Attention: Lt. Col. F.J. Noakes

1. Reference is made to the assistance you gave to the undersigned in contacting the Cartoteca of the Italian War Ministry on 2 Dec 44. The staff sergeant who served as interpreter for the undersigned at that time stated that he would be able to make any further contacts required with the Cartoteca. It would be appreciated if he could contact the Cartoteca and attempt to secure the map as described below and forward it to this office at an early date.

2. Indexes secured at the Cartoteca show that the Military Geographical Institute has published a 1/100,000 map sheet on the Italy-Yugoslavia frontier which is numbered 26A in the system used for the 1/100,000 map series of Italy and which is named Idria. This sheet has never been available to the Allied Forces and it is desired to secure copies. It is believed that copies may be available at the Cartoteca. It is desired that up to four copies be secured if possible. If only one copy is available, assurance can be given the Cartoteca that it will be returned if they so desire.

3. The maps previously secured from the Cartoteca by the undersigned are being studied at the present time. Some of these will be returned at an early date.

4. With reference to the request of the Cartoteca for copies of Italian maps produced by this headquarters, action is being deferred pending a decision by G-2 as to whether these maps should be released to the Italian Army.
