The Stallion Depot FOGGIA was moved from FOGGIA to LUCERA as the FOGGIA Depot was required by the Allies.

Information has been received from the Ministry of War that LUCERA is not suitable as a Stallion Depot, and they ask if it would be possible for the FOGGIA Depot to be re-occupied.

Would you please state if it would be possible for some or all of the FOGGIA Depot to be handed back to the Italian Authorities.

Subject: De requisitioning of Stallion Depot, Foggia

Stallion Depot, Foggia has been transferred to Lucera because Allied units occupied its buildings in Foggia.

This temporary transfer to Lucera has not up to the present been adequate considering the forthcoming winter season and the minimum accommodation, and the Depot cannot carry out its duties in an efficient manner.

As things are at present, considering the serious discomforts and the actual situation of the Allied units in Foggia, it seems that there is a possibility of returning some of the buildings to the a/m Depot.

May please MMIA look into the matter in order that this situation be solved which not only affects the morale and the phisics of the depending soldiers but also the stallion production.

SUBJECT: Accommodation - Taranto.

To: HQ,
Land Forces Sub-Commission, AC, (MMIA).

1. Reference your AQ/10 dated 29 Nov 44, the letter from the Ministry of War dated 23 Nov 44 gives a completely false picture.

2. The true state of affairs is as follows. The Italian Authorities were warned on the morning of 25 Oct that the accommodation was required and were asked to submit suggestions. They had not done so by 26 Oct and accordingly it was intimated to them on the afternoon of that day that the particular accommodation at 91 Corso Umberto was required. The formal Requisition Notes were handed to them on 27 Oct.

3. It was appreciated that some inconvenience would be caused to the Italian families in occupation and it was accordingly suggested by the Town Major (and not by the Italian Authorities) that certain scattered flats throughout the Town should be allocated for the use of the people who were to be displaced. The Italian Authorities agreed to the suggestions.

4. This alternative accommodation was handed over on 28 Oct and transport and labour were provided on 30 and 31 Oct to assist in the removal of the Italian families.

5. It has now appeared that out of the 12 flats handed over for the use of the families from 91 Corso Umberto, only 3 were so allocated by the Italian Authorities, and the others were given to civilians who had no connection with the case.

6. The facts of the matter are being represented to the Commandante Militare Marittimo here and an explanation has been called for as to who was responsible for the mis-represented Report which has reached you.

Allied authorities have carried out an inspection, together with one representative of the Real Estate Board, Allied Command, Rome, in the barracks situated in Via Nomentana 276/A actually occupied in part by the 4th M.T. Coy of this Ministry, with a view to find a possibility of accommodating a small allied unit (about 60 men) and a mechanical workshop.

From this inspection it resulted that parts (as shown in red on attached sketch) are not being used:- the workshops (B) because damaged and the small building because it has no doors or windows. Allied authorities that are accommodated there, would arrange to carry out the necessary repairs and put a guard to stop eventual robberies.

We beg this Ministry, in case the above is correct, to instruct Allied authorities so as the buildings be left to the disposal of the allies, giving confirmation to this Presidency.

Le Autorità Militari Alleate hanno compiuto un'ispezione con intervento del nostro rappresentante del Real Estate Board del Comando Alleato di Roma, alla Caserma sita in Via Nomentana 276/A ora parzialmente occupata dall'Autodrappello di codesto Ministero, allo scopo di vedere se sia possibile sistemarvi una piccola unità Alleata (circa 60 militari) e un'officina di riparazioni meccaniche.

Dall'ispezione è risultato che sono attualmente inutilizzati la rimessa e il piccolo edificio indicati in rosso nell'unito piano: la prima perché con serrande danneggiate e il secondo perché privo di porte e finestre. Le Autorità Alleate, che li ritengono adatti ai loro bisogni, provvederebbero a farvi tutte le riparazioni necessarie e ad istituire un servizio di vigilanza, il che varrebbe a mettere un fermo ai furti di materiale che attualmente si verificherebbero nel recinto stesso della caserma, a detta dell'ufficiale di servizio.

Si prega codesto On. Ministero di voler, ove quanto precede corrisponda a verità, dare disposizioni alle competenti Autorità

I forward this application to you in order that I may be assisted in a private matter which has not yet been settled with the British Officer (Claims and damages payments, Bari).

My father's appartment in Bari, via Piccinni 208 1st floor, of which I am the heir, has been hired to some officers of the Press and Propaganda Office (Capt. Cerri and others), my old mother and my two single sisters having moved to the country.

Nearly seven months ago, during the sunday temporary absence, of the above tenents, the appartment was requisitioned with all its furniture by the local Yugoslave HQ which is located at a short distance from my home in Palazzo Nitti in the same street.

Having been informed monday morning of the facts by tenents of the building, I went there and noted that:-

— the entrance door was forced as well as all existing furniture in the appartment, their contents being mostly taken away and the remainder found in an indescribable disorder.

— three yugoslave soldiers in green grey uniforms who, after I insisted, confessed that they were runners of the a/n HQ.

I went immediately to the Yugoslave HQ and

temporary absence, of the above tenents, the appartment was requisitioned with all its furniture by the local Yugoslave HQ which is located at a short distance from my home in Palazzo Motti in the same street.

Having been informed monday morning of the facts by tenents of the building, I went there and noted that:-

— three Yugoslave soldiers in green grey uniforms who, after I insisted, confessed that they were runners of the a/n HQ.

I went immediately to the Yugoslave HQ and was received very unpolitely by a Captain who seemed to know all about the facts I was complaining

Then I went to see the Town Major and explained how the appartment was not occupied at the moment but was hired to people. I obtained its immediate derequisition.

I forwarded a claim, in detailing the articles taken away with their pre-war value, to the Yugoslave HQ as well as to the Allied Officer i/c Claims, Bari. But up to the present, nothing was given to me neither by one or the other although I mentioned names of witnesses who, if interogated, would confirm willingly the facts which occured.

Capt. Cerri, who is still on duty there at the Press and Propaganda Office, can also confirm what happened because, I think, he too, put in a claim for his personal property which was also taken away.

Having said the above and considering that:-

— in my father's appartment my old and invalid mother and my two single sisters remained alone; all incapable to do anything in order to obtain a compensation for the robbery in question.

— my duty does not allow me to take interest in the question as, having already tried to get something in vain, I may probably obtain nothing this time.

— my actual duties with the Allied Forces should be considered and give me a possibility to be treated in a just manner.

I beg this HQ in order that the matter be taken into consideration and prospect what I mentioned to the Main Claims Office Rome who would refer to its dependant office in Bari where I addressed my complaints so as my rights be recognised.

67° REGGIMENTO FANTERIA - Comando

AL COMANDO DELLA 210^ DIVISIONE FANTERIA F.M.179

Mi rivolgo a codesto Comando per avere assistenza ed aiuto in una questione di carattere privato, non ancora equamente definita, sorta fra me e l'ufficiale inglese (C.L.A.I.M.S.) - Risarcimento danni) di Bari.

Si tratta di questo:

- L'appartamento paterno, in Bari - via Piccinni 208-r.I piano) di cui io sono coerede comproprietario, era stato da me subaffittato (la mia vecchia mamma e le due sorelle nubili sfollate in campagna) ad alcuni ufficiali ad detti all'allora ufficio stampa e propaganda (Cap.no CERRI ed altri).

Circa 7 mesi fa, nella temporanea domenicale assenza di detti subaffittuari, l'appartamento venne arbitrariamente requisito, mobilia[illegible]to come era dal locale Comando Jugoslavo, sito a breve distanza da casa mia e precisamente nel Palazzo Nitti della stessa via Piccinni.

Avvertito il lunedì mattina da alcuni inquilini dello stabile, mi recai sul posto e notai che:

- la porta d'ingresso era stata scassinata e così pure tutti i mobili esistenti nell'appartamento - il contenuto, per la massima parte asportato; il resto sparso per terra in un disordine indescrivibile;
- al mio sopraluogo trovai in casa tre soldati iugoslavi, in divisa grigio verde, i quali, dopo le mie vive insistenze, finirono per confessare di essere piantoni ed attendenti del predetto loro vicino comando.

Mi recai subito al Comando iugoslavo ma vi fui ricevuto da un capitano, con pochissima urbanità ed ebbi l'impressione che egli sapesse bene come si erano svolti i fatti che lamentavo.

Andai allora dal Tow Major della città e dimostratogli come l'appartamento in questione non era disabitato ma regolarmente tenuto in subaffitto ed occupato, ne ottenni sul momento la derequisizione.

Presentai quindi reclamo, corredato dall'elenco descrittivo degli oggetti trafugati e loro valore anteguerra, tanto al Comando iugoslavo quanto all'ufficio alleato risarcimento danni (C.L.A.M.S.) di Bari ma finora non ho ottenuto nulla né dall'uno né dall'altro, nonostante che avessi anche citato vari testimoni, inquilini dello stesso stabile, che se interrogati avrebbero confermato pienamente i fatti.

Il capitano CERRI - che mi risulta ancora in servizio, nella capitale sempre presso l'ufficio stampa e propaganda - può, anche lui, confermare quanto è avvenuto, poiché, credo, abbia presentato anche lui reclamo per gli oggetti di sua proprietà trafugati in quella circostanza.

Premesso quanto sopra, e tenuto conto delle circostanze che:
- nella mia casa paterna sono rimaste sole la mia vecchia ed invalida mamma e due sorelle nubili, tutte incapaci di occuparsi attivamente per otte-

- che il mio servizio non mi consente di recarmi e trattenermi sul posto per interessarmi della cosa, per quanto, anche se mi recassi colà, probabilmente nulla otterrei, come nulla ottenni in un primo tempo;
- che infine, il mio attuale incarico al servizio delle Forze Alleate, dovrebbe pur darmi diritto ad una certa considerazione e quel che più conta, ad un provvedimento di sana giustizia.

Prego vivamente codesto Comando di volersi compiacere, ove lo ritenga, di prospettare quanto ho esposto all'Ufficio Centrale C.L.A.I.M.S. di Roma, chiedendogli di interessarsi presso il dipendente Ufficio di Bari - ove trovasi tutta la pratica - perchè venga riconosciuto il mio buon diritto.

Ref. No. 18527
Date 5 Dec. 44

Occupation by allies of adjacent to optical glass factory of CECCHIGNOLA.

The British ADOS BASE W/shops. R.E.M.E have occupied the grounds between the boundary wall of the factory and the station of CECCHIGNOLA. and as a result have requisitioned some buildings belonging to said factory (stables, grooms house, and forage storage depot) which are outside the boundary walls of the factory and for which arrangements have been made for their release for our use.

We point out that this must do some serious damage to the fields already sown with wat (area 3 acres) belonging to the farming agency for the workers of the factory

We hope by MAIN to take necessary steps to avoid such damages.

Il reparto Inglese n° 1 ADY BASE W K S A O P S R.E.M.E. ha occupato il tratto di terreno compreso fra il muro di cinta dello stabilimento Vetreria d'Ottica Cecchignola e la stazione ferroviaria di Cecchignola. In conseguenza ha requisito alcuni locali di servizio della Vetreria (un locale adibito a scuderia, l'abitazione del conducente quadrupede ed un deposito foraggio), esistenti al di fuori del muro di cinta dello stabilimento stesso e per i quali é stato provveduto allo sgombero. 8.01

Sorge, però, il timore che detto reparto possa danneggiare un campo seminato a grano, dell'estensione di circa 3 ettari, facente parte dell'orto aziendale degli operai della Vetreria.

Pertanto si prega codesta Missione di volersi interessare affinché detto campo venga preservato da possibili danneggiamenti.-

Subject- De requisitioning of Stallion Depot, Foggia.

Stallion Depot, Foggia has been transfered to Lucera because allied units occupied its buildings in Foggia.

This temporary transfer to Lucera has not up to the present been adequate considering the forthcoming winter season and the minimum accommodation, and the Depot cannot carry out its duties in an efficient manner.

As things are at present, considering the serious discomforts and the actual situation of the allied units in Foggia, it seems that there is a possibility of ~~finding~~ returning some of the buildings to the aforesaid Depot.

May please MMIB look into the matter in order that this situation, ~~be solved~~ which affects not only the moral and the physics of the depending soldiers but also the stallion production.

Il deposito cavalli stalloni fu trasferito dalla sua sede di Foggia in Lucera a causa dell'occupazione da parte di enti alleati di tutti i locali del deposito stesso.

Il provvisorio trasferimento in Lucera non ha finora consentito, e tanto meno può consentire ora per l'avvicinarsi dell'inverno, una sia pur minima sistemazione atta a rendere possibile ed efficiente l'attività che deve svolgere il deposito di cui trattasi.

Allo stato attuale delle cose, tenuto conto;
- dei gravi disagi cui è sottoposto da tempo il deposito in parola;
- del fatto che, per l'odierna situazione dei reparti 8338 in Foggia, sembrerebbe possibile - con qualche adattamento - restituire al ripetuto deposito, se non tutti, almeno parte dei propri locali;

SUBJECT: Requisition of Soc. An. ARCO - via Tiburtina No.335 - Rome.

TO ✓ Land Forces Sub-Commission.

FROM : Industry Sub-Commission.

A 4/10

1/12

1. We have received a request as attached letter from the Italian Army for the de-requisition of the above premises which they allege will be utilised for the repair of Italian Army Transport.

2. We have inspected the factory and find that the owners are in the process of installing a considerable number of machine tools which in themselves would not be necessary for the work which they claim they have contracts for.

3. Also within the plant there are approx.50 vehicles of all kinds, mostly Italian Army transport awaiting repair.

4. We understand that this plant was originally part of the Caproni Aircraft Group and manufactured aerial bombs for the Italian Air Force. They say that all the machinery was removed by the Germans, but some items of finished bombs and tail fins are still in the premises.

5. We should be glad to know if you will require any capacity for the repair of Italian Army vehicles and if you wish us to take any action to have this plant derequisitioned.

1. Information has been received from Regional Police Officer, NAPLES, that on 20 Sep 44 five (5) British Officers and two (2) OR's occupied premises at CHIANCHETELLE CC.RR. Barracks, Province of AVELLINO. They were informed by the CC.RR., N.C.O. in charge that he had no authority to supply the requested accommodation.

2. The premises have since been requisitioned in the name of Major Training (?) GRIBLE. It has been ascertained that the British Officers in question are in liaison with the Italian Army and are attached to the Cremona Group, directly responsible to AAI H.Q.

3. In H.Q., AAI directive No. 2030/12/Q2 dated 1 July 44 it is stated that:-

> "In future no buildings, real estate, transportation or other materials belonging to the Italian Armed Forces or in the possession of effective Units of the Italian Navy, Army or Air Forces, will be occupied; requisitioned seized or made use of without prior reference to this H.Q."

The CC.RR. is a part of the Italian Army and accordingly under the terms of above mentioned directive it would appear that the Barracks is question should not have been requisitioned.

4. This matter has been referred to H.Q. AAI. In their reply 2030/12/Q2 dated 6 November 1944 it is stated that the Barracks concerned are not in territory under AAI jurisdiction and suggested the matter be referred to you.

Subject: Billets requisitioned by Allied Commands.

I am being informed of the following:

"At TARANTO British authorities, on the 27 Oct., requested the requisition and complete evacuation, by the 29 Oct., of the building at CORSO UMBERTO 91 of the town, in order to prepare it for temporary billets of 80 nurses of the Allied Armed Forces.

Only when it was brought to their attention that in the building 11 upper-class families were living, and that it was impossible to find other appartments to accommodate them, the Allied authorities de-requisitioned six appartments in town and four more, very modest ones, at the COSTA oil-plant in the "RONDINELLA" District, about 6 km from TARANTO, which they formerly occupied.

The local authorities could only obtain a deferment of the deadline for evacuation to the 30 Oct.; i.e. of only one day, allowed in view of the fact that the 29 was a Sunday.

The action caused Serious dissatisfaction and criticism on the part of the concerned parties who judged it to be absolutely out of proportion to the necessities.

See folio 328 (Allied) 303

Declassified E.O. 12356 Section 3.3/NND No. 785020

as the nurses could have been comfortably and decently accommodated in the appartments left by the Allies. Thus serious economic, material and mental discomfort to 11 families would have been avoided since they were forced to evacuate their own homes in the peremptory period of a few hours.

At TARANTO the Allied commands continue to keep entire buildings requisitioned where a very few officers, NCOs ~~or~~ or O/Rs, are billetted; it is desirable that some of these buildings be evacuated so that the inhabitants can return there, who are now temporarily living elsewhere."

I ~~beg~~ attract MMIA to kindly do all in your power to alleviate ~~of~~ a situation of discomfort caused by the numerous requisitions, perhaps not all fully justified, and not only in TARANTO, but also in other provinces of APULIA.

The winter season makes this discomfort more serious and increases malcontent.

I belive that all this can be diminuted if, whoever makes the requisitions, ~~makes~~ an effort to utilize already requisitioned premises to the maximum degree, thus ~~visiting~~ meeting as much as possible the concrete needs of the civilian population. S/. OX14/A

In Taranto i comandi alleati continuano a tenere requisiti interi fabbricati nei quali alloggiano pochissimi ufficiali, sottufficiali o militari di truppa; viene auspicato lo sgombero di taluni di questi caseggiati perchè possano farvi ritorno le famiglie che li occupavano, ora alloggiate precariamente altrove.""

di disagio determinatasi a causa delle numerosissime requisizioni, non tutte forse pienamente giustificate e, non solamente a Taranto, ma anche in altre provincie della Puglia.

La stagione invernale aggrava tale disagio ed aumenta il malcontento.

Penso che tutto potrebbe essere eliminato se, chi effettua le requisizioni, si sforzasse di sfruttare al massimo i locali requisiti, agevolando finchè possibile le reali necessità della popolazione civile.

20 November 1944

TO: AFHQ for Q Maint. (2)

Reference: AFHQ/12/54/ST.1(D) of 8 Nov. 1944
MMIA ST/13/11 of 14 Nov. 1944

1. There are at present in Sardinia the following animals:

(a) 857 horses of Italian Army, fed on Full Ration.
(b) 500 horses of Carabinieri, fed on 2/3 Ration.
(c) 54 horses for Allies, fed on Full Ration.

2. (a) As of 6 November the following stocks were in Sardinia:

164 tons grain
451 tons tibben.

(b) No information is available here regarding any further consignments of forage to Sardinia.

3. It is reported that the 500 horses of the Carabinieri, being fed on 2/3 ration, are in poor condition.

4. Forage from local resources in Sardinia is not sufficient to maintain these animals.

5. The maintenance of any of the 857 horses belonging to the Italian Army (par. 1 (a) above) is unnecessary as the small number of Italian Army troops on the Island are equipped with sufficient motor transport.

6. It is not known what is desired regarding the retention of the horses of the Carabinieri as this is a matter for the Regional Commissioner's decision. If these horses are retained it will be necessary to ship forage from the mainland.

7. Urgently recommend that the 857 horses of the Italian Army be turned over to farmers in Sardinia and that no further forage be shipped for them. If this recommendatio n is accepted, steps will be taken by us e to have this handled between the Allied and Italian authorities on the Island.

1. Attached is a clever and rather specious letter from the Minister of War on above subject.

2. (a) The Italian plea to have these factories returned to them is based on the present unemployment of their pre-armistice workers.

(b) Actually I am sure that this personnel can well be employed elsewhere in their towns and that the real Italian object is to get back under their control part of their pre-war munitions industry.

(c) Apart from the fact that the accommodation is needed for Allied purposes, I consider that no authority should be given to the Italians to re-start arsenals, and powder, arms, shell-filling etc factories. The Allies can supply all of this that is necessary for the Italian Army and I suggest that we should not put such power into Italian hands (at any rate at present) in case there is trouble when the final peace terms are issued.

(d) Possibly they might be permitted to reopen the ROME optical glass factory.

3. Before replying to the Minister of War, I should be grateful for your ruling on whether:-

8355

(a) any of the factories mentioned can or should be released to the Italians.

(b) it is permitted to the Italians to have any factories working on the production of lethal munitions of war.

REF NO. 15837

DATE : 27 Oct. 44

Requisition of Factories

Many times this Ministry has turned for helpto MMIA to obtain the return, even if partially, of requisitioned factories working for the Italian Royal Arty now occupied nearly always for purposes for which they are not designed, by the Allied Forces. In each occasion the motives of the request was plainly put forward and we have not failed to point out the need to give work to former employees who are for the time out of employment and to salvage and save from destruction or loss the machinery and the equipment indispensable to permit the work to be resumed.

Since the requests have not been granted, we repeat them for the total no. of factories.

The premises refarred to are listed hereunder and for each we have shown the no. of employees who were working there previous to the Armisticd Day @lso if the factory is requisitioned or not.

Italian Army Arsenal	Naples	Employees	1600	Requisitioned
Explosives Factory	Capua	"	4200	"
Shell Factory	Torre Anunciata	"	1885	"
Arms "	Terni	"	4400	"
Shell Factory	Roma	"	2500	"
Precision Instrument W/Shop	Roma	"	1000	"
Optical Glasses Factory	Roma	"	410	"
Powder Factory	Fontana Liri	"	2000	Not Requisitioned
Shell Filling W/Shops	Baiano Spoleto	"	700	"

The total of the men faced out of work because of the occupation of those factories amounts to 16,000 men.

So as to reduce such a serious crisis this Ministry had requested some time ago the return to Italian Army of EXPLOSIVE FACTORY of CAPUA, the ARMS 554 FACTORY of TERNI and of the OPTICAL FACTORY of ROMA. Requests that have not been granted by MMIA, and which result in 9000 workers being without any actual occupation.

We also would like to point out that the re-employment of those workers though ~~is but~~ gradual, question which to day is of particular importance.

We also would like to point out that the re-employment of those workers though ~~is but~~ gradual, is a question which to day is of particular importance.

Dealing with a large number of workers, who have already suffered for a very long time and also have known great economic difficulties; that in view of the major and inalienable necessity resulting from the coming winter season, request continually from this Ministry or by use of the Press to be given back their work; a request that owing to the present occupation of the factories cannot be granted.

The situation becomes more acute daily and it is not impossible that this may result in disturbances of the Public and social order.

Therefore before resigning themselves before the concrete facts, this Ministry feels that it is their duty to put forward the question once more pointing out to MMIA the seriousness of the situation.

Mi è stato segnalato che gli alleati vogliono occupare il deposito munizioni di S.Lucia di Cava, della direzione artiglieria di Napoli, preparato per allogare le munizioni che devono versare i gruppi di combattimento.

Prego codesta Missione di compiacersi intervenire in merito affinché sia evitata l'occupazione di cui trattasi, in relazione anche a quanto dispone la lettera S/AQ/9 in data 5 c.m. di codesta Missione stessa.

Ritengo però doveroso mettere in evidenza che il comportamento di taluni enti alleati periferici, in netto contrasto con gli ordini emanati da codesta Missione, rende spesso inefficace il laborioso e faticoso lavoro di questo Ministero. Land Forces Sub Commission
A.C. (M.M.I.A.) R O M E
AQ/10
4 November 1944

TO: Ministry of War.

1. In the Stabilimenti Militari di Pena, GAETA, there are some printing presses, which though badly damaged by the Germans, are capable of repair. No facilities, however, exist at GAETA for such repairs, nor electric power to run the presses, and meanwhile they are rapidly deteriorating.

2. The Finance Sub Commission has approached this HQ with a view to obtaining these presses for Poligrafico, Rome, which is under the control of the Ministry of the Treasury, and doing work for the Italian Government.

3. It is recommended therefore that the Ministry of War makes mutual arrangements with the Ministry of the Treasury regarding the loan or lease of these printing presses to Poligrafico, Rome.

1. Fifth Army requisitioned on HQ AAI authority the above Institute on 18 Sept 44. The premises were partly occupied by 12th American Medical Depot.

As all the premises were not required by Fifth Army, a portion of the buildings was released by the Real Estate Department of HQ Florence Command on 29 Sept 44, to AMG for use as a depot for medical supplies to civilians.

It is desired to retain a portion of this former military Institute as an Italian Army Medical Stores Depot. Considerable amounts of Italian Army medical supplies were found in the buildings.

2. There is suitable accommodation for all three units to remain in these premises. It is requested that the two multi-storied buildings be officially requisitioned as an Italian Army Medical Depot. The buildings requested are not required by 12 American Medical Depot or AMG.

I have been informed today that Italian units have been accommodated in part in the barracks occupied by Croatia District and in moving in one of the stores, they threw outside our articles etc, that were kept inside.

In other parts of the barracks (offices and halls) they cut lines for heating and locking purposes.

When the Commandant of the district asked them to respect the contents of the circular 350 forbidding removal and stating these circulars had no value whatever and if he insisted on the formalities, they would have check him out of the barracks.

May I therefore please look into the matter with a view to put an end to arguments arising on the circular and restore to Croatia Authorities places occupied by them without authority or at least these required by the Italian Army Stores.

Requisition of Remounts.

We have been informed that at MODICA. Such procedure appears strange as a price was not established for each of the mules according to their standard thus making the requisition lack of regularity.

Viene segnalato a questo Ministero che a Modica (prov.di Ragusa-Sicilia), una commissione di 3 ufficiali inglesi ha proceduto il 22 settembre u.s., alla requisizione di 13 muli di proprietà privata, pagando - seduta stante - 30.000 lire per ogni quadrupede requisito, senza tener conto dell'età, dello sviluppo fisico e delle possibilità di prestazione di ciascun soggetto.

Tale procedura appare strana, sia perché non é stato attribuito a ciascun quadrupede un prezzo di stima, sia perché tale sistema di requisizione non sembra regolare.

Sarò grato pertanto a codesta Missione se vorrà disporre perché - per il futuro - siano evitati tali metodi, e perché le requisizioni avvengano tramite autorità alleate ed italiane, in piena collaborazione e con senso di equità.

We also would like to point out that the reemployment of these workers is but gradual, question which to Day is of particular importance.

Dealing with a large number of Workers, who have already suffered for a very long time and also have known great economic difficulties; that in view of the major and unalienable necessity resulting from the coming winter season, request continuedly from this Ministry or by use of the Press to be given back their work; a Request that owing to the present occupation of the factories cannot be granted

In ogni occasione, nello specificare i motivi della richiesta, non si è mancata di mettere in evidenza specialmente la necessità di ridare lavoro alle maestranze che in essi erano occupate e di salvare da distruzione o disperdimento i macchinari e le attrezzature indispensabili per consentire tale ripresa di lavoro.

Poichè tali richieste non sono state accolte, si rappresenta di nuovo e nel suo complesso la questione. 8.809

Gli stabilimenti di cui trattasi sono sotto elencati: per ciascuno è indicato il numero di operai che vi prestavano servizio alla data di armistizio, e l'attuale condizione:

- Arsenale R.E. di Napoli	operai	I600 -	occupato

Il totale degli operai che, in conseguenza, della occupazione dgli stabilimenti, sono senza lavoro è di circa I6.000 unità.

Allo scopo, anche, di ridurre tale grave crisi, questo Ministero ha, in un primo tempo, richiesto la derequisizione del Pirotecnico di Capua, della Fabbrica d'Armi R.E. di Terni e della

Vetreria d'Ottica di Roma, richiesta che non è stata accolta da codesta Missione. Ne consegue che circa 9.000 operai continueranno nell'attuale stato di disoccupazione.

In merito si fa rilevare che il riassorbimento, sia pure graduale, delle maestranze presso gli stabilimenti è argomento che oggi riveste particolare importanza.

Trattasi di una notevole massa di operai già provata da un lungo periodo di dolori e di grandi ristrettezze economiche che, in vista delle maggiori ed inderogabili necessità derivanti dalla imminente stagione invernale, chiede di continuo, sia direttamente a questo Ministero, sia a mezzo della stampa, di essere riammessa al lavoro, richiesta che, nell'attuale condizione di occupazione degli stabilimenti, non può essere accolta.

La situazione si fa ogni giorno più grave e non è da escludere che abbiano a profilarsi ripercussioni per l'ordine pubblico e sociale.

Pertanto, prima di rassegnarsi al fatto compiuto questo Ministero sente il dovere di rappresentare ancora una volta la questione a codesta Missione in tutta la sua importanza e gravità.-

Subject:- Re-organisation of Barracks occupied by the 10th Gene Regt. at S. Maria Capua Vetere.

As it is known, the 10th Gene Regt. acts as a centre of reception and movement of Gene. personnel meant for the Combatant Corps.

Such functioning, owing to fundamental defects, cannot be made possible owing to the fact that only part of the personnel are actually accommodated in the barracks.

The remainder of the personnel is billetted in the neighbouring buildings and owing to that, discipline can hardly be controlled.

It may, finally please, take the matter up with a view to obtain possibly the whole barracks for the Gene Regt accommodation. Do so a better condition of living and discipline may be obtained.

Come noto,il 10° reggimento genio (in atto l'unico dell'arma) funziona attualmente anche da centro di affluenza e smistamento degli elementi del genio destinati ai gruppi di combattimento.

Tali funzioni,che per ragioni varie sono particolarmente delicate, non possono svolgersi con quella desiderabile disciplina e scioltezza a causa, sopratutto,del fatto che il personale dipendente solo in minima parte trova possibilità di alloggiamento nella caserma del reggimento.

Il rimanente personale è frazionato in quattro edifici requisiti che male si prestano ad un adeguato controllo disciplinare.

Allo scopo di consentire al 10° Regg.Genio un radicale miglioramento alle sue attuali condizioni di vita e disciplinari,prego codesta Missione di compiacersi porre il suo interessamento onde ottenere - possibilmente - la totale disponibilità della caserma di cui trattasi.a favore del reggimento stesso.-

Ora l'ufficiale di collegamento M.M.I.A. in Sardegna - Col. SIMMONS - desidera che dopo un anno, l'agricoltore sia libero da ogni impegno e controllo, e cioé praticamente divenga proprietario del quadrupede stesso.

Allo scopo di non intaccare ulteriormente il già esiguo patrimonio equino, depauperato sia per eventi di guerra, sia per requisizioni alleate, questo Ministero ritiene di non poter cedere definitivamente i quadrupedi di sua proprietà agli agricoltori sardi, e prega pertanto cotesta Missione di voler dare disposizioni, perché - in Sardegna -

4. It is reported from Bari:-

(a) that the machine under discussion has not been handed over by the Allied requisitioning authority to a civilian firm (as stated categorically in para 1 of your letter under reply), but is in full time use by 1019 Port Maintenance Coy Workshops for the testing of engines of port small craft operating for the Allies

(c) that the transfer agreement specifies the machine may be recalled at any time on order of HQ MMIA

(d) that it appeared on inspection that the machine had not been fully used by 9 M.T. Bari in the period prior to requisitioning

(e) that another machine of this type was originally requisitioned by you in Bari and transferred to Messagne Workshop.

1. It is considered that the Ministry of War has at its disposal appreciable repair facilities and garage space in the Rome Area, and that the use of the MABO Garage is not essential. Moreover covered standing for vehs is not a necessity.

2. It is further emphasised that a full knowledge of civilian firms doing vital work for the Italian Army is required beforehand, if this HQ is to make effective representations on their behalf. (This HQ letter AQ/10 dated 28 Sept 44 also refers).

As ~~the~~ the ~~Ditta~~ previous letter, referred to above, has already brought out, the "Mabo" company has been charged by E-98 this office with important repair work for the automobiles of the R.E. (Italian Army)

The present requisition is depriving the shop of the premises for the shelter of the vehicles in repair, thus decreasing still more the work-possibilities, already reduced after the preceding and already communicated requisitions.

1. The problem of the accn of three GPT coys in BRINDISI has been under consideration, as they are housed in tented camps at which there is very limited standing for vehs.

2. Comd 65 Grn has approached Gen ERISOTTO, Comando Raggruppamento Lavoratori, who has agreed in principle to the handing over of the EDERLE Barracks, (BRINDISI Town Plan 327336).

3. These barracks will provide good accn for up to 800 men and hard standings for a considerable number of vehs, although cooking and latrine facilities will have to be provided.

4. This move is part of a programme which will also improve the present unsatisfactory accn of 924 ITALIAN Docks Op Coy.

5. As the Barracks are ITALIAN Military property, your authority for the requisition is requested. A copy of AAI 2030/12/Q2 dated 1 Jul, upon which this request is based, is att.

1. This HQ is fully in agreement that arrangements should be made for washing wool, which is held by the Ministry of War.
