LOOSE MINUTE

To: Lt. Col. W.B.S. Sheldon
C. Maint. A.F.H.Q.

Accommodation for the Educational and Vocational Training Instructors School has been found in the Ministry of War building in Lecce. This building at present only partially occupied by the Italian Military Tribunal and the Italian Board for the Interrogation of Prisoners of War. It is understood that the Town Major is able to provide alternative accommodation for these two bodies and that all arrangements for the transfer of this property have been made locally, but the approval of the Italian War Ministry at Rome has to be obtained.

2. I contacted Lt. Col. Robinson, A.Q.M.C. 52, Area, who informed me that they were seeking approval for the transfer and that he anticipated no difficulty, but in view of the urgency I wonder if you could do anything to expedite the matter.

I have been informed that 550 It Gd Coy at Reggio have been ordered to vacate their present acen and to take billets a considerable distance from the Railway Station. They have no transport and it is considered most essential that in order to fulfil their operational role their acen should be in close proximity to their work.

Similar situations also arise at Crotone and Cosenza.

It would considerably assist the working efficiency of Rly Guards if this matter could please be taken up by you.

SUBJECT - PALMANOVA Barracks - VIETNAM

RECORDED

HQ USA

3 62 / 4

18 Dec 44

42/12

19/12

1. On receipt, at this HQ, of information that 25 Tank Bde were arriving in the VIETNAM area and would be requiring accommodation, SCQ was sent to that area to contact the Provincial Commissioner AC in VIETNAM and to make a reconnaissance for possible accommodation. Amongst the buildings earmarked for occupation were the a/m barracks, the ground floor of which was full of Italian military equipment, guarded by Carabinieri.

2. Formal sanction for British Troops to occupy these barracks was requested of, and obtained from, you (your AC/12 dated 10 Dec 44 refers). As a result, one platoon of 27 Coy RASC (a part of 25 Tank Bde) now occupies these premises. The remaining PIs. and Coy HQ will arrive about the New Year.

3. On 16 Dec 44, DIA & JAG of this HQ, DAHQ 25 Tank Bde, 59 Town Major and several other officers met in the office of the Provincial Commissioner AC VIETNAM to discuss outstanding accommodation difficulties and other administrative questions. Colonel d'Angelo, Italian Military Garrison Commander at VIETNAM and Colonel Mela, officer commanding Italian Recovery Unit located in the PALMANOVA Barracks, arrived during the conference, and disclosed that the PALMANOVA Barracks, which was thought to be a store only, guarded by a few Carabinieri, was in fact the site of an Italian Recovery Unit to which Italian Military stores and equipment from all parts of VIETNAM Province continue to be sent for sorting and safe-keeping. For this purpose, Colonel Mela has approximately 20 Italian civilians, in addition to the Carabinieri guard, and, if this Unit is to continue its activities, the a/m civilians must be in the vicinity of the barracks to receive and sort out new arrivals of stores.

4. As it is the intention of 25 Tank Bde to use these same barracks as a supply store, the double occupation is highly unsatisfactory, and, from the practical point of view, unworkable.

5. It is pointed out that if the barracks were used as a store only, requiring that the Carabinieri (who are billeted in VIETNAM) send a guard to look after the stores, the situation would be unsatisfactory.

346

785020

HQ will arrive about the 1st of Jan.

3. On 16 Dec 44, DA: & sps of this HQ, DA: 25 Tank Bde, 59 Town Major and several other officers met in the office of the Provincial Commissioner AC VITERBO to discuss outstanding accommodation difficulties and other administrative questions. Colonel d'Angelo, Italian Military Garrison Commander at VITERBO and Colonel Mele, officer commanding Italian Recovery Unit located in the PALLADINA Barracks, arrived during the conference, and discussed that the PALLADINA Barracks, which was thought to be a store only, guarded by a few Carabinieri, was in fact the site of an Italian Recovery Unit to which Italian Military stores and equipment from all parts of VITERBO Province continue to be sent for sorting and safe-keeping. For this purpose, Colonel Mele, who has approx 20 Italian civilians, in addition to the Carabinieri Guard, and, if this unit is to continue its activities, the w/m civilians must be in the vicinity of the barracks to receive and sort out new arrivals of stores.

4. As it is the intention of 25 Tank Bde to use these same barracks as a supply store, the double occupation is highly unsatisfactory, and, from the practical point of view, unworkable.

5. It is pointed out that if the barracks were used as a store only, requiring that the Carabinieri (who are billeted in VITERBO) send a guard to look after the stores daily, 27 Coy RASC could operate in the barracks, as all the equipment in question is stored in lock-up garages which need never be touched. Colonel d'Angelo cannot, however, give orders for the operation of the Recovery Unit to cease without orders from his superior headquarters, Comando LAZIO, UMBRIA, ABRUZZI, Via PO No 2, ROMA. This authority he is unwilling to seek.

6. In addition, one building within the barracks is being used by the Italian Military Authorities to register the 1924-25 military call-up group. This building, required by 27 Coy RASC, is full of military records and files.

7. One of two solutions presents itself :-

(1) That orders are issued by Comando LAZIO, UMBRIA, ABRUZZI to Colonel d'Angelo to the effect that the Recovery Unit will cease to function during the period that 25 Tank Bde are in occupation, and Colonel d'Angelo will find alternative accommodation for the registration of the 1924-25 group and the storage of military files and documents.

See folios 374

-2-

- (2) If the work of the Recovery Unit must continue, that Colonel d'Angelo be ordered to find alternative accommodation both for his Recovery Unit and the Registration Office. If necessary, 25 Tank Bde will produce the transport to move the stores and equipment and the files and records at present stored in the Barracks.

8. It is pointed out that nowhere in VITERBO is there alternative accommodation for 27 Coy RASC. As this is the Supply Coy for the Bde, it is essential that it be placed centrally to the rest of the Bde, that is, in the immediate vicinity of VITERBO itself.

9. May we please have your assistance in this matter.

Bulleting of Railway engineer unit.

As it is known. AFHQ have ordered the formation of some Railway engineer units. The first elements, of which, have already arrived at Rome. when they are expected to remain for some time.

R.A.F.C. informed of the facts by Mil Command L. O. A. have notified them that they cannot place at the disposal of troops any barracks in the Rome AREA as they are none available (strength of units 300 to 400 men).

Since the only barracks available for the Italian army is that of S. MIONE VIA NOMEANTANA and that it has been recently frozen, only as regards the empty buildings, by the allied authorities this ministry cannot possibly find accommodation for those troops.

We therefore beg MMIA to obtain from R.A.F.C. accommodation for the A/M troops.

ROMA

Come noto, l'A. P. HQ ha disposto la costituzione di alcuni reparti del genio ferroviari, di cui i primi scaglioni stanno affluendo a Roma, con la previsione che vi permangano per qualche tempo.

Il R.A.A.C., interessato dal Comando Militare Lario, Uerbia ed Agruzzi, ha notificato di non poter mettere a disposizione di detti militari (300 - 400 uomini complessivamente), nessuna caserma di Roma, per indisponibilità.

Come noto, l'A.S.-HQ ha disposto la costituzione di alcuni reparti del genio ferroviari, di cui i primi scaglioni stanno affluendo a Roma, con la previsione che vi permangano per qualche tempo.

Il R.A.A.C., interessato dal Comando Militare Lazio, Umbria ed Abruzzi, ha notificato di non poter mettere a disposizione di detti militari (300 - 400 uomini complessivamente), nessuna caserma di Roma, per indisponibilità.

Poiché l'unica caserma parzialmente disponibile per l'Esercito italiano, la A. MICI di via Montana, è stata recentemente bloccata - solo per quanto riguarda i locali ancora vuoti - dalla autorità alleata, lo Stato Maggiore si trova nell'assoluta impossibilità di provvedere all'accantonamento dei reparti di cui trattasi.

Prego pertanto coilesta Missione di voler interporre i suoi buoni uffici presso il R.A.A.C., per ottenere gli alloggiamenti richiesti.

2. The accommodation is excellent and ample for officers and
others. It includes a large semi-mess with good kitchen, refectory
and tables, many small rooms to hold from 4 to 12 men, and is dry,
though as it is stone built, probably cold.

There is no light available though the village is wired for
electricity. Water supply is good. Roads are heavy and fuel might
be cut locally by boys. Good billets partly furnished are available
for officers messes and living rec.

3. The town is small, lies about 250 feet up, has a 51002

electricity. Water supply is good. Foods are handy and fuel might be cut locally by boys. Good billets partly furnished are available for officers messes and living etc.

3. The town is small, lies about 850 feet up, has 5172 British or other troops in residence, and the inhabitants have not been entirely spoiled or corrupted. The officials, especially the Secretary del Comune and the priest who controls the treasury are most helpful and generous and would welcome Italian troops.

4. There is an excellent small theatre with stage and piano, which is equipped for use as a cinema. A motorised machine in good condition is in vita and could be easily run off a generator if electric current cannot otherwise be made available. The floor is flat and is used for dancing.

5. Access is not difficult. After crossing the river at Lucina the road leaves Route 61 at road junction 3635 and runs south on the east bank of the river. It is wide on either side in places but is in very fair condition, and practicable for 3 tonnes if traffic is not excessive provided care is exercised in passing. The verges might become soft in bad weather. Two Italian troops are working in a quarry at Lucina.

6. At Lucina there is a narrow river crossing - bridge used - fairly practicable for a staff car at present. A bridge could easily be built here from local material or the ford approached could be improved and used here.

7. At 3635 there is a small river. It is very hard water - bridge gone altogether - approaches very bad. I crossed it on my back, in staff car with difficulty. The bridge could be made from local material or improved and made hard which would make it easy for the

Subject: Sheds at Limino Camp, Toronto.

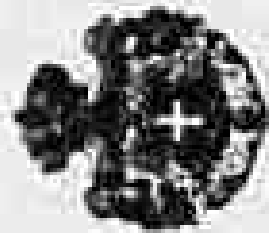

The Division Artillery Toronto, is lacking badly accommodation for personnel & stores which, for the greatest part, had to be stacked in the open.

Stores had increased considerably lately following the ~~store~~ stores which were returned by disbanded units of the Picerno Div.

As several store sheds in the Limino Camp have been vacated by units of the 8th Army, may please MIA examine the possibility of authorising the use, at least, of one shed to the Division Artillery, Toronto in order that most important Art. Stores, actually stacked in the open, may be stored.

La Direzione Artiglieria di Taranto sta attraversando una grave crisi per quanto riguarda l'allogamento e la sistemazione dei materiali la maggior parte dei quali si è dovuta per forza maggiore sistemare all'aperto per mancanza di locali idonei.

Il materiale è aumentato notevolmente in questi ultimi tempi in seguito ai versamenti effettuati dai disciolti reparti della Divisione Piceno.

Dato che attualmente diversi capannoni del Campo di Cimino, già occupati da reparti dell'8^a Armata risulterebbero vuoti, si interessa codesta Commissione perchè voglia benevolmente esaminare la possibilità che sia concessa alla Direzione Artiglieria di Taranto l'autorizzazione di usare almeno un capannone del campo

In the case of the Italian camp, AFRAGOLA, where Italian resources are equal to British, the interpretation by HQ 3 Dist of above instr, read in conjunction with preceding paras of AFHQ letter, is that primary responsibility remains with Italian Military, but that 3 Dist will assist as far as possible with the provision of RE stores and tentage.

1. Application has been received from Land Forces Sub-Commission, AG, (AG/12), that certain schools be vacated by the Japanese in order that the schools may be returned to the use for which they were built.

Amongst these buildings was ESCUELA TERCERA P. S. MARIA DELFINO, at COLIMA, which, this HQ is informed, is in occupation by Allied troops.

2. This HQ is further informed that alternative space exists in that vicinity in the Workers' College and COLIMENSE Hospital, which are already partially occupied by Allied troops.

3. Will you please investigate the possibility of the Japanese at present in occupation of the ESCUELA TERCERA P. S. MARIA DELFINO, being re-housed in either of the two premises mentioned in para 2 above, or elsewhere, and forward your report.

1. On the 24th Oct this H.Q. wrote to the Ministry of War asking them to give orders for the evacuation of certain schools by Italian Army Units, as these buildings were urgently needed for educational purposes. Amongst these buildings was SCUOLA TECNICA. P. PARODI DELFINO, at COLLEFERRO.

2. A reply has today been received from Ministry of War stating that the above school is in fact occupied by Allied and not Italian Troops and suggesting that these troops could be conveniently housed in the Worker's College and the COLLEFERRO Hospital, already partly occupied by Allied Troops.

Approached by the EDUCATION sub commission.
 M22149 reported to this Ministry that it was
 necessary to evacuate as soon as possible —
 for educational purposes — six scholastic
 buildings occupied by Italian troops.

In regard to the sixth building — VIRGILIO ZUCCHETTI —
 the Education sub commission agreed that for
 the moment said building would not be
 returned to the Ministry of National Education.

To his Ministry — bearing in mind
 the necessity reported — gave immediate orders
 for the evacuation of the buildings — except
 for the VIRGILIO hospital — the evacuation
 of which is now in progress.

It appears however, that the 131 of the
 scholastic buildings are occupied by Italian troops
 and NOT Italian troops, and to be exact:

- the "R. PARODI DE FINE" professional school by the 539

Eighth Army Training B.D.;

- the north wing of the elementary school by
 Indian units.

From inspections carried out it appears
 that said units could be conveniently placed in the
 warren college and in the VIRGILIO ZUCCHETTI hospital.

Therefore, we beg MMSA to consider the possibility of returning said buildings to the Federal Authorities, as has already been ordered by this Ministry from the buildings occupied by Italian troops, in order to satisfy the requirements reported by the Education Sub Commission.

Risulta però che gli edifici scolastici di Collevero sono occupati da truppe alleate, e non italiane, e precisamente:

- la scuola professionale "R. Parodi Delfino" dalla Eight Army Training

R.A.;

- il lato nord delle scuole elementari, da reparti indiani.

Da ricognizioni effettuate sul posto, i predetti enti alleati potrebbero trovare conveniente sistemazione nel convitto operaio e nell'ospedale di Collevero, già in parte occupati da truppe alleate.

785020

Prego pertanto cotesta Missione volere esaminare la possibilità di restituire i predetti edifici alle Autorità scolastiche, come analogamente disposto da questo Ministero per gli edifici occupati da truppe italiane, per soddisfare le necessità rappresentate dall'Education Sub Commission.

Il distretto militare di "colato" in corso di riorganizzazione) segnala che in questi ultimi giorni, ufficiali inglesi, hanno visitato le caserme del luogo per accertare lo stato della truppa.

Fra le caserme visitate è compresa anche quella in cui si trova il distretto militare stesso (Caserma Umberto).

In considerazione della assoluta necessità di locali che il distretto in parola ha:

- per poter svolgere la sua attività conforme a quanto previsto da codesta U.M.I.A. per la riorganizzazione del distretto (c. 78/g/10 del 30/10 c.a.);
- per provvedere ai bisogni di una eventuale chiamata alla armi;
- per tenere accantonate le armi e materiale vario recuperato, nonché l'ingente patrimonio del distretto e degli altri enti del presidio attualmente non in funzione (scuola allievi ufficiali di complemento - deposito per regg. fanteria).

Prego codesta "issione di compiacersi porre il suo autorevole interessamento affinché la caserma Umberto del distretto militare di "colato" non venga occupata per uso diverso da quelli cui è attualmente destinata.

REF :- R5/517/12.
DATE :- 25 October 1944.

The Caserma Vittorio Emanuele Second Barracks in Piazza Garibaldi, Chieti, is urgently required for use as an ACC Civilian Truck Park. The trucks to be so parked are essential for handling winter food supplies, and the above premises are the only available in the area for their housing and maintenance. The Italian State and Military officials are in agreement subject to AFHQ and EMIA approval. A detachment of Italian troops is at present occupying these barracks but are moving shortly to an adjacent barracks. General De Stefano, Delegazione Stato Maggiore, Regio Esercito, has approved of the plan.

1. Owing to the general move forward of Italian troops, it is now vital to transfer the Italian heavy MT units from MESSAGNE near BRINDISI to a more central position in Italy.
2. After an extensive search, a site has been found at FIMBI, in the FIMBI rubber plant. This plant has been inspected by an officer from this Hq, and a part of it is ideal for the purpose. There is one large building which would make a first class workshop, with power and some equipment available, and with associated offices and covered hard standing for vehicle repairs. Moreover, FIMBI itself has good road and rail facilities for the evacuation of vehicles.
3. Hq No.1 District have agreed, as far as accommodation is concerned, to the occupation of part of these premises by the Italian Army (Hq No.1 District letter 10/2000/9/2 dated 27 Sep 44 att refers).
4. A difficulty is the presence of an internment camp in another part of the factory site. The premises required for the MT Workshops are 50 yards from this Camp, but the OC., Internment Camp considers this to be insufficient, and that a minimum distance of 100 yards from his perimeter should be left vacant. The Internment Camp, however, is very adequately wired, and it would seem that 50 yards would provide full security, re-inforced by strict orders from the Italian Ministry of War against any personnel approaching the perimeter wire.
5. Under AAI Adm Instruction No.60, the OC., Internment Camp is directly under Hq AAI on questions of security. Therefore the decision as to whether the Italian Heavy MT Workshops may move into the premises indicated, is referred, with Hq No.1 District's consent, direct to Hq AAI.
6. May early consideration please be given to this question, in view of the importance of transferring the Workshops from MESSAGNE.

1. In view of recent demands for transit accommodation at NAPLES it is desired to clarify the position as regards commitments, more especially in relation to APOLLO.

The situation there is as follows:-

Serial	Camp	Capacity	Remarks
1	B Transit Camp (Brit)	2000	For details.
2	Staging Area (Units)	8000/16000	For units, tentage for 8000 only.
3	AMIT Transit Camp (Italian)	4000	For Italians only. NOT intended for Brits or co-operators, but has been used for both. Deals with units only. NOT details. Room for expansion - tentage is bottleneck.
4	Italian Labour Rest Camp	3000	Is part of Brit staging area.
5	209 PW Camp	2000	Will remain.

The situation there is as follows:-

<u>Serial</u>	<u>Camp</u>	<u>Capacity</u>	<u>Remarks</u>

1. Ref serial 3. This was originally a newly SARE camp, but has been used to accommodate British units (which is acceptable if difficult) and co-operators, which should not have happened.

5. (a) The flow of forced units from SARDINIA is now dying down and should cease within a fortnight. Details will then come forward as units. They will be allotted to USA, British and Italian ref camps before despatch from SARDINIA, and be separately accommodated on arrival at LAFES.

(b) As a consequence the present camp, serial 3, is not required for units, but will be available for details (serial 3). A new camp is required for British details (serial 3). Serial 4 may be available for this purpose.

Details of the camp staff and the breakdown of the 4000 between Officers and P & F will be supplied by MIA.

Serials 3 and 9 are SARE commitments.

It is suggested

6. Serial 7 will now be located at CARM/ in the ex 3 Div site. 64 Grm will submit plans to reach this HQ by 10 Oct 44. Plans will be in 2 phases - (i) staging scale and (ii) completion to permanent camp scale. Dates of completion will be specific.

- (iii) The localities occupied by British Units in the northern part of the factory are not disturbed (i.e. carpenter's workshop at present requisitioned by RE).

1. Progress reports on the formation of Italian mil personnel into Italian Pnr Lab Regts show clearly that the best results are achieved when the Regts are formed in accommodation which is under Brit contro l.
2. At MINERVINO Camp, for instance, the Commanding Officer of the Camp is British and all ranks are taught, and made to conform to, certain rules laid down by him. Although the Italians only remain at MINERVINO for a short time, the improvement in their turn out and morale is marked, desertions are few and there is less sickness than in other Italian units.

3. At BARI, BRINDISI and TARANTO on the other hand these units are accommodated in Italian Barracks which they share with other Italian units, with the result that they live in the deplorable conditions common to most Italian units. Moreover this arrangement makes the best efforts of the small Brit cadres to maintain discipline, largely abortive.

4. It is strongly recommended that these units be formed in Brit controlled accommodation, where, although the internal discipline within units would continue to be exercised by the Italian ofrs, the general camp routine would be laid down by the Brit comd and would be based on Brit standards.

5. It is requested therefore that the Italian Mil authorities be instructed to so re-arrange accommodation that the Italian Pnr Lab Regts be segregated and the accommodation scheduled below be handed over entirely to their use and come under the com control of this Dist:-

Equitation School of T. de G. G. G.,

excellent equitation instruction, used to be a

highly appreciated and known by foreigners.

It would be the wish of this

would be restored to its functions and could
offer to maintain allied forces the possibility
of practicing that sport in a more pleasant

Although the premises have been

population, these damages are not serious and the school could be repaired and put into use in a very short time. The hypotheses, the obstacles and a few locals are in fact in good conditions.

For the reorganization, maintenance and custody of sport equipment and the buildings, it is suggested necessary that a small cavalry unit be given the charge of the school and the duty to look after the horses which would be put at disposal of Allied Officers.

Such unit, of which strength will be fixed by MMH, should, it is understood, be included among units serving for the Allies.

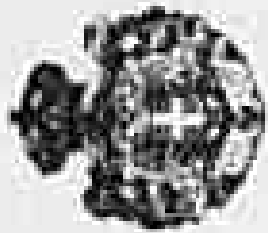

This suggestion is put forward to MMH for consideration, with the object to treat officers of the Allied Army, of whom it is known the passion for that sport, and to restore at the same time, an old institution so dear to the Italians.

Tale reparto - di cui cotesta Sottocommissione fisserebbe la forza - dovrebbe, s'intende, essere compreso fra le unità e servizi alle dipendenze degli alleati.

Sottopongo la proposta al benevolo esame di cotesta Sottocommissione, nell'intento di far cosa grata agli ufficiali delle forze alleate, di cui è nota la passione per lo sport ippico, e per restare, nello stesso tempo, una antica istituzione così cara agli italiani.

Tor di Quinto Cavalry School is famous to world horsemanship and many officers of all Nations yearly frequented the riding courses. It is rightly considered one of the international sporting centers, and it is under this point of view that this request is forwarded.

Allied units now camped on the race course seriously endanger the track itself, and many installations of a permanent character that have been built during many years of work and experience.

The Allied unit in question is W.D.F. Admin. Hq. commanded by Lt. CARLE (83620 V.), and as it is a very small unit it can surely be lodged in some other place or even in a Barrack inside Rome without great inconvenience.

This request is based on restoring the sporting character of the Tor di Quinto Cavalry School, and it is considered that the Allied Command will be only too glad that this school will become again a horsemanship center where Allied Officers will be able to
