The above articles were scattered over a fairly wide area and it is NOT KNOWN who of these two persons had these articles in his possession.

The Reverend
The Senior Chaplain to the Forces,
G.H.Q., M.E.F.

Reverend and Dear Sir,

I am writing to you in reference to the death of Sjt FREDERICK WALLIS - New Zealander - No 405769 of the Squadron of the RAF.

He was shot down at TAMORGA on Dece 6th 1941 and was taken to an Italian Field Hospital where he died on the 9th December.

He was lying in hospital for three or four days, and contacted somebody who was responsible for sending the special broadcast message that he was a prisoner of war. This appeared on the Cable news from LONDON on 3rd January 1942.

That being so, it is possible that before he died, he may have left a message, or even a short note, and entrusted it to the Medical Officer or the Chaplain, both of whose names appear on the Death Certificate.

His father is most anxious to gain any further details. Would it be possible for you to get into touch with the Medical Officer and the Chaplain whose names are on the enclosed certifica e. I would be extremely grateful to you for the father's sake if you would do this.

2444

FREDERICK was an only son, and heir to a large business, and like so many other dear lads, his loss is a very grievous one to his people. I trust I am not asking too much of you in making these enquiries.

With thanks and all good wishes,

Yours sincerely,

W.W.POWELL.

Subject:- Documentation of British and Allied patients in Italian Medical Units.

With reference to your letter MS/AQ/21 of 4 July and further to 02E/35005/CAS of 9 July.

1. It has been ascertained that a return is submitted to DDMS, No. 2 District in order that he may arrange any necessary transfer to British Medical Units. The purpose of the list you submit to this HQ is the full and accurate documentation of the soldiers concerned.

2. It would therefore appear necessary for both returns to continue but provided that for DDMS, No 2 District contains the same information as the list submitted here, it is suggested that the preparation of two separate and distinct reports in unnecessary. It should be possible to devise a return to be prepared in duplicate sending one copy to DDMS and one copy here.

3. The particulars forwarded in the appendix to your letter under reply were four weeks old. Although in most cases the delay may not be very important, it would be greatly appreciated if steps could be taken to reduce the time that elapses between the date of an admission or discharge and the date of despatch of your return as it is most desirable that such information should be available here at the earliest possible moment.

1. The Italian Ministry of War have their own channels both for receiving news of casualties and reporting them to next of kin. However, their means of communication with Units under Allied Command are not always reliable, and it is often difficult to receive information about Italian personnel admitted to Allied Hospitals.

2. The Italian Ministry of War would be grateful if GHQ 2nd Echelon would continue to forward to them through this HQ, reports of Casualties received from Allied Units.
