We are informed by Mr. Rogers & Luciana (Dougherty), that a certain amount of clothing articles are actually at the Pacific Depot, i.e. trousers and slacks obtained from the bank, which trousers, slacks, etc., which pants were upon to be carried out in the clothing workshop. Some case studies can be included accordingly.

According to information, the showing & issuing of such articles, as well as new material used for boots and clothing repairs and tools from other sources by the other Depot to the various workshops, cannot be carried out without prior permission from the Customs L.O. and in the future, according to what mentioned by the long of course, must get authority from the L.O.

In order to have a continuous flow of work, a regular supply of new material and a certain amount of repairable materials in these workshops, it is suggested that L.O. be given authority on the movement of items between the Depot & workshop, without the H. from MM 18. See also the end authority.

R O M E
October 44

TO: MMIA LO SICILY: Attn. Col. Albert

Dear ALBERT:

1. Upon receipt of your telegram 894/1 of 27 October we immediately contacted the War Ministry who denied sending any such orders. We wired you confirming that all items of Italian Military equipment are still frozen, and that nothing would be released to Prisoners of War, or other personnel returning from Balkans.
2. The War Ministry has supplied a copy of their 20797/V of 12 October. This letter does not in any way direct the Military HQ Sicily to issue clothing of Italian origin to military returning from Balkans, and there is no grounds for any such representation on part of Military HQ Sicily. Possible a poor translation was responsible for this miss statement. If so, it indicates the importance of more accurate translations.
3. If on the other hand your friends in Military HQ Sicily gave you the wrong information, they should be told about it, because your message created quite a fuss here.
4. Prisoners of War are in fact civilians, and they cannot be provided for from the meager stocks available to the present Italian Army. Undoubtedly some program for handling them will be worked out on a high level, but on the political and civil government side rather than the Italian Military side.

Cordially,

caps.

2. However, 228 Div had already collected these caps from Bari before notice of this cancellation reached the store.

3. The Ministry of War are now calling on 228 Div to return these caps, which is impossible as they have all been issued out to troops. The depot is empty of caps and more are required.

4. To put matters right as between 228 Div, the Ministry of War and your own Ordnance accounts, would you therefore please withdraw your cancellation of release 61/218 of 4 Sep 44, as this release has in fact been acted on.

Relating to Italian Armed Forces.

The request information, sent to us by the Italian Army "BCE" (of which a copy of one page is attached) relative to an exchange of views they had with the "Commissari" Carabinieri, we inform you that.

It is necessary to let each unit retain a number of Italian uniforms for soldiers to be sent in hospital because those troops cannot be sent to the place of that unit with their national uniforms (allied) why

The proposition made in Para 4 of the report dealing with officers clothing is completely unnecessary and considered unnecessary as for statement made in Para 5 it does not seem possible to let the Italian uniforms be used as fatigue dress as the clothes

uniforms (allied)

What

The proposition made in Para 4 of the
on the point with officers clothing is quite
very probably and considered necessary
as for statement made in Para 5 it does
not seem possible to let the Italian uniforms
be used as fatigue dress as the clothing
situation in the Italian Army is rather critical
and necessitate the exchange of uniforms 7793
issued to those troops to issue them new to
reminde of the Italian Army which are under
supervision of this Army by.

Recommended

FLORA

I recommend in principle that 7d Corps of each Group
holds 2 1/2 1st uniforms for issue to men evacuated from Group
area & that there are replaced automatically as used. Sp
and may also use these suits for men sent away for other reasons
OR another 2 1/2 may be held in Group 8005 Group.

Subject: Clothing & equipment of Italian Armed Forces.
(Copy of extract.)

2) Personnel discharged from hospital

When the new supplies are distributed, the problem will arise of what to do about the outfitting of personnel to be sent to the hospital. If their equipment were left behind, in case the men do not return to their units, it would be necessary to equip the replacements again. Awaiting your instructions ^{the CREMONA HQ} ~~the~~ [is withdrawing/will withdraw (?)] the British equipment from said personnel, leaving them only Italian equipment.

3) Soap ration:

We agree that the S.M.R.E. had accepted 7795 the responsibility of supplying soap until these troops are ready to move. This actually has not been done, so that we are not in a
(over)

785020

position to ask the troops to maintain a high standard of physical appearance.

Therefore, if the S.M. is not able to furnish the soap, we want to inform that the allotment from British sources should be expedited.

4) Extra equipment for officers:

Div. Hq. has asked if a supplementary issue would be possible in order to allow the officers the purchase of additional personal items (i.e. shirts, socks, linen, and, if possible, uniforms).

3) Withdrawal of Italian Clothing:

Referring to your letter HQ/15, dated 3 October. Please confirm that, when British equipment is distributed, a set of Italian fatigue equipment can be left in order to save the British equipment.

20) Personale dimesso dagli ospedali :

A distribuzione del nuovo materiale avvenuta, sorgerà il problema degli come comportarsi circa l'equipaggiamento del personale da inviare agli ospedali. Qualora detto equipaggiamento venisse lasciato, in caso che i militari non rientrassero occorrerebbe riepilogare i rimpiazzamenti. In attesa di vostre istruzioni il Comando "CREMONA" verrebbe ritirare l'equipaggiamento inglese ha detto personale, lasciando loro quello italiano.

30) Razione sapone :

Si è d'accordo che lo S.M.R.E. aveva accettato di provvedere al rifornimento sino a che queste truppe non fossero pronte a muovere. Ciò all'atto pratico non avviene, cosicché non si è in grado di poter pretendere da parte dei militari di conservare un alto livello di prestanza fisica. Se quindi lo S.M. non è in grado di provvedere si rappresenta la necessità di affrettare l'assegnazione da fonti inglesi.

40) Equipaggiamento extra per gli ufficiali :

Il Comando di Divisione ha richiesto se si possa provvedere ad un ulteriore acquisto addizionale di articoli personali (in particolare: camicie, calze, biancheria, e se possibile, uniformi).

5°) Ritiro di vestiario italiano :

Riferimento vostra HQ/15 in data 3 ottobre. Prego confermare che, a distribuzione avvenuta dell'equipaggiamento inglese, si possa lasciare una serie di equipaggiamento italiano da fatica allo scopo di risparmiare quello inglese.

1. It is requested that this HQ be informed of the approximate dates on which winter clothing and G 1098 scale of equipment will be released to Combat Group Poligore.
2. The position re clothing is most unsatisfactory - the Italians in this Combat Group are inadequately clothed even for the present mild weather and unless some winter clothing is made available immediately the morale of the Combat Group as a whole is bound to fall to a very low level when the cold weather sets in, in the next few weeks. In addition nearly all training is being held up and will so continue till adequate clothing is provided to enable the Italian soldiers to have some chance of having dry clothes to return to after exercises and sufficient blankets to keep warm at night. At present the majority of them have one suit of Italian clothing which gives far less protection against the cold than a British battle dress and approximately one blanket per man. In many cases the clothing is of Italian summer variety.
3. The most pressing needs are for the following :-

Blankets	14,000	Socks	12,400 prs.
Pullovers	9,200	Boots	3,000 prs.

However the provision of the whole clothing scale as laid down by your HQ for the whole Combat Group is hardly less urgent.
4. In connection with the provision of the G 1098 scale of equipment for this Combat Group the present difficulty is that the Combat Group HQ have formed the opinion that this will be forthcoming late in November. If this is not the case then it is essential that this HQ inform them immediately; to date all that has been done is that they have been told that no information is held on this point.

No. 301 Italian Army Ord. Amn. Coy. consisting of 1 Officer and 54 O.Rs. is now attached to this Depot.

No. 302 Company will arrive here on 27 Oct 44.

The personnel of 301 Company are deficient of practically everything except one suit of clothes, and a statement of their deficiencies is set out in the attached schedule.

A.F.H.Q. File No. HSD/424 dated 8 May 44 sets out the policy regarding the employment of Italian Army units, and para 17 of this directive provides that such units may be issued with British clothing and equipment if Italian Army stocks are not available.

Lt. Agatino informs me that he has been told by his own command that no equipment will be available for issue to his men at least until next month.

In the circumstances, in view of the bad weather and the fact that these men will have to work in the open in this Depot, I now submit application for authority to draw from British Ordnance Stores all items of equipment required to bring this Company up to the full scale.

I do not know what the equipment state of 302 Company will be when it arrives, but it is most likely to be exactly similar to that of 301. Will you, therefore, at the same time give authority for similar action to be taken for 302 Company.

 che ai gruppi di combattimento debbono essere di-
 stribuiti - quando richiesto dagli Ufficiali Alleati
 di collegamento - oggetti italiani non riparati.-

S'intende che detta dizione va interpretata
 nel senso che gli oggetti da distribuirsi debbono
 essere indossabili (es. una giubba che abbia una
 manica quasi del tutto staccata, deve essere, ovvie-
 mente, ricucita).-

Pregasi pertanto chiarire detto concetto al
 personale interessato.-
