQ 1 District for Q (2 copies)

Reference is made to para 2 of 10/417/M of 20 Feb copy of which was sent to MMIA.

1. Hospital comforts on the correct scale for 1200 occupied beds were released in January for February consumption. Relevant correspondence is AFHQ/64/10/ST6(a) of 25 Jan to GT 15 AG and MMIA letter GE/9 of 27 Jan to MMIA LO 1 District forwarding the information contained in the AFHQ letter. It may be that GT 15 AG had not forwarded the information to GT 1 District.

2. May DDMS 1 District be advised that MMIA does NOT make available any hospital comforts. AFHQ orders the release on the basis of figures provided by MMIA and the supps are made available by the GT of the District etc. concerned.

DMS AFHQ

Copy to: DDMS 15 Army Group
DDMS Rear 8th Army
A/Q

1. During a recent visit by MMIA officers, DDMS 8th Army stated most emphatically that a British RAMC officer was required for liaison work between 8th Army Medical Directorate and the Italian non-divisional medical units supporting the Combat Groups. These supporting units have been placed under command HQ 228 Italian Division, which administers the Italian service units with 8th Army.

DADMS MMIA was asked to inform DMS AFHQ of the need for this medical liaison officer.

2. British RAMC officers are already on the staff of each B.L.O. attached to the Combat Groups but are too far forward to be of any assistance in co-ordinating medical arrangements on the L of C. 6079

A medical officer is urgently required, particularly at this period when Italian units are moving into the combat zone, to co-ordinate not only medical and hygiene arrangements but also the R.E., R.A.S.C., and R.A.O.C. services and supplies required by medical units.

DA & QMG and DADMS, MMIA confirmed these points "on the ground" during their visit and inspection of labour, medical and other Italian L of C units in 8th Army area.

With the approach of the warm season, a British medical officer would be most useful and, in fact, a necessity, if Italian hygiene

During a recent visit by MMLA officers, DDMS 8th Army stated most emphatically that a British RAMC officer was required for liaison work between 8th Army Medical Directorate and the Italian non-divisional medical units supporting the Combat Groups. These supporting units have been placed under command HQ 228 Italian Division, which administers the Italian service units with 8th Army.

DADMS MMIA was asked to inform DMS AFHQ of the need for this medical liaison officer.

2. British RAMC officers are already on the staff of each B.L.U. attached to the Combat Groups but are too far forward to be of any assistance in co-ordinating medical arrangements on the L of C. 6979

A medical officer is urgently required, particularly at this period when Italian units are moving into the combat zone, to co-ordinate not only medical and hygiene arrangements but also the R.E., R.A.S.C., and R.A.O.C. services and supplies required by medical units.

DA & QMG and DADMS, MMIA confirmed these points "on the ground" during their visit and inspection of labour, medical and other Italian L of C units in 8th Army area.

With the approach of the warm season, a British medical officer would be most useful and, in fact, a necessity, if Italian hygiene standards and anti-malarial discipline are to be maintained at a level sufficiently high to avoid constituting a danger to our own troops.

3. If approved, it is for consideration on whose strength this medical officer will be held. DDMS suggested that he be part of MMIA medical staff. No officer is at present available for this duty from MMIA and this suggestion would involve a change of W.E. DA & QMG, MMIA considers it preferable that this officer be posted or attached to DDMS 8th Army. The officer could work from MMIA Liaison Office, Rear 8th Army, where problems of general administration peculiar to the Italian Army are well known.

TRANSLATION.

FROM : War Ministry. Ref 3/760/0

TO : M.M.I.A. for Info AG 7/1 Date 12. 2. 1945.

SUBJECT: Passing of the management of civilian rationed medical establishments to the Italian Red Cross and Excellent Military Order of MALTA (S.M.O.M.) - possibility of recovering military personnel; necessity of further reinforcements.

With reference to letters, SD/12 of 15.1.1945 and SD/12/1 of 24.1.1945 of M.M.I.A. and letter 1/189/San of 16.1.45 of this Directorate-General.

The Ministry of the Treasury in letter 102598 - Division XIII of 3.2.1945 has given the necessary approval to the plans of arrangement proposed by this Ministry for the passing of the management of civilian rationed medical establishments to the Italian Red Cross and the Excellent Military Order of MALTA.

Further to this it has been possible to issue, in circular letter, 1/565/San of 7.2. 1945 signed by H.E. The Minister, provisional executive orders for the putting into effect of the passing of the management, in expectation of the agreements of the convention and of the issuing of the Lieutenant of the Realm's legislative decrees, approved in advance by the Council of Ministers.

At the same time, this Directorare General has notified the Medical Directorate under command in order that they carry out in as short a time as possible the planned passing of management, cooperating in the matter with the regional directive depts., of the I.R.C. and S.M.O.M.

The passing of management will be gradual; the I.R.C. and S.M.O.M. will gradually assume the management of the establishments as the personnel required are held available, for which is expected either a recall or the assumption of duty in a "transitorial role."

The recovery of medical personnel will only be partially possible, it is expected, in fact that a part of the medical personnel attached to the establishments (within fixed age-limits) will be asked for to be placed in the above-mentioned "transitorial roles." This arrangement has been found indispensable because of the insufficient availability of I.R.C. and S.M.O.M. personnel, who are at present employed on other duties (

6074

Declassified E.O. 12356 Section 3.3/NND No. 765030

Further to this it has been possible to issue, in circular letter, 1/565/San of 7.2. 1945 signed by H.E. The Minister, provisional executive orders for the putting into effect of the passing of the management, in expectation of the agreements of the convention and of the issuing of the Lieutenant of the Realm's legislative decrees, approved in advance by the Council of Ministers.

At the same time, this Directorare General has notified the Medical Directorate under command in order that they carry out in as short a time as possible the planned passing of management, cooperating in the matter with the regional directive depts., of the I.R.C. and E.M.O.M.

The passing of management will be gradual; the I.R.C. and E.M.O.M. will gradually assume the management of the establishments as the personnel required are held available, for which is expected either a recall or the assumption of duty in a "transitorial role."

The recovery of medical personnel will only be partially possible, it is expected, in fact that a part of the medical personnel attached to the establishments (within fixed age-limits) will be asked for to be placed in the above-mentioned "transitorial roles." This arrangement has been found indispensable because of the insufficient availability of I.R.C. and E.M.O.M. personnel, who are at present employed on other duties (welfare of exiled civilians etc.) 6074

In conclusion it is to be borne in mind that the maximum number of medical troops which can be recovered from medical establishments is 600-800

It has been ordered that the recovered personnel will be drafted to the reserve group of the respective military H.Q. under the orders of this Directorate General. The largest draft will be to BARI (civilian rationed hospitals of PUGLIA.)

The expected recovery of medical troops from civilian rationed medical establishments will only partly replenish the serious and known deficiencies of medical personnel in Italian Territorial military medical establishments.

The position as to medical personnel in territorial service can, in fact, be summed up as follows: -

Strength assigned	 8000	
" held	 5825	(excluding hired civilians, attached non-medical personnel, and the medical personnel of the Isola del Colle,

segue 2/..

Declassified E.O. 12356 Section 3.3/NND No. 795020

Strength held (Contd)

- (MCLEETTA and CANOSA hospital being changed to civilian rationing)

Deficit (NCOs and ORs)	2171
Reinforcements requested by the Field Units (130 & 44)	174
TOTAL DEFICIT	2345
Personnel assigned to Medical duties by TRAMI Camp	300 (Personnel for instruction)
Personnel expected to be received from civilian-rationed establishments	700 (Gradual recovery)
TOTAL REINFORCEMENTS	1000
Remaining requirements	1345.

In round figures, we deal with 1350 which will be reduced to 1150 if the personnel assigned to Medical (services) are eventually reduced to 7800.

The assignment to Medical (services) of another quota of personnel is expected (up to 500 ITI-ITI - see para 4 of F.M.I.A. letter, SD/12/1 of 24.1.45), but we do not know what the effective outcome of the call-up will be.

It would be exceedingly desirable that the further requirements of personnel be covered within possible limits by means of medical personnel.

Already Trained.

It is held, in fact, that it may be a mistake to assign to other branches of the service, as has often been done up to now, medically trained personnel.

6073

Possible sources for the personnel needed.

Declassified E.O. 12356 Section 3.3/NND No. 775020

Remaining requirements 1345.

In round figures, we deal with 1350 which will be reduced to 1150 if the personnel assigned to Medical (services) are eventually reduced to 7800.

The assignment to Medical (services) of another quota of personnel is expected (up to 500 ITL-ITI - see para 4 of M.M.I.A. letter, SD/12/1 of 24.1.45), but we do not know what the effective outcome of the call-up will be.

It would be exceedingly desirable that the further requirements of personnel be covered within possible limits by means of medical personnel.

Already Trained.

It is held, in fact, that it may be a mistake to assign to other branches of the service, as has often been done up to now, medically trained personnel. 6073

Possible sources for the personnel needed.

1. The quota of medical personnel in the next call-up
2. Medical personnel released from captivity.
3. Medical personnel now in reinforcement camps, or employed in labour units (selected elements.)
4. Recruits for training.

Practical

The writer, in agreement with S.M.R.E. and M.M.I.A., has issued to the surrounding medical units the provisional ME expected for territorial medical units: it is evident that no practice value can be attached to this ME if the medical personnel required are not assigned to the establishments, which requirements were planned within the narrow indispensable limits.

The signalled requirements have to be considered as a minimum one, also on account of the fact that the necessity of further medical personnel reinforcements for the sanitary field units as well as for the territorial service has to be taken in view.

To meet the present deficit position, it has been necessary to resort, provisionally, to the employment of civilian personnel on hand, in the territorial military hospitals. It is held that this solution may not be satisfactory, since as a general rule the presence of civilian personnel is contrary to the smooth running and discipline of the establishments.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Declassified E.O. 12356 Section 3.3/NND No. 785020

It is desirable that the reinforcements requested be assigned without delay, in order that it will be possible to replace the above-mentioned civilian personnel as soon as possible with trained military personnel. Ensuring the welfare of the patients in a satisfactory manner and making arrangements at the same time for the necessities of the medical organisation in the Northern ITALY regions, as the territorial liberation proceeds by degrees to the North.

Inter-Office Memo

5 Feb 45.

From: Medical

To: A/Q

1. Several enquiries have been received concerning the clothing of patients (due for discharge from hospital) who have lost their clothes, boots or kit at the time of admission.

2. It is suggested that all ITI-ITI Territorial hospitals be authorised to hold a small stock of Italian clothing to meet this need. Scale to be 5% of beds equipped. (It is 10% in R.A.M.C.) Items to be held by hospital as per basic clothing and individual equipment scale given in Annex 'B' to AFHQ AG/400.105 D.O. of 22 Sept. 44.
Issues made by the hospital to the individual man will however always be restricted to ONE of each item required. Sufficient to enable the soldier to return to his unit.

3. What about patients transferred to "over 60 day" hospitals or Convalescent Depots? Will they be entitled to them?

4. At 5% the number of items involved would be 750 sets as per basic clothing list.

Major.
D. A. D. M. S.

SUBJECT: Strength Returns

TO : WAR MINISTRY

Nos. 1, 2, 3 and 4 Centre Alleg. TOTAL STRENGTH 102 All Ranks

1. During a discussion on the 29 Jan between Capt. YEAMSLEY and Major MAJOCCHI regarding MMIA letter G/11 dated 26 Jan concerning the above Units, it transpired that these are actually Medical personnel part of 9 Sezione Sanita (or Sez disinfezione).

2. Detachments of personnel from the above Medical Units were authorised by MMIA as an emergency measure, to guard against the spread of infectious disease from personnel arriving from overseas, no authorisation for the formation of separate units such as have been formed has been given by MMIA.

3. An explanation is required as to why these units were not shown in your strength state under Medical Section of Part 1 Administration in which their parent formation is contained, and as to why they were formed and designated without MMIA authority.

4. On reviewing the duties being carried out by these centres it is decided that it is not an Army responsibility to handle repatriated personnel who are actually civilians, and this should be carried out by the Italian Civil Government in connection with the Displaced Persons and Repatriation Sub Commission, A.C.

5. The military personnel will be returned to their parent Medical formation and shown as such in future strength returns.

Land Forces Sub+Commission, A.C.
(M.M.I.A.)
R O M E.

Copy: Lab.

Cases are occuring in 3 District of Italian Army personnel being discharged from Italian Mil. Hosps. holding certificates stating that they are unfit for any but sedentary duties. In II/407 Italian Pioneer Regt. there are 14 such men, some of whom are of demobilizeable age but cannot be released as their homes are in occupied Italy.

It is stated that the local Italian Military Hospital will not accept them back, presumably because they are incurable.

It is plain that any number of such men held in a unit above that unit's normal requirements for clerical and other sedentary duties are unproductive and therefore of no use.

May a ruling please be given as to how such personnel should be disposed of.

A.D.M.S.
Rome Area Allied Command (2)

1. On 9th Jan. 45, the hospital accommodation available in the Rome Territorial Command (incl. Lazio, Umbria & Abruzzi) was 2,259 beds equipped, 1,912 beds occupied. The situation in Rome itself on 25th Jan 45 was 1,390 beds equipped, 1,224 beds occupied.
The latter figures are for the hospitals of "Virgilio", "Baldi" and "Corradini".

2. About 4 weeks ago MMIA were informed to expect 200 Italian casualties per week from Florence area and Ministry of War were instructed to find a suitable site in or around Rome for a 500-bedded hospital.
Owing to a change of plan for the Combat Groups, casualties are at present evacuated by hospital ship down the East coast and the need for hospital expansion in Rome is not so urgent but is still necessary.
Two reinforcement camps, each for 6,000 troops, are being installed at Cesano and Orvieto. Both camps will have small Field Hospitals attached but serious cases will come to Rome. Four Combat Groups (each 10,000) will shortly be located North of Rome.
Hospital expansion in Florence area is being carried out as quickly as possible but is barely sufficient for the ever-increasing number of troops moving North and evacuation to rear areas is still required.

6057

3. Ministry of War have been informed that the sites at the "Buon Pastore" and Air Force Barracks are still required for Allied medical units.
Anzio military hospital (500 beds) is badly damaged. Ministry of War

Declassified E.O. 12356 Section 3.3/NND No. 789030

Territorial Command (incl. Lazio, Umbria & Abruzzi) was 2,259 beds equipped, 1,912 beds occupied. The situation in Rome itself on 29th Jan 45 was 1,390 beds equipped, 1,224 beds occupied.

The latter figures are for the hospitals of "Virgilio", "Baldi" and "Corradini".

2. About 4 weeks ago MAIA were informed to expect 200 Italian casualties per week from Florence area and Ministry of War were instructed to find a suitable site in or around Rome for a 500-bedded hospital.

Owing to a change of plan for the Combat Groups, casualties are at present evacuated by hospital ship down the East coast and the need for hospital expansion in Rome is not so urgent but is still necessary.

Two reinforcement camps, each for 6,000 troops, are being installed at Cassano and Terracto. Both camps will have small Field Hospitals attached but serious cases will come to Rome. Four Combat Groups (each 10,000) will shortly be located North of Rome.

Hospital expension in Florence area is being carried out as quickly as possible but is barely sufficient for the ever-increasing number of troops moving North and evacuation to rear areas is still required.

6357

3. Ministry of War have been informed that the sites at the "Buon Pastore" and Air Force Barracks are still required for Allied medical units.

Anzio military hospital (300 beds) is badly damaged. Ministry of War have been asked to reconsider the possibility of repairing this building. Requisition of a part of San Michele hospital at present used for refugees is an alternative which is being investigated. "Corradini" hospital is being expanded to 600 beds giving an increase of 250.

4. Any assistance in making available a hospital site in Rome area, without prejudice to Allied medical needs, would be most welcome.

Subject:- Italian Units - Personnel

Land Forces Sub Comm A.C. (MMIA)
SD/9
24 Jan 45

Transportation Increment

Reference your TN.A.1/100/5 of 16 Jan 45.

The policy for allocation of reinforcements for Italian units is laid down by AFHQ.

It is not the intention to reinforce Base Units with none other than low category men but AFHQ requirements at the moment take the majority of high medical category personnel for muleteers and other combat zone commitments.

923 Docks Operating Coy had, in addition to the 12 ORs of low medical category, 42 general duty men posted to it (posting order dated 13 Jan.)

ITALIAN PIONEER UNITS

(2)

1. As a result of Ministry of War instructions to the Commandos Campania, and Puglie and Lucania to post men fit for sedentary duties only to Pioneer units, these units are becoming bogged up with men unfit for any duties.

2. Recently men have been posted to units from hospital with certificates stating that they are unfit for any but sedentary or conditional employment for varying or unlimited periods, from which it would appear that IP Coys are being considered as holding Units for graded men or as rehabilitation centres. Such men are unfit for work with employing services and are just so much dead wood carried by the Coys. Also as they are perforce idle, their presence can only have a deleterious effect on the general standard of keeness and efficiency which is being aimed at.

3. There are in units in 3 District about 140 men who are too ill even to be employed on light duties within the Coy or camps. Some of these men are of demobilisable age but cannot be released as their homes are in enemy occupied territory. The various Regtl HQs state that the Military Hospitals will not accept them back, presumably because they are incurable.

4. Can instructions be issued please that these men be sent back to hospital so that after a period of 30 days they may be struck off the strength of the Units. Further it is submitted that the system of posting graded men who are totally unfit to IP Coys is undesirable for the morale and discipline of these units, and gives a false picture regarding effective working strength and percentage of sickness.

MINISTRY OF WAR

From information received from our L.O. in Catanzaro, the present strength of the staff at El Razza Military Hospital is 23 officers, 2 Sisters and 117 other ranks. The authorised W.E. is 16 officers, 10 Sisters and 84 other ranks. Total 160.

Please arrange to transfer from this hospital not only all personnel surplus to W.E. but also a proportion of the authorised staff as, while this is a 350-bedded hospital, it will never have to cater for more than 150 patients under present conditions.

The other military hospital in Catanzaro is closing as arranged through medical channels. All personnel will be transferred immediately to Rome for further posting.

Major General,
Land Forces Sub Comm. AC. (MMIA)

In order to meet the problem of convalescents who cannot go to their homes, 231 Dev wish to form a convalescent Camp on the lines of that already functioning with 210 Div for UBITIS.

Men who have to spend their convalescent leave at their units do not recover quickly and are often forced to work by commanders in an effort to solve man-power problems.

I have been asked by the GOC 231 Dev to obtain permission to inaugurate such a Convalescent Camp.

If permission is granted, 231 Div will need:

I. PERSONNEL
1 Captain M.O.
1 Subaltern M.O.
1 N.C.O. for admin.
3 N.C.O.s (medical)
30 O.R's

II. MATERIAL.
250 beds (complete)
1,000 sheets.
500 blankets.
250 comforters.
500 towels.
45 tables.
250 stools.
250 mess-tins.
250 spoons.
250 cups.
Cooking utensils.
A light truck.

Reference attached correspondence received from Ministry of War.

1. Previous application by Ministry of War, Medical Directorate, for the use of the basement in the north wing of the Villa Fonseca was refused by Rome Area Allied Command, on 14 Oct. 44 (G.P. 58 refers), mainly due to the fact that to enter this basement involved passing through the grounds of the Isolation Hospital.

Ministry of War have re-submitted fresh plans to overcome this difficulty (see attached translation and diagram).

2. This basement is unoccupied and is required by the Italian Army Medical Services for use as a laboratory and for special technical investigations of a medical nature (its previous function).

3. It is suggested that in view of these new proposals, you may wish to advise the Real Estate Section to reconsider their previous decision.

1. It has been reported that the field training of the Sezioni di Sanita of the Italian Combat Groups requires improvement, particularly with regard to the methods of clearing a battlefield and evacuation of casualties.

2. It is therefore proposed to attach a field officer from the Sezione di Sanita of each Combat Group to a Field Ambulance for one month for instruction. The officer selected from the Friuli Group will be attached to a Field Ambulance in FIFTH Army, the remaining four officers being attached to Field Ambulances in EIGHTH Army.

3. Will you please signify your agreement to the above proposal and nominate the units to which attachment is to be effected.

A statement of the present position regarding Italian Field Hospitals proposed W.E.s and moves required is given below.

1. There are 34 Italian Field Hospitals in all.

(a) TEN are divisional medical units with 50 beds and W.E. NA/536/1 is authorised for their formation.

82 Fd Hosp	332 Fd Hosp
960 Fd Hosp	516 Fd Hosp
84 Fd Hosp	517 Fd Hosp
333 Fd Hosp	248 Fd Hosp
244 Fd Hosp	501 Fd Hosp

Note that Nos. 83 and 91 (Piceno Division) were also authorised for this W.E.; this is no longer applicable, see para 4.

(b) TEN are required as auxiliary tail units in support of combat forces - each with 200 beds and on W.E. NA/574/1.

The original twelve 'tail' units have been reduced as the final two are no lobger required for Piceno programme.

230 Fd Hosp	866 Fd Hosp
232 Fd Hosp	522 Fd Hosp
429 Fd Hosp	576 Fd Hosp
519 Fd Hosp	331 Fd Hosp

Declassified E.O. 12356 Section 3.3/NND No. 775040

Further to AG/7/1 of 5 Dec/44. 92

1. O.C. 83 General Hospital has now informed this H.Q. that there is no record of the above named Italian Soldier ever having been admitted to 83 General Hospital.

2. Therefore the last known location of this soldier was the Staging Centre at Termoli on 15 July, as stated in para 2 of the enclosure to the above quoted letter.

Roma, 1° Dicembre 1944

Alla BAND FORCES SUB COMMISSION
- A. C. -

ROMA

Seguito f:n.1/4038/San del 24/9/1944)

Divisione 1ª Sez. 5ª
Prot. N.7/5552/ Allegati 2

Risposta al Foglio del
Div. Sez. N.

OGGETTO Riattivazione del Laboratorio di Fisiologia di Roma.

In base al foglio n.AQ/7 del 17-10-1944 di codesta Sub Commission, per il personale del Laboratorio militare italiano di Fisiologia di Roma (situato nell'interrato dell'ala Nord di Villa Fonseca) non è stato possibile ottenere il diritto di ingresso nel Laboratorio, in quanto detto ingresso si trova nell'interno del reparto isolamento del 104° British General Hospital.

Risulta che con lavori di pochissima entità è possibile assicurare al Laboratorio un ingresso a partire dall'ala Sud di Villa Fonseca. - Il nuovo ingresso si trova all'esterno del reparto isolamento, e coincide con l'ingresso oggi utilizzato dal personale del Collegio medico-legale italiano.

Il vecchio ingresso verrebbe murato e chiuso ermeticamente.

Resterebbe pertanto escluso ogni pericolo di contagio.

La pianta allegata illustra con maggiore dettaglio la situazione.

La riattivazione del Laboratorio di Fisiologia interessa a questo Ministero per i seguenti motivi:

1°- si tratta di un Laboratorio assai bene attrezzato, alle dipendenze diretta di questa Direzione Generale;

2°- il Laboratorio lavora in gran parte per il Collegio medico-legale, che ha sede anch'esso a Villa Fonseca;

Inter-Office Memorandum

30/1/2763

16 Dec 43

To: Special Sect.

Copy: G.1.
A/Q

It is requested that the W.E. NA/57A/1 in respect of an Italian Field Hospital (200 beds) be amended to include on the strength of the unit 10 Red Cross Nurses.

Reasons:

(1) C.R.I. nurses are volunteers and were previously attached to GHL and Nembo medical units when in the line last year.

(2) Proper authority to draw the extra 10 rations is required.

(3) This request does not apply to the Divisional Field Hospitals (on W.E. NA/536/1) but only to the 12 Tail units and possibly to 315, 229 (with 8th Army) and 964. (with 5th Army Tr Inor).

(4) The corresponding British 200-bedded hospital has 22 Nursing Sisters on W.E.

Land Forces Sub Comm
A.C. (MTA)
ROME
AG/7/1
28 Mar 44

Ref: No 1 Station

The Italian Military Hospital at Arezzo was originally planned for 250 beds. Now first main available to the Italian authorities four adjacent villas were also occupied by a Polish unit and the Italian hospital staff accommodated in certain of the wards.

To date only one of these four villas have been made available and the beds equipped are still only 176. This number is totally inadequate for the number of troops in this area.

It is requested that the remaining three villas be made available to the Italian staff and thus allow for expansion of this hospital.

A case of smallpox has occurred at St ANGELO D'ALIFE (MR H 2107). This village has been put out of bounds to all ranks not on duty. Units are responsible that all personnel proceeding to the Alife area or returning therefrom are fully protected against smallpox and have had successful vaccination within the last two years in accordance with GRO 275/44.

Reference attached translation of Italian Army letter received from Ministry of War.

1. The "Villa Pasteur" consists of two buildings or wings - one occupied by Italians, the upper two floors of the other being occupied by 10th General Hospital for infectious cases.
The basement of the wing occupied by 10th General Hospital is at present closed. It contains Italian technical medical equipment (electro-cardiogram etc.) which would be most inconvenient to disturb and re-erect elsewhere.

2. The Ministry of War request that permission to enter and use this basement be granted to Italian Army Medical personnel.

3. The basement is not at present in use as to enter it necessitates passing through 10th General Hospital grounds.

MINISTERO DELLA GUERRA
Direzione Generale di Sanita Militare

Ref: 1/4058/San

24 March 44

To: Military Mission Italian Army

Subject: Physiological Laboratory

In the interests of the Italian Army Medical Services this Directorate wishes to reinstate the above mentioned laboratory situated in VIA St.STEFANO ROTONDO No 4 (VILLA FONSECA) opposite Celio Hospital.

The laboratory which is at the disposal of the Ministry of War is situated in the same building of the Villa Fonseca.

As those buildings are occupied by the British General Hospital it is thus impossible for us to use the laboratory. We beg therefore that the building in question which contains the major part of the laboratory material, be returned to the Italian Army and that the under mentioned personnel have authorisation to use the laboratory so as to ensure its activities:-

LtCol	TENTILLETI	Igino	Director
2/Lt	MICCIOTTI	Tommaso	Assistant
Cpl	MORETTI	Bruno	Technician
Mr	TORO	Enrico	"

Please observe that this laboratory works mostly for the medico-legal Department and the War Pensions Medical Commission who, with permission from the Allies, are now functioning in the buildings of the Villa Fonseca.

SUBJECT:- Hygiene & Sanitation in Italian Units

A.41/1

"A" Hq 3 District

1. At the moment there are a number of ~~these~~ Italian Units in 57 Area working with the British Army and recent inspections have shown :-

(a) They are without mosquito or sandfly nets. The result has been a high incidence of sandfly fever amongst one GT Coy at least.

(b) No attempt has been made to ensure that the men have been given prophylactic inoculations against typhoid, paratyphoid, tetanus or typhus.

(c) No vaccinations against smallpox have been carried out during the past two years.

(d) No precautions are taken against the men contracting Venereal Disease. No ET Rooms are provided.

2. As some of these matters are liable to affect the health of British troops, it is requested that the policy regarding supply of the necessary medical facilities may be laid down.

TO : - Director, Army Sub-Commission, ACC.

1. The Malaria Consultant, AFHQ (Brigadier G. MacDonald) has requested that the services of the Italian Malariologist, named in para 2 below, be made immediately available to the 8th Army because of his previous experience in controlling malaria in the Po valley. The DDMS 8th Army has concurred via the Surgeon RAAC who has requested help from ACC in obtaining this man.

2. The man requested is:-

Doctor Sergio Bettini, now a Medical Officer, Lieutenant, in the Italian Army, stationed in Sardinia at the 12-bis Sezione di Disinfezione Territoriale at Pozzomaggiore, Sassari.

3. High priority is requested as his services will be most valuable in the immediate future.

4. It is requested that orders be arranged for this officer (para 2) attaching him to the DDMS HQ Rear 8th Army. High priority air travel is requested.

For Colonel M.E. Griffin, Acting Director,

PAUL F. RUSSELL, Colonel M.C.,
Chief, Malaria Control Branch.

WAR MATERIAL DISPOSAL AND ITALIAN PW SUB COMMISSION

S E C R E T

IPW/22/70

9 August 1944

Subject: Repatriation of sick and wounded of the "Garibaldi" Division.

To : His Excellency Marshal of Italy Messe, Chief of the Supreme General Staff.

Your Excellency:

I have been informed that it is not possible to confirm or refute the report that six Allied aircraft which landed at BERANE on the night of 17 June returned without taking a full load of wounded with them.

I have also been asked to inform you that from BERANE alone during June 313 Italians were evacuated. In the same period 380 Partisans were brought out from BERANE all of whom were badly wounded whilst many of the Italian evacuees had not been injured in engagements with the enemy but were merely exhausted by the conditions under which they had been serving.

All concerned have been informed that the Italian Government is prepared to accept all Italian sick and wounded when it may be possible to evacuate.

For the Chief Commissioner:

OFFICE OF THE REPRESENTATIVE AT BARI
OF THE MINISTER RESIDENT AT ALLIED
FORCE HEADQUARTERS,
36, Via Salvatore Cognetti, BARI

SECRET

22nd July 1944.

SUBJECT: Repatriation Sick and Wounded of "Garibaldi" Division.

To: Army Sub-Commission, Main Headquarters (MMIA), Lequila (Lecce).

I have received your letter of the 29th June (marked ASC/22/27).

I cannot confirm or refute the statement made by Marhsal Messe about the six Allied aircraft which landed at Berane on the night of the 17th June.

It seems possible, however, that the Italian Supreme Command are not aware of the number of Italian soldiers who have been evacuated fr from Yugoslavia with Allies assistance, and, in this connection, I suggest that you might inform Marhsal Messe that from Berane alone 313 Italians were evacuated during June. In the same period 380 Partisans were brought out from Berane, all of whome were badly wounded, whilst many of the Italian evacuees had not been injured in engagements with the enemy but were merely exhaused by the conditions under which they had been serving.

All concerned have been informed that the Italian Government are prepared to accept all Italian sick and wounded whom it may be possible to evacuate. Marshal Messe can be reassured on this point.

The question of the despatch of an Italian Military Mission to the Supreme Command of the Yugoslav Army of National Liberation has been discussed by the Balkan Air Force Policy Committee, and I have referred the matter to Mr. Caccia with the Allied Control Commission, Naples, to whom I am also sending a copy of this letter.

On political grounds it is considered undesirable that such a mission should be formed, as it will raise difficulties with Allied Governments who may wish to send similar missions.

I should, therefore, be grateful if you could discourage the proposal and point out that the machinery of the Allied Control Commission exists for such purposes.

A copy of my previous communication to Mr. Caccia is enclosed for your information.

COPY

OFFICE OF THE REPRESENTATIVE AT BARI
OF THE MINISTER RESIDENT AT ALLIED
FORCE HEADQUARTERS, BARI.

10 July 1944

You will probably have seen a copy of a minute sent by the A my Sub-Commission of Allied Control Commission to Force 399 on the 19th June (marked G/6/1) about Italian troops in Yugoslavia.

This question was discussed at a meeting of the new Policy Committee on the 28th June.

It was decided that there was no military objection to an Italian Military Mission being sent to the SupremeCommand of the Yugoslav Army of National Liberation, but it was pointed out that this was a matter for arrangement solely between the Italian Miliary authorities and Marshal Tito.

The meeting emphasised the great practical difficulties in the way of any large-scale evacuation in the present military situation and pointed out that Italian doctors had already been infiltrated into Yugoslavia and an increasing number of Italian wounded had been brought out.

Any communications which the Italians may wish to make to Marshal Tito should be addressedto the British Military Mission for onward transmission.

DMS
HQ AAI

1. Several large consignments of captured medical supplies have recently been handed over to Italian Depot Medical Stores in Naples and Bari.

A copy of the receipt voucher received at this office bears an Italian signature with the additional word "unchecked". Such a receipt is useless for accounting purposes.

2. DADMS MMIA visited the Financial Adviser AAI on 22 July 44, and was informed that Italian medical equipment captured before 6 September 44 is by the laws of war now legally British property. Any captured equipment or medical supplies given to the Italians is chargeable to the Italian Government.

3. It is requested:-

(a) that Commanding Officers, British Medical Stores be instructed to obtain a proper receipt voucher and that the practice of signing for supplies as "unchecked" will cease.

5566

(b) that all British Depots shall obtain a proper receipt voucher (with a copy for this office) from the respective Italian Depots for any consignments which

Declassified E.O. 12356 Section 3.3/NND No. 785030

office bears an Italian signature with the additional word "unchecked". Such a receipt is useless for accounting purposes.

2. DADMS MMIA visited the Financial Adviser AAI on 22 July 44, and was informed that Italian medical equipment captured before 6 September 44 is by the laws of war now legally British property. Any captured equipment or medical supplies given to the Italians is chargeable to the Italian Government.

3. It is requested:-

(a) that Commanding Officers, British Medical Stores be instructed to obtain a proper receipt voucher and that the practice of signing for supplies as "unchecked" will cease. 5966

(b) that all British Depots shall obtain a proper receipt voucher (with a copy for this office) from the respective Italian Depots for any consignments which have been handed over "unchecked" since 15 April 44.

(c) that facilities and time to check these supplies should in future be given to consignees.

Subject: Medical Supplies to Italian Armed Forces

(KO)

Army Sub Commission, A.C.C.
Main H.Q. (AMMA)
ROME
AG/7/1
10 July 44

S.M.R.E.

Copy to: Ministry of War, Direzione Sanita (for action re supplies)
DDMS POLCORPS) for information
AMMA IO POLCORPS)

1. Attached is a list of medical supplies showing items requested and amounts issued to Italian troops under command POLCORPS. As will be seen less than 25% of the demand was met.

The indent was returned to CIL under cover of a letter for Delegazione "A" which stated, "we inform you that owing to non-availability, it has not been possible to fulfil your request for medical stores, as in list attached. Therefore you can ask POLCORPS for them."

2. It is obvious that:-

(a) Delegazione "A" are completely ignorant of the proper procedure and orders pertaining to medical supplies, as practically all items are available in your depots at Bari or Mitonto.

(b) No attempt was made to communicate with and obtain medical supplies from Bari. Transport for medical supplies is available on returning ambulance cars and hospital trains. All these facts were made clear in orders issued by Medical Directorate, Ministry of War in May 1944.

3. This is a typical example of the numerous complaints which have been received concerning the failure of medical supplies to reach

Declassified E.O. 12356 Section 3.3/NND No. 785030

be seen less than 25% of the demand was met.

The indent was returned to CIL under cover of a letter for Delegazione "A" which stated, "we inform you that owing to non-availability, it has not been possible to fulfil your request for medical stores, as in list attached. Therefore you can ask POLCORPS for them."

2. It is obvious that:-

(a) Delegazione "A" are completely ignorant of the proper procedure and orders pertaining to medical supplies, as practically all items are available in your depots at Bari or Bitonto.

(b) No attempt was made to communicate with and obtain medical supplies from Bari. Transport for medical supplies is available on returning ambulance cars and hospital trains. All these facts were made clear in orders issued by Medical Directorate, Ministry of War in May 1944.

3. This is a typical example of the numerous complaints which have been received concerning the failure of medical supplies to reach Italian troops. It must stop.

4. You will therefore:-

(a) Take immediate action to forward these supplies from Bari.

(b) The Medical Officer with Delegazione "A" will be relieved at once from his post and replaced by an officer capable of obeying orders and understanding his responsibility to make every effort to supply his troops from Italian sources.

(c) Issue proper orders to all formations that the soliciting of medical supplies from Allied units must cease.

(d) Report to MMIA completion of above orders.

Subject: Italian Central Depot Medical Stores

SECRET AG 7/1

Army Sub Commission, A.C.C.
Main H.Q. (MMIA)
LEQUILE (LECCE)
M/14/1356
7 July 44.

1. With effect from 10 July 1944, the Italian Central Depot of Medical Stores will be opened at +Taranto for the reception of supplies from U.K. and other British sources.
A Medical Liaison Staff from Army Sub Commission (MMIA) is attached.

2. All future stocks of captured medical stores which are destined for return to the Italian Armed Forces should also be consigned to this Depot.

3. The redistribution of these stores is an Italian Army responsibility and is carried out within Italian channels of communication.

4. The postal address for the British Liaison Staff is:-

Medical Liaison Office,
Army Sub Commission, ACC (MMIA)
c/o 52 Area, C.M.F.

All official correspondence will continue to be addressed to this office (Main H.Q. MMIA).

5955

5. The Depot is located in 52 Area. Convoy notes for movement of stores within the Mainland of Italy should be endorsed,

"CIMINA SIDING - TARANTO"

6. Port Detachment Officers of MMIA will please forward stores arriving at other ports to the above address.

7. May all R.A.M.C. Port Detachments please be informed.

Declassified E.O. 12356 Section 3.3/NND No. 795030

and is carried out within Italian channels of communication.

4. The postal address for the British Liaison Staff is:-

Medical Liaison Office,
Army Sub Commission, ACC (MMLA)
c/o 52 Area, C.M.F.

All official correspondence will continue to be addressed to this office (Main H.Q. MMLA).

5955

5. The Depot is located in 52 Area. Convoy notes for movement of stores within the Mainland of Italy should be endorsed,

"CIMINA SIDING - TARANTO"

6. Port Detachment Officers of MMLA will please forward stores arriving at other ports to the above address.

7. May all R.A.M.C. Port Detachments please be informed.

LEQUILE (LECCE)
AQ/7/1.

7 July 44

MINISTRY OF WAR

1. Information received from the Medical Directorate, Ministry of War shows that medical supplies for the treatment of civilian refugees have been made from Italian Army Depots to the Refugee Camps.

2. The amounts supplied are not large, but they nevertheless contain several items which have concurrently appeared in indents for supply from British sources. For example, 22 thermometers were supplied to these Centres, yet on the arrival of Nembo Division at Naples in May, the Ministry of War were unable to meet their demand for thermometers which were subsequently met from British sources.

3. While these units have given excellent service and have performed admirable work, the issue of medical supplies from Italian Army sources is incorrect and will cease forthwith.

4. Please forward to this HQ a copy of the orders recently published by the Ministry of War dealing with this subject.

F. J. Noad
for Major General.

2. The above stores were properly indented for by CIL, but CIL were informed in SMME letter No.59/Serv of 18 June, that none of these stores were available in the Italian Medical Stores in VASTO.

3. As VASTO is only a small Advance Depot this was to be expected but no intimation was given to CIL by SMME that the bulk of the above stores were available in BARI, and no attempt has been made to supply such items as are available.

4. The SMME will therefore take the following IMMEDIATE action :-

(a) Despatch to CIL, such items as are available at BARI, or elsewhere, and notify this HQs of the date of despatch, and items despatched.

Declassified E.O. 12356 Section 3.3/NND No. 775030

Declassified E.O. 12356 Section 3.3/NND No. 785020

(b) Forward to this HQs a list of such items by quantities, as are not available from Italian sources.

SUBJECT: Hospital Accommodation and Equipment - Italian Army.

Army Sub Commission, A.C.C.
Main HQ (NAPLES)
LECCE (LECCE)
AG/7/1.
20 May 44.

H.Q. ACC
NAPLES.

Reference your Adj. 386.2 of 13 May 44, the correspondence is returned with the following comments :-

1. While it is accepted that Allied medical requirements have first priority it is essential that consideration should be given to the needs of the Italian Medical Services both in respect of accommodation and equipment in view of the number of ITALIAN tps fighting in the line and working for the ALLIES.

2. In CAMPANIA alone, due to Allied requisitioning, the Italians lost 9966 bedspace, the majority being in their best and biggest hospitals. They were left with 1100 bedspace. This has gradually been increased by improvisation in second rate buildings to 3,000 bedspace. To cover present and future needs in CAMPANIA a further 1500 - 2000 beds are required; of these 1000 are urgently required. The matter has been referred to D.M.S., AAI and D.P.M.S. 3 District.

3. In addition to losing accommodation, much equipment, surgical X-ray and laboratory facilities were also lost as these were in many cases permanent fixtures. About 6000 beds, mattresses, etc have also been requisitioned.

5932

4. Due to loss of hospital trains and ambulances the transfer of patients to less crowded areas has also proved difficult and is uneconomical except with long-term cases. On a recent visit to the principal Italian hospital in NAPLES (Miracoli School) on 6. 5. 44 there were 820 beds and 1009 patients in hospital, about 200 of whom were sleeping on straw in tents in the Courtyard.

5. Further accommodation and equipment (especially beds) is required. No more are available in CAMPANIA from Italian resources.

Application for assistance in the matter of beds has been made by Italian Ministry of War and it is now under consideration whether it will

Declassified E.O. 12356 Section 3.3/NND No. 775030

They were left with 1100 bedspace. This has gradually been increased by improvisation in second rate buildings to 3,000 bedspace. To cover present and future needs in CAMPANIA a further 1500 - 2000 beds are required; of these 1000 are urgently required. The matter has been referred to D.M.S., AAI and D.D.M.S. 3 District.

3. In addition to loding accommodation, much equipment, surgical X-ray and laboratory facilities were also lost as these were in many cases permanent fixtures. About 6000 beds, mattresses, etc have also been requisitioned.

5932

4. Due to loss of hospital trains and ambulances the transfer of patients to less crowded areas has also proved difficult and is uneconomical except with long-term cases. On a recent visit to the principal Italian hospital in NAPLES (Miracoli School) on 6. 5. 44 there were 820 beds and 1009 patients in hospital, about 200 of whom were sleeping on straw in tents in the Courtyard.

5. Further accommodation and equipment (especially beds) is required. No more are available in CAMPANIA from Italian resources.

Application for assistance in the matter of beds has been made by Italian Ministry of War and it is now under consideration whether it will be necessary to issue Allied equipment. If so, the anomalous situation will arise whereby the Allies will use Italian equipment and vice versa.

6. It is, therefore, requested that every consideration consistent with Allied needs should be given to the return of equipment, in order that the Italian Medical Services may remain capable of dealing with their own sick and wounded without becoming a burden to the Allies.

Major General.
Army Sub Comm, A.C.C.
