11 Aug. 44

ACC Region II

1. Several cases have occurred recently where the Italian Carabinieri have refused to recognise the certificates of exemption from calling up which have been issued to Italian personnel employed on essential services by the British Military authorities.

2. The following is a specific case which has been reported by OC 699 VAW REME ;

"No.604 ABBINANTE Francesco - BS/13486 - Mech.
Via Moncalieri 22 Carbonera.

On 26th July 1944 whilst the above man was employed at this Assembly Site, the Italian Police from STAZIONE dei CARABINIERI - Carbonera, went to his home and after enquiring for him left an order for him to report at the Police Station.

On returning from work the man did as ordered and was promptly arrested by the N.C.O. in charge, MARESCIAL FRANCAIS Francesco.

The arrested man produced his Exemption Certificate but was told that it did not mean anything and that the orders to arrest him must be carried out.

The man ABBINANTE was th en detained in prison".

This is not an isolated case.

3. It is requested that firm instructions be issued to the Carabinieri that all exemption certificates issued by this HQ must be recognized and that the individual holders of these certificates must not be interfered with.

1781

Certificates are only issued to Italians engaged in essential services for the British Military authorities and each application is carefully considered before a certificate is issued.

In the list of IT personnel employed at 800th Eng Forestry Coy, there's a certain AVIERE LUIGI who was belonged to 2nd Caccia unit.
As we believe that AVIERE corresponds to the English word "AIRMAN" and that it is not the name of the soldier, please request confirmation or correction by the name in question.

1. With reference to HQ A.C.C. letter Ref/169/25/CA of 28 June para. 2(c).

2. This is NOT in accordance with HQ A.A.I. letter AAI/3074/A(O) dated 4 May 44, a copy of which is attached for easy reference.

Authority for exemption can only be granted to skilled personnel whose continued employment is considered vitally or operationally necessary and provided such employment is within War Establishments or has been specially authorised.

3. The matter of exemption is retrospective as well as "in future" (cf. your para. 8). Also (cf. your para. 2.c.) persons who are liable for service are to be called up with some exceptions, not vice versa.

4. What is necessary now and what in fact is being done everywhere in this theatre under the A.A.I. order, is a complete review of all existing A.C.C. personnel from the aspect of exemption and the stringent combing out of all those who are not within the terms of reference ordered by A.A.I.

5. (a) Would you please issue to everyone concerned in A.C.C. an amendment to your 169/25/CA of 28 Jun, so that this matter may be made quite clear.

(b) I would urge that, in doing so, you explain the reasons for the A.A.I. order, in order that all may realize the vital necessity for putting it into force really stringently.

SUBJECT: ACC/AMG Certificates of Employment.

TO : Distribution below.

1. The classes of person liable to call-up for service with the Italian Armed Forces are, at present, those males born between 1913-1924 (inclusive).

2. The mechanics of call-up are as follows:

a. The Italian Military District (of which a list in given in Appendix "A") sends a post-card (Cartolina di Procetto) to the address of the person concerned, directing him to report to the Commando Forze Armate (located in the same areas.)

b. If a person fails to report he is technically a deserter and the Carabinieri are informed and make the necessary enquiries.

c. Persons who can prove that they are working for Allied Services are exempted with some exceptions.

3. This system has lent itself to abuse in that persons within the prescribed classes obtain employment with Allied Authorities, work for a few days, are granted a certificate of employment whereby they secure exemption from call-up and then leave their employment and the purpose of this directive is to put a stop to this abuse.

4. A. Branch, Hq. A.A.I. have requested that a monthly report be made to them, showing the number of persons exempted, and the trades in which they are employed. In order that this can be done Regional Commissioners and Headquarters Commandant will submit to this Hq. at once on Pro-forma attached, a return of such persons to whom a certificate of exemption has been given, and the trades in which they are employed.

5. When a male person within the prescribed ages leaves the employment of ACC/AMG his particulars will be immediately reported to the local Italian Military District who will take steps to withdraw his exemption certificate and will institute enquiries through the local Carabinieri to ensure that the person is conscripted into service.

3. This system has lent itself to abuse in that persons within the prescribed classes obtain employment with Allied Authorities, work for a few days, are granted a certificate of employment whereby they secure exemption from call-up and then leave their employment and the purpose of this directive is to put a stop to this abuse.

4. A. Branch, Hq. A.A.I. have requested that a monthly report be made to them, showing the number of persons exempted, and the trades in which they are employed. In order that this can be done Regional Commissioners and Headquarters Commandant will submit to this Hq. at once on Pro-forma attached, a return of such persons to whom a certificate of exemption has been given, and the trades in which they are employed.

5. When a male person within the prescribed ages leaves the employment of ACC/AMG his particulars will be immediately reported to the local Italian Military District who will take steps to withdraw his exemption certificate and will institute enquiries through the local Carabinieri to ensure that the person is conscripted into service.

6. It is suggested that this matter could best be handled in Regions through the office of the Provincial Police Officer and at Headquarters through the Employment of of the Hq. Commandant.

7. A thorough check should now be made to ensure that Italian Military Districts are informed of any person who has been issued a certificate of employment in ACC/AMG service, but is now no longer in such.

8. In future such certificates of employment will be issued only in very exceptional circumstances, i.e. where the person concerned is irreplacable. A return will be rendered to this Hq. on the 30th of each month of all amendments to the original list. The first return will be made on the 15 July 1944.

9. While this procedure is designed to cover only those persons who fall within the call-up categories, it is obviously inadvisable that any person who has left the service of ACC/AMG should be in possession of any type of current employment certificate, badge or pass and, therefore, every step should be taken to withdraw such certificates, badges or passes as soon as employment terminates. When any person leaves the service of ACC/AMG and fails to surrender his certificate, badge or passes, enquiries should be instituted for their recovery by the local police agencies, and the matter reported direct to the Italian Military District concerned.

TO : HQ Legione CC.RR., Naples.

Ref. letter 5170/Ord. same subject, this date, and art. 3 of the placard.

1. The following procedure - different from that previously adopted in connection with military personnel recalled for duty by placard, employed with Allied agencies - will be adhered to by the Carabinieri Headquarters in Campania Area, which will notify of same all dependent CC.RR. Commands :

I. Military personnel born in 1922, employed with Allied agencies, who wish to obtain exemption from draft, should produce to the Carabinieri Commands a certificate, granted by Allied officials, showing that:

a) the individual has been serving with the Allies before 4 instant.

b) his exemption is being obtained by Allied Officials thru regular routine.

II. On the basis of these two statements, the Carabinieri Commands will issue to individuals concerned a "temporary esemption from draft" certificate.

III. Within 30 instant the Carabinieri Commands will directly mail to this Headquarters, Ufficio Ordinamento, a list of personnel temporarily exempted, in single copy, as attached table.

2. Copy of this list will be submitted to military districts concerned, which, until otherwise advised by this Headquarters, will consider the individuals shown by above lists as exempted

SUBJECT: Exemption for Italian Military Personnel with Allied units.

TO : Commanding General, Allied Armies in Italy, APO #498.777

1. Reference is made to letter from the Stato Maggiore Regio Esercito, Armate Alleate in Italia, under date of 30 May 44, on above subject. This letter requested that certain information be forwarded to SMRE, in the case of all personnel subject to draft by the Italian military and who have been exempted therefrom because of service with the Allies, to be rendered when such service is terminated.

2. It is considered proper to report that no such information will be necessary from Peninsular Base Section; as orders have been issued cancelling any such exemptions as may have been granted in the past, and strictly forbidding the granting of any such exemptions for the future. It therefore appears that SMRE should be notified that any and all exemptions from calls to military service, hitherto issued by any agency of PBS have now been terminated, and that all such individuals can immediately be recalled for duty with the Italian military.

3. Insofar as the information was available to this headquarters, the names and addresses of such persons as had been previously exempted, have been forwarded to the Commanding General, Italian Forces in Campania, with the suggestion that he immediately induct them into service as had been originally intended.

The Army Sub-Commission of A.C.C. (M.M.I.A.), in their letter G/6/1 of 10 May 44, have ruled that all deserters and absentees who are required in FOGGIA Province for work of any kind shall NOT be arrested or removed, but shall be Registered by the local CC.RR and given Exemption Certificates for one or two months.

Any deserters or absentees who are not gainfully employed and therefore have not an Exemption Certificate are to be arrested or detained by the CC.RR and removed in the manner laid down by the Italian Ministry of War. Will you please instruct the local CC.RR to this effect.

During the forthcoming Harvest it will be, as you know, a great deal of Registration and checking of temporary Harvest workers which may bring to light a number of deserters and absentees. The CC.RR in the Province during the next three months will be heavily worked in accordance with this scheme and in connection with their duties of suppressing illegal movement of persons, goods and other contraband offences.

CC.RR must not be taken off this essential Harvest work to round up deserters or absentees, but during the process of the work, should make every effort to register as many of them as possible and to apprehend those who are not gainfully employed in the Harvest or elsewhere.

MEMORANDUM:

To : Brigadier Browning, MMIA
(Thru Lt. Col. Offenhouer, MMIA, Naples)

1. Enclosed herewith is copy of PBS Staff Memo No. 16, wherein the Commanding General, Peninsular Base Section, has set forth his policy with reference to authorizing "exemptions" for Italian nationals employed by PBS in civilian capacities, when such persons receive calls to military service with the Italian Army or Navy. You will note that PBS will no longer "exempt" any such persons, and now cancels all such previous certifications.

2. This action is in line with your suggestions to the undersigned in our recent conference at Laguile. It should facilitate the Italian problem of filling out to desired strength the many units assigned to PBS which currently are at low strength -- and hence only partly effective. Enclosed is copy of my memo to General Basso on the subject, which suggests taking further advantage of the PBS release of such personnel. It would be most helpful if the other Allied commands which have hitherto "exempted" such persons, would now adopt a similar policy.

3. Our plans, as outlined to you, are progressing (note enclosures hereto). We badly need more labor units, in full battalions. We badly need any type of construction unit. We urgently need fillers. We hope for filler replacements of better calibre, as we have received many which the local Italian command rate as the most inferior type in their Army.

4665

4. The new proposed "single" ration is a very great disappointment, in that: it does not involve any increase overall; it does not give enough flexibility; it decreases the flour content; it leaves too much to Italian procurement; and it leaves too many items where unusable "substitutes" will be issued, as at present.

This policy should serve to facilitate Italian programs for calling men back to the service, with which to bring up to desired levels those Italian Army units now serving PBS.

11 May 44

Ref this HQ 3110/A(O) dated 17 Mar and 3074/A(O) dated 20 Mar 44.

1. It has now been decided that the calling-up of the 1920/24 classes for military service by the Italian Military Authorities will apply to all eligible personnel, and not be restricted to illegal absentees. The calling-up will also apply to the Italian Army, Navy and Air Force.
The above-mentioned letters will be amended accordingly.

2. As a result of the above decision exemption may be applied for by employers of the Allied Forces, in accordance with the procedure previously outlined.

3. It is stressed, however, that exemption will only be granted in respect of skilled personnel whose continued employment is considered vitally or operationally necessary, and provided such employment is within WE or has been specially authorized. (This HQ AAI/3074/A(O) dated 4 May 44 refers).

4. Application for exemption may also be made on similar grounds in respect of personnel employed by civilian firms doing work of operational importance for the Allied Forces.

5. In the case of Navy and Air Force personnel applications for exemption should be marked accordingly in the top right-hand corner of the form, and otherwise dealt with in accordance with existing procedure.

6. All exemptions granted under this scheme will now be valid only for a period of 3 months w.e.f. date of exemption, and application for subsequent deferments will be made in the same manner except that the form will be marked "Application for Renewal of Exemption" and quote previous authorisation.

7. Personnel who are granted exemption, and are subsequently released or discharged from their employment will be reported to the exempting authorities who will cancel exemption and inform Col NEGRONI, Italian Liaison Officer, HQ AAI.

8. Exempting authorities will forward to 'A' Branch, HQ AAI a monthly report showing the numbers exempted and trades in which they are employed.

H.Q., A.C.C.

1. You have received my G/6/1 dated 22 and 28 Apr on the necessity for the re-establishment of Italian authority as soon as possible, particularly as regards deserters and absentees from the Italian Army.

2. Since the posting of an Italian Ministry of War Proclamation on this matter about a month ago, the Carabinieri have "picked up" several thousand deserters and I understand that the business is going fairly satisfactory, except in the FOGGIA area.

3. I appreciate the necessity for special treatment in the FOGGIA area as ruled by the Chief Commissioner, owing to the vital necessity for harvesting the crop. The answer/is that:-

(a) all deserters and absentees who are required for work there should be registered but NOT be removed.

(b) the Carabinieri X be given full authority to make investigation as in (a) and remove anyone without an exemption certificate. This has been forbidden hitherto.

4. (a) I therefore request that you will issue instructions at once to implement 3(a) and (b)above.

(b) The matter is particularly urgent in view of:-

(i) the imminence of the crop

(ii) the necessity for re establing Italian authority in FOGGIA area as soon as possible. This is somewhat of a laughing stock at present.

(iii) the fact that the Minister of War is producing a further Proclamation(which you will be sent for approval)in which will be stated that deserters and absentees will be treated in future as if their act

C. Ministry of Lab letter in brief On the prevention of The Call up in FOGGIA area

Lt Col Tamplin has told Brabia IX Corps that Suspension of "Call up" due to —

a) necessary labour for fortifications of FOGGIA, and agricultural needs.

b) Avoidance of unnecessary movement, and yet difficulties — also the persons would immediately return on leave, extended or otherwise

2. Local MMIA approach AMG, FOGGIA.

Subject. Recalling the soldiers on unlimited leave

The A.M.G. provincial chief of Foggia, Lt. Col Temperley, following contacts which broke with the Hq. of the 9th Army Corps for the suspension of the recalling of soldiers on unlimited leave has made known that:

a) The suspension order should not be considered as a definite one of the incidents verified at Cerignola as it was issued previously to the same, but motivated and imposed

- by the vigilance of war to assure, in the province of FOGGIA, beside the labor for the fortification works in progress, the agricultural support, in adequate measure, to obtain the maximum production possible.

- by the need of avoiding movement of personnel, which would cause transportation difficulties, bearing in mind also that part of the said personnel, if on certain circumstances as they rejoin the unit of their destination, would be given a furlough or unlimited leave.

b) As allowance to the above shown, particularly the labor situation it was impossible for the Allied authorities to authorize the publication of the decree concerning the recalling of soldiers of the class of 1923 and of Anter...

Since, as known, the development of these operations is of maximum importance, she would be most grateful to the M.M.I.A. if it would ~~intervene~~ again approach the Head of the Region of Foggia with the scope of obtaining the revoking of the prohibition to recall, making it known to him that his attention in regards to the need of workers for agricultural and also for ~~for~~ the other ~~of~~ United States programs.

As regards to workers needed for fortification work, General Botta's proposals could be taken into consideration instead, namely to assign with agreement with S.M.R.E. military labor units as were recently told to Major Boyd of M.M.I.A.

Il Capo provinciale dell'A.M.G. di Foggia, Ten.Col. Temperley, in seguito a contatti presi col Comando del IX Corpo d'Armata circa la sospensione in quella provincia delle operazioni di rastrellamento ha fatto conoscere che:

a) l'ordine di sospensione non deve considerarsi in dipendenza degli incidenti verificatisi a Cerignola, in quanto diramato in data anteriore agli stessi, ma motivato ed imposto:
   - dalle esigenze, inderogabili ai fini della guerra, di assicurare nella provincia di Foggia, oltre che la mano d'opera per i lavori di fortificazione in corso, il bracciantato agricolo in misura adeguata per ottenere la massima produzione possibile;
   - dalla necessità di evitare movimenti di personale, che inciderebbero sui trasporti, tenuto anche conto che parte del personale stesso, se in determinate condizioni, non appena raggiunto l'ente di destinazione, sarebbe posto in congedo od in licenza illimitata;

b) in aderenza alla su accennata particolare situazione di mano d'opera, non è stato neppure possibile all'Autorità Alleata autorizzare, l'affissione dei manifesti concernenti la ripresentazione alle armi dei militari appartenenti alla classe 1923 e degli autieri delle classi 1920, '21, '22, '23 e 24 di cui alle circolari ministeriali nn. 761

Poichè, come è noto, lo svolgimento di queste operazioni riveste la massima importanza, si sarà molto grati a codesta Sottocommissione se vorrà **intervenire** nuovamente presso il Capo provinciale dell'A.M.G. di Foggia allo scopo di ottenere la revoca al divieto di rastrellamento facendogli presente che le obbiezioni da lui mosse nei riguardi del fabbisogno della mano d'opera per l'agricoltura valgono anche per tutte le altre provincie dell'Italia Liberata. Per quanto riguarda la mano d'opera occorrente per i lavori di fortificazione in corso, si potrebbe prendere in considerazione, invece, le proposte del generale Butt, e cioè, assegnare, d'accordo con lo S.M.R.E., reparti militari di lavoratori, come è stato verbalmente prospettato al magg. 2. The applications are submitted by the Fruit and Vegetable Contractor to this HQ who employs the men in question. As they are Key men in his organization, their departure will seriously upset the whole system and will probably imperil the flow of deliveries.

3. As the Contracts this man holds are very big and important, his application for the release is endorsed and recommended.

SUBJECT: Discipline and Control of ITALIAN Army.

1. GENERAL.

The discipline of the Italian Army is a matter of grave importance to the Allies and to the Italian Government not only now but also for post-war. The prestige and authority of the Italian Army must, therefore, be re-established by every means possible and as soon as possible in order that it may function properly. Major factors in this are that:-

(a) Desertion and absenteeism from the Italian Army be reduced to the minimum.

(b) Unauthorised retention of Italian individuals by Allied Formations and Establishements be stopped.

2. TYPE OF CASE REPORTED.

Typical cases reported by the Italian General Staff allege that:-

(a) Italian soldiers on leave are employed by Allied units or individuals and the employment is continued after the leave expires. In some cases the Italian soldier has stated that his Allied employer would not permit him to return to his unit. In other cases the Allied employer has refused to surrender the Italian soldier to Italian officers who advised the Allied employer that the soldier was absent without leave.

(b) Italian Medical Officers who returned to their homes on leave have retained there by A.M.G. officers to take care of the civilian population.

(c) Italian deserters employed by Allied formations were recognised by Italian officers and placed in jail awaiting return to their units; these deserters were removed from jail by Allied Intelligence personnel at once, have not been returned to their units, and have disappeared.

3. ASPECTS.

(a) It is well understood that many Italian soldiers will go to great lengths to remain attached to Allied formations on account of the better living conditions, rations etc. No doubt the interest of the Allied officers in these individuals is to some extent inspired by these Italian soldiers themselves.

(b) Certain classes of Italian civilians are now being called or recalled to the Colours, either to fulfil Allied demands or to permit older men now in the Italian Army to be released from military duty

some cases the Italian soldier has stated that his Allied employer would not permit him to return to his unit. In other cases the Allied employer has refused to surrender the Italian soldier to Italian officers who advised the Allied employer that the soldier was absent without leave.

(b) Italian Medical Officers who returned to their homes on leave were retained there by A.M.G. officers to take care of the civilian population.

(c) Italian deserters employed by Allied formations were recognised by Italian officers and placed in jail awaiting return to their units; these deserters were removed from jail by Allied Intelligence personnel at once, have not been returned to their units, and have disappeared.

3. SUSPECTS.

(a) It is well understood that many Italian soldiers will go to great lengths to remain attached to Allied formations on account of the better living conditions, rations etc. No doubt the interest of the Allied officers in these individuals is to some extent inspired by these Italian soldiers themselves. 1085

(b) Certain classes of Italian civilians are now being called or recalled to the Colours, either to fulfil Allied demands or to permit older men now in the Italian Army to be released from military duty.

(c) In a country where the Army is founded on universal conscription there is always the danger that only those men without influence, power or money, will be required to serve in the Army.

(d) The fact that many civilians now employed by the Allies will be exempted from the call-up on the certificate of the Allied employer increases the opportunity for certain Italians to evade the law, under the cloak of performing essential service for the Allies.

(e) The retention by Allied officers of such individuals, or attempts to retain such individuals, is really tantamount to conspiring with the Italian deserters in their evasion of military duty.

4. VERIFICATION OF REPORTS.

The allegations cannot be verified largely owing to difficulties of Italian communications and lack of control, as mentioned above, but I am satisfied that there is some substance in these reports. I am informed, for instance, that there are some 5000 Italians being used as labour over the Combat Zone, of whom we have no details and who presumably should be organised and counted against the strength of 180,000 "units employed or to be employed by the Allies. (your SECRET 1605/50/3/1 G (S.D.1) dated 3 Apr.)

Declassified E.O. 12356 Section 3.3/NND No. 785020

5. CONCLUSION.

(a) I fully realise that under the conditons existing to date the situation as outlined above was bound to have occurred. But I am strongly of opinion that the whole business should be "tidied up" forthwith.

(b) I therefore request that you will issue orders at an early date that:-

(i) All Allied officers at once ascertain all Italian personnel employed by them as "civilians" (i.e. not in authorised units) to ensure that all Italian officers and soldiers who are in fact absent without leave or in desertion are turned over at once to the Italian Army for return to their units.

(ii) Allied officers do not in future employ any Italian on any work untill it is definitely established that such Italian is not a member of the Italian Army absent either with or without leave, or liable to recall.

(iii) Allied officers do not intervene with Italian authorities on behalf of Italian soldiers who have deserted or are absent from the Italian Army, in order to employ such soldiers or continue such absence.

(iv) A return be furnished forthwith (and thereafter monthly) to the Italian Government, through M.M.I.A. shewing:-

Numbers of Italians, not in authorised units, employed by the Allies.
Details in regard to each individual who has been given a certificate of exemption from Military services by any Allied Formation.

I could then take action to organise all such personnel into units and ensure that the issue of rations etc does not exceed the ceiling proposed by you to A.F.H.Q. for approval of the C.C.S. This at present I cannot do.

1. I have been informed by the Italian Ministry of War that A.M.G. have still not allowed the recall of the 1933 Class to take place in the FOGGIA Area and have written a letter to this effect to the Italian Area H.Q. stating that the men involved are being employed as civilians on agricultural work.

2. Ministry of War desire that:-

(a) The men involved be issued with the agreed release from the Army permits by Local Resources Boards or .

(b) They are allowed to be recalled, A.M.G. submitting a request for labour to S.M.R.E.

3. General MATTIOLI (S.M.R.E. Labour Directorate) has informed Ministry of War that 150 men can be supplied immediately for such labour and a further number in the near future.

4. I am not clear as to A.M.G. powers in these matters or whether their embargo on this recall is really vital but (see my C/6/1 dated 26 April SECRET) I do feel that we should re-establish the prestige and authority of the Italian Army as soon as possible and obviously the above matter affects this.

5. Would you please say what action should be taken.

1. Italian Army Medical Officers in CAMPANIA were some time ago demobilised and placed on the Reserve List.

3. At Appx 'A' attached are given the names of those it is intended to recall, all of whom belong to classes not demobilised outside CAMPANIA.

4. Before giving authority to the Italian War Ministry to recall these men, will the Public Health Sub Commission please say if any of them are at present employed on essential civilian work, from which it is not desirable to remove them.

Oltre quanto comunicato verbalmente al Magg. Byatt circa la sospensione delle operazioni di rastrellamento dei militari arbitrariamente allontanatisi dai propri reparti, ordinata dalle Autorità Alleate di Foggia nella zona di Cerignola, viene segnalato che anche l'A.M.G. di Vasto ha ordinato, col foglio che si allega in copia, di non effettuare il rastrellamento in quella zona fino a quando non vi sia un'autorizzazione del Comando dell'8^ Armata.-

Data la importanza annessa, anche da codesta Sottocommissione, al sollecito svolgimento di queste operazioni, si sarà molto grati a codesta Sottocommissione se vorrà interessare i competenti Comandi Alleati allo scopo di non frapporre ostacoli alle operazioni stesse.-

SUBJECT:- Calling up of 1920 - 1924 Classes = ITALIAN Army.

Confirming our conversation of 10 Apr 44, it is agreed that NO civilians employed by A M G on maintaining roads for EIGHTH ARMY will be called up until a decision on their exemption has been given by A F L R B.

It isagreed that lists of men employed on the a/m work should be sent to this office for onward transmission to A F L R B.

It is pointed out that , while this applies to the 1923 class, which is bein called up as a whole, there is a most urgent demand for drivers of the 1920 - 24 class inclusive. It is requested that NO exemptions should be claimed for such, except in most exceptional circumstances, as drivers are probably NOT numerous and their militarisation would NOT affect the provision of labour required [illegible]

Call up of illegal absentees of 1912 to 1924 age groups to Italian Army falls under three heads as follows (*) FIRST (*) Those in civilian employ dealt with in your SD 899/18857 of 25 Feb (*) SECOND (*) Those employed by Allied units but as yet unregistered and therefore NOT paid and NOT administered by Italian Army (*) Request you issue general order for these to be reported to you copy to me for regularisation as administrative units in Order of Battle forwarded under my G/11/20 of 4 March to you or if isolated individuals for return to Italian Army (*) THIRD (*) Parties and individuals of formed Italian units unofficially attached to Allied units but not shown in above Order of Battle (*) Request you issue general order that these be returned on Italian demand to their Italian units (*) This is most important since if not complied with will seriously reduce the strength of regular Italian units which I am now ordering forward to meet serials of ACMF programme (*) These comprise parties whose attachment to Allied units have been arranged directly and unofficially on the spot for guards cooks waiters etcetera and when parent unit is removed there will be no local Italian unit to administer them (*) Where a detachment is administratively large enough and its retention on job is in Allied interests it could be regularised for inclusion on Order of Battle but point out that this would be at expense of ACMF programme (*) Where such regularisation is desirable recommend orders be framed to make you the ruling authority to keep such action to minimum especially in view difficulty of shipment from SARDINIA to keep up numbers available (*) I now hold

Call up of illegal absentees of 1912 to 1924 age groups to Italian Army falls under three heads as follows (*) FIRST (*) Those in civilian employ dealt with in your SD 899/18677 of 25 Feb (*) SECOND (*) Those employed by Allied units but as yet unregistered and therefore NOT paid and NOT administered by Italian Army (*) Request you issue general order for these to be reported to you copy to me for regularisation as administrative units in Order of Battle forwarded under my G/11/20 of 4 March to you or if isolated individuals for return to Italian Army (*) THIRD (*) Parties and individuals of formed Italian units unofficially attached to Allied units but not shown in above Order of Battle (*) Request you issue general order that these be returned on Italian demand to their Italian units (*) This is most important since if not complied with will seriously reduce the strength of regular Italian units which I am now ordering forward to meet serials of ACMF programme (*) These comprise parties whose attachment to Allied units have been arranged directly and unofficially on the spot for guards cooks waiters etcetera and when parent unit is removed there will be no local Italian unit to administer them (*) Where a detachment is administratively large enough and its retention on job is in Allied interests it could be regularised for inclusion on Order of Battle but point out that this would be at expense of ACMF programme (*) Where such regularisation is desirable recommend orders be framed to make you the ruling authority to keep such action to minimum especially in view difficulty of shipment from SARDINIA to keep up numbers available (*) I now hold

I At conference at LEQUILE between Brig Duchesne - Gen Orlando on 29 Feb.

a) Absentees and deserters — combing by CC RR, if necessary house to house. All deserters and absentees to be brought in, irrespective of classes - otherwise unjust.

b) Calling up classes 1920-24. i) Brig Duchesne asked to be called up one by one, after examination of results of previous call-up. ii) Brig Duchesne stated civilians essentially employed by the Allies, would have to be excluded, in order not to dislocate present work.

c) The above confirmed in HMIA letter HQ/30 dated 1 Mar

d) Final decision postponed till subsequent meeting with Gen MacFarlane at SALERNO.

1. Regarding recovery of forces in order to meet requirements indicated by the Allies, two orders have been discussed during the various meetings which have taken place. –

a) to bring in all deserters and absentees (combing) excluding Sicily.

b.) to recall to arms all trained men of the 1920-24 classes, who, especially in CAMPANIA, had been sent home by the Campania Armed Forces Command and who, therefore, were not illegally absent from their Units.

As regards the first of these orders, on Feb. 17th. 1944, this Ministry, in full agreement with the Supreme Command and as a direct result of discussion with the A.C.C., issued preliminary orders to the effect that the Carabinieri Command for liberated Italy should forthwith, in cooperation with all Carabinieri Units under their command, proceed to check on, find, and bring in all military personnel absent from their units without due authority. Later an amendment to this order was issued to the effect that this combing should not commence until March 1st. in order to give the more distant outposts of the Carabinieri time to receive their orders and organize themselves.

As far as the second order is concerned no definite instructions have yet been issued. 1567

Declassified E.O. 12356 Section 3.3/NND No. 785020

During the meeting held at Laquila on Feb. 19th. Minister Orlando explained to Gral. Donovan the difference between the first and second orders as follows:-

- the order named in the first place was to be executed by the Carabinieri since it referred to military illegally absent from their Units. The Carabinieri would invite absentees to return to their Units and in different cases would have to search houses. This type of combing cannot be made by classes. It requires a detailed search in every village & hamlet in every district first of local records and later of houses and by reason of justice cannot be made applicable to — only one class but to all those who are illegally absent from their Units.

- the second order (also dealt with during the same meeting) would have been executed one class at a time by means of the Mob Centres and Gral. Donovan stated that re-calling of the next class would, in each case, be governed by result of recall of the previous class. Nevertheless all decision were postponed for a further meeting at which Gral. MacFarlane was to be present. (This meeting later took place at Salerno).

During the said meeting of Feb. 19th. Gral. Donovan suggested to Minister Orlando — as a result of a telegram received from Flambo — that measures should be taken to exclude from the recall to arms - by means of a careful selection based on documents — all military already employed, as civilians, in specialized jobs for the Allies, in order not cause any disturbance in such work.

A.S.C (A.C.C.) confirmed all the above to this Ministry under AG/30 dated March 1st.

Abridged Translation

of War Ministry Circular to Italian Military Commands ref: 1700/II dated Feb. 17th 1944.

After recent events, Italian army settling down again. Nevertheless still signs of lack of discipline. Impression should disappear and Italian army brought to the height of its tradition.

All personnel now absent from their Units must be brought back. It cannot be tolerated that some should be shirking their duty whilst thousands of others are risking their lives at the front side by side with the Allies, fighting for liberation of their own soil.

This state of affairs must cease forthwith and I) Stamps order:—

1) H.Q. of the Carabinieri to issue categorical orders to all their stations, even the smallest and remotest ones, to proceed to a most strict combing of their areas in order to arrest all military illegally absent from their Units.

2) All Army Corp H.Q.s will issue orders to all Units under their control to meet any demand for help either in manpower or in material made for this purpose of combing.

Declassified E.O. 12356 Section 3.3/NND No. 785020

3) The demands referred to in para 2.) may be made ~~by~~ by the Carabinieri Command even ~~the~~ to the O.C. of a Coy, according to a plan to be made out by the Carabinieri Commands who are responsible for the combing.

~~It~~ To prove the efficiency of this method I will quote a case; a few months back, when, owing to special circumstances, there was a case of mass desertion from a Mob. Centre a combing resulted in 20 military being brought in and 23 reported back of their own volition.

In order that not a single soldier may escape his duties as a citizen and a soldier it is necessary that :-

a) The Carabinieri Command should prepare the combing with method and perfect organization. —

b) C.C.'s Units should give maximum help to the Carabinieri in the work to be done.

c) Commanders of Carabinieri Station, even the smallest one should carry out the work minutely to the point of an individual check, all absentees to be treated with maximum severity.

Carabinieri Commanders will send in returns of all military who report voluntarily in order that Justice may be made where good will is shown.

~~The~~ Carabinieri H. Q. will inform me of all measures taken.

Superato il periodo di smarrimento che ha seguito gli avvenimenti del settembre, i comandi di ogni ordine e grado - con alto spirito di patriottismo e vivo sentimento del dovere - si sono impegnati a risolvere il grave problema disciplinare

4560

Si rivelano i segni certi di una sicura ripresa sia nel campo organico che in quello disciplinare.

L'azione educativa e di convinzione fin qui svolta dai capi dai comandanti ha indubbiamente contribuito a raggiungere tale risultato, ma essa ha dovuto essere talvolta integrata dall'intervento energico e rapido dei mezzi atti a stroncare ogni manifestazione di indisciplina che avrebbe potuto turbare la compagine dei reparti.-

L' indispensabile perseverare su questa strada con la certezza assoluta di riportare il nostro Esercito all'altezza delle sue tradizioni.-

D' però altrettanto necessaria una decisa azione di giustizia riparatrice per recuperare il personale ancora arbitrariamente lontano dai reparti.

Non può essere infatti consentito che cittadini ancora soggetti agli obblighi di servizio militare si sottraggano, in questa ora tragica per la Patria, ai loro elementari doveri.

Ogni ulteriore tolleranza di questo stato di fatto costituisce gravissima colpa verso la memoria dei nostri compagni d'arme che hanno offerto la vita sui campi di battaglia, verso i soldati che combattono valorosamente a fianco degli Alleati per ricacciare l'oppressore dal sacro suolo della Patria, verso i nostri compagni che oltre mare e nell'Italia non ancora liberata affrontano rischi e sacrifizi inenarrabili, verso le decine di migliaia di militari che nelle immediate retrovie del fronte di combattimento ed in tutto il territorio liberato concorrono con tenacia e passione, assieme agli alleati, al raggiungimento della vittoria.

Intendo che nel più breve termine sia eliminato il colpevole stato di fatto al quale ho accennato.

Pertanto dispongo :

1°)- Il comando dell'arma dei CC.RR. impartisca ordini categorici ai comandi dipendenti, fino alle più piccole stazioni, perchè si proceda al più accurato rastrellamento, nella zona di propria giurisdizione, di tutti i militari abusivamente lontani dai reparti.

2°)- I comandi di corpo d'armata impartiscano ordini a tutti i comandi dipendenti di aderire a tutte le richieste di forza o di mezzi per la esecuzione del rastrellamento stesso.

3°)- Le richieste di cui al numero precedente possono essere rivolte dai comandi dell'arma dei CC.RR. fino ai comandi di compagnia inclusi, secondo un piano organico preparato dai comandi dell'arma dei CC.RR. cui spetta la responsabilità del rastrellamento.

A dimostrazione della bontà di tale metodo, cito il seguente esempio : qualche mese addietro, in seguito all'allontanamento - in relazione a circostanze occasionali - di diversi militari da un reparto dei campi di riordinamento, fu effettuato un rastrellamento in seguito al quale 20 militari sono stati rastrellati e 23 militari si sono subito presentati spontaneamente.

Perchè - come è mio preciso intendimento - si possa raggiungere lo scopo che nel più breve tempo possibile neppure un militare si sottragga ai suoi doveri di cittadino e di soldato, occorre che :

a)- i comandi dell'arma dei CC.RR. preparino il rastrellamento con metodo e perfetta organizzazione;

b)- i comandi di reparto diano il massimo ausilio all'opera che i CC.RR. debbono svolgere;

./.

Declassified E.O. 12356 Section 3.3/NND No. 785020

c)- i comandanti delle stazioni CC.RR., anche le più modeste, svolgano opera instancabile ed oculata di individuazione e di ricerca dei militari, che dovranno essere perseguiti col massimo rigore.

I comandi dell'arma dei CC.RR. potranno segnalare i nominativi dei militari che si siano spontaneamente presentati per riprendere servizio presso i reparti.
E' mio intendimento disporre l'archiviazione del processo a beneficio di quei militari che abbiano dimostrato un salutare ravvedimento. Tale possibilità deve essere resa nota, nel territorio di giurisdizione, da ogni comando dei CC.RR.

I comando dell'arma dei CC.RR. mi faccia conoscere le disposizioni impartite in merito a quanto sopra.=

OGGETTO: Richiamo autieri delle classi 1920-21-22-23 e 24.

ALLA ARMY SUB COMMISSION, A.C.C.
Main HQ. (MMIA)

- L E Q U I L E

Il Comando della Forze Armate della Campania collocò, a suo tempo, in licenza illimitata ed in congedo provvisorio i militari delle classi 1920 - 1921-1922-1923 e 1924 perchè, in quell'epoca, la situazione nella zona di sua giurisdizione era tale da non consentirne il trattenimento alle armi.

Con la ricostituzione del 1° Autoraggruppamento e per aderire alle numerose richieste di conduttori per le Forze Anglo-Americane, si rende ora necessaria la utilizzazione di tutti i militari autieri delle classi predette e pertanto si chiede il consenso di codesta Sottocommissione a che venga effettuato il richiamo dei militari in questione da parte del Comando delle Forze Armate della Campania.-

1. I am directed to inform you that, in order to prevent undue dislocation of labour, the classes 1920, 1921, 1922, 1923, 1924 are to be called up one class at a time throughout the Mainland.

All classes should be registered at once and the 1920 class called up for Service. This HQ should be notified when this has been done and we will then mutually agree on the date for calling up the 1921 class.

2. It will be found that certain technical personnel will be more valuable to the War effort in their present work for the Allies than in the Armed Forces. In order to obtain a uniformity of decision as to which personnel should be exempted from the call-up it has been decided by HQ., ACMF (ANCONA) that the decision of the A.F.H.Q. Local Resources (ITALY) Board shall be final. 4348

All applications by Allied services for exemption of personnel should be passed to the Local MMIA LO who will forward for the decision of the Local Resources Board.

Personnel whose status has been raised will not be removed from the Allied services until the decision of the Board has been made.
