Subject: Clothing for Italian Officer Instructors now working with Combat Gruppe.

Ref: Telephone conversation Captain Pascal (AAI, Q(AE)) 1 Oct.

MEMORANDUM FOR RECORD:

1. Captain Pascal called to pass on information, which had been passed to him for action. He had been informed that some General Officer (name not given) had inspected the training of the Combat Gruppe, and had observed that the Italian Officer Instructors were poorly dressed and outfitted. Their appearance was below that of British Officers and also of the Italian soldiers being trained. Q(AE) AAI have received a request that they find out what can be done about this.

Subject: Clothing for Italian Personnel.

H.Q. 2 District

FROM:
O.C.
769 Italian Forestry Coy R.E.
C.M.F.

1. It is understood that Lieut Alessandrini of this Unit called on Major Murcell on 22 Sept regarding the issue of clothing to personnel of this Unit.
2. Last July an indent for clothing was forwarded through the proper channels in accordance with H.Q. 2 District I429/Q of 15 June 44 and M.M.I.A. Admin. Instr. No 3 Appendix F. Nothing more has ever been heard of this indent.
3. The following clothing is required now:-

Waterproof Coats	111
Overalls	200
Flannel Shirts	200
Pants	200
Wool Socks	200
Pullovers	100
Towels	100
Handkerchiefs	200
4. All that Lt. Alessandrini was able to obtain on 22nd Sept were some cotton shirts and cotton socks which are quite unsuitable for the winter.
5. Regarding overalls, these are essential for men working on tractors and as mechanics. All they have are their ordinary uniforms which by now are ruined, and no authority exists for them to be supplied with overalls from British sources. 7560
6. It would be appreciated if you could take some action for the supply of this clothing as it is regarded as essential.

As it is impossible to determine any  
source of stolen articles of clothing, owing  
to the fact that they are "forgotten"  
and reported as "unaccounted for" by the  
for the decision which it may  
have to take.

However, please note that:

- only the elements and persons  
can be drawn from the present  
unavailable.
- the distribution of blankets is substantially  
to the amount of the quantities from  
London.
- It is presumed that it will be  
possible to purchase the necessary  
and types.
- The distribution of cloth shirts  
will be with them to meet for the  
shirts which are being made.

785020

The distribution of blankets is substantially the same as the quantity of the quantities from London.

- It is presumed that it will be possible to purchase the necessary items and ropes.
- Now the distribution of cloth sheets, etc. will depend on the amount of the sheets which will be taken over.
- We cannot assign persons and posts because of impossibility.

SUBJECT: Italian CD Platoon - No. 2005.

TO : HQ, AC.

29 Sep 44.

1. I have inspected the 2005 Italian CD Platoon detailed for duty with this HQ, the Platoon Commander was present.

2. Of the original members of the Platoon 2 are in hospital elsewhere, 2 are on leave and 2 A.W.O.L.

3. Either no effort has been made to equip this Platoon, or equipment has since gone away with. No five details:-

a. The undernosed men have nothing but their civilian clothing

b. According to the Inventory of clothing and necessities Registro Oggetti Corredo in Corsica agli amministratori al Regenti one man has no blanket. Of the Teli da tenda - a bivouac shelter - only 1 or 2 are serviceable.

c. In the whole Platoon there are but 3-4 blouses and a dozen great coats. The term "vestizione" covers a diversity of garments mostly WD Shorts, 1 pair of cotton knickerbockers and a few serge trousers.

d. There are no vests - some undershirt underpants - while there are only 7 mess tins, 3 spoons and 10 water bottles for the entire Platoon.

- b. According to the Inventory of Clothing and necessities (Inventory of the 1st Battalion in Cassino) all the equipment of the 1st Battalion is in good condition. Of the 1st Battalion - a bivouac shelter - only 1 or 2 are serviceable.
- c. In the whole Battalion there are but 3-4 blouses and a dozen great coats. The term "bataalone" covers a diversity of garments mostly in shorts, 1 pair of cotton undershorts and a few serge trousers.
- d. There are no vests - some undershirt underpants - while there are only 7 mess tins, 3 spoons and 10 water bottles for the entire Battalion.
- e. I am satisfied that these men are insufficiently clothed to carry out any duty at present and that they cannot physically withstand the rigors of even a mild winter.
- f. Close by other Italian Soldiers are quartered. I was somewhat surprised to find many men were comparatively well turned out. I am unable to understand therefore why such a lamentable ill clothed Battalion should have been dispatched to undertake duties required by the Allied Military Government.
- g. I would respectfully recommend that the responsibility of Italian officials be called upon for an explanation, and directed to make good the equipment which appears to have been withheld.

Notes on Conversation with Col. Sabissa--Lt. Col. Shipley on 28 September 1944, re clothing and equipment for "call ups" at PUGLIA, VIENNA and LITTONIA.

MILITARY MISSION ITALIAN ARMY

S O M E

21 Sept. 1944

MEMORANDUM FOR RECORD.

1. Col. Sabissa was requested to give MIA a report on the items of Italian equipment which can be furnished against our authorization notices AG/GO/23, AG/GO/24 and AG/GO/26 all dated 24 Sept. This being the required individual equipment for "call ups."

2. Col. Sabissa was advised that the individual equipment (mess gear, waterbottles, haversacks, bedding) was to be issued to call ups at "Reception Depots" and that such equipment should be moved to the three towns as required. The importance of having it there in time to equip "call ups" was also stressed. Col. Sabissa advised that some items were not at present available from Italian stocks,--especially waterbottles and blankets. He assured us that every method of improvisation and a combing of existing equipment available in unit depots and elsewhere would be undertaken.

3. Col. Sabissa advised that the stock of approximately 12,000 blankets now at Bari were already allotted for issue to other units. He was instructed to freeze this stock of blankets and to furnish MIA with a list of the allotments against them.

4. It is understood that clothing will be issued to "call ups" reporting to Allied formations at destination,--after they are under control of the receiving formations. Col. Sabissa said it was planned to issue Italian clothing on this same basis, and that plans to accomplish this are in hand.

5. It was recommended by Col. Sabissa that blankets be withdrawn from troops in the Rome Area and comforters issued. Blankets so recovered would then be available for issues to "call ups." He was asked to give us a list of units who would be effected and the quantity of blankets involved. Upon receipt of this information we will examine the feasibility of the proposal.

6. The large number of incidents coming from units with 5th Army, 2nd and 3rd Divisions was discussed. Administrative matters, having been established and 3 Divisions, 8 Divisions, and 233, these matters should enter con-

He was asked to give us a list of units who would be effected and the quantity of blankets involved. Upon receipt of this information we will examine the feasibility of the proposal.

10. The large number of indents coming from units with 8th Army, PAF and 3 District was discussed. Administrative matters, having been established for 1st Army, 8th Army, 3 District, and PAF, these matters should enter consolidated demands for all troops under them for administration. It was agreed that SIC Div., 21st Div., 27th Div., and 28th Div. would be immediately notified by S of S. to submit consolidated indents and to discontinue forwarding indents for individual units under their control. At present many individual indents and some consolidated indents are being received.

THE SECRETARY, ALLIED ARMY IN ITALY

(Copy to:-

Commander in Chief, Mediterranean)

REPAIRS TO THE ROYAL NAVAL VESSELS

1. Owing to the shortage of Royal Naval personnel, attempts are now being made to train up Italian Naval ratings in repairing land-crafts etc. Through the courtesy of the Officer Commanding, 1st West Lancs Army Troops Company, Royal Engineers, a group of 10 men has been given a course and these are now proposed to teach other groups for use in newly-liberated ports.

2. The operational employment of these men and the training of further groups is, however, at present held up through lack of the necessary gear.

3. It would therefore be greatly appreciated if arrangements could be made to supply us as soon as possible with four sets of gear as per attached list.

4. In view of the fact that the advanced West Parties will very shortly be moving up the coast, it would be appreciated if an early reply could be given.

Clothing for 210th Div

So as to speed and make easier the supply of clothing to units of the 210 Div. Inf. SNRE suggest that there should be with the subsistence section of the Division an advanced depot for clothing and equipment containing enough complete articles for 1000 complete sets (about 10% of the complete strength of the Division).

The methods of functioning would be the same as was adopted for the depot of Chiety 448.

The committee will do its possible to ensure the Depot with all the material they will have available as for the time being it is impossible to get the full amount of 1000 sets.

In relazione alla notevole riduzione di forza verificatasi ed in corso presso i vari comandi Regionali, allo scopo di adeguare le rimanenze degli oggetti di corredo alle reali necessità dei comandi Regionali stessi, presi gli ordini da S.E. il Ministro, prego disporre:

1. I refer you to my MF 96/1 of 13 Aug 44 which explained the procedure being adopted for the re-organisation of existing Italian Units into Italian Pioneer Labour Regts.
2. Now that the re-organisation has taken place the following units no longer exist as such:-
 - 400 Inf Regt
 - 402 Arty Regt
 - 405 Inf Regt
 - 407 Inf Regt
 - 19 Labour Bn
 so it was decided that no clothing would be issued until re-organisation had taken place. Clothing issues authorised by you under your AQ/61/115, 125, 126, 127, 141, 143, 144, 145, 147, 148, 153, 187, 201, 254, have therefore been cancelled and the clothing depot O.C. has been ordered NOT to issue if units ⁷⁴⁰⁸ to draw against the above releases. Unfortunately before these orders were given the following issues took place:-
 - AQ 61/116, 128, 142, 155, 160,
 - 9 Corps is being asked to account for the distribution which units have made.
3. It is requested that this office be authorised to issue clothing as required by units newly formed after these units have been inspected and when it has been ascertained what are essential requirements.

1. In your letter of 3 September 1944 addressed to Hq 42 Group Pioneer Corps, you advise them that certain items of equipment requested in their G1098 deficiency list dated 30 August 1944 are not available. Your authority for this statement is Italian Military Authorities of Compagnia.

2. The Italian Ministry of War is the only Italian Headquarters which can correctly certify as to the availability or non-availability of items of Italian equipment. Statements from subordinate Italian Hqtrs. cannot be accepted or passed on to Allied formations.

FROM: M of W
TO : MMIA Lt.Col SHIPLEY

Ref 2398/1/R1
Dated 30/3/44

Reference to telephone communication between Lt.Col. SHIPLEY and General PELLIGRA.

When the organization of salvage opened they found great quantities of unserviceable articles of clothings which had been in various army depots for very long time, even years, (some of the Depots were hardly adapted for such storage) parts of the clothing is there pending repairs the rest waiting for sale as rags and cotton waste.

From this arise the neessesity of sorting such a mass of articles to fine the most suitable for prompt renewing in a logical and effective manner.

At this time we think that we possess a mass of uniforms repairable amounting approx to 100,000 uniforms and 200,000 pairs of boots, however, we must note that the result of the sorting of the articles is depending entirely on the state of conservation of the articles resulting from long stays in badly conditioned depots as mentioned before.

7382

Moreover, we must consider that the sorting will be long, tenuous and slow work. I think that roughly we can recover.

1 Trousers ED out of 15 "
1 Shirt " " 30 "
1 prs Drawers " " 50 "

See Folio 66/1

also that to recover the aforesaid 100,000 uniforms and 200,000 pairs of boots it will force the removal of

of which the mass must be put in repairable and non-repairable sections then the repairable ones transported to various units who will deal with the repairs of those articles after disinfection and washing.

As always this General Directorate will do it's utmost to ensure
