27 JAN 45

SUBJECT : Programme of Conferences.

Ref Minutes and Agenda of 2nd Meeting of N.W. ITALY
Coordinating Planning Committee forwarded to Regions, Sections,
Sub-Commissions and Divisions effected under ref: NWI/CONF/1
of 24 JAN.

1. At the second meeting of the N.W. ITALY Coordinating
Planning Committee it was agreed that Specialist Officers of
the three Regions should be brought into H.Q. as necessary to
prepare detailed plans for the N.W., coordinated among
themselves and with the Sub-Commissions concerned, for
submission to the Committee.

2. A series of meetings have therefore been arranged as
per attached schedule "A". In all cases where full Committee
meetings are not indicated, the discussion will be held in
Sub-Commission offices. Specialist Officers should call on
respective Sub-Commission Chief Clerks to inquire location of
meetings.

3. All meetings of full committee will be in Room 8,
Ground Floor.

4. Regional Commissioners LIGURIA, LOMBARDIA and PIEMONTE
are requested to make officers available or to recall them
where necessary from T/D so as to be present fully briefed with
Detailed plans for attached programme.

themselves and with the Sub-Committees concerned, for submission to the Committee.

2. A series of meetings have therefore been arranged as per attached schedule "A". In all cases where full Committee meetings are not indicated, the discussion will be held in Sub-Committee offices. Specialist Officers should call on respective Sub-Committee Chief Clerks to inquire location of meetings.

3. All meetings of full committee will be in Room 8, Ground Floor. 7300

4. Regional Commissioners LIGURIA, LOMBARDIA and PIEMONTE are requested to make officers available or to recall them where necessary from 11/10 30 to be present fully briefed with Regional plans for attached programme.

4. Specialist Officers are requested to inform Secretary to Committee, Room 8, Ground Floor, tel: 823 of progress of meetings with Sub-Committees, and are reminded that deadline for presentation of coordinated plans is 18 FEB.

OUTLINE PLAN OF ECONOMIC OPERATIONS IN NORTHWEST ITALYGENERAL1. Definition of Area Covered.

For the purposes of this plan Northwest Italy is defined as the four regions of Liguria, Piemonte, Lombardia, and Emilia. This area has a total population of roughly 14,799,000. Included in the area are three of the largest cities in Italy: Genoa, largest port with a population of almost a million; Torino, where 33% of the pre-war Italian automobiles were manufactured, with a population of a million and a quarter; and Milano, largest city and industrial center of Italy, whose population exceeds two and a quarter million.

2. Plan of Outline.

This outline is divided into two principal parts. The first part deals with general matters of organization and function; the second part summarizes the plans of the several Sub-Commissions in the Economic Section with respect to Northwest Italy. It is impossible for the plans of certain Sub-Commissions to be detailed and exact. For example, emergency feeding of the population is planned by the Food Sub-Commission in considerable detail, while it is difficult for the Public Works and Utilities Sub-Commission to state even a priority of operations until preliminary surveys can be made of the state of public utilities in the area.

PART I - ORGANIZATION

3. Experienced teams of officers have been or will soon be assigned by each Sub-Commission to supervise operations in Northwest Italy upon the liberation of part or all of this area. These officers, who will be working in forward areas, will be alerted to move on two- or four-hour notice into the liberated areas. They will eventually set up and assume direction of the various economic offices in Regional and Provincial Headquarters. Each officer will handle principally matters pertaining to his major assignment, but will, of course, work in cooperation with officers of other Sub-Commissions where their work is closely related.

4. In general, these officers will have the following duties in their

PAGE I - ORGANIZATION

3. Experienced teams of officers have been or will soon be assigned by each Sub-Commission to supervise operations in Northwest Italy upon the liberation of part or all of this area. These officers, who will be working in forward areas, will be alerted to move on two- or four-hour notice into the liberated areas. They will eventually set up and assume direction of the various economic offices in Regional and Provincial Headquarters. Each officer will handle principally matters pertaining to his major assignment, but will, of course, work in cooperation with officers of other Sub-Commissions where their work is closely related.

4. In general, these officers will have the following duties in their respective fields:

- a) Advise Regional and Provincial Commissioners, and aid them in clarifying and implementing AC policy.
- b) Aid in the organization and reactivation of Italian Government agencies at all levels; aid in uncovering and coordinating cooperation among Gov. and between Italian agencies and the Allied Armed Forces.
- c) Determine or aid in determining supply requirements and other economic needs and facilitate distribution of available supplies.
- d) Work with the Security group in regard to the political fitness of Italian officials for positions having to do with economic affairs.
- e) Assist in determining needs and surpluses of restricted materials, and civilian needs for controlled materials. (This information is forwarded to the AC Headquarters for action through the Local Resources Board machinery.)

7493

- 2 -

- 1) Establish and maintain price ceilings.
- 2) Make periodic reports, collect pertinent statistical data, inventory, etc., for the use of Headquarters AC.
- 3) In general, to carry out the two chief military missions of the Economic Section in forward areas, AC, which are: (1) to save shipping and internal transportation by maximizing the contribution from local resources to the Allied Forces; (2) to maintain a transport rear for the fighting forces by providing for the indispensable needs of the civilian population.

PART II - SUB-COMMITTEE PLANS

FOOD

1. Emergency food rations have been planned as follows:
 - a) plan. Ration basis for flour will depend on available stocks, milling conditions, transport, etc. The minimum ration (on which the Table of Requirements in paragraph 6 is based), provides for 160 grams of flour per person per day. This ration will provide 200 grams of bread per person per day. It is noted that corn and rice may be found in sufficient quantities to add to this basic flour ration, in which case a total grain ration of 300 grams per day may be possible.

Plans call for:

- (i) five days flour ration to every ration card holder.
- (ii) Thirty day flour ration for persons in cities over 50,000 population.
- (iii) One-half of a month's flour supply to be held in reserve in case damage sustained by mills is extensive.
- b) Miscellaneous supplies (except salt and soap) to persons in cities over 50,000 for the first two months.
- c) Miscellaneous supplies (except salt and soap) to distressed areas, hospitals, and other selected special places estimated at one-

a) Flour. Ration basis for flour will depend on available stocks, milling conditions, transport, etc. The minimum ration (on which the Table of Requirements in paragraph 6 is based), provides for 150 grams of flour per person per day. This ration will provide 200 grams of bread per person per day. It is hoped that corn and rice may be found in sufficient quantities to add to this basic flour ration, in which case a total grain ration of 300 grams per day may be possible.

Plans call for:

(i) Five days flour ration to every ration card holder.

(ii) thirty days flour ration for persons in cities over 50,000 population.

(iii) One-half of a month's flour supply to be held in reserve in case damage sustained by mills is extensive.

b) Miscellaneous supplies (except salt and soap) to persons in cities over 50,000 for the first two months.

c) Miscellaneous supplies (except salt and soap) to distressed areas, hospitals, and other selected special classes estimated at one-eighth of the remaining population.

d) Salt for the total population.

e) Soap for hospitals, refugees, and other selected special classes, as required by Public Health Sub-Commission.

f) Milk and olive oil or fats for hospitals and sick, estimated at 5% of the total population.

g) Rations for special classes will be the same as ration scales in presently occupied territory. For example, heavy workers, under the proposed rations, would be entitled to 124% more than the basic flour ration.

6. Table of food requirements for the first and second months. This assumes a ration population of 14,799,000; 3,976,000 in cities over 50,000; balance of 10,823,000.

Food	Grains/Head/Mth	Greens/Head/Mth	Total	
			1st 30 da. in tons	2nd 30 da. in tons
Flour	160	4800	30,293	15,300
Dried Vegetables	13	400	2,052	2,032
Meat & Vegetables	12	400	2,352	2,032
Salt	10	300	1,599	1,599
Sugar	8.3	350	1,334	1,334
Powered milk	50 } 30.0	--	66	66
Olive oil or fats	10 } 30.0	--	13	133

7. To meet above requirements, the following arrangements have been made:

- All feeds required for the first 30 days were scheduled to be in 40 forward warehouses by 30 November 1944.
- The second month's supply of dried vegetables, meat and vegetables, milk and soup, was scheduled to be in forward warehouses by 30 November 1944. The second month's supply of flour is to be in forward warehouses by 15 December 1944.
- It is presumed that planned shipments of salt, sugar, fats, soup and grain will have arrived to take care of further needs.

8. The following program has been adopted to reduce to a minimum the necessary demands on import shipping.

- These items will be blocked: sugar, wheat, rice, corn, olive oil, and certain milk products (those which can be kept for a period of time, such as parmesan cheese).
- All supplies of rationed foodstuffs are to be blocked immediately for further allocation and distribution.
- Food grain is to be shipped at the first opportunity.

7. To meet above requirements, the following arrangements have been made:

- a) All funds required for the first 30 days were scheduled to be in AC forward warehouses by 30 November 1944.
- b) The second month's supply of dried vegetables, meat and vegetables, milk and soup, was scheduled to be in forward warehouses by 30 November 1944. The second month's supply of flour is to be in forward warehouses by 12 December 1944.
- c) It is presumed that planned shipments of milk, sugar, fats, soup and grain will have arrived to take care of further needs.

8. The following program has been adopted to reduce to a minimum the necessary demands on import shipping:

- a) These items will be blocked: sugar, wheat, rice, corn, olive oil, and certain milk products (those which can be kept for a period of time, such as processed cheese).
- b) All supplies of rationed commodities are to be blocked immediately for further allocation and distribution.

7492

- c) Local grain is to be utilized at the first opportunity.
- d) Stockpiles will be set up as soon as possible in Geneva.
- e) Adequate funds will be set up in the municipal capitals.

9. Other planned arrangements:

- a) The midday meal which is fed by the Army to civilian laborers working for the Allies will be rationed from AC stocks only on the authority of the Food Sub-Commission and at the consumption rate of one meal per day, as established in AFHQ Adv. Admin. Letter 43/40 of 6 February 1944.
- b) The reporting program will be that worked out in presently-occupied territory by AC headquarters and the Federazione dei Consorzi Agrari; that is, (a) to let warehouse stock report on all supplies, (b) weekly reports on surpluses and deficiencies.

AGRICULTURE

10. General.

The duty of agricultural officers is that of reorganizing and supporting the Italian agricultural administration, and not one of "first aid." Their duty is not to supplant the functions of Italian agricultural agencies or to carry on actual agricultural operations.

11. Each Regional Agricultural officer will provide each Provincial Commissioner with the following regional information for the use of the Provincial AC staff. Most of these materials have already been prepared and made available to Regional Agricultural officers. Where the information is dependent on surveys to be made within the area, the surveys will be made under the direction of Regional Agricultural officers.

- Unit 1 Italian personnel list. Key officials in Provincial offices.
- Unit 2 Information concerning Italian official and agency organization and functions.
- Unit 3 "Reactivation of Italian Agricultural Work", a green booklet with distributed list.
- Unit 4 General Order 26, covering the assessing of wheat and barley, which has been and will be issued in forward areas.
- Unit 5 Pond/Viche Data, including area maps, date on dams, river and flow requirements.
- Unit 6 General crop and livestock data.
- Unit 7. Farm machinery numbers and estimate of 1945 fuel requirements.
- Unit 8. Estimate of required concrete agricultural supplies (other than fuel) for 1945.
- Unit 9 Olive oil decres and other decrees applicable to the area.
- Unit 10 List of crops to be assessed and prices at which to be assessed.
- Unit 11 Provide information on questionnaire in Appendix E, P. 17, in "Reactivation of Italian Agriculture."

- Unit 3 "Reactivation of Italian Agricol area", a green booklet with distribution list.
- Unit 4 General Order 26, covering the assessing of wheat and barley, which has been and will be issued in forward areas.
- Unit 5 Benificence Date, including area maps, date of maps, power and fuel requirements.
- Unit 6 General crop and livestock data.
- Unit 7 Farm machinery numbers and estimate of 1945 fuel requirements.
- Unit 8 Estimate of required routine agricultural supplies (other than fuel) for 1945.
- Unit 9 Olive oil harvest and other decrees applicable to the area.
- Unit 10 List of crops to be assessed and prices at which to be assessed.
- Unit 11 Provide information on questionnaire in Appendix B, p. 17, in "Reactivation of Italian Agriculture."
- Unit 12 1944-45 Production Program, with recommended lines of action to implement same.
12. The following specific duties connected with agriculture will be performed by agricultural officers:
- a) Blocking of warehouses for storing and for agricultural supplies.
 - b) Blocking of office and transportation equipment for important agricultural agencies and groups.
 - c) Blocking of all fertilizer and machinery stocks for re-allocation by headquarters, AG.

- d) In consultation with officers of Industry Sub-Commission, seeing to the blocking of factories which produce machinery and critical agricultural supplies.
- e) Assisting in determinations as to movement of agricultural supplies.
- f) In conjunction with Public Works and Utilities officers, determining beneficial and irrigation projects to be repaired immediately.
- g) Aiding in completing the assessing of commodities.
- h) In conjunction with the Prefects and appointed Agrari, organizing Provincial and communal agricultural committees as soon as possible.

13. Fisheries. Agricultural officers will:

- a) Put the Captains of the Ports in touch with the Provincial Commissioners. (The port captains, who have always had jurisdiction over fishing, know the operators and their equipment. There is a Captain of the Port or a Delegato di Spiaggia at every fishing village.)
- b) Apply the procedure on Fisheries outlined on pages 20 to 30 in "Reactivation of Italian Agriculture."
- c) Get answers, through the Provincial Commissioners to the questions on the following forms:
 - (i) Questionario per i Pescatori (Form A) AGN/511.
 - (ii) Questionario per gli Stabilimenti Conserveri (Form B) AGN/504.
 - (iii) Questionario per i Cantieri o per le Ditte Costruttrici di Attrezzi per la Pesca (Form C) AGN/512.
- d) Make recommendations for needs based on answers to these questionnaires.

14. Forestry. Agricultural officers will:

- a) Obtain a list of all members of Royal Forest Corps on duty and submit it to AG Headquarters with recommendations for any changes.
- b) Appoint acting head for Royal Forest Corps Group Commands (Provincial) and Legion Commands.

7491

- b) Apply the procedure on Fisheries outlined on pages 20 to 30 in "Classification of Italian Agricultural Areas."
- c) Get answers, through the Provincial Commissioners to the questions on the following forms:
 - (i) Questionario per i Pescatori (Form A) AGH/511.
 - (ii) Questionario per gli Stabilimenti Conserverieri (Form B) AGH/504.
 - (iii) Questionario per i Cantieri a per la Ditta Costruttrice di Attrezzati per la Pesca (Form C) AGH/512.
- d) Make recommendations for needs based on answers to these questionnaires.

14. Forestry. Agricultural officers will:

- a) Obtain a list of all members of Royal Forest Corps on duty and submit it to AG Headquarters with recommendations for any changes.
- b) Appoint acting head for Royal Forest Corps Group Commands (Provincial) and Legion Commands.
- c) Instruct Provincial (Group) Commands of Royal Forest Corps to:
 - (i) Obtain statistics on amounts of charcoal and fuelwood on hand.
 - (ii) Prepare a six-month "Production and Distribution Plan for Fuelwood and Charcoal."
- d) Obtain from Army Wood Procurement Officer monthly requirements for fuelwood and charcoal and submit figures to Provincial Royal Forest Corps for inclusion in six months "Plan for Production."
- e) Instruct Provincial Royal Forest Corps to:
 - (i) Obtain information requested to Sawmill questionnaire mentioned in Unit 11.

7491

- (ii) Take steps necessary to insure immediate production of fuelwood and charcoal.
- (iii) Submit to Provincial Agricultural Officer their recommendations for proper functioning of the Corps and for increasing production of fuelwood and charcoal.
- f) Call a Regional meeting of Prefects, members of Royal Forest Corps, representatives of Segrai and Consorzi Agrari for the purpose of adopting a uniform price policy and removing obstacles placed by commerce, private owners, etc., against timber cutting for fuel.

COMMERCE

15. No specialist staffs from AG Headquarters are contemplated. Civilian specialists will be employed.
16. Commerce officers will:
 - a) Receive and distribute among the Province consumers goods, such as textiles, clothing, shoes, etc., including goods produced locally.
 - b) Assist Provincial Supply Officers in the making of inventories and in blocking of non-food materials which are controlled by the Allied Force Local Resources Board or by the Italian Government.
 - c) Keep potential goods and materials in short supply under supervision by inventories, freezing or blocking, and release, thereby preventing hoarding, speculation and clandestine sales, and in using equitable distribution, especially to the needy. A list is attached showing the commodities on (i) the existing controlled list, (ii) the restricted list, and (iii) the list of materials under the control of the Italian Government only.
 - d) Receive demands for controlled materials from Provincial Supply Officers. Collate and compare them as to specifications, quantities, and urgency. Transmit them to the Sub-Commission for presentation to appropriate committees of the Allied Force Local Resource Board.
 - e) Develop, control or sales outlets for goods that may get into black market circulation.

- a) Receive and distribute among the provinces consumers goods, such as textiles, clothing, shoes, etc., including goods produced locally.
 - b) Assist Provincial Supply Officers in the making of inventories and in blocking of non-food materials which are controlled by the Allied Forces Local Resources Board or by the Italian Government.
 - c) Keep essential goods and materials in short supply under supervision by inventories, freezing or blocking, and release, thereby preventing hoarding, speculation and clandestine sales, and in doing equitable distribution, especially to the needy. A list is attached showing the commodities on (i) the existing controlled list, (ii) the restricted list, and (iii) the list of materials under the control of the Italian Government only.
 - d) Receive demands for controlled materials from Provincial Supply Officers. Collate and screen them as to specifications, quantities, and urgency. Transmit them to the Sub-Commission for presentation to appropriate committees of the Allied Forces Local Resources Board.
 - e) Develop consular or sales outlets for goods that may get into black market operations.
 - f) Assist state monopoly distributors of matches, tobacco, etc., in their operations.
 - g) Allocate raw materials and restrict production of non-essential goods within the limits of power, fuel, etc.
 - h) Facilitate procurement, movement, and handling of goods for export, as directed by Foreign Trade Section, Commerce Sub-Commission.
17. Commerce officers will as soon as possible work out a Planning Program for their Region or area, along the following lines:
- a) Confer with provincial officers, Uffici Provinciale del Commercio ed Industria and the Comar del Commercio, Industria, ed Agricoltura, to determine needs, resources, and means of distribution of materials.
 - b) Determine net requirements of consumer goods, non-substance materials, to supply minimum essential needs.

- 7 -

- c) Determine local availability in terms of stocks, production, currency and projected for six months.
- d) Determine minimum import requirements from other parts of Italy and from abroad.

INDUSTRY

16. Emergency

- a) The emergency phase of the industrial program is dictated by the immediate civil needs for food, clothing and shelter. The following industries are of first priority:

Food processing
Textile industry
Building materials (brick, timber, asbestos, tiles, glass, cement, etc.)

With the exception of brick and cement, the fuel and power requirements of these industries are relatively small, and they have the advantage of fairly high labor requirements.

- b) Power production in Northwest Italy is 90% hydroelectric. Many industries will be heavily dependent on the resumption of power production. It will be essential to plan for the reactivation of plants which can furnish materials necessary to aid the Public Works and Utilities divisions in their task of repairing the damage wrought by German air raids.

- c) The steel industries are of first importance to transportation, repair work and construction and are therefore of high priority, but are dependent on power and import coal. Consequently, their reactivation must be given a priority. A policy has been established to foster the production of spare parts and assemblies necessary for repair to existing machinery and transport, rather than the manufacture of complete new units.

- 19. An Industrial Coordination Committee has been set up under the AIRC, to coordinate the utilization of industrial plants in the North of Italy.

6100

With the exception of brick and cement, the fuel and power requirements of these industries are relatively small, and they have the advantage of fairly high labor requirements.

b) Power production in Northwest Italy is 90% hydroelectric. Many industries will be heavily dependent on the resumption of power production. It will be essential to plan for the reactivation of plants which can furnish materials necessary to aid the Public Works and Utilities officials in their task of repairing the damage wrought by German bombings.

c) The steel industries are of first importance to transportation, repair work and construction and are therefore of high priority, but are dependent on power and import coal. Consequently, their reactivation must be given a priority. A policy has been established to foster the production of spare parts and assemblies necessary for repair to existing machinery and transport, rather than the manufacture of complete new units.

1920

19. An Industrial Coordination Committee has been set up under the ARIPB, primarily to control the utilization of industrial plants in the North of Italy. Its formation is calculated to achieve a more orderly allocation of factories, their output and the materials they require. The procedure for industrial coordination in forward areas will be distributed as soon as it has been adopted by the Committee.

1920

20. Labor officers will take over existing civilian labor employment offices and establish new ones as required to supply labor for:

- a) The Armed Forces
- b) Local clean-up work
- c) Private industry

- 8 -

21. Regional and Provincial Labor Offices will be established and arrangements made for appointment of civilian directors. The function of these offices will be to adjust wages, arbitrate disputes over wages and working conditions, maintain periodic inspection of working conditions in plants, set up (or serve as) employment officers, collect statistics on cost of living, etc.

22. Labor Officers will:

a) Coordinate work of all employment offices whether originally established under the Italian Government (National Committee of Liberation), U. S. Army Units, or British Army Units, including the Deputy Assistant Director of Labor, Civil Labor Offices.

b) Publish General Order No. 26-Labor Relations--together with pertinent rules and regulations. A list of rules and regulations covering General Order No. 28 has been prepared for circulation.

c) Establish current Agreed Peace Rates for civil employees of the Allied Forces, as promulgated by AFHQ.

d) Publish all appropriate wage increase orders.

(1) Public wages (state and para-statal employees) are to be governed by current wage increase orders.

(11) Private industrial wages are to be governed by collective contract or by any current wage increase order agreed upon with the Italian Government.

TRANSPORTATION

23. Railways.

a) Three AG officers are to be assigned to the regions of Piemonte, Liguria, and Lombardia. The group will be delegated to supervise the Italian State Railway Divisions of Milano, Genova, and Torino, together with the Private Railway Companies. Until the situation is thoroughly clarified, the group will work, as a team, under the command of the railway officer stationed at Milan. It is contemplated that initial duties will be concerned primarily with

- c) Establish current Armed Force rates for civil employees of the Allied Forces, as promulgated by AFHQ.
- d) Publish all appropriate wage increase orders.

(ii) Public wages (state and para-statal employees) are to be governed by current wage increase orders.

(iii) Private industrial wages are to be governed by collective contract or by any current wage increase order agreed upon with the Italian Government.

TRANSPORTATION

25. Railways.

- a) Three AG officers are to be assigned to the regions of Piemonte, Liguria, and Lombardia. The groups will be delegated to supervise the Italian State Railway Divisions of Milano, Genova, and Torino, together with the Private Railway Compagnie. Until the situation is thoroughly clarified, the groups will work, as a team, under the command of a railway officer stationed at Milan. It is contemplated that initial duties will be concerned primarily with inventories of stocks, surveys of rail tracks that are open or in need of immediate repair, and getting movements effected as rapidly as possible, based upon the nearest open port and the demands from supply officers. Rail officers may have to reorganize the whole Italian Railway Division and bring engineers, etc., from the South to operate it.
- b) It is expected that railroad movements will be interrupted for a considerable period following German withdrawal from Northwest Italy. Demolitions are expected to be exceedingly heavy and the number of railway breaks will at least be doubled, compared to the present situation as reported by Intelligence.
- c) Although feeder lines exist from West coast or as in the Bologna direction, there are only two railway routes directly from Southern Italy to the Northwest corner, via Genova by the coastal route, and across from the Eastern seaboard via Bologna. On both of these lines, the track has been removed by the Germans and the other track is likely to be seriously damaged, if not removed. For this reason, it is impossible to say where the railheads will be. It is even

probable that the railway cannot be used at all for a considerable period. AO has no personnel for undertaking railway repairs or reconstruction. In this regard, it will be necessary to rely entirely-- at least in the initial stages--upon the Military Railway Services.

24. Ports.

It is contemplated that the only port which could be used will be Genova. The operation of the port by AO will depend upon the extent to which use and control may be relinquished by the military and in any case, it is possible that a month may be required to clear the port of Genova after the German withdrawal. It is probable that La Spezia will not be capable of utilization, as it is adapted for use as a naval base.

25. Road Transport.

Requisitioning was submitted to AFHQ 14 Nov. '44 for 2,526 trucks (24 ton and 5 ton) for use this winter to carry food and supplies from Livorno into Northwest Italy. If the area is not liberated until spring, the number of trucks required will be increased to 5,785. A complete justification with all available statistics and estimates was presented in the requisition. With regard to Northwest Italy, the following are the quantities of food imports per month, broken down by destination:

Piemonte	10,265.2 tons
Liguria	6,907.2 "
Lombardia	19,073.4 "
Northwest Total	36,245.4 tons

26. Civilian Road Transport.

All Regional Commissioners and Regional Transport Officers have been furnished with a directive, authorizing them to organize civilian road transport in any form. This transport is organized under the EMAC Plan, which has been thoroughly explained to Regional Transport Officers. The Dots Nazionali Autotrasporti Al Coss is a part of the Ministry of Communications and organizes on a national basis the civilian road transport and agencies established by the AC/ARS. It is now estimated that 1200 civilian trucks will be necessary to carry food and supplies within the liberated Northwest in addition to the vehicles above mentioned as requisitioned. Regional Transport Officers have also been supplied with the location of Fiat and Lancia Dots, works and

and 5 ton) for use in winter to carry food and supplies from Livorno into Northwest Italy. If the area is not liberated until spring, the number of trucks required will be increased to 5,785. A complete justification with all available statistics and estimates was presented in the requisition. With regard to Northwest Italy, the following are the quantities of food imports per month, broken down by destination:

2 months	10,265.2 tons
Liguria	5,907.8 "
Lombardia	12,073.4 "
Northwest Total	36,246.4 tons

26. Civilian Road Transport.

All Regional Commissioners and Regional Transport Officers have been furnished with a directive, showing how to organize civilian road transport in any form. This transport is organized under the EMAC Plan, which has been thoroughly explained to Regional Transport Officers. The Ente Nazionale Autotrasporti di Cosa is a part of the Ministry of Communications and organizes on a national basis the civilian road transport and agencies established by the AC/AMB. It is now estimated that 12,000 civilian trucks will be necessary to carry food and supplies within the liberated Northwest in addition to the vehicles above mentioned as requisitioned. Regional Transport Officers have also been supplied with the locations of Fiat and Lancia Depots, works and agents, as well as the depots in each Province.

PUBLIC WORKS AND UTILITIES

27. Teams of specialists, engineering officers, have been assigned to work in the Northwest since when it is liberated. These men are qualified to handle operations dealing with waterworks, damaged highways and bridges, public utilities and electrical generation and distribution. These officers are at present in close contact with engineering units of the 5th and 8th Armies and are thus aware of conditions and problems confronting them. They know, for example, which bridges have been blown up, how many temporary bridges the Army has built, how long these temporary bridges will last and whether cement can be obtained from the Army to rebuild them.

- 10 -

28. In the absence of definite and accurate information concerning the extent of war damage and destruction which will exist when the 10 Regional Offices are set up, no specific advance planning is feasible. The general order of priority is: (a) restoration, (b) sewerage, (c) light and power, (d) communications. However, conditions may be such as to require an entirely different order of priority. Repair of a particular bridge, for example, may be crucial in making possible the movement of food from forward warehouses.

29. The officers' procedure is to work with and parallel to the Italian Government Agencies and specialists which will be appointed. They will acquire exact information as to the state of damage, spoliation, and priority of work to be done. A composite requisition is made up, including plans and justifications for materials and equipment for each plant or unit in a group which it is proposed to repair or rehabilitate.

30. In the case of public power plants, a construction program for several months ahead may be planned at least in condition are known. Such a program can then be used as a basis for bidding for local resources and imported supplies.

31. The Public Works and Utilization Sub-Commission has obtained small quantities of public power equipment to put into use when the Army moves on with its portable equipment. (Plans are now available for use of the 25,000 KW power ship which is being sent from the U.S. Industrial arrangements call for its use in Livorno, in which case it might serve some of the area under consideration.)

FINANCE

32. Hundreds of special instructions, forms, etc., have been prepared by the Finance Sub-Commission for the guidance of Finance officers in every phase of Finance work. A general description of their responsibilities is given in the following paragraph.

33. As in other areas, Finance Officers, operating under procedures and policies laid down by the Finance Sub-Commission, Headquarters AF, will be responsible for the following:

- a) Supplying all first running of the Allied Armed Forces, to AFM for its own operations, and, if necessary, to the Banco d'Italia to cover Government expenditures.

months ahead may be planned to save on expenditures are shown. Such a program can then be used as a basis for bidding for local resources and imported supplies.

31. The Public Works and Utilization Sub-Commission has obtained small quantities of mobile power equipment to put into use when the Army moves on with its portable equipment. (Plans are not definite for use of the 25,000 KW power ship which is being sent from the U.S. Preliminary arrangements call for its use in Livorno, in which case it might serve some of the area under consideration.)

FINANCE

32. Hundreds of special instructions, forms, etc., have been prepared by the Finance Sub-Commission for the guidance of Finance officers in every phase of finance work. A general description of their responsibilities is given in the following paragraph.

33. As in other areas, Finance Officers, operating under procedures and policies laid down by the Finance Sub-Commission, Headquarters AC, will be responsible for the following:

- a) Supplying AM lire currency to the Allied Armed Forces, to AMF for its own expenditures, and, if necessary, to the Banca d'Italia to cover Government expenditures.
- b) Accounting for its entire civilian supplies.
- c) Reconstitution and supervision of the Italian revenue system.
- d) Supervision of State, provincial, and communal expenditures. As local as territory in which military government, public moneys cannot be spent without prior approval of budgets by the appropriate Finance Officer.
- e) The operations of banks, stock exchanges, and post office financial services, including determination of when such institutions will be allowed to resume functioning, and to what extent.
- f) The blocking of money and financial assets.
- g) The operations of social and commercial insurance companies.

LIST OF CONTROLLED AND RESTRICTED MATERIALS

A. - MATERIALS CONTROLLED BY AFIR(I)B.

(1) Materials under control of Engineering Materials Committee, AFIR(I)B.

I. Metals - Ferrous.

1. Cable & Wire.
2. Machine & Tool Steel.
3. Structural Steel, sections dimension exceeding 6".
4. Foundry Pig.

II. Metals - Non Ferrous.

5. Brass, unalloyed.
6. Copper, unalloyed and scrap.
7. Chromium.
8. Lead in all forms.
9. Nickel.
10. Solder.
11. Tin.
12. White metal for bearings.

III. Timber.

13. Standing timber in the area reserved for British and American services in C.I. area.
14. Plywood.

IV. Other Building Materials.

15. Paint.
16. Plaster for lining.
17. Varnish.
18. Lined & Lined Oil.

V. Electrical Materials.

7.108

7108

II. Metals - Iron Ferrous.

5. Brass, unfabricated.
6. Copper, unfabricated and scrap.
7. Chromium.
8. Lead in all forms.
9. Nickel.
10. Solder.
11. Tin.
12. White metal for bearings.

III. Timber.

13. Standing timber in the two areas reserved for British and American services in Ceylon.
14. Plywood.

IV. Other Building Materials.

15. Lint.
16. Pigments for paint.
17. Varnish.
18. Linseed & Lard Oil.

V. Electrical Materials.

19. Accumulators & Batteries.
20. Capacitors & Airplane capacitors.
