1. Reference Authorization Notice AQ/B/130 dated 11 December 1944.

2. For obvious reasons, it was desired to ship all items on the above reference Authorization Notice from Naples Depot. The credit to BR-ITIS at Naples, however, is insufficient to meet the quantities of B.D. Blouses and B.D. Trousers. A sufficient credit does exist on the books at Bari.

3. To meet the above requirement, 2000 of each B.D. Blouses and B.D. Rome Art. Direction informed us that the depending staff is, almost everyone, not in possession of proper clothing articles for working purposes and is compelled to work with the uniforms which are so scarce and difficult to obtain.

The actual situation is critical for the working staff of the Q-Cassino Section and Gaeta Ammo. Depot who lost in action all their clothing and in most cases the soldiers were left with what they had on.

The a/m Art. Direction managed to issue to a minimum number of the staff the limited amount of overalls available. Men issued with same were those who were wearing clothing in poor conditions and those who were entitled in accordance with para. 68 of the Special Regulations for M of W. workers. Most of the workers are not in possession of same.

Being impossible to obtain from the market at a reasonable price overalls or the necessary material to make same for the free issue to the men entitled and the issue on repayment to the rest, may this Gen. Direct. please examine the possibility to assign to Rome Art. Direction a certain amount of overalls or and other clothing articles which could be fit

ALLA DIREZIONE GEN.SERV.COMM/TO MIL.

OGGETTO: Indumenti di lavoro per la direzione di artiglieria del Comando Mil.del Lazio Umbria ed Abruzzi.

La Direzione Artiglieria di Roma ha fatto conoscere che il dipendente personale operaio trovasi, nella quasi totalità, sprovvisto di adatti indumenti di lavoro e costretto quindi a logorare il comune vestiario già tanto scarso e di difficile approvvigionamento.

La situazione risulta particolarmente critica per il personale operaio della ex sezione staccata di Cassino e del deposito munizioni di Gaeta che, nelle note contingenze belliche, ha, nella maggior parte, perduto masserizie e vestiario e, spesso, è rimasto con il solo vestito che indossava.

La predetta direzione artiglieria nei limiti della scarsissima disponibilità ha provveduto a distribuire a una minima parte del personale (quella in peggiori condizioni e quella che ne aveva diritto ai sensi del paragrafo 68 del regolamento speciale per operai dipendenti dal Ministero della Guerra) la combinazione di tela turchina. La massa è rimasta però tuttora sprovvista.

Data l'impossibilità di procurare dal commercio a prezzi possibili un conveniente quantitativo di tute da lavoro o la tela necessaria

SUBJECT: 504 Guard Bn.

LAND FORCES SUB COMMISSION
ALCOM (M. M. I. A.)
R O M E
AQ/15/1
10 December 1944.

TO : MMIA LO 3 District.

1. Reference indent placed on the Ministry of War by 504 Guard Bn., their No. 1582/3 dated 22 November 1944.

2. The above reference indent is returned to you for proper screening and further check. A substantial quantity of clothing was authorized for issue to this Bn. on 22 September, another lot on 4 October, and another lot on 15 November. The items requested on the above subject indent are definitely excessive, unless they have failed to collect items already authorized.

3. In keeping with instructions issued to you several weeks ago, it is desired to equip all Guard Bns. to scale, and in this connection you have been give the responsibility of determining what items are needed, and of insuring that indents are placed for the proper amounts. The excessive quantities demanded by the above reference indent indicate that proper action has not as yet been taken by you, or for some reason the O.C. Guard Bn. has failed to comply with your instructions.

4. Please consider the indent returned herewith as disallowed; at the same time please secure a new indent for items actually needed to equip the Bn. to scale, and insure that original goes to War Ministry and a copy to HQ MMIA. This action will enable us to immediately release such items that are actually needed, and at the same time prevent over issues.

5. Please consider this as a matter of urgency, and expedite the necessary action.

SUBJECT: Demands for Clothing from Guard Bns.

LAND FORCES SUB COMMISSION
ALCOM (M. M. I. A.)
R O M E
AQ/15/1
10 December 1944.

TO : MMIA LO Naples.

1. References:-

Indent of 509 Guard Bn. No. 2003/Serv of 13/11/44.
Indent of 506 Guard Bn. No. 923/9/P of 15/11/44.
Indent of 508 Guard Bn. No. 2691/6/Serv of 13/11/44.
All of the above reference indents were received by HQ MMIA thru the Ministry of War. Copies were not received from MMIA LO Naples.

2. Considering the fact that these Guard Bns. were equipped in ASTRONI Camp, and that subsequent releases of clothing have since been made to all of them, the items as requested on the above reference indents appear definitely excessive and out of line. As per telephone conversation with Lt. Lambrecht, the above reference indents will be considered as cancelled and disallowed. MMIA LO Naples will secure new indents from the Guard Bns. in question, for such items as are actually required to equip them to scale. The original of such indents will be forwarded to the Ministry of War, and a copy furnished to HQ MMIA Office. As soon as, copies of new indents are received by this office, we will notify the Ministry of War that the indents previously submitted are disallowed, and that favorable action will be taken on the new indents.

3. Please expedite handling of this matter.

SUBJECT: Manufacture of Helmets.

LAND FORCES SUB COMMISSION

AQ/15/1
8 December 1944.

TO : Ministry of War.

904

1. Reference Stato Maggiore R. Esercito letter No. 4/3877/Serv. dated 3 December 1944.

2. Steps should be taken to repair any helmets which can be placed in serviceable condition. Existing stocks of materials, including items available from local resources, should be used for that purpose.

3. The manufacture of 15,000 helmets from materials which are not at present available from liberated territories is quite a different matter. A considerable time will be required to acquire the needed raw materials, and an additional period will be needed to arrange and complete the manufacture of helmets. According to our information, there are at present 3,000 helmets in Italian Depot Stocks available for issue to operational troops who may require them.

4. In view of the above, the proposal to manufacture 15,000 sets of helmet parts from materials which are not available within liberated Italy is disapproved.

Ref. your LRS/303/71 dated 6 Dec. 44.

1. It is regretted that no supplies of Camouflage Material can be made available from Italian Army Sources.

2. The small quantity at present on hand is rapidly being used up for the manufacture of shelter halves which are urgently needed for tps in the field.

3. In point of fact, it will be necessary for the Italian War Ministry to obtain further supplies of material if the outstanding demands for shelter halves are to be met.

4. Under these circumstances, it is regretted that we are unable to assist you in your present enquiry.

6 December 1944

TO: Colonel M.J. Geraghty, QM L.O.
Penbase South

1. With reference to your memo, subject as above, dated 21 November, the following information is submitted and will be accepted as the policy of MMIA for the time being.

2. Answer your paragraph 2. The QM PBS will retain control of the dyeing facility for green clothing for US-ITI units. The dye plants of Papoff and Gonzales will be operated by Penbase and financially maintained by the Italian Military. The Leghorn plant will be operated and maintained by the U.S. Government. The San Prisco dye plant will not, repeat, will not, be allocated excusively to PBS QM. This plant has been placed in operation by the Italian Military and will dye clothing for the Italian Army, and clothing dyed therefrom, will be disposed of through MMIA. The San Prisco plant (by verbal agreement between Colonel Pare--Major Smith) has been temporarily loaned to Penbase in order to assist that section in completing the dyeing of the original 35,000 garments. The use of this plant will cease as of 23 December.

3. Answer your paragraph 3. Figures correct except for the San Prisco plant, which is now dyeing approximately 2,000 garments per day.

4. Answer your paragraph 5. Agreed except that no Italian Military dye plant will be used excusively for ER-Iti.

DYEING CLOTHING FOR ITALIAN TROOPS.

1.	21 Nov	QM PBS	Salv O	1. Subject of dyeing clothing for US-Itslian troops was discussed in conference and by telephone by

the following officers:

Col. Ker , Lt. Col. Shipley, Major Smith, and Major Rose, representing MMIA General Ramsey, Col. Lamont, and Lt. Col. Hinks, representing MTOUSA.

and the following agreements was reached:

2. The QM PBS is to retain control of the dyeing facilities for green clothing of U.S. - Italian units. The dyeing is done by Papoff, Gonzales, Leghorn and a plant located on the road north of Caserta near town of San Prisco, allocated exclusively to PBS QM. The exclusive products of these plants is to be used by PBS QM for dyeing green clothing until such time as all requisitions have been filled and asultable reverse supply built up.

3. It is my understanding that Gonzales Plant has a capacity of approximately 800 garments per day; the Papoff plant 1500 garments per day; the Leghorn plant 500 garments per day; and the new plant north of Caserta 500 garments per day.

4. It will be the responsibility of the Salvage Officer to check on these plants and see that they are supplied with adequate stock of X garments and that the Class X Garments that have been dyed are promptly removed from those plants, sized, classified, baled, and turned over to the Warehouse Q-500 near Area, and Warehouse Q-552, in Leghorn Area.

5. Major Smith, MMIA, agreed to have the 6,000 garments, belonging to QM PBS now stored in Spittimagore Dye Plant, dyed and ready for delivery by 1 December. This plant will then be operated exclusively by MMIA for dyeing British ITI equipment. Check up on this and see that garments are delivered by that time.

6. NEW SUBJECT.

Instruct all tent repair shops that they will make a careful inspection of all tents prior to checking out and see that all frayed and worn guied ropes are replaced by new rope. Inspection made by me in the forward are revealed lots of guide ropes that were badly frayed.

Subject: Request for articles of clothing & equipment

Reference from HQ 2557/4 dated 27th Oct 44.

MMIH checked the strength mentioned mentioned in para 2 which does not correspond with the figure shown in the table above.

This Ministry however, could comply the requirement of articles requested in col 5 as these exceed the present strength and in order not to cause a delay in the issue which could be a disadvantage for the soldiers in need of these articles, MMIH accepts the request.

This Ministry takes the opportunity to remind you that instructions laid down must be strictly adhered to and in future, requests must be completed in every respect, as far.

OGGETTO Richiesta oggetti di v.e.

Riferimento modulo n.2887/M del 27 ottobre c.a., la M.M.I.A. ha rilevato come la forza autorizzata segnata al paragrafo 2 non corrisponda a quella che figura sul piano di battaglia/.

Dato che questo Ministero ha potuto mettere in rilievo che i quantitativi segnati alla colonna 3 sono inferiori alla forza presente e che un ritardo nella assegnazione si tradurrebbe in uno stato di disagio per i militari che abbisognano degli indumenti invernali la predetta M.M.I.A. darà alla richiesta regolare corso.

Questo Ministero coglie l'occasione per richiamare cotesto Comando alla scrupolosa osservanza delle norme in vigore, affinchè, per l'avvenire, i moduli siano compilati con la dovuta esattezza in ogni loro parte.

1. Ref to your AC/15/1 dated 22 November 1944 as explained in our signal Ref 1017/1 dated 28 November 1944 the information you desired (confirmed by telephonic conversation, SHIPLEY-ALBERT, this date) was sent to you in our No 1017 dated 17 November 1944. However have contacted AC Region 1 and Director of Commissary Military Hq Sicily again regarding supplies from local sources available in Sicily.

a. The Director of Commissary stated that the 3 tons of leather (see par 4e of our No 1017 of 17 Nov) was recently obtained at Catania and all except 0.6 ton was shipped to the Mainland as directed by Ministry of War. The 0.6 ton retained here was to supply Sicily for November and December. He estimated that there was still probably 15 tons in Catania, Acriali and Palermo Areas, but the owners were reluctant to give it up due to the set lower price the Army pays. The leather is still frozen by Ministry of Commerce There may be small quantities in other parts of Sicily that probably is going into the black market. Regarding thread and nails only in small quantities and at black market prices, which are exceedingly high.

b. The local sources representative of AC Region 1 stated that: There was no change since previous report about the shortage of tannin in Sicily and he did not know when some would be available. About six weeks ago 12,000 needles (for clothing) were turned over to the High Commissioner (civil) for distribution in Sicily. He was not aware of any sizable quantity of shoe or clothing repair material in the island.

2. Appendix "A" attached hereto shows the quantity of clothing and equipment held in the store rooms of regiments and separate units, this is partial list balance to follow. Most regiments do not have regimental store/Room but the small amounts are allotted to Bns and even Cos, from whom this data was obtained and consolidated by regiments.

1. Reference our AQ/15/1 of 24 November, and your Signal reference F 74/28 dated 28 November. — 875

2. To begin with, we owe you a sincere apology for some of the points charged against you in our AQ/15/1 dated 24 November. For some unknown reason, the first page only of your letter No. 1017 of 17 November came to my desk, and our reply of the 24th November was based upon the assumption that the information contained on the first page was all that you had furnished us. The information contained in Pages 2, 3, and 4 did answer the majority of our questions.

3. In addition, however, there are a number of points about the salvage and clothing situation in Sicily, and also the repair activities in Sicily which I would like to discuss with you when you come to Rome. The most important matters for consideration include the following:

a. Since January 1944, some 15,000 Battledress have been issued to Italians in Sicily, and Italian Uniforms were in turn withdrawn. What has become of them? 8136

b. According to information furnished from Italian Sources, All Soldiers in Sicily were issued 3 blankets per man last winter. What has happened to the third blanket?

c. It is desirable and important to work out a limited repair program in Sicily for the maintenance of troops on the Island. Salvage and items or repairing materials now on hand, or available from local sources, must be used to the maximum. On the other hand, movement of large quantities of unrepaired clothing and repairing materials from the Mainland, and then shipping the clothing back to the Mainland after repair, appears definitely inadvisable.

Il loro vestiario si trova in condizioni molto disastrose per cui si rende necessario provvedere alla completa sostituzione, tenuto conto anche della particolare grave malattia di cui sono affetti i ricoverati e la necessità di addivenire al cambio degli oggetti di biancheria.

Si interessa pertanto l'H.Q. M.M.I.A. Lo Sicilia di compiacersi disporre per l'assegnazione - sia pure in via eccezionale - dei seguenti oggetti di corredo:

TO : MMIA LO Sicily & HQ ALCOM Sicily Region.

1. Correspondence with the Ministry of War in regards to the equipment of the Bn. of the Sabauda and the Bn. of the Aosta Division now on duty on the mainland, has indicated the fact that the Sabauda Division and probably other troops in Sicily during the Winter of 1943 and 44, were issued 3 blankets per man. Two of these blankets were of Italian origin, and provided from Italian Stocks. The third blanket was an U.S. blanket, issued by British Ordnance in Sicily.

2. It is further reported that the Bn. of the Sabauda Division now on the Mainland, turned in one blanket per man to their Regimental or Division Headquarters some time last summer. In all probability, this same procedure took place with other units.

3. In view of the above, will you please ask Military Headquarters Sicily, what happened to all of the blankets which were turned in. In the event it is claimed that they were not turned in; how many blankets per man do the troops now in Sicily have at present?

4. Please check into this matter, and give us your reply at the earliest date practicable.

SUBJECT : Material for Agents of Public Security.

TO : Land Forces Sub-Commission.

With further reference to this office letter AC/14613/5/PS dated 25 November, 1944, it is understood from Commerce Sub-Commission that the material, of which these items form part, was handed over to the Italian Ministry of Industry, Commerce & Labour, for distribution to different Agencies as and when demanded.

It was not intended that it should be "blocked" and reserved by any one Ministry, such as the Ministry of War, as appears to have been done, irregularly, in this instance.

It is therefore strongly recommended that the Ministry of War by requested to release this material to the Ministry of the Interior, in accordance with the allotment made by the Italian Ministry of Industry, Commerce & Labour.

Honorable Sir,

The Republic of San Marino has organized a body of 20 militiamen to guard her boundaries.

These men need a special uniform, which is composed of a overcoat, a jaket and a pair of trousers, made with heavy military cloth. The total amount of material needed is of 120 metres.

Having asked for this material to the Italian Department of War, Direzione Generale dei Servizi Commissariali, the General in charge there said to have no difficulty to give the Republic this material (military cloth) provided he receives from you the due authorization.

In accordance I am asking you for it and I am sure I coud my Goverment can depend on your kindness and good will toward the Republic. With best thanks, I am,

1. Reference your No. 28344/V dated 22 November 1944.

2. The substantial loss through theft of clothing and materials shipped from Naples to Palermo is regrettable, and indicates the importance of providing adequate guards to protect all movements by rail, by water, or by motor transport. The single soldier provided for the guard in this instance deserted his post in the Messina Station and left the shipment without any protection whatever. Obviously, two or more soldiers should have been assigned as guards in this instance.

3. It is the opinion of this Headquarters that it is inadvisable to make up the loss by preparing an additional shipment equal to the missing items. The authorities at Palermo have already placed additional demands, and issue has already been approved. Undoubtedly, the quantities as requested in these additional demands took into account the losses in the first shipment.

2. The statement made in letter Ref. No. 23100/V dated 26 November 1944 is untrue. On my inspection of the Rome subsistence depots last October, I made the statement to the Depot Commander that he should requisition clothing for the soldiers working at the depot, and require the civilians to wear better clothes or either dismiss the civilian laborers and hire civilians that had better clothes.

3. Nothing was mentioned to the Depot Commander about the manufacture of clothing at all.

TO : MMIA LO c/o ACC Sicily Region HQ Palermo.

1. Reference our AQ/15 dated 11 November, and your reply thereto No. 1017 dated 17 November.

2. The information contained in your reply as referred to above is extremely useful. There is, however, some data which we still need.

3. In Para. 4-b of our basic letter, we ask for information on repairing materials that are at present on hand and also, which can be obtained from local sources. No reference to this matter is contained in your reply. We need this information, and we are especially interested in knowing what repairing materials are at present on hand.

4. In Para. 4-c we ask if, in your opinion, the present clothing repair operations would produce sufficient garments to maintain the force now schedule to remain in Sicily. You did not give us your estimate on this matter.

5. In Para. 4-d we ask for information as to the repairing materials on hand and available from local resources for the repair of boots. No information on this matter was contained in your letter.

6. In Para. 5 of our basic letter, we ask if there were any other clothing depots in Sicily which may hold additional stocks available for repair or otherwise. No reference was made to this matter in your reply. In this connection, we are of the opinion, that there are some additional stocks in Sub Depots, and Unit Store Rooms in Sicily, and that these stocks will be found to contain items of clothing and equipment ready for issue, items or repairable clothing and equipment, and items of repairing materials. It is important to secure information and inventories of all such stocks, and plans should be made by your office to take inventories and report stocks as directed by MMIA Signal AQ 1936 dated 26 September. 868

7. Additional information as indicated above is desired at earliest date practicable. Please give us as much as you can now and the balance from time to time as inventories of any Sub Depots are completed.

Subject: Supplies missing from NAPLES-PALERMO shipment.

With letter 22101/V, dated 8 inst., this Ministry informed MMIA that certain quantities of C+E articles were found missing upon the arrival of a RR car, shipped from Commissariato NAPLES to that of PALERMO.

It appears from later news received here, following more exact investigations by the consignee, that the following supplies are missing:

American service shoes	p. 378
Grey cloth for linings	Kg. 214.70
Shoemaker's thread	Kg. 21.500
Allied shirts	300
Allied trouser-belts	39
Cotton socks	p. 930
White yarn	Kg. 6.590

OGGETTO Assegnazione filati.-

Con foglio n.22101/V in data 6 corr. questo Ministero informò cotesta M.M.I.A. della mancanza di alcuni quantitativi di oggetti di v.e. riscontrata all'arrivo di un vagone ferroviario, spedito dalla Direzione di Comm/to di Napoli a quella di Palermo.

Da successive notizie pervenute a questo Ministero, in seguito a più precisi accertamenti effettuati dall'Ente destinatario, sono risultati mancanti i seguenti materiali:

- stivaletti americani	p.	378
- spago da calzolaio	Kg.	21,500
- tela grigia per fodere	m.	214,70
- camicie alleate	n.	300
- cinghie per pantaloni alleate	"	39
- calze di cotone	p.	930
- filato bianco	Kg.	6,590
- filato g.v.	"	0,74
- " nero	"	16,000

Come già comunicato, il militare che scortava il vagone si è reso latitante fin dall'arrivo del carico alla stazione di Messina, e sono in corso indagini per rintracciare il militare stesso e possibilmente il materiale mancante.

23/11

E' in corso la nomina a sottotenente di complemento delle varie armi e servizi di circa 2.000 sergenti allievi ufficiali, per i quali sarà molto difficoltoso provvedere alla vestizione, sia per difficoltà del mercato, che offre scarsità di oggetti, sia per i prezzi di gran lunga superiori alle loro possibilità economiche.-

Questo Ministero è stato sollecitato ad adottare nei confronti di tali ufficiali il provvedimento già precedentemente adottato per casi del genere, di autorizzare cioè il prelevamento a pagamento presso i propri magazzini degli indumenti di v.e. indispensabili agli interessati per avere una uniforme decorosa.-

Si prega pertanto codesta M.M.I.A. di far conoscere se abbia nulla in contrario a che si effettui la predetta cessione, soggiungendo che la serie, della quale verrebbe autorizzato il prelevamento, sarebbe così costituita:

- 1 divisa di panno (giubba e pantalone)
- 1 copricapo
- 1 cappotto
- 1 paio di calzature
- 2 " " calze

Clothing for War Blinded.

In the PAOLO COLOSIMO institute for re-education of the blind there is some war blinded military patients who report an urgent need for clothing articles

Such institute is a civilian organization operating from public charity funds and cannot provide owing to their restricted capital to the clothing of those patients.

This Ministry suggest that those patients should be helped with issue of salvaged clothing items which are of little use for the troops and therefore HMTMO authorise said issue

Subject: Equipment and Clothing - Italian Docks and IWT Companies.

To: Army Sub-Commission M.M.I.A.
H.Q.,A.C.

1. Reference conversation (Parkes - Byatt).

2. I submit herewith lists of deficiencies in Technical and Non-Technical equipment and Clothing of the Italian Docks Operating Coys (N°s. 921, 922, 923 and 924) and Italian IWT Port Operating Coys (N°s 1,2 and 3).

3. The items of equipment shown as deficient do not include all the items of the approved A.A.I. G.1098 Scales, but only the more important items which are considered the minimum essential for the efficient working of the units.

4. The items of Clothing are deficiencies on the A.F.H.Q. Scale given in Appendix 'B' of AFHQ letter AG/400/105/DO dated 22 Dec.

5. The IWT Coys are formed from Italian Naval personnel and the question of their clothing has been referred to the Navy Sub-Commission, A.C., who state that the clothing of these units is an Army responsibility and that this point was agreed when the units were first formed. The Navy Sub-Commission undertook to provide the personnel only, not to clothe or equip them.

6. As the units are virtually military units and count against the Army ceiling, and as they are controlled and employed by the Army, it appears reasonable that the Army should be responsible for their clothing and equipment. Moreover the scale of technical and non-technical equipment has been fixed by A.A.I.

8012

7. An immediate issue of clothing is requested as the [illegible] particularly in N°.1 IWT Coy, are not suitably clothed

more important items which are considered the ...
the efficient working of the units.

4. The items of Clothing are deficiencies on the A.F.H.Q. Scale given in Appendix 'B' of AFHQ letter AG/400/105/DO dated 22 Dec.

5. The IWT Coys are formed from Italian Naval personnel and the question of their clothing has been referred to the Navy Sub-Commission, A.C., who state that the clothing of these units is an Army responsibility and that this point was agreed when the units were first formed. The Navy Sub-Commission undertook to provide the personnel only, not to clothe or equip them.

6. As the units are virtually military units and count against the Army ceiling, and as they are controlled and employed by the Army, it appears reasonable that the Army should be responsible for their clothing and equipment. Moreover the scale of technical and non-technical equipment has been fixed by A.A.I.

8014

7. An immediate issue of clothing is requested as the personnel, particularly in N°.1 IWT Coy, are not suitably clothed for the present season. A large number are still wearing drill clothing which is quite inadequate considering the nature of their work which exposes them to the full effect of the weather.

+ It is noted that this unit has indented for both jerseys and undershirts. It is suggested that the full scale of undershirts i.e. 424 be issued to cover both items.

Overalls are not included in A.F.H.Q. Scale but are very necessary for these I.S.T. Units and a certain number have been drawn from Italian sources.
